The Statesman directs attention to the fact that about 50 per cent of the notaries public of Oregon are paying no attention to the law passed by the last legislature, which provides that a notary public, upon being appointed, and receiving his commission from the governor, shall have his commission recorded by the county clerk, in the book kept for that purpose, paying a fee of \$1 therefor. The county clerk is authorized to certify as to the official character of such notary public. No penalty is attached for failure to comply with the provisions of this act.

Accident on the River. The Union Pacific boat, the Modoc, in reaching her wharf last evening, at the foot of Broadbald street, swung down the river too near the shore and ran against the ferry cable. The collision almost capsize the steamboat, and tore the smoke stack off. No other serious damage was done. The cable was plenty high enough to admit the passage of boats, but was drawn down lower near the shore by the ferry boat, and the steamer going too near the bank ran against it.

STATEMENT FROM MR. DOBRVILLE.

TO THE EDITOR OF THE HERALD:

In Mayor Cowan's card published yesterday, speaking of the \$750 paid D. B. Monteth for the right of way over the "low lands" and of the award, he says: "It was not the judgment of the council but they acquiesced."

The arbitrators seem to have been called as a matter of form only. When I was selected the contract between Mr. Monteth and the city had already been drawn up and signed on the part of the city by Recorder N. J. Hendon and by Mr. Monteth, agreeing to submit the matter to arbitration, and it had been further agreed verbally between the city and Mr. Monteth, that he was to receive the sum of \$750 for the right of way over his property in question, and neither would he submit to arbitrators being appointed until the city made such agreements and I was so instructed by Mr. Monteth at the time.

And therefore, all we had to do was to concur in the results already agreed upon between them.

If the agreement did not express the council's judgment, as the mayor asserts, who did it express, J. J. DOBRVILLE.

Improving the Reservation.

Pa. cutting out land severally to the Indians makes a course in the old reservation appearances.

The Pendleton East-Oregonian says that the appearance of the reservation north of Pendleton is undergoing a decided change.

Much land has been and is being plowed, and many farm dwellings, some mere cabins to be sure, are completed or in the course of erection. Grain sown is coming up splendidly under the influence of the rains, and several hundred fields may be seen on the reserve. Next year a lot of wheat will be added to the product of this section.

A Lion County Man.

One member of the firm named in the following is C. H. Paine a former resident of this county:

Every day Moscow has new enterprises, and this week we take pleasure in recording the erection of the Craig & Paine Plow and Cultivator Manufactory, on the corner of Third and Howard streets, which will be completed and ready for work in a couple of weeks. At present a small building only is being erected, 28x40, but as the business increases it will be enlarged to supply the demand that the rapidly increasing trade of the institution is sure to insure. We wish the gentlemen success in their new enterprise.

That is the Size of It.

The Oregonian says: Those persons who were innocently sent over the state to collect money for an Oregon exhibit at the world's fair have returned to Portland, thanking heaven that they had brought their hats back from this congregation. There is a great moral lesson in this. It will probably be understood now that it is useless to try to collect a dollar from the state for a world's fair exhibit until Portland has authorized a good round sum. That ought to have been understood before.

Doc. Logan Again in Trouble.

Yesterday afternoon Deputy Sheriff Scott arrested Doc. Logan in his barn near this city on a charge of stealing a dog belonging to Conductor Peeman, of the Oregon Pacific. The man and dog were brought to this city, and the latter was turned over to its rightful owner, while the former was discharged on paying costs.

A New Lodge at Brownsville.

W. C. Tweedale and J. F. Backen-ton returned yesterday from Brownsville where they organized Brownsville Encampment No. 15, I. O. O. F. The officers elected were as follows: D. M. Walters, C. P. N. R. Standish, H. P. C. H. Elliswick, S. W. G. A. Dyson, Scribe; W. R. Kirk, treasurer; J. F. Gross, J. W.

Nominations at Lebanon.

The Lebanon Advance says that an "anti saloon" convention of that town has placed the following ticket in nomination for municipal officers: Mayor, E. E. Montague; councilmen, J. S. Courtney, R. O. Miller, A. Jack Adams, E. R. Barker, recorder, L. Gilbert; marshal, Z. T. Bryant; treasurer, I. A. Bennett.

House Blown Down.

The extremely high wind, for Oregon, on Thursday blew down a residence in course of construction in our neighboring city of Jefferson. Matters of that kind are of such extremely rare occurrence in this state that they are of especial note.

Ladies Mandolin Club.

Ladies desiring to join a Mandolin club to be composed of mandolins, violins, guitars and auto-harps will please send their names and name of instrument they wish to learn or play to Chas. H. Mueller.

THE CITY GOVERNMENT.

TO THE EDITOR OF THE HERALD:

I am glad that the Honorable Mayor concedes that the citizens of this city are entitled to a full statement touching all the charges raised by the interested "kickers."

It is a "full statement touching all the charges," remember, that we are entitled to. And let us note as we advance in what manner, and how very candidly the Mayor deals in detail with every charge and insinuation made by the undersigned, as well as other "interested kickers." I may have been in error in regard to the cost of the Ferry street sewer. I did not have access to the records, but the main point was that no sewer whatever was necessary on that street, as nearly all the property on the street was already supplied with sewer connections. On this part of the charge the Honorable Mayor is silent. It is conceded then that the original charge is true, that this sewer was unnecessary. So that we have an admission here that \$7000 of the peoples money lies buried in its sandy depths.

The Honorable Mayor refers to the item of \$1500 paid to the engineer for locating the site for the bridge, and evidently tries to shift the responsibility for this expenditure upon the shoulders of "Mr. A. Hackleman, S. E. Young and Dr. Maston, acting for the citizens' committee." That these gentlemen were in some part in and about the survey is not questioned, and it may be conceded that under the circumstances a survey was proper. But the point of objection is, that the amount paid was unreasonable and extravagant, and out of all proportion to the services actually performed. And that was the act of the council alone—no divided responsibility here. This fact is not mentioned by the Honorable Mayor, and yet he is "dealing in detail with every charge and insinuation."

No one objects to the electric light system. It is an improvement of which the city is justly proud; but when the Honorable Mayor insinuates, but does not dare assert, that the cost is less than the other cities in the valley, he only demonstrates that he has reached a point when great caution is necessary. I charged that Albany paid more for street lights than any other city in the valley, and propose now to make it good. Portland pays \$9.72 per month for its lights, Oregon City pays \$10 per month for each lamp. The Delaarte wants for ladies and children are recommended by all who have tried them. Perfect fit guaranteed. Mrs. Talt, exclusive agent. Samples may be seen at Mrs. Gilbert's dressmaking parlors, over Golden Rule Bazaar.

BENSE, Secretary.

A Peculiar Parent.

On the Union Pacific train on the way to Portland, recently, while passing through Umatilla county, a little girl, baby first saw the light. The parents named her after their way from Iowa to Portland. The Wasco Sun, in relating the incident winds up with saying: "The father did not seem to take much interest in the matter, and leaving his wife entirely in the hands of strangers, remained in another car. Conductor Mitchell suggested to him the propriety of having his wife taken to a hotel, but he plead poverty and a desire to get through his trip." That father should be placed upon an uninhabited island by himself and allowed to dig clams for a living.

ABOUT THAT ARBITRATION.

TO THE EDITOR OF THE HERALD:

Concerning the comment published in yesterday's issue of the Herald in regard to the award to the Monteth heirs I desire to say that before I consented to act as one of the arbitrators I was assured by two members of the city council who requested me to act, that the city had agreed as to the amount to be awarded, and that the so-called arbitration was a mere matter of form to carry the agreement into effect in the most expeditious way. That \$750 was the amount arranged, as to the actual value of the land. There is room for a difference of opinion, and I have no apology to make concerning my actions. Respectfully, E. W. LANGDON.

Supreme Judge.

The Salem Journal prognosticates on the subject as follows: The term of Judge Strahan expiring next his successor will be chosen at the next election. It is not known whether he will be a candidate to succeed himself or not. A promising candidate from the city from Portland to day says that city has no candidate. Judge Bennett, late circuit judge at The Dalles, and Judge Bonham, of Salem, are mentioned as possible candidates, in the sense that they may be nominated on the democratic ticket.

A President Foreign Soil.

Andrew Johnson was the only president that ever stood on foreign soil while holding office. He appeared during the war famous "swing around the circle," in 1876, while visiting Niagara falls, when he went in a carriage to the Canadian side. The president did not think at the time that he had violated a precedent, and it occurred to him only when he had returned to his hotel and was alone with his secretary who promised to keep the matter secret.

A Spirit of Enterprise.

As far as they have progressed we understand the Cumberland Presbyterians are meeting with encouraging success in their efforts to build a church in the eastern part of our growing city. This commendable not only on the part of that church, but highly commendatory to the liberality and public spirit of our people.

STATEMENT FROM MR. TABLER.

TO THE EDITOR OF THE HERALD:

"Something," I do not know what it is or whether "it" has a name, has been in your columns for nearly a week over the "nom de plume" of Citizen and Taxpayer, which certainly is a "misnomer," as it is fair to assume that when the assessor comes around "it" always has indebtedness enough to offset the assessments and pays but little, if any, taxes, but as the mayor has replied to the questions seriatim and from the record, I only wish to answer one or two that are personal to myself.

First, The sewer system as recommended by the city surveyor W. B. Barr, on Maple, Ferry and Madison streets was adopted by the council, myself alone objecting to the Ferry street location, and I have urged the location of the same on Washington street at all times. Let someone "ch." Such gross ignorance makes the "mind grow weary" to contemplate. Again, I am charged with the great crime of selling lumber for one dollar less on the thousand than others sell it, but as I have never directly or indirectly sold one foot of lumber to the city, that accusation fell to flat. What I sold to the public they were certainly benefited that much and I hope in the near future to be able to perpetrate the same crime. Every official act of mine for the last five years has been for the best interests of the city, of Dixie as well as Piety Ridge. The only one act that I have regretted, and would want to recall, is the vote to give certain parties \$750 for the right of way for the bridge over certain worthless, overflowed land at the foot of Galapooia street, but that was forced on us at a time when the parties knew we were at their mercy, and we thought best to pay that sum rather than have the work stop on the bridge at that time. Truly the mine increases in richness as it is worked, and the "mind again grows weary." B. F. TABLER.
