CAKES, RAISINS, CURRANTS, JELLIES, HOT ROLLS, JAMS, CRACKERS, BREAD, CHOICE TEAS & COFFEES, FRESH GROCERIES.

Or anything else good to eat, remember you can get it at reasonable rates at

Fail to do Our Duty.

Everbody has at times failed to do their duty towards themselves. Hundreds of lady readers suffer from sick headache, nervousness, sleeplessness and female troubles. Let them follow the example of Mrs. H. Herbecker, Stevens Point, Wis., who for five years suffered greatly from Nervous Prostration and sleeplessness, tried physicians and different medicines without success. But one bottle of Dr. Miles' Nervine caused sound sleep every night and she is feeling like a new person.

French Tasty Wafers.

These wafers are for the relief and cure of painful and irregular menses, and will remove all obstructions, no matter what the cause, and are sure and safe every time.

The Morning Cocktail. Taken before breakfast creates a false, injurious appetite. A wineglass full of Dr. Henley's English Dandelion Tonic taken before meals strengthens the digestive organs and enables you to relish a hearty meal without injury to the stomach.

Stoves and Tinware

Highest of all in Leavening Power.—Latest U. S. Gov't Food Report.

Royal Baking Powder ABSOLUTELY PURE

A SAFE INVESTMENT. Is one which is guaranteed to bring you satisfactory results, or in case of failure a return of purchase price.

REMARKABLE RESCUE. Mrs. Michael Curtin, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse.

Speculation Dangerous. Scarcely a day passes without the news of some large failure flashing over the wires—the usual result of speculation in stocks or some equally dangerous venture.

Wisdom's Violet Cream. Is the most exquisite preparation in the world for softening and whitening the hands and face.

THE LARGEST STOCK OF STOVES, HARDWARE, and TINWARE South of Portland at

MATTHEWS & WASHBURN'S, ALBANY, OREGON.

PIONEER DEAD

He Came Across the Plains as Early as 1844.

WHALEN STILL AT LARGE.

One More at the Asylum—Nearly Perished—Wlad Storm Frightens a Man to Death—Dead in the Gutter.

SALEM, Dec. 30.—Benj. Vaughan, aged 80 years, a pioneer who came across the plains in 1844, died last Monday near Turner. He was a member of the Jefferson Masonic Lodge and was buried under the auspices of that order at Turner Tuesday.

No trace has yet been found of Whalen, the escaped convict, but a farmhouse at Marion was burglarized last night, and it is supposed that he committed the robbery.

Chas. W. Merchant was brought to the asylum to-day from Coos county. He is a student, aged 21 years.

The board of equalization to-day met with a multitude of problems and held a session to-night. It was decided to raise the assessment on wagon road land 100 per cent, and on swamp land 250 per cent.

Henry Johnson was found unconscious this morning, lying in a ditch in east Salem, where he had been all night. He was drunk last night and fell into the gutter, where he was found, nearly dead.

Monday a wind storm raged furiously up in the mountains on the Lockmanite near Falls City, in Polk county. Several houses and a number of trees were blown down.

A newcomer from Dakota named Pugh died from fright, it is thought, having been thrown from his foundation. He had heart disease.

At Falls City, Polk county, on Monday night, Mrs. Wm. Stoddard died from a grippe. This is the first death from this ailment in this part of the country since the late spring, although there are many cases now.

A Woman Arrested, Supposed to be His Wife. SAN FRANCISCO, Dec. 30.—A woman of the name of Florence Waterman has been arrested by detectives here, and it is claimed she has not only acknowledged being the wife of Marion Heald, who is suspected of being one of the gang of train robbers which held up the train at Glendale, Mo., November 29, but has given information which may lead to the arrest of other members of the band in addition to Albert Sly, who was arrested last week in Los Angeles, and who was taken East on Sunday without the formality of extradition papers.

HOLIDAY SHOPPERS. Should See the Wonderful Array at Julius Gradwohl's Bazaar. Mr. Julius Gradwohl, the enterprising proprietor of the Bazaar store in this city, which contains the largest and best selected stock of crockery, glass and other wares for domestic use in the valley, as well as fancy wares, toys and beautiful holiday goods, has replenished and enlarged his entire stock and now has a store that is a credit to himself and an ornament to the city.

He also carries a gigantic stock of beautiful hanging lamps, stand lamps, bicycles, tricycles, safes and velocipedes, which he guarantees to sell as low as any place in Oregon.

His assortment of fine teas and coffees is always complete, as well as a general stock of family groceries. He buys his goods direct for net cash and sells them the same way.

GRANGE FILMS. Saturday Dec. 26, the regular monthly meeting of Tangent Grange was held. Owing to the muddy condition of the roads and the day being very stormy, but few ventured out. The meeting was full of interest. The first and second degrees was conferred upon

RAILROAD ACCIDENT

Four Men Killed on the Union Pacific.

A LOCOMOTIVE'S FATAL LEAP.

Engineer and Fireman Instantly Killed—Miraculous Escape of the Mail Agent—Unlucky Tramp.

LA GRANDE, Dec. 30.—Train No. 1, or the Union Pacific, which left here at 8:30 p. m. last night, met with an accident which caused the death of Engineer E. E. Law, Fireman George Miller, E. L. Law, named Zuminiski, and fatal injuries to another tramp named Sigmer, when about two miles west of this city. No. 1 was the fast mail train; it was drawn by two engines, the head one being one of the huge ninety-ton hogs.

It is supposed that in rounding the curve the head engine spread the rails precipitating the second engine, the mail and baggage car into the river below. Engineer Law and Fireman Miller were instantly killed. Mail Agent Holway had a miraculous escape. Although his car plunged bodily into the river from an elevation of not less than fifty feet, he got out with but a slight bruised arm. None of the passengers were injured.

CANADA'S FATE. Labouchere's Truth Predicts What It Will Be. LONDON, Dec. 30.—Truth, Labouchere's paper, publishes an article on Canada's future, drawn out by the troubles in the province of Quebec. Truth says it is the manifest destiny of the Dominion to become a new United States or to become attached to the great republic. The charge is inevitable, and the sooner it occurs the better.

NEWS OF THE COAST. Interesting Items From Exchanges Throughout the Northwest.

Athena is making strong efforts to have an eastern Oregon branch of the state experimental station located there.

A Grant county man has received a patent for a device for spraying water on the blades of a mowing machine while in motion. The invention is intended to prevent the accumulation of gum on the cutting bar.

The population of Grant county at the last census was 5083. This shows an increase of 18.16 per cent, over the population of 1880, not including something over 2000 people that since that date were put into Harney county.

John Winn, Umattila county's stock inspector, finished his fall inspection about two weeks ago, finding about 124,000 head of sheep in the county. Sheep, generally speaking, are in good condition, there being very little scab as compared with other years.

Malheur city has no saloon. It is in the center of an old mining district and was founded originally as a mining camp, yet is inhabited by a people who do not indulge in intoxicants, and therefore the existence of a saloon there is impracticable.

The La Grande Gazette declares evidence is satisfactory that William Ashmead, whose mysterious disappearance was recently noted, left the state for the purpose of defrauding creditors. One charge against him is that he sold property which he had previously mortgaged.

The Buildings Blown Down. TENCHAPPEL, Cal., Dec. 30.—A terrific wind storm came up from the southeast last night at a late hour and blew down three buildings and four or five windmills. The buildings are a total wreck, also the windmills. One of the buildings was a new two-story building. A heavy snow is falling this morning.

High-Toned Chilean Refugees. WASHINGTON, Dec. 30.—A dispatch states that the fact was developed at yesterday's cabinet meeting that the refugees at the American legation in Santiago are proving a source of great embarrassment to the administration. In the event of hostilities between the United States and Chile it would be impossible for this government to afford them any further protection. In the event of war Egan would be given his passport and permitted to leave the country in safety, but not the refugees. It seems, too, the refugees are proving themselves a white elephant on Egan's hands. They insist upon being entertained in the most hospitable fashion, and they seem to feel their right to the best which the legation affords is unquestioned.

Pepps. This is what you ought to have, in fact, you must have it, to fully enjoy life. Thousands are searching for it daily, and mourning because they find it not. Thousands upon thousands of dollars are spent in vain, by our people in the hope that they may attain this boon. And yet it may be had by all. We guarantee that Electric Bitters, if used according to directions and the good persisted in, will bring you good digestion and content the human Pepsin and induce instead Epepsin. We recommend Electric Bitters for Dyspepsia and all diseases of Liver, Stomach and Kidneys. Sold at 50c and \$1.00 per bottle by Foshay & Mason, Druggists.

TO GOOD TENDER. Do you know that Moore's Revealed Remedy is the only patent medicine in the world that does not contain a drop of alcohol; that the mode of preparing it is known only to its discoverer; that it is an advance in the science of medicine without a parallel in the nineteenth century; that its proprietors offer to forfeit \$1,000 for any case of dyspepsia it will not cure?

than any other paper in the state

—a sworn circulation, sir, of 100,000 copies daily, and it's a paid circulation, too, and we reach the families, sir. Our paper is read by 500,000 people every day, and when you consider this our advertising rates are—well, they're so low that we're going to advance 'em 50 per cent right after the first. I don't exaggerate in the least, sir, when I say that we offer positively the best advertising medium in the United States. Why, you can see for yourself what the results would be from an ad placed before 3,500,000 people every week—and where are you going?"

"I round town a little," replied the stranger, putting on his hat. "The article you make is a nerve medicine, and I came in to sell you a bottle, but I see you don't need it."—Detroit Free Press.

Governor of Marquessa Islands. SAN FRANCISCO, Dec. 30.—Captain A. Taintain, of Paris, who has been appointed governor of the Marquessa Islands by President Sadi-Carnot, has arrived here on his way to Tahoahe, the island capital. He is accompanied by Mme. Taintain and child. Under the protection of the late General service to the French government of material importance. It is believed, now he has become governor, he will take measures to suppress the wars that have been waged for many years among the islanders. Governor Taintain is about 40 years of age. His services have been nearly all in the army hitherto. The force of troops at Tahoahe and elsewhere on the islands hitherto has been too small, and to strengthen them is one of the purposes of the new executive. Governor Taintain will sail for his post at Tahoahe on the bark Tropic Bird January 1.

General Sherman's Daughter. WASHINGTON, Dec. 30.—The marriage of Miss Rachel Sherman, daughter of the late General W. T. Sherman, and Dr. Paul Thordyke, of Boston, was solemnized at high noon to-day at the residence of Senator Sherman, in the presence of a large number of friends, relatives and high officials from here and all parts of the country. Father Sherman, brother of the bride, performed the marriage ceremony. After the ceremony a reception was held, and the guests partook of a wedding breakfast. Among those present were: President and Mrs. Harrison, Mrs. Allen, Vice-President and Mrs. Morton, Secretary Blaine, Mrs. Blaine, Mr. and Mrs. Damroch, Secretaries Rusk and Tracy, Senator and Mrs. Stanford, Sir Julian and Lady Pauncefote, Misses Pauncefote, General Alexander and Admiral and Mrs. Franklin.

Call at French's jewelry store and see the "Lunar" clock. The latest thing out.

CURIOS FACTS. Twenty-two newspapers in the state of Kansas are edited by women. It is difficult to trust a person's theology when his grammar is faulty. A single ranch in Washington produced fifty tons of hops last season. An old Chinese proverb declares that good food is not as important as good cookery. One lumber mill in the state of Washington turned out in 1890 63,000,000 feet of lumber. In the city of Berlin, with a population of 1,315,600, there are but 23,800 dwelling houses.

RAN INTO A WHALE. A Steamer Thrown on Her Beam Ends. A novel and exciting incident occurred on the recent voyage of the steamer Titus from Melbourne to Newcastle through the vessel striking a large whale. The Titus returned to port at Newcastle this morning. Chief Officer Nicholson, in alluding the affair, said that on the 8th inst. the vessel was ten miles north of Wollongong, when it happened. A southerly gale was blowing, and with the aid of squarrels, the Titus was hustling along at a ten-knot speed.

Everything was going along merrily. Mr. Bell, the second engineer, and he were located aft amusing themselves by shooting gulls. It was about 10 o'clock in the morning when the steamer suddenly bumped and canted seaward. The chief officer and engineer were sent sprawling on the deck. The men below rushed upon the deck to ascertain the cause of the commotion. On looking astern Chief Officer Nicholson noticed the sea was crimson upon them that the vessel had hit a sea monster.

Glancing further seaward an unusual sight met their gaze. A large whale was lashed, the waves in its death struggle. It was plainly seen to leap three times out of the water. With the aid of powerful glasses the finishing moments of the monster were visible. The whale appeared to have been struck just above its pectoral fin. It whirled and lashed the sea at first with tremendous rapidity. Slowly its efforts grew feeble. There was a brief revival of the death stroke and the creature then disappeared.

NOT HIS BEST MARKET. A Newspaper Office Where no Nerve Tonic Was Needed. He walked into a Chicago newspaper office confidently and took a seat. "Are you the manager?" he asked briskly. "What can I do for you?" replied the newspaper man in a non-committal tone. "I'm a patent medicine manufacturer. Your paper has a pretty wide circulation, hasn't it?" "Wide!" The newspaper man swung round in his chair. "Wide! I should say so. We have a circulation greater by two to one
