THE STORM.

That's About It.

The Dalles Times-Mountaineer thinks that some one is evidently smitten with the tender passion from the following from the Dufur Dispatch: "When you go to see her Sunday evening, go with affection in your heart, perfection in your manners, and confection in your pockets."

One of the Lost.

The Florence West says that last Wednesday as three men, strangers, were walking up the beach from Gardiner and when about three miles this side of that place they found a man lying dead on the beach near the edge of the breakers. They drew him upon the sand out of the water, and in so doing discovered that both his arms had been broken. He was a young man, heavy built, and had a light sandy mustache. He was dressed in a sailor suit and from this and other appearances they concluded he was an officer from some boat which had probably come to pieces during the last storm.

Chinese shooting.

On Sunday afternoon many citizens were startled by the report of a pistol, and wondered where it emanated from. Investigation developed the fact that the shooting in the Chinese lodging house near John Schmeier's stable. A Chinaman was wounded, the bullet having shattered his leg below the knee, making a very ugly wound. Dr. Mason was called and dressed the wound temporarily until a Celestial doctor could be procured. The Chinaman claimed that the shot was accidental, which was probably the case, but it was an accident on purpose.

Leper Gone.

The Eugene Guard has the following in regard to the Lane county leper: J. H. Babcock, the McKenzie man afflicted with leprosy has been taken away, and we congratulate the people of Lane county, and especially those of the upper McKenzie, upon the same. He was brought here last Monday evening at 6 o'clock, then a private conveyance was hired and he was taken to Junction City, at which point he took the north and overland train at 8:30 a. m. Tuesday and made the trip through to Seattle, Wash., without incident. At that city he was placed on board a small steamer and conveyed to Fort Blakely, Wash., where he was taken aboard a ship, loading with lumber at that point for the Sandwich Islands. A cabin had been built on the deck of the ship, previously to his arrival, where he will be confined during the trip to Honolulu. After his arrival at that place he will be taken to the government leper hospital, and confined, until the regular semi-annual gathering of lepers takes place, when Babcock will be conveyed to Molokai, the home of those afflicted with that terrible disease—the leprosy. At that place he will die, for no person subject to the disease has ever been known to escape therefrom. Babcock was perfectly willing to be taken to that place. The vessel will sail on her outward trip on December 29th.

Came From Quartzville.

H. W. White and Robert Monroe, the latter being the mail carrier for the mines, came in yesterday, having come out to Gates on Saturday. They report 12 or 15 feet of snow on the summit, badly drifted, but this side the rain had settled the snow very much, and at the mines the snow was not very deep. On their way out they stopped and searched as much as possible for the missing man—J. F. Hill, which was one object of their coming at this time, but could find no trace. All tracks were obliterated, and either Hill found his way to settlements in Jordan valley, or has perished in the mountains.
