REPUBLICAN CONVENTION.

The republican voters of the city of Albany are requested to meet in convention at the Armory on Saturday, December 5th, at 7:30 P. M. for the purpose of nominating the following candidates for city officers: Mayor, Recorder, Marshal, Treasurer, and to ratify the ward nominations for councilmen.

The ward meetings, for the nomination of one councilman from each ward and one committee man from each ward, will be held on Thursday evening, December 3rd, at 7 P. M., at the following places:

- First Ward—On the west side of the circuit court room. Second Ward—On the east side of the circuit court room. Third Ward—At the Farmers' warehouse office. Albany, Or., Nov. 14, 1891. J. F. CONN, W. H. HESTON, S. S. TRAVIS, Committee.

JOTTINGS ABOUT TOWN.

W. F. Read returned yesterday from a business trip to Lyons.

There are five hundred and fifteen pupils enrolled in the public schools.

The Nass Jollities are the only comedy family carrying an original "Bung-Town Band" as seen in "A Quick Match."

The Juvenile Band made their first appearance on the street last evening, and played some very well rendered selections.

Mr. Joseph Nixon, of Lebanon, was in the city yesterday, on his way to Eastern Washington, whither he goes for a few weeks for a health and recreation trip.

Marshal Hoffman took the dejeuner back to Vancouver yesterday, and will receive the reward offered for him. The other one was of such an ancient date that the reward had lapsed.

The Ladies Aid Society will meet this afternoon at 2:30 P. M., with Mrs. C. W. Sears on Fifth street between Jackson and Jefferson. A full attendance is desired as there will be business of importance.

All participants in the Cantata of "Belshazzar" are earnestly requested to meet in the college building, to-night at 7:30 for rehearsal, also to note on the date of presentation which must be immediately fixed.

The Wheat Market.

There appears to be considerable divergence in the price of wheat at different Willamette Valley points, depending largely upon the present needs of buyers. Wheat is worth in Albany 80 cents. That figure was also offered yesterday by Albany buyers for wheat in Salem, also at Independence. This is the price of wheat in the warehouses, which is held by farmers, delivered by farmers free on board, including sacks, would bring 94 cents. Very little wheat is being sold. It is likely that the reported higher price in Salem was for wheat outside of the warehouses, which either here or in Salem would make a difference of 4 cents in the price.

Grief Stricken.

The death angel spread his number wings over one of the happiest of Albany's families yesterday, and left it desolate and grief-stricken. Little Natalie, beautiful and cherished daughter of Mr. and Mrs. C. J. Stuart, was the one taken, and in the selection of the old axiom that "the king of shadows loves a shining mark," received another illustration. Beautiful and beloved, bright beyond her years, a favorite with her playmates, active and intelligent, the years of her earthly life though ended so quickly have been fruitful in creating a memory of her that will be bright and lasting with all who knew the sweet child. The sympathy of all will go out to the grief-stricken family.

Last Evening's Entertainment.

Mr. Phillips' Chariot of Song, at the opera house last evening was enjoyed by an appreciative audience. The views were well selected, accurate and taken the audience through the lands traversed with all the accuracy of a real trip, and without the expense and annoyance attending foreign travel. The music is good and adds pleasure to the occasion. To-night scenes in European countries will be shown, and an entire new programme given. The treat is a rare one and should not be missed by the people of Albany.

Christmas Masque Ball.

The members of the Philharmonic Club, of this city, are making great preparations for a masquerade ball to be given on Christmas night. Parsons & Bray, of Portland, will furnish the music and everything connected with the ball will be of a high order. It will be a strictly invitation affair, and an active investigating committee will prevent the admittance of any masquers of questionable characters.

DAIRYING IN THE WILLAMETTE.

Paper Read by C. H. Schmidt at the Farmers Institute at Harrisburg.

It is noteworthy that dairying in the Willamette Valley is a new industry, an industry full of great promises, and destined to be one of the great pillars for future development of the favored states. Progress and development in every direction, development of mind and of body is our watchword and we come here together to learn from one another. The modern dairy industry has recently traveled across the Rocky mountains and young trees have been planted here and there, nearly all over the Pacific coast, and a great number in California. Introduction of the modern dairy industry is a mark in civilization, and a great promoter of prosperity and welfare to any community.

There is a law in nature which says that there can not come something of nothing, and this law finds full application in Agriculture. The fields formerly so fertile are step by step failing, we are shipping the very bone and sinews of our splendid fields to Liverpool, and for a compensation, beginning to see that it is only a question of time when we must discontinue the present system of dairying.

The dairy interest will soon have a large claim in the Willamette Valley, because this valley unquestionably is better suited to skillful dairying than almost any spot of equal size in the United States.

A family can make a comfortable living on a 30 acre, well appointed, dairy farm, most anywhere in the Willamette Valley, and pay off a bigger mortgage than the man raising wheat on 200 acres, but of course we must know his business. This is what we want to call your attention to, enterprising young men. We are all waiting on you, we are anxious to see this valley full of beautiful homes, full of educated people, full of prosperity and charity. Fifty acres of good land will easily keep 25 good cows, each cow producing 200 lbs of butter per year, you can raise all your feed and more to. Look at this bundle of cornstalks, wonderful are they not, 13 feet in length; just think for one moment they come from a 100 acre field here in the Willamette Valley. Imagine a hundred acres in corn with an average of over fifteen tons to the acre. All these can be seen on Col. T. R. Cornelius farm at Hillsboro, Washington county, Oregon. Col. Cornelius is a sturdy friend and promoter of the dairy interest in this valley, he is entitled to our warmest thanks for leading the way. Cornelius told me the other day that he raised enough to keep a cow on every acre. He has 800 tons of corn in his silo now. The quality of butter which can be produced is excellent. I have a roll of butter with me, which we are now sending around for every body to taste, it is made by Mr. Warren Cranston who lives between Salem and Silverton. This quality of butter brings 75 cents per roll and is retained at 80 and 85 cents. We are here considering matters of the greatest interest; think of it for a moment, we bring to this coast from the Eastern states, butter for many thousands of dollars weekly; should we not produce it right here and have all this money distributed among farmers in this state? This question is also worth considering our towns. Is it not the prosperity of the country—the farmers—which builds up the towns and cities? Can we do it by the system we now follow? All enterprising men know we cannot. We cannot do it by grain growing alone. Our aim must be, as soon as possible, to have a population of one million good citizens in the Willamette Valley instead of 150,000. Look at our waste land, look at our summer fallow, it could as well raise a crop of corn and would be in better condition for grain afterwards. Every farmer who has 25 acres can see as much grain as he does now and besides keep 50 cows and raise all the feed for the land get twice the income he gets now.

The dairy industry has been looked upon as requiring more work than for instance wheat growing. This is true of the old system. But not of the modern way of going at dairying; we have new machinery which is the same in the dairy as the self binder is in the grain field. We have our silos which store the green corn as easily and safely as our warehouses does wheat. It is safe to say that the modern dairy industry requires less rough labor than any other kind of farming and is a sure way to prosperity and welfare, while grain farming as practiced is the sure way to poverty and destruction of our soil.

Piano Recital.

At the opera house, Friday evening November 20th. By the advanced class of Prof. E. G. Lombard's pupils. The recital will have a solo, duet of one piano, duet on two pianos, and quartets (two pianos and eight hands.)

NEWS OF THE COAST.

Interesting Items from Exchanges Throughout the Northwest.

Rock to the amount of 250 tons a day is being steadily added to the Coos bay jetty.

Alfred Matson and son, while out duck hunting one day last week near the mouth of Hydes slough, had a surprise by an eight pound silverside salmon jumping into their boat, says the Mar-field Sun.

State Superintendent McElroy has selected Eugene as the point for the next teachers' institute of the second judicial district, to be held December 29, 30 and 31. The district comprises the counties of Benton, Coos, Curry, Douglas and Lane.

The case of the state vs. Fred Zorn, the Umatilla county farmer who recently attempted the whole sale slaughter on himself, wife and mother-in-law, has been continued for the term, probably on account of the precarious condition of Mrs. Zorn.

Neal Dozier and William Wallace, the youths who stole the cattle from a man's pasture on Young's mountain and sold them to a Milton butcher, were arraigned in the circuit court at Pendleton and entered a plea of guilty. Young Wallace was committed to the state reformatory for one year and Dozier was fined \$300.

State Superintendent McElroy has returned from Eastern Oregon, where he attended the Morrow county teachers' institute and supervised other features of educational work. He reports a fine attendance of teachers and an active interest in school work at the institute. The material interests of that part of the state are advancing. The wheat crop was good this year and far above the average, and is bringing good prices. The farmers are greatly encouraged and correspondingly happy. The county seat, which is rapidly improving, now has one of the best hotels in the state.

Naughty Boys.

The Harrisburg Courier is accountable for the following account of some trouble in the school there: One day at school last week, two boys, one named Smith and the other Hardesty, began practicing the many art of self-defense, when Smith, being over-matched, was accidentally hurt, and had to lay up a couple of days for repairs. Peace would have reigned had it not been that one of Smith's brothers determined to "do up" Hardesty. He hid into the presence of Hardesty with blood in his eye, but the way he was knocked out in a few short rounds, he would have brought forth the heartiest applause of John L. It is this quarrel that caused Geo. Williams to display a revolver, which action caused him twenty dollars.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effective to cleanse the system, gently in the Springtime, or in fact, at any time and the better it is known the more popular it becomes.

W. R. Graham, the tailor has received one of the largest lines of fine suitings and trouserings to be seen in Oregon, outside of Portland, embracing all the desirable goods for winter wear. His prices will be found so low that any one can afford to wear one of his neat fitting tailor made suits and overcoats. He warrants his goods to be first-class, and guarantees a fit. Call and see his new patterns.

MARRIED.

NETTLETON-McNEIL—In Albany, Oregon, Nov. 16, 1891, at the residence of and by George Humphrey, Esq., George Nettleton and Alice McNeil.

Coming Thursday Evening.

The music loving public of this city can rejoice. A rare treat is in store. "The Spanish Students" will appear on Thursday of this week. Each of these ranks as the highest artist. Their music positively has no equal. They are the genuine "Spanish Students," no counterfeits on these. The St. Paul Globe-Democrat speaking of them when they appeared in that city said "the music hall was not large enough to accommodate the immense audience." Don't forget, they will be here one night only.

The Asylum Farm.

Salem Statesman: The plaster farm inside the three story farm house at the asylum farm has been finished, and it will be ready for occupancy in a few weeks. The work on the immense cow barn and the horse barn is also well along towards completion, and will not be many weeks before Ed. F. Hutchins, the contractor, will be able to turn the three buildings over to the state of Oregon. They make the state's big farm boom up, as they are fine buildings, and well put up.

From the Santiam Mines.

J. V. Pipe and C. E. Brownell returned yesterday from the Santiam mines. The new quartz mill of the Albany Mining and Milling Co. will be ready to begin work in about 10 days. The work at the mine is progressing favorably, and will be prosecuted all winter. There is no snow at the mines but eight miles of snow was encountered in the higher mountains in coming out.

Notaries Public.

The following notaries public were duly appointed by the governor Saturday to hold office for two years: L. M. Robinson, of Baker City; V. G. Danforth, of Green Basin, Marion county; C. W. Manville, of Baker City; W. H. Keesece, of Bonanza, Klamath county; George H. Carey, of New Commissioner of deeds to reside in New York and hold office for a term of four years.

INTERESTING MEETING.

Farmers Institute held at Harrisburg Nov. 13 and 14.

These institutes are held under the auspices of the State Agricultural college, and the Harrisburg which was the first in the series of 1891 and 1892. Address of welcome was made by Mayor Lassell, which was followed by music and in evening papers by the following gentlemen.

Sugar Beets—Prof. G. W. Shaw. Dairying in the Willamette Valley—Dairy Expert C. H. Schmidt, Albany.

Silo and Ensilage—Prof. H. T. French. The Collin Moth and the Apple—Prof. F. L. Washburn.

Farm Accounts—Prof. W. W. Bristol. Some Common Weeds—Prof. M. Craig.

The DeLaval cream separator was shown in operation and explained and attracted much interest and attention. The carefully prepared papers and the discussion after each paper offered splendid opportunities for learning, and these institutes should be patronized by all intelligent men from town as well as country.

Thanksgiving Entertainment.

Mrs. Tatham's Kindergarten school will give an entertainment on Thanksgiving, or rather, will assist in giving one at the opera house. Particulars will be given in a few days upon the subject which will show it to be one of great interest to the citizens of Albany.

Mother's.

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhoea and wind colic, allays feverishness, destroys worms, and prevents convulsions. It soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mothers' friend. 35¢ per box, 50¢ per dozen.

THE WORLD ENRICHED.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effective to cleanse the system, gently in the Springtime, or in fact, at any time and the better it is known the more popular it becomes.

T. L. Wallace & Co.,

ALBANY, STRAHAN BLOCK, OREGON.

QUARTER OF A CENTURY ago there set forth in his country. This man is no other than Mr. John Stewart, one of the wealthiest and most influential citizens in the country. In a recent letter he says: "I had been suffering from pain in my back and general kidney complaint for some time, and had used many remedies without any but temporary relief. The pain in my back had become so severe that I was prevented from attending to my work and could not move without the use of a cane. Hearing through a friend of the wonderful cure effected by Oregon Kidney Tea, I was induced to try a box, and from that very first dose I found instant relief, and before a box had been consumed the pain in my back entirely disappeared. I have every faith in the virtues of the Oregon Kidney Tea, and can conscientiously recommend it to my friends. I would not be without it for any thing."
