A Fortune and Didn't Know It. John Schmeier, of this city, is in receipt of a letter from R. P. Brownlee, of Little York, Ill., stating that a note that Mr. Schmeier recently sold in a yard of horses to a Portland horse buyer who took them east and sold them at auction, has proven to be a great payer. She recently paid a note at Independence, Ill., in 2225, the last half in 1867.

The mare was raised in the brushy grass country by Mr. Schmeier, but he had no idea she was such a flyer, as she was sold unbroken. She was sired by his old horse, Chief, now dead. The mare is now valued at \$100.00.

Willamette Valley Elevators. Frank A. Peavey, the millionaire wheat man Minneapolis now at Portland, is understood to have in contemplation the erection and operation of wheat elevators at Salem, Albany, Eugene and Valley points. Mr. Peavey a year ago expressed a wish to establish a large elevator here, also at Salem, his reason for not doing so at the time being that he could not get a suitable location. He operates all the elevators on the Northern Pacific and handles the grain in bulk.

THE CITY ELECTION.

Political Lines Will Not Be Strictly Drawn—Prospective Candidates.

In the approaching city election political lines will not be strictly drawn, as present indications can be gathered upon. Unless a more vigorous campaign is waged there will not be a "wild hunt" as is being carried on and that considerable quiet work is being done which does not appear on the surface, but this is very limited, if any. The question of politics is the least important consideration before the voters in the city election. It is true this city is republican by a small majority, but of the men elected this year, as heretofore, there will doubtless be enough of each party to watch the others, and they ought to be so regarded. What the public wants is honest, capable men to fill the city offices and these they will select, be they republican or democrat.

There has been little discussion of the chances of the various candidates, and in fact candidates are not very numerous. The democrats will duplicate the republican ticket, the trend of sentiment seems to be in favor of Mr. David Froman. For recorder the republicans will without doubt nominate Mr. N. J. Henton. The democrats will probably put forward Mr. O. P. Co. how, jr. For marshal the present officer, Mr. J. N. Hoffman, will again be a candidate on the democratic ticket. On the republican side there will be several candidates, prominent among them being Mr. H. C. Crowder and Mr. A. B. Lacy.

It is understood that Treasurer Horace Farwell will again be a candidate on the democratic ticket. Who the republicans will nominate is yet to be ascertained. Among the vacancies for councilmen there are few candidates. The republicans are nearly always successful in the first ward, and democrats who want to run are scarce. The republicans talk of re-nominating Mr. F. E. Taylor, and some other names, it is said, are in view and to be in the middle ward Mr. Wm. Garrett will retire. Mr. Julius Gradwohl says that if the democrats want to elect him he will serve. But that is not a candidate. The name of Mr. J. J. Doolittle is mentioned among others by the republicans.

In the third ward they are keeping things pretty quiet, and no names for councilmen by either party have reached the reporter's ear. It has been suggested that perhaps some of the third ward residents, who wanted the bridge built here to their, are planning some kind of a notable revenge, but we think not. The bridge is already located, and will be a magnificent structure. The bridge will hardly ever enter as a factor in the city election.

It is of course, still early, and many other names of candidates will be forthcoming, all of which will be subject to revision when the convention meet, which is the same date for both parties, on Saturday, December 5.

A New Industry for Udon County.

S. S. Reddick has this week presented us with a sample of fine sorghum. It was manufactured from the sugar cane raised by Dr. E. A. Davis as an experiment, says the Harrisburg Courier. The syrup is something extra fine. It is rich and clear, yet so clear and clean that when placed in a glass jar you can read a newspaper with Mr. Davis' help. It is so clean that it will be successful. The doctor has quite a patch of cane, and though it was planted nearly two months later than it should have been, he will get not less than 100 gallons of syrup. He will next year put in several acres, which is evident from the fact that he is confident it will be a satisfactory investment.

River Traffic.

Boats are running again on the upper river and their number will be increased immediately. It is the intention of the Oregon Pacific Co. to run to Harrisburg, 40 miles beyond Corvallis, after a little time, but as yet the channel needs some improvement, or greater depth of water. The warehouses of the Oregon Pacific along the river are packed to overflowing, while a good deal of grain is going to San Francisco from the Willamette valley. The steamers, Three Sisters and the Hong, will probably be put on the upper river just as soon as the rush in the lower river traffic is over.

A Horse Race.

A 200 yard race between Archhart's horse and Cooper Bros' horse, was run at the fair grounds yesterday for a purse of \$50. Archhart's horse won by half a length. About 4500 changed hands on the result, and a bright light followed between some half dozen young men.

TIMELY TOPICS.

News and Comments About Matters in and About the City.

Business in Albany is steadily growing in volume. A new bank, that of J. W. Cusick & Co., will make four banking institutions.

An ice steambest traffic has been resumed on the upper river, and large quantities of grain and other freight awaits the boats at river points. Boats ought to ply the upper river all the year round, and could do it, if intelligent, honest work was done improving the river channel.

There will be something important from the San Francisco before the close of the year. The big mill of the Albany Milling & Milling Co., will soon be at work while the company will be converting the ore into bullion, and the product of gold bricks that will come from these mines will convert the most skeptical of their wealth.

The people of Albany should not feel that their Thanksgiving turkey will be a failure this year. They have much to be thankful for. The city is growing steadily. The summary of the year's improvement, as will appear in the New Year's issue of the Herald, will reach half a million dollars, including the big steel bridge, the completion of the city sewerage system, new buildings, street improvements, etc. This work, together with a big crop and good prices, has invigorated business, and trade is running in healthy grooves.

City election will occur two weeks from tomorrow. The columns of the Herald are open for any legitimate discussion of city politics or the city's affairs. But don't expect us to call the candidates horse-thieves and scoundrels, it would be more satisfactory for you to go to them personally and tell them about it. It might create more of a sensation and you would get the credit instead of the newspaper, of being "heartless." Those who imagine there is a big deal in the electric light and street car business, or that there has been "corrupted" work in the bridge matter, and a reckless expenditure of public money generally should speak right out now or hold their peace afterwards. If the theory of these evils existed it should certainly be after them hard and strong, but it doesn't. We believe that the money expended in the system of public improvements now under way is a creditable one, and help to see men elected who will continue the work already well in hand by to present council, to a successful conclusion.

To-Morrow Evening.

The Daily News, of Joliet, Ill., says of the Noss Jollities, which excellent company will appear at the Albany opera house to-morrow evening: "A packed house greeted the Noss family at the opera house last night. The play was in every way worth the attention of the 1000-odd. The first part consisted of musical specialties, in which the members of the troupe performed on a large variety of instruments. The work of a little mess was particularly pleasing. The performance concluded with a roaring comedy, 'A Quick Match,' that it killed everybody.

Shooting Accident on the McKenzie. Lane county nearly weekly furnishes a case of accidental shooting. The last case happened on the McKenzie across the river from the Thompson place Thursday noon says the Eugene Guard. The victim was a boy named Blue-taker, aged 11 years, who was found in the road badly shot. Upon investigation, it was found that the ball from a squirrel on Winchester, had entered the right side and ranged upwards. He was carried to his home at R. F. Finn's residence. The shooting was accidentally inflicted by himself. He will probably recover.

NEWS OF THE COAST.

Interesting Items from Exchanges Throughout the Northwest.

The rains have made the grass grow and cattle feed very plenty in Oregon. It will be an easy task to winter stock this year.

This is the middle of November and wild strawberries are in bloom in the valley. Roses and other flowers are fragrant in the open air. Baker county's indebtedness to the state of Oregon is about \$12,000, which has accumulated since 1872.

Within the past thirty days over \$100,000 in gold bullion has been received in Baker City as the output of the mines adjacent. Douglas county will build a court house, the steps of which will be of Rosburg marble, while the interior will be finished in natural wood.

H. M. James, of Coos Bay, will send a myrtle log thirty inches in diameter and eight feet long to a Boston piano company as a sample. It is thought it will soon be in great demand.

Base ball admirers in Portland are raising a purse of \$10,000 to back the Portland team, winners of the Pacific Northwest League pennant, against the winners of the California League pennant, which will be San Jose.

A citizen of La Grands was recently held up in the streets of that town as he was taking a bottle of brandy home to his sick wife. While the highwayman was trying to remove the citizen's watch the latter struck the former over the head with the bottle and scared him so that he ran away.

The largest sale of railroad timber land on the coast this year has just been concluded by the Southern Pacific Company. The land in question is situated on what is known as Jenny creek, a stream flowing into the Klamath river, just above the California state line. Pardee, Cook & Co., of the largest lumber firms of Michigan are the purchasers, and they paid \$93,000 for it.

The latter part of last June some seed corn that came from the Sandwich Islands was planted at the big pine orchard near Corvallis. The crop has just matured into some of the finest corn seen in Oregon, and many of the "ears" would do credit to a Missouri county fair. There is no question about corn doing well in this valley if proper varieties are planted, and we believe this commodity is growing in favor in Western Oregon.

Horse Thieve.

A number of valuable animals have been stolen from different localities in the valley during the past month, and in some instances the property has been recovered through the efforts of officers of the sheriff's office. It is a systematic organization for the purpose of running off stock, and bearing this fact in mind, owners of horse flesh should take all necessary precaution for the protection of stock.

A Business Talk.

The said Shakespeare was accused of stealing a deer, but Bacon took 1700s, Samuel Johnson would wear a shirt five weeks without washing it, Sir Isaac Newton cut three holes in the door, one for the old cat and one for each kitten, and so on. Butler's side spoons. We can't get much for the truthfulness of all of the above, but one thing is sure, all persons, whether of high or low estate, have faults or frailties of one kind or another. You, gentle reader, are not exempt. We plead guilty to many, and a very strong weakness with us is always exerting ourselves to meet the wants and demands of customers, and supply them with first-class groceries as low as anyone. We take sugar in ours and will sell that article at a low figure.

Very truly, R. G. Watson & Co.

Wisdom's Violet Cream

Is the most expensive preparation in the world for softening and whitening the hands and feet. It is not only a substitute for, but in every respect superior to glycerine, cold cream, vaselin and like preparations. Try it. For sale by Foshy & Mason.

The Morning Cocktail.

Taken before breakfast creates a false, injurious appetite. A wineglass full of Dr. Henley's English Panderion Tonic taken before meals strengthens the digestive organs and enables you to relish a hearty meal without injury to the stomach. For sale by Foshy & Mason.

A handsome line of holiday gifts just received at the Ladies Bazaar.

Solvay's water is kept constantly on hand by the bottle at G. L. Blackburn's drug store.
