A Determined Governor. NASHVILLE, Nov. 30.—The convicts shall be returned to the state if it is not done, said Governor Buchanan last night. Although the governor is reticent, from other sources of information gathered concerning the matter it is learned that the lessees have made a demand for the convicts, and that when the convicts were captured they will be returned if supplied with sufficient guards and proper quarters. Proper quarters will be built at once. This will take about two weeks. The guards will not be taken from the existing militia companies of the state, but the men will be enlisted for the purpose. About 300 of the 672 released convicts have been captured.

REMARKABLE CASE. A Man Dying From Sn Habit Fairly Galvanized Into Life. A remarkable recovery from snakebite is reported from Grapeland, John Hourigan, an engine driver and inspector of pumps on the Gippeland railway line, was bitten by a snake on a pump, when a snake bit him on the hand. Hourigan scuffled and kicked the snake, and felt no inconvenience beyond a general drowsiness. Last Friday, declaring himself quite well, he again proceeded to the pump, and finding the necessity to give the pump a second oiling he was in the act of so doing when a snake again bit the same hand, only half an inch from the first wound, the fangs penetrating so deep that Hourigan had to knock the snake off with his left hand, suffering acute pain. He hurried to the Pakenham station, and the stationmaster applied ligatures at the wrist and the elbow, and sent the sufferer to Berwick, where he appeared to be dying. The local doctor injected Dantienone, and then sent him to Dantienone, where the doctors injected the thirtieth of a grain of strychnine, and kept the patient walking up and down, till after a few hours he became black in the face and his limbs were perfectly limp, when another thirtieth of a grain of strychnine and twenty minims of ammonia were injected and brandy administered. Then

he appeared somewhat better, but relapsing, the injections were repeated for the third time, but in an hour's time he collapsed. Either was injected without avail, and then the galvanic battery was applied to the nape of neck, galvanizing the man into life, when he became nearly mad with rage, owing to congestion of the brain. The doctor opened a vein, but the blood was so thick to flow and cupping was resorted to, four ounces of blood being removed. From this time the sufferer showed signs of recovery, and he is now considered out of danger, although the battery treatment had to be used until 2 o'clock the next morning. The battery was a strong bichromate cell battery.

Paying the Preacher. A case of peculiar interest to the legal professions, and one which will probably attract the attention of the lawyers, has just been terminated in Whitman county, Wash. A Catholic clergyman sued a parishioner to recover \$5, claimed to be a reasonable proportion for the services of the pastor. The parishioner acknowledged the claim to be reasonable, admitting that the services of the pastor were worth that sum, but put a counter claim for \$75, the value of furniture, lumber and groceries advanced to the pastor. The court gave judgment in favor of the parishioner for \$35, the amount of difference between the two claims. The case is the more remarkable as it is against the policy of the Catholic church to settle its internal affairs in the courts, and this case, so far as the precedent it establishes is concerned, will probably never be referred to by the church.

Secretary Foster is Much Better. WASHINGTON, Nov. 30.—Secretary Foster expects to be able to resume his duties by the end of this week.

THE NOBLE RED MAN HE IS AGAIN INDULGING IN HIS PLEASANTIES. A Band of Arizona Indians on the Warpath—Settlers Preparing for a Raid. WITCOX, Ariz., Nov. 30.—A dispatch from Fort Bowie was received last night, stating that Major William L. Downing, who lives thirty miles south of here, was shot from ambush by Apache Indians while he was riding by. His wound is not considered fatal. E. H. Daniels, of Ontario, Canada, an ex-soldier who had been employed by Downing, was shot and killed by a band of Indians Thursday night; and information was brought here by the tracking. Travelers followed the tracks of the Indians some distance, and they say the band is on the warpath. Lieutenant Irwin and a company of soldiers from Fort Bowie will pursue the redskins. Settlers are arming themselves, as they fear a raid from the Indians, who are stronghold in the Chiri uha mountains is practically impenetrable. The hostiles, at last reports, were moving south.

Bold Robberies. It is curious how boldly some robberies are carried on. An exchange from east of the mountains says that a robbery, which for cool daring has seldom been excelled, was perpetrated upon the driver of the Island City stage in the outskirts of La Grande at an early hour Wednesday evening. The returns, however, were small. As the train of the Elgin branch does not connect with trains on the main line, the Island City mail is transported by hack. As the driver was leaving La Grande about 7:30, he was confronted by three masked men who demanded him to throw up his hands. He did so and they took all the cash he had, amounting to but a few dollars. They refused to take his watch or anything else of value, aside from the money.

THE WORLD ENRICHED. The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is second only to the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Springtime or, in fact, at any time any the better it is known the more popular it becomes.

JACK DEMPSEY SICK. A Report That He is Very Ill With Consumption. NEW YORK, Nov. 30.—The Morning Journal says the condition of Jack Dempsey, the "Nonpareil" is far from serious, and his friends will doubt. He is guarded with the utmost vigilance, and none but the doctors and his kindred are permitted to see him. Those who have seen him believe his sickness may be suffering from incipient consumption, and that this is but the beginning of the end. Jack's doctors give it out that he is suffering from bilious fever, but others say the treatment of the physicians show that the illness is of a more particular attention to his lungs.

J. H. STINE KILLED

An Insane Section Boss Shot Him and Then Suicided.

WITHOUT A WARNING WORD.

No Cause Is Known for the Deed as the Man Was Friends—A Former Resident of Lane County.

McMINNVILLE, Or., Nov. 30.—J. H. Stine, editor of the Whetson Advance, was shot last evening by N. C. Cook, a section boss on the narrow gauge railroad. Cook then shot him off twice. Both men were killed instantly. Stine Cook and a German section boss had been to Amity on foot, a distance of three miles from Whiteson. When about half way back on their return, Stine walked about ten feet in advance of the others. Cook quickly without warning, drew a Smith & Wesson pistol and fired at Stine, striking him in the back of the neck and breaking the spinal column. Turning the pistol on himself he fired one shot into his breast, missing the heart about two inches. He then placed the pistol to his temple and fired a second shot through his brain. The section hand, thinking his time had also come, started to run at the first shot, and did not stop until he got to Whiteson, a squad of men returned and found both men dead. No cause is known for the deed, except it was a sudden fit of mental aberration. Cook has been acting singular for some days, and did not work Friday and Saturday. The section hand with whom Stine said that he had taken two drinks of whisky during the day and showed no signs of intoxication. The men were good friends, and always on the best of terms. They were talking pleasantly at the time of the shooting. They were both about 48 years of age, and veterans. Cook belonged to Company A, Thirty-fifth New Jersey infantry of Trenton, and Stine to Company B, Second Pennsylvania. Stine is the nephew of Cook's family relations. He was brought here by the coroner last night, and hundreds visited the remains to-day. He was a fine physical specimen. Stine leaves a wife and one child. He was a good writer, an able country editor, and had been connected with papers at Independence, Grant's Pass, St. Helen's, Lebanon, Brownsville and other points. He will be buried at Independence, where he was married about six years ago.

Cook, the suicide, was a member of Lincoln-Gardfield post of Portland. They have been notified of his death. His remains were sent to Portland on the afternoon train.

FIFTY YEARS A BISHOP. Archbishop Kenrick's Long Service to the Church. St. LOUIS, Nov. 30.—Just fifty years ago Peter Richard Kenrick was consecrated bishop of the Roman Catholic church, and to-day his jubilee was celebrated with great pomp. Only once before has the golden jubilee of a bishop been celebrated, that of John McFalle, archbishop of Tuam, Ireland, eleven years ago. It is an event so rare that the whole world is interested in it, and in this case not simply because such celebrations are infrequent, but because Archbishop Kenrick has filled these fifty years with usefulness and good, and were it not for the fact of a notable occasion he incurred the displeasure of the Holy See by declaring boldly his unbelief in the infallibility of the pope he would now be a prince of the church. A grand pontifical mass, commemorative of the occasion, began at nine o'clock in the historic old cathedral on Walnut street, leading representatives of the Roman Catholic hierarchy of the United States officiating.

A FREIGHT TRAIN WRECKED. A Brakeman Killed and a Tramp Badly Injured. WOLF CREEK, Or., Nov. 30.—This morning the north bound freight train, No. 45, became uncoupled two cars back of the engine while running down the grade north of tunnel 9, near Leland. The rear section got off the track, smashing three cars. A brakeman named Conaghan was killed and the balance of the crew injured. One tramp who was riding in the tool box of the caboose was badly injured.

ANOTHER VICTIM. A Suit for \$20,000 Against the Southern Pacific Company. PORTLAND, Nov. 30.—Wednesday an important damage suit will be brought in the United States circuit court against the Southern Pacific Railway Company. The plaintiff in this case, Miss Grace Isaacs, is a resident of Washington. She was a passenger on the ill-fated train that went through the bridge spanning Lake Labina near Salem. Miss Isaacs claims damages in the sum of \$21,340, together with costs, etc. The complaint, which is quite voluminous, sets up a general complaint that the bridge was

improperly constructed; that it was permitted to get out of repair; that the accident was due to carelessness on the part of the company. Plaintiff, by reason of the accident, it is alleged, had sustained very serious bodily injuries.

ANOTHER BRIDGE JUMPER. A Drunken Man Leaps From the Morrison Street Bridge. PORTLAND, Nov. 30.—A drunken individual giving the name of Charles R. Lang jumped from the Morrison street bridge about 1 o'clock this afternoon on a wager. He jumped feet first, holding his right leg and bent by the knee. In this position he struck the water. He sank, but rose to the surface and struck out for the shore. He was picked up by a boat in a drowsy condition.

News Notes From Mexico. CITY OF MEXICO, Nov. 30.—Small pox is again epidemic in Guatemala and Honduras. Suffering owing to a scarcity of provisions in the interior is intense. It is feared rioting will break out among the famine stricken populace. The government has as yet taken no active steps to alleviate the suffering. Editors of the newspapers National and Universal fought with canes yesterday in the public plaza.
