OREGON PACIFIC TIME TABLE.

Arrives Departs

THE interstate commerce com mission vacancy seems togo a begging as Culbertson declined to accert. It will probably go to Lamberson of Nebraska or Duncan of South Carolina.

Ir is some comfort during the windy wet weatherthat 'has been giving Oregon such a disrgreeable time lately, to here that we are escaping a good deal of cold tingling weather. The thermometer in the Mississippi states is away down below zero.

THE Chilian news is of all kinds and descriptions. Part of the time being of that blood curdling variety that would indicate an almost immediate resort to arms, and then of the pacific order indicating no other thought than perfeet harmony and peaceful settlement of all disturbing questions. The latter view of the case will probably be the correct solution of the subject.

PRESIDENT MONTE, of Chile, who has finally been installed into office, finds it anything but a sinecure affair. He is pacific in his intentions, but must submit to the demands of the navy, which is the predominating power in that land. The navy wants war and may possibly get it in a more emphatic manner than it desires. There might not be enough of it left to dictate very much to President Montt, or anybody else.

HENRY WATTERSON, of the Louisville Courier Journal, has underwhich the old augean stable task of Hercules falls into insignificance. It is no less a feat than the work of the democratic house task by giving them a thorough scolding. The result will undoubtedly be the house will fall into line and obediently wait for Henry to tell them what to do. The rest of us can quietly and explanation is "Heart Disease." peacefully look on, while the frown wilts the democratic hosts into quietness and acquiesence.

The quality of a Christmas gift is a matter of taste, and is usually an index of the refinement of the donor. The Chronicle thinks that the revolver will probably be barred as a Christmas present by all women who read of the sad fortunes of Sadie Brown of Birmingham, Ala. Sadie gave her lover a pistol on Christmas eve, but the next day, which was appointed for the wedding, she had changed her mind and wanted to retire from the compact. There would probably have been a scene, but the lover was provided with his sweetheart's pistol and he cut short all discussion by shooting her dead. The moral is too plain to need stating.

THE question of holding cranks and insane people responsible for their acts, and punishing them without consideration of their mental condition, is one that is being seriously considered by many people. The recent atrocious use of dynamite bombs, and the tendency towards a still more extended application of such agents by such friends incarnate, will cause a still more wide spread consideration of the subject. It leads the Chronicle to say that the dynamite bomb is becoming the weapon of cranks and fanatics, and before we are through with it the world may curse the inventor of the terrible explosive. About the worst case that has happened in the old world is the explosion of four bom bs in a church in Valencia, Spain, which wrecked the high altar and injured several people. The atrocity of this crime is almost without parallel, for even one who has no faith in religion would be slow to wreak his vengeance on an edifice held sacred by thousands.

There is nothing in the situation of affairs in Chili which gives any encouragement to the belief that matters may be settled amica-

THE CHILIAN SITUATION.

Chili should understand tha

will not accept as conclusive any adgment or finding of a predjudiced tribunal, more especially since the Chilian government has never expressed any regret for the unfortunate affair and never intimated even that the blame might be shared by both parties. Chili has stood squarely on the proposition that the sailors of the Baltimore were wholly in the wrong

the people of the United States

and that they got no more than they deserved.

When to this defiant and cavalier attitude is added the contumely with which Americans have been treated on all hands,

her to make friends.

the suspicion with which the American Legation has been regarded, and the avowed hostility of all classes of the Chilians to citizens of the United States, however unoffending, it must be obvious that all talk of amity is silly and nonsensical in the extreme. Chili shows no disposition to be civil or decent, to say nothing of being friendly, and we certainly shall not try to persuade

It will probably be the duty of President Harrisson to lay the sicuation before congress at an early day, and we risk nothing in saying that that body will be a unit on the question of upholding the honor of the nation. Congress contains Republicans, Domocrats, to call and look knowing that we can please you as well as save you money. At Mugwumps and Farmers' Alliance men, but when the flag of the Union is trampled upon and trailed in the dust they all belong to one party, the American party, and there will be no hanging back if severe measures are seen to be necessary. Chili will have only herself to blame if the United States shall be compelled to give her the lesson which she needs so
