WONDERS OF ALASKA.

Lieutenant Schwatka Returns and Tells of His Discoveries,

DES MOINES, Ia., Nov. 20.—Lieutenant Frederick Schwatka, the Alaska explorer, has returned from his recent trip into the interior of that country, and is spending a few days with his friends in Des Moines. His party left Juneau, Alaska, June 25. They proceeded up the Nakou river sixty miles, consuming two weeks' time on account of the swiftness of the current; thence across the country eighty miles to a lake of which the natives told them. The lake is nearly 100 miles long by fifteen in width, and was named by the party "Ahklain" (Big lake.) They then descended the Newberry river for 150 miles, game being plentiful in this region. From Fort Selkirk they went southwest 225 miles to what is supposed to be the region in which copper abounds, but none was found. Several weeks were spent in exploring the Copper river, described by the lieutenant as one of the most turbulent streams he has ever seen in his travels. After ascending the mountain peaks in the interior and taking a number of observations of peaks never before seen by white men, the descent of Copper river was made in canvas boats for nearly 100 miles. The lieutenant is more than pleased with his discoveries, and thinks them of great geographical value. After visiting Iowa a short time he will go to New York city.

The New Medical Law.

The supreme court of Oregon has rendered a decision of great importance to physicians of this state. It is that of Dr. Wm. A. Barmore against the state board of medical examiners. Dr. Barmore had been refused a certificate by the board upon showing he was a graduate of the medical department of the university of Ohio and had a diploma from a legally chartered medical school in good standing, and was refused upon the ground that the Oregon state board had adopted a rule which defined "medical institution in good standing," as used in the act to mean, "only those institutions which required three regular courses or sessions of six months each, extending over a period of three years time." and that the school of plaintiff did not when he graduated have such a three years' course. If Dr. Barmore had applied before the board adopted this rule he could have been admitted to practice in Oregon. Dr. Barmore asked a mandamus to compel the state board to issue a certificate and won his case in the circuit court. This is now reversed by the supreme court and the state board of examiners sustained.

COMING TO TERMS

CHILI IS NOW WILLING TO TO CONCEDE A POINT.

Our Big War Ships Did It Capt. Schley's Request Granted At Last.

NEW YORK, Nov. 20.—Special dispatches from Valparaiso say that Chili has at length conceded a point to the United States in her treatment of the assault upon the Baltimore sailors. Captain Schley yesterday received a notice granting his request that the United States representatives be furnished by the court of inquiry with copies of all depositions made before it in the investigation. It will be remembered that this same request had been absolutely refused on all previous occasions. It is supposed that the Chilian authorities, finding that our government was maintaining a fair, but firm attitude, has determined to meet it half-way. It has become known here and in Santiago that the United States was dispatching a large number of war-ships to the Pacific squadron, and there is no doubt that this news has had a salutary effect in Chili.

It will pay you to call and inspect his goods. Those who want fine holiday presents should call early and have them laid away for them.

FOR FREE COINAGE.

Action of the Mining Congress in Session in Denver.

IN FAVOR OF BI-METALLISM.

Resolutions Adopted Denouncing the Methods of Giving Mineral Lands to the Railroads.

DENVER, Nov. 20.—The committee on resolutions appointed by the mining congress have agreed upon their report declaring that the certificates of the government, backed dollar for dollar by gold or silver coin on deposit in the treasury of the United States, is a safe and sound currency and has been approved by the people; that the first national mining congress is unalterably in favor of the principle of bi-metallism; that gold and silver (not one to the exclusion of the other) are the money metals of the constitution; that gold and silver should have by law equal rights, uses and monetary purposes, and to that end demand of the congress of the United States the enactment of laws by which silver shall be coined free in all mints equally with gold, and to have with it a full and unrestricted monetary power, and that they be in the ratio of sixteen to one; and when coinage is represented by treasury notes each dollar shall represent 412½ grains of standard silver, or 25.8 grains of gold.

Whereas, The supreme court of the United States has decided "that the exemption of mineral lands from grants in the acts of congress should be considered to apply only to such lands as were at the time of the grant known to be so valuable for their minerals as to justify expenditure for their extraction," and

Whereas, This dictum of the supreme court, if it should become a law, would invest the Pacific railway companies holding grants of land from the government with a vast number of the best mines discovered within the limits of said grants by prospectors and miners who have located thereon in good faith, and developed and sold them on in good faith, and developed and sold therein in the honest belief that the said grants were limited to agricultural lands only, as declared in the acts of congress making them.

Resolved, That this congress protests against any construction of the statutes of the United States which will result in such a system of wholesale confiscation and the consequent enrichment of the great combinations already enjoying the bounty of government, and calls upon the representatives of the people in congress assembled to take such prompt and immediate action as may be within the constitutional prerogative to destroy the threatened danger.

Resolved, That the alien act, so far as it operates to exclude foreign capital from investment in mining lands in the territories, is false in principle and pernicious in effect, and demands immediate repeal.

SUFFOCATED BY GAS.

An Entire Family Perish in an Indiana Town

ANDERSON, Ind., Nov. 20.—An entire family was suffocated by gas at Lapelle on Wednesday night. Mrs. Mary Huffman and her two sons left the gas burning at high pressure in the stove. Somehow the draught was imperfect and the blaze was extinguished The gas escaped and asphyxiated the whole family. The doors were broken open yesterday morning and Mrs. Huffman and the eldest son were taken out into the air. They cannot live. The younger son, Newton, was dead when discovered.

The Brazilian Rebels Are Firm.

LONDON, Nov. 20.—News concerning the situation in Brazil continues to be very meager. The provisional junta, an authority in the state of Rio Grande do Sul, is taking active measures to strengthen its position, and to maintain opposition to Fonseca's dictatorship. Baron Lucerna, of President Fonseca's cabinet, has sent a dispatch to the junta, offering on the part of the dictator, to recognize the local government that the people of Rio Grande do Sul may prefer on the sole condition that peace and tranquility be first restored. To this offer the junta replied that the forces would only disarm when Fonseca shall have resigned and the national congress shall have again assembled.

Secretary Foster Again at Work.

WASHINGTON, Nov. 20.—Secretary Foster was at the treasury department this morning, and appears entirely recovered from a slight cold which reported to have caused his hurried departure from New York yesterday.

An Alliance With Russia.

PARIS, Nov. 20.—Notwithstanding the semi-official denial which came from Weisbaden yesterday of the report that the object of De Giers, Russian foreign minister, in visiting Paris was to conclude a treaty of alliance between his government and that of France. Le Gaulois, which is the organ of the Count of Paris, publishes an article this morning which shows it is that paper's belief that that alone is the reason for the Russian minister's visit. Le Gaulois appeals to all Frenchmen to silence their discords during De Giers' stay in Paris. It says: "We are all agreed as to the advantage to be derived from an alliance with Russia. Some day, perhaps, such an alliance will restore to us our territory and power,"

Another Daring Train Robbery.

MISSOULA, Mont., Nov. 20.—Yesterday afternoon two masked men entered the Northern Pacific express-car on the Missoula & Coeur d'Alene railroad, and at the point of their guns made the express messenger open the door of the safe and give up all the money it contained, $20.00. The robbery occurred between Doorsey and Mullan, near the Montana and Idaho line.

The Republican National League.

NEW YORK, Nov. 20.—The meeting of the republican national league was continued this morning. The morning was taken up by delegates making a detailed report of the work done in their states, and the work proposed to be done by their respective organizations.

Convict Labor.

The reform school land is being cleared by a band of convicts, and as fast as they cut off the timber a band of goats follow and eat up all brush and sprouts. It would be better for state is such work was done by honest labor instead of convicts, goats and Chinese.

A MERRY ROW

THE FARMERS ALLIANCE IN A BIG WRANGLE.

They Fire One Delegate Bodily From the Meeting—A Split in Their Ranks.

INDIANAPOLIS, Nov. 20.—The alliance this morning gave a final coup to the anti subtreasury people by barring Gates, of Missouri, from the meetings of the alliance. This was done by a resolution excluding "all alliance men who are not vouched for by the chairmen of their respective state delegations." Leonard refused to vouch for Gates, and, although he bore credentials from his state alliance, he was forced to retire. The anti-subtreasury people made a prompt response by issuing a call for a convention of anti-subtreasury alliance men at Memphis on the 16th day of December.

The call declares that, as the supreme council has declined to hear the protest against the subtreasury and land-loan schemes and goverment control of railroads and telegraph lines, it is decided to issue a call for a national convention of all anti-subtreasury alliance men in the United States to hear and consider this protest and take such final action in the premises as may seem proper and best for the general welfare.

Suit for a Campaign Reward.

SAN FRANCISCO, Nov. 20.—Russell J. Wilson, chairman of the democratic state central committee has sued Irwin C. Stump, chairman of the republican state committee, to recover $10,000. The action is based on the famous "Old Pard" letter which Governor H. H. Markham is alleged to have written to E. G. Hallock. The letter was industriously circulated during the last campaign. The republican state central committee, through Stump, as chairman, offered $10,000 for the genuine letter written by Markham, claiming the one published to be a forgery. Wilson produced an "Old Pard" letter, but failed to convince Stump of its authenticity, and was therefore unable to collect the money, for which he now sues.

Petition for Estee's Appointment.

FRESNO, Cal., Nov. 20.—On Tuesday night a petition praying the president to appoint M. M. Estee to the vacant cabinet position, was forwarded from here to San Francisco. The petition had been stealthily circulated among republicans known to be unfriendly to Estee, and was largely signed. It is understood that a petition is being circulated in a similar manner in every county in the state.
