GOOD MEWS FOR BATHERS.

M. Gosselin hasinvented a new safety swimming apy a atus, which has been tried with successful results in Paris. This ingenious apparatus consists principally of an india-rubber pneumatic tube, which, starting from the top of the chest, passes under the left shoulder down the spine as far as the loins, and then divides in two branches, which are rolled round and round the thighs as far as the knees. Some smaller tubes are joined on to the tube which goes down the back, and meet on the chest, following the line of the ribs All these tubes are inclosed in double casing of flannel, which forms a shirt, buttoning in front. An opening at the upper part of the tube, closed by a copper button, serves to inflate the apparatus. This apparatus can be used for bathing, or in Flour, & barrel..... case of shipwreck. It is only necessary to open the aperature at the neck and to blow into it; the loss of Butter, good fresh role gas is said to be so extremely small Bacon, sides ? b that one inflation will last a whole day. To render the apparatus more Dried Apples, & b complete for "those who go down to sea in great ships," Mr Gosselin has invented a buoy to accompany the swimming apperatus which will hold Sugar, by the keg ? b. provisions or valuables. - Medical Record.

ALL SORTS.

New Revised Edition. Entirely rewritten by the ablest writers on ings and Maps.

The work originally published under the title of THE NEW AMERICAN CYCLOPEDIA was completed in 1863, since which time the wide circulation which it has attained FLOUR-Firm; standard brands, in all parts of the United States, and the signal developments which have taken place in every branch of science, literature, and art, have induced the editors and publishers to submit it to an exact and thorough revis-BUTTER-Extra dairy 20c 7 16 ion, and to issue a new edition entitled

THE AMERICAN CYCLOPEDIA. Within the last ten years the progress of discovery in every department of knowledge has made a new work of reference an

imperative want. The movement of political affairs has kept pace with the discoveries of science, and their fruitful application to the industrial and useful arts and the convenience and refinement of social life. Great wars and consequent revolutions have occured, involving national changes of peculiar moment. The civil war of our own country, which was at its height when the last volume of the old work appeared, has happily been ended, and a new course of commercial and industrial activity has been com-

Large accessions to our geographical knowledge have been made by the indefatigable explorers of Africa. The great political revolutions of the last decade, with the natural result of the lapse of time, have brought into public view a multitude of new men, whose names are in for the organization of granges, will one is curious to know the particulars. Great battles have been fought and important sieges maintained, of which the details are as yet preserved only in the newspapers or in the transient publications of the day, but which ought now to take their Washington. Saiem, Oct. 1, 1873

place in permanent and authentic hstory. In preparing the present edition for the press, it has accordingly been the aim of the editors to bring down the information to the latest possible dates, and to furnish dn accurate account of the most recent disoverie, in science, of every fresh production in literature, and of the latest inventions in the practical arts, as well as to give succinct and original record of the progress of political and historical events. The work has been begun after long and

careful preliminary labor, and with the mo st ample resources for carrying on to a successful termination. None of the original stereotype plates have beeen used, but every page has been printed on new type, forming in fact a new Cyclopædia, with the same plan and compass as its predecessor, but with a far great- New Brunswick, N. J. er pecuniary expenditure, and with such improvements in its composition as have

been suggested by longer experience and enlarged knowledge.
