THE INDEPENDENT.

THURSDAY.....JAN. 19, 1888

We have received a communication from the southern part of the county urging a division of the county by annexation to Multnomah as remedy for all existing evils or "bad road" complications. Whenever the southern section has a dull axe, this question of division is agitated. Only a few years ago the county was coerced into constructing one of the most expensive bridges in Washington, at Boone's ferry, through the pressure of this same question of division. And now whenever a protest is made against the surrender of any part of the county, the stereotyped cry is raised, Hillsboro ring!! THE INDEPENDENT knows nothing about any such ring, and is as free from all dictation by it as from the ring of Saturn. When a people have no argument to offer in favor of a radical step, and such action would be in defiance of the best interests of a whole county and a very large majority of its people, the cry of "ring" has become an undisguised subterfuge and is so understood by the enlightened people of the present day and age of selfish interests and poorly disguised methods of malcontents.

The Albany *Law Journal*, which is known and quoted from the Atlantic to the Pacific, says: "When Mr. Blaine says that tobacco is no longer a luxury, but has become a necessary, we think he is ridiculous. It may be so in a presidential, but not in a legal view. He might say as much for alcohol or opium. The courts have decided that it is not a necessary article. In Bryant vs. Richardson L. R., 3 Exch., 93, the court held that tobacco and cigars are articles of luxury and not of utility."

Buenos Ayres, the capital of the Argentine republic, is getting to be one of the largest and finest cities in the world. It has 400,000 population, five great railway trunk lines, 122 miles of street railway, more telephones in proportion to its population than any city in the world, and more electric lights in proportion than New York or Boston. There are nine splendid theatres, which give Italian opera twice a week. Twenty-one newspapers, dailies, metropolitan in enterprise and appearance, furnish the news.

Congressman Morrow's bill to prevent the immigration of anarchists, paupers, criminals, etc., is weak in substituting for the certificates of the United States consul at the point of departure proofs from foreign authorities of the fitness of the person seeking entrance to the United States. Those authorities will only be too glad to get rid of their objectionable classes by sending them to us, and could not be expected to act for our interests as against their own.—*S. F. Bulletin.*

Henry Watterson, in an article on "tariff" in January's *Harpers*, thus scores President Cleveland's policy of tariff for revenue only:" No one entitled to the name of statesman would advise the precipitate substitution of a "tariff for revenue only" for the system of bounties, denominated protection, which we have maintained for a quarter of a century.

The Philadelphia *Press* continues its osculatory investigations and finds that a kiss costs in New York $2500 and in New Jersey $1.15, in Pennsylvania $750, in Ohio $68, and in the western states from $10 to $300. This variation in rates suggests that congress should provide a commission to fix an uniform rate.

Idaho was christened by Joaquin Miller, who by the way, is richer in the lore and languages of our western country than any other man on the continent. Idaho is Bankock, and means "Gem of the Mountains."—*Alta.*

The senate has confirmed the appointment of Lamar to the supreme bench. Senators Stanford, Stewart and Riddleberger voted with the democrats for his confirmation.

A New Yorker has made a railroad car entirely out of wood pulp. He claims that it cannot be destroyed by either fire or collision.

The total cash in the United States treasury on January 1, 1888, was $642,640,500.28, an increase of $19,182,665.19 during the year.

Lamar has taken the oath of office and assumed his duties as one of the supreme justices.

At Night always have Acker's Baby Soother at hand. It is the only safe medicine yet made that will remove all infantile disorders. It contains *no Opium or Morphine*, but gives the child *natural ease from pain*. Price 25 cents. Sold by W. L. Weatherred, Hillsboro; Dr. Bowlby, Forest Grove.

The reason why Acker's Blood Elixir is warranted, is because it is the best Blood Preparation known. It will positively cure all Blood Diseases, purifies the whole system, and thoroughly builds up the constitution. Remember, we guarantee it.

Even among farmers there are doubtless many men who have no idea to what depths the roots of wheat penetrate the earth. Probably the most successful farmer if asked this question would answer "from one to five inches." But all will admit, if they have given the question any thought or investigation, that the roots of an excellent "stand" or "good yield" have invariably grown to a very great depth. To get the land in such condition that the kernal will "stool" and grow of sufficient depth to protect the stalk and its grain from drouth and frosts, is the aim of every tiller of the soil. This naturally calls up the question, "how may our lands be brought up to such state of cultivation?" To every intelligent and inquiring farmer we would advise the adoption of a thorough system of tile drainage. A great deal of land in this county, unproductive on account of its cold nature, has been brought to a high state of cultivation and is yielding enormous crops since the substitution of an intelligent system of tile drainage for the marvelous plan of nature afforded by the open ditch in carrying off the rich surface soil! The tiling not only absorbs the surface water, but carries it away, doing double service, without the waste of soil which is ever present with the open ditch, the worst enemy of the farmer. When the soil is once washed to the ditch, it is carried away by it to the impoverishment of the lands, it deludes many farmers into the belief that it drains. But the water sinking through the earth to the tiling, is absorbed, leaving the rich, loamy segment to give life and buoyancy to the soil above. To show the remarkable life and activity given to the earth through such drainage, a gentleman has placed upon our table several kernals of wheat, just taken from the soil, the fibres of which penetrated to a depth of from ten to fourteen inches. Any one doubting the veracity of this statement, may call at this office and be convinced of its truthfulness. We shall be pleased to exhibit the "stumps" and make a few converts to a better system of drainage.

A Kansas sheep man writes: The facts are the duty on wool instead of ranging from ten to twelve cents a pound, runs as low as two cents per pound. I am a sheep man; I own cheap land and have the Indian territory to graze upon besides, and from experience can say that we of the United States cannot raise wool at the present price. The sheep men are one and all selling and shipping their sheep, and some are buying cattle; others, mules and horses. The free trade men seem to think that if they reduce the tariff, we wool raisers will have to raise wool at a reduced price, but within two years, with free trade, they will have to import practically all of the wool. I own the only bunch of sheep that is left in our township, and unless the tariff is raised mine will be ready for the butcher next year.

The woman suffrage bill has passed both houses of the Washington territory legislature, and awaits the action of the governor. Spokane Falls has sent a powerful remonstrance, and urges the governor to not act until the people have been heard on the subject. Spokane claims the enactment of such law by the territory will do great injury to the material welfare of the eastern division of Washington territory, and will not only retard the territory's admission to statehood, but will make the annexation of a part of Idaho, known as the "panhandle," probably an impossibility. This action on the part of the people of eastern Washington will force the governor to "declare himself" in unequivocal terms. This is a question in which a man would rather be right than governor.

Governor Semple has signed the woman suffrage bill, and again the women of Washington territory will enjoy the rights conferred by the ballot.

The question of constructing a school building in Hillsboro early this year, is beginning to be favorably discussed by many of our leading farmers and business men. A gentleman said to the publisher of this paper to-day that he thought such building is needed by Hillsboro, that it would be a great benefit to the town and county, and hoped our taxpayers would so view the question at the coming school meeting. This gentleman traveled extensively in the east last year, but says he saw no town of the size of Hillsboro more beautiful in appearance than it, and he hopes we will continue to advance as we have done during the past two years. The gentleman referred to is a wealthy farmer, and directly interested in the future growth and prosperity of our county. Many others are beginning to talk in the same vein and it is almost a forgone conclusion that the building is a certainty of the near future. It will soon grace our town, and be among the most valued of our possessions. It will stimulate immigration to the county and induce the construction of elegant and commodious residences in our town.

DIED.

BALDRA.—In Hillsboro, January 17, 1888, Mrs. W. Baldra, aged about 70 years, after a lingering illness.

Mrs. Baldra was among the earliest pioneers to Oregon, and, with her husband, has reared a large and intelligent family. The fifty-third year of her married life was celebrated last September. The tolling of the bells last Tuesday evening at 9:30 o'clock announced her death. She was surrounded by her aged husband, loving children and dear friends, when the death summons came, which found her prepared. Her funeral took place to-day from the Methodist church at 1:30 o'clock.
