Ah, distinctly I remember Gentle words from woman's lip, When the dewy twilight rested On the grass where fairies trip, And the daylight's dying embers Faded on the purple lea, As I heard in broken whispers

What a maiden said to me. Curls blew lightly round my shoulders As the soft wind kissed the vine, The dark eyes from darker lashes Threw their love light into mine:

With a soft melodious glee, And its music seemed to echo What a maiden said to me: In my arms another's rested, In my hand another's burned And so tenderly I pressed it

That the pressure was returned;

Then I whispered low and asked her

If my true love she would be,

And I think I need not tell you,

At our feet the brook went singing
