The matter of effecting a treaty with the Hawaiian island government, that shall give absolute free trade between the two countries is being strongly urged. As sugar is about the only article manufactured there for import, and that has been admitted to this country from those islands free of duty for years, it is difficult to understand just what peculiar arrangement is being hatched up under the guise of benefits for the Hawaiians.

The matter of child stealing, for the purpose of procuring a ransom from the distracted parents, has been practiced for ages, for legendary accounts ascribe such practices to brigands and gypsies from time immemorial. It would seem however as though the nineteenth century civilization might eliminate such cruel inhumanity. But such is not the case. The telegraphic news from Kansas City has told the story of the stealing of a child from its parents by a woman who had wormed herself into the confidence of the family and who repaid the trust reposed in her by stealing the most precious of all the possessions of that family and keeping the fruits of her larceny until a ransom was paid for the return of the stolen child to its distracted and heart-broken parents.

important question of whether it would be better to hold on or let go, if a person had hold of a tiger's tail. After they have riled their tempers sufficiently upon the subject, it would be a good plan to get a good lively specimen of that feline family, and make the instigator give a practical illustration upon the subject—let the tiger and he fight it out, sans rules sans ceremony.

It remains to be seen whether the party of expediency will be able to sweep aside the demands of their constituents for free coinage at the behest of Cleveland. Nearly every democratic representative in the next congress was elected on a distinct free coinage pledge, but from present appearances they will find it convenient to forget all about silver. It is pretty hard on a party that has silver leanings and only one available candidate for the presidency and he an cut-and-out monometal-list.

The free trade doctrine is not altogether lovely even in England. The St. James Gazette, of that country, say that "protection is becoming more and more a vital issue with the workmen of the great towns in England." Thus it will be seen that the truth of the matter is even penetrating the very juries of Cobdenism. Still large numbers of partisans in this country still combat for the dogma.

Everbody has at times failed to do their duty towards themselves. Hundreds of lady readers suffer from sick headache, nervousness, sleeplessness and female troubles. Let them follow the example of Mrs. H. Herberich, Stevens Point, Wis., who for five years suffered greatly from Nervous Prostration and sleeplessness, tried physicians and different medicines without success. But one bottle of Dr. Miles' Nerve and Liver Pills cured her. She writes: "I sleep every night and I feel like a new person.
