## Royal Baking Powder

ABSOLUTELY PURE

I am an old man and have been a constant sufferer with catarrh for the last ten years. I am entirely cured by the use of Ely's Cream Balm. It is strange that so simple a remedy will cure such a stubborn disease.—Henry Billings, U. S. Pension Atty., Washington, D. C.

For eight years I have suffered from catarrh, which effected my eyes and hearing; have employed many physicians without relief. I am now on my second bottle of Ely's Cream Balm, and feel confident of a complete cure.—Mary C. Thompson, Cerro Gordo, Ill.

The men of this vicinity need not be jealous because their wives talk so constantly about Matthews and Washburn. It is not their good looks the ladies are talking about, it is the good qualities of the cook and heating stoves they sell. Every one seems to be delighted when they buy from M. and W.

He Promised to Marry but Ran Away. DAYTON, O., Nov. 18.—A sensation has come to light here. The hero of the story is Edward E. Crane, who is the president of the Troy national bank. Mr. Crane has been brought up in luxury and wealth, and was considered the pet of the household. He kept company with a lot of swell fellows here, and graduated at a fashionable college. His father sent him to West Point military academy, East Hampton, Mass., to prepare him for Harvard or Yale. While there he visited his uncle in Brooklyn, N. Y., who is president of the Cleveland Baking Powder Company, also a large stockholder and president of a New York company. His uncle resided in a mansion and near by resided Miss Mary Degano. The young people met and became acquainted. When Crane had completed his studies his uncle made him secretary of the Cleveland Baking Powder Company. Crane frequently called upon Miss Degano, and they became engaged. Miss Degano is a handsome, vivacious brunette, wealthy, and a member of the society clubs. Under promise of immediate marriage she yielded to the desires of Crane, and she soon saw that she was to be a daughter-in-law. Crane, the daughter's father, then resigned the secretaryship, and suddenly changed his mind, concluding not to marry the girl he had wronged, and telling her that he was coming to Ohio to prepare for his wedding with her, he went to Troy, Ohio, and there consulted relatives who advised him not to marry the girl. He came here and mingled with his wealthy relatives and continued to write to Miss Degano, telling her he intended to make his word good and still love her. She came here and stopped at the Phillips house and very foolishly called upon a friend of hers, who was a relative of Crane's, and asked if he was in town. Crane immediately left for the West. The girl has disobeyed her attorneys in her anxiety to see her lover. They had instructed her to swear out a warrant for his arrest before she made her presence known. She believed he was anxious to see her and would come to her. Next day she swore out the warrant but Crane had gone. At

Accident Insurance for Criminals. BERLIN, Nov. 18.—The proposition of the government to extend the system of invalid and accident insurance to prisons and reformatories, meets with considerable opposition on the ground that there would be temptation to prisoners to incur injuries in order to profit thereby. At present the German prisons are comparatively free from serious accidents, but there is a fear that with an inducement for accidents to happen there would be a change.

### AFFAIRS IN BRAZIL

Reliable News of the Situation of the Country. MEDICAL STUDENTS IN IT. They Fight With the Police—Several Killed and Wounded—An Actress the Cause.

New York, Nov. 18.—The steamship Earle, from Rio Janeiro, arrived at Brooklyn yesterday morning. The ship left before the riotous scene began in Brazil, but the officers bring some interesting news. The parade sailed from Rio Janeiro on the morning of October 24, having been in port about two weeks. During that time there were no United States war vessels in the harbor, but there were two British and two American men-of-war in the Rio navy yard, only two appeared to be in commission, so the reports which reach here of activity in the Brazilian navy are probably exaggerated. "The only trouble known of," said one of the Embassy's officers, "occurred on the night of October 8. A great crowd of medical students had gathered at one of the theaters where a rather popular actress was the cause of a good deal of cheering and shouting. The police objected to the disorder, and tried to put a stop to it. The result was a rush of students against the police, who drew their swords and pistols, and fought the crowd. Several students were killed and a number of the combatants on both sides badly injured. On the following day the police and students met in a row which resulted in the death of two of the latter and a number of minor casualties. A young Englishman, who happened to pass down the street where the fight occurred, was killed instantly by a stray bullet. As a result of this rioting, mounted police patrolled the streets of the capital night and day, and after dark it was unsafe to go into the streets. The garrison was not called on for assistance, probably because the army would have sided with the civilians. The soldiers hate the worst classes. They are mostly negroes. "Was there any political significance in this student riot," was asked. "I think not. The republican form of government has not panned out as they expected. There is a powerful faction desiring the reinstatement of the empire. They want Don Pedro's son or his nephew on the throne. Since the fall of the empire prices of every commodity have doubled. The government has imposed a high tax on the importation of foreign goods. It was the general opinion at Rio when he left that the government would not last many months longer. He was not surprised when he read of the revolutionary movement.

Immense Damage by the Devouring Flames. ST. LOUIS, Nov. 18.—St. Paul last night suffered one of the most disastrous fires in its history, the building damage being those of Griggs, Cooper & Co., wholesale grocery, and Farwell, Ozmun, Kirk & Co., wholesale hardware. The total loss is estimated at from \$800,000 to \$1,000,000. The losses were \$1,000,000. The building occupied by the two firms was a brick and stone structure five stories high, and had a frontage on Third street of 200 feet, and on Broadway of 200 feet. Griggs, Cooper & Co. occupied two-thirds of the building. The flames made their appearance at 11:45 o'clock in the fourth floor of Griggs, Cooper & Co.'s buildings. Within less than five minutes the fire department was on hand in force, but a general alarm had to be turned in soon afterwards. The rapidity with which the flames spread, the blinding volumes of smoke which filled the streets surrounding the cold weather and inability of the firemen to get at the fire, rendered their work very hard. In half an hour from the time the alarm was sent in, the flames leaped through the roof and communicated to the adjoining buildings, where they made rapid progress. The firemen turned their attention to saving the other floors, and by hard work for a time succeeded in confining most of the damage to this floor, although it was this department alone which reached fully \$200,000. The flames crept downward in the elevator in the hardware building through the elevator shaft, and one by one the other floors succumbed. The fire in Griggs, Cooper & Co.'s building at this time turned downward to the ground floor. The fire department fought valiantly against the terrible odds, and at 3:30 o'clock the walls fell. The flames set fire to a frame building used by the Northern Pacific News Company. Soon the walls of the Farwell-Ozmun building fell outward. Several attempts were made to save the stock in the less exposed parts of the building without avail, and the complete destruction of both stock and building was inevitable. The building belonged to E. C. Shepard, and was estimated as worth \$200,000. The losses are estimated as follows: Farwell, Ozmun & Co., \$400,000; with an insurance of \$350,000; Griggs, Cooper & Co., building and stock, loss \$550,000, fully insured. Total loss, \$950,000. The flames were under control at 4:30 this morning, but fast consuming what remained of the stock. No definite information is obtainable as to the cause of the fire, but it is thought to have originated in a packing room on the fourth floor. Both firms will continue business without interruption. Their books and accounts were saved.

Severe Weather in Russia. ST. PETERSBURG, Nov. 18.—Owing to the exceptional severity of the weather the government has given orders that work on the eastern portion of the Siberian railway shall be suspended for the present. As a measure of relief to many peasants in the famine-stricken districts the government is considering the advisability of engaging thousands of them to work in the construction of the Siberian road during winter. The work of building the line will be resumed as soon as the weather moderates sufficiently.

Fight With the Mexican Rebels. BROWNSVILLE, Tex., Nov. 18.—Mexican authorities say they had a fight with Garza in which he was defeated, but they could neither capture him or any of his men. On this side of the Rio Grande it is said the Mexican troops were defeated with three killed and a number wounded, who are now in the military hospital at Mer, Mexico. Garza withdrew to the mountains in good order after the fighting.

Striking Coal Miners in France. PARIS, Nov. 18.—Dispatches received here to-day from various places in the department of Pas de Calais show the striking coal miners are gaining many accessions to their ranks. The strikers now number 30,000 men. It is not doubted a majority of the men still remaining at work will quit also. The authorities are taking every precaution to guard against disorders.

Famine Revolts in Russia. LONDON, Nov. 18.—A telegraph correspondent in St. Petersburg, says an illegal printing press has just been seized by the authorities there. Revolts due to famine, and attended with considerable bloodshed, are reported in Charkoff and Ekaterinburg.

Crew of a Schooner Drowned. LONDON, Nov. 18.—The captain of the American schooner, William N. Bradley, which sailed from Charleston, S. C., October 5, for Weymouth, Massachusetts and which was abandoned October 13, states that the crew of the schooner took to the boats and were drowned.

Wedding Anniversary. Last evening being the seventeenth anniversary of their marriage, the friends of Mr. and Mrs. W. T. Hearst planned a surprise for them. On their return from prearranging they were most agreeably surprised on seeing a large crowd awaiting them with trowels and shovels. The surprise was complete, and the evening was spent in games of various sorts until a late hour, when an elegant lunch, prepared by the friends, was served, after which the good wishes were said with hearty wishes for many happy returns of the day.

More Valuable Than Gold. Marshfield Coast Mail: A platinum mine has been discovered about six miles from Grant's Pass, in the Louis creek country. Mr. Platt, who brought in specimens of the ore last Saturday, declined to tell the exact location, but that he has a good lead is very evident. Platinum is more precious than gold, as it is used largely in electric lighting, and this is the only actual mine known to exist.
