CONS WITHOUT LOADS.

The frequency of reports of fata; accidents, resulting from the careless or criminally so-called playful use of guns or pistols that are positively known to be without loads, has lead to the belief that human life that exists is the un-

Very many are arriving at the conclusion that there is something | their natures. more serious than accident in these fatal casualties. All will agree with the Chronicle in the belief that when a person takes a pistol, puts it against the person of another, pulls the trigger and mortally wounds the victim, it is clearly a misnomer to call it an accident, even though the person who does the shooting did not know the pistel was loaded.

Anybody who will aim a pistol at another and pull the trigger is either a fool or a criminal and should be dealt with accordingly. abould be dealt with accordingly. on Christmas Eve. It will be If a fool he should be sent to the that beautiful French doll now on asylum for the feeble-minded, where he could be taken care of and not permitted to handle weapons; if a criminal he should be convicted and sent to the penitentiary, where he would be equally secure from the chance of injuring anybody else.

It has passed almost into s proverb that no kind of weapon is so dangerous as an unloaded one, and while this is an exaggeration, it is easy to see that the saying has arisen from the great number of cases in which persons have been regarding such matters should be made much more stringent and should be rigidly enforced, for human life is too valuable to be at fixed as the strength of the nerves. A new distribution through the nerves and through the nerves and through the nerves and through through the nerves and throu human life is too valuable to be at the mercy of a gun or pistol with a fool behind it. In every such where death ensues, a verdict of manslaughter should be rendered and a term of imprisonment follow.

THE appointment of Mr. Mil's to the chairmanship of the ways and means committee of the house, seems to be an assured arrangement. Many are expecting that this augures that the tariff legislation will be on the line of the bill that Mills made so much stir about in the former democratic house. But such is evidently not the case. While without doubt the present democratic house will bluster considerable over tariff reform they will not in reality carry out any definite measures in that direction. Their action will simply be to put on an appearance of doing something, in order to influence votes but the actual action they will defer on exactly the same consideration. If they should finally make a move, however, they can only accomplish the leat of removing the duty upon manufactured articles, with the purpose of catching the votes of the extreme eastern states where the manufacturers exist, and not caring for the western states on the ground that they do hot need them. Such an arrangement would not be very conducive to final success although it might lead to present success.

LIEUT-GOVERNOR JONES, of New York, would be satisfied with one week as governor, but selfish Governor Hill will not even yield him that barren satisfaction, and he is likely to go down to his grave with the yearnings of his great soul uposticaled, as it were unhonored and unsung, or at least only sung as Jones of Birmingham who pays freight-a prebian opitaph. Ah

A DETERMINED suicide was that man in Stockton, Cal., who took laudanum and then drowned himself in a trough of water. Medical examination developed the fact that death ensued before the laudanum took effect, and they can have the satisfaction of knowing that he was drowned instead of poisoned.

In Russian affairs the borrible side of the question is to be prominently before the world. At least so it seems, for each movement of the government there

only brings the despotic autocrats into greater disfavor. The Chronicle sharply criticises by saying that the action of Russia in placing obstacles in the way of extending relief to her famine-stricken subjects will incite universal horror. If the condition is as deplorable as the wife of Count Tolstoi states, any opposition tending to discourage the movement to afford relief would be a crime sure to bring punishment in its train.

THE Canadian Minister of cusoms is reported to have said that it would be impossible to prevent Chinese from coming through that country into this. Probably he could express a more intelligent opinion upon the subject after having tried the experiment of trying

MATTERS still seem to be unsettled in Brazil, rumors of fresh revolts coming with the current dispatches. Those South Amerithe most dangerous implement to can countries seem to be universally upon the revolt anyway. They must have some means of working off the belligerency of

> THE influenza, or as it is more generally called the grippe, is of world wide celebrity and prevalence. People may not particularly desire it and children may not cry for it, but all the same it comes and it is no matter to be just sneezed at either.
