

THE INDEPENDENT.

THURSDAY, JAN. 19, 1888

LOCAL AND GENERAL.

Farmers are jubilant since their grain is covered by snow, which will protect it from "freezing out."

Along with the inconvenience of snow, do not forget that it is a great fertilizer and aids the lands greatly by dispelling a surfeit of oxygen.

Have you enjoyed the hilarity of a sleigh-ride?

Oh, those bells! Cow bells! What jolly their music tells—Larkin's cow bells! Wrapped up in a robe was Jobe, and his mighty soul a swelling, as somebody went through town a yelling, with the jingles a-belling—Cow bells!

Please call and pay your subscriptions and begin the new year with a clear conscience and a beautifully written receipt.

Dr. Bowly, of Forest Grove, visited Hillsboro to-day, and made us a pleasant call.

Now is a good time for farmers to get their plows, harrows and farming implements in good condition so that no time may be lost in making repairs when time will be valuable in the spring at seeding time. Give all your machinery a thorough overhauling, bring your plows to the blacksmith shop and have them sharpened, and be ready for "making haste slowly."

Pure Drugs for prescription work at Weathered's Drugstore.

McMinville is now supplied with mail from Portland twice a day, the evening train having consented to accommodate the public in the matter without cost of carriage. Hillsboro will be similarly favored if our people make the request. A morning and evening mail would be a great convenience to the people of both Forest Grove and Hillsboro and we hope the citizens of these towns will make an effort and secure this increase of mail service.

When the eyes become weak or the lids inflamed and sore, a disordered system or a scrofulous condition of the blood is indicated, for which Ayer's Sarsaparilla is the best remedy. It invigorates and vitalizes the blood and expels all humors.

Benny Knight, son of John Knight, of Salem, Oregon, was killed on the toboggan slide at Salem one day last week.

There appears to be trouble in the camp of Company E, second regiment, at Corvallis. The members are attempting to read Captain Smith out of office, and he threatens to have the whole company court-martialed. Nevertheless the privates persist in demanding his resignation. The alleged cause of the trouble is that the captain is not competent to drill the company. The matter will be referred to the state military board.

The evening mail from Portland is quite an accommodation to the people of this city. What we need now is to have the express train leave here an hour later and make better time. If the managers of the road lived in McMinnville they would understand the situation and remedy the faults.—Reporter.

The Chinamen reported as killed at Newton station last week, has come to life. He was only knocked senseless and has since recovered. He belonged to Talbot's section force, of Cornelius. It was thought for a time he was killed, hence the report.

Gilbert Mills, special examiner of the United States pension bureau, has been in Oregon since last October, looking into pension business. There are sixty-nine pensioners of the war of 1812 in the state. Of the entire number, there are about seven who have seen actual service in that war, all of whom are over ninety years of age. Mr. Mills found that the ages of the widow pensioners range from fifty to seventy-five years, and as the war of 1812 was declared nearly seventy years ago, many of them were not born then. When quite young they married the soldiers of the war, whom they survive by many years.

State Superintendent McElroy has decided to appoint Dallas, Polk county, as the place to hold the next teachers' institute for the Third Judicial district, embracing Marion, Linn, Yamhill, Polk and Tillamook counties. The institute will open Tuesday evening, April 23, in the new city hall, and continue for three days, adjourning the evening of April 26th.

Notice of the teachers' institute, to be held at Forest Grove, Saturday, January 21, 1888, did not reach this office in time for publication last week. Read the programme in this issue.

Ayer's Hair Vigor improves the beauty of the hair and promotes its growth. It prevents the accumulation of dandruff, cleanses the scalp, and restores a natural color to gray hair. Have you received Ayer's Almanac for the new year?

Leslie Holmes, of Middleton, this county, 19 years old, has a muzzle-loading shotgun, one barrel of which has been loaded for some time. Tuesday morning he undertook to load the remaining barrel, holding his hand over the muzzle. In some way the gun was discharged, the charge of shot entering the outer edge of the hand, lacerating the two last fingers. Dr. Lyle, of Middleton, and Dr. Moore of Newberg, were summoned and amputated the fingers.

At Benton, recently, the wife of Wesley Roy, a farmer, gave birth to a quartette of two boys and two girls. This is remarkable as it is the first of the kind that ever occurred in the state. All of the children and mother are doing well.—McMinnville Reporter.

Senator Ingall's beautiful residence in Kansas, costing \$50,000, was destroyed by fire last week. The senator also mourns the loss of a beautiful library, which he says cannot be replaced.

Don't fail to call at Weathered's Drug store and examine the new stock of books and notions.

The following dispatch from San Francisco, of date January 14th, will be found of interest to wheat growers, inasmuch as it is likely to affect the price for the better in this valley: "Wheat freights have dropped to such a low figure that wooden ships are rapidly obtainable to go to Liverpool direct for 20 shillings per ton. The German iron ship Richard Wagner has just been chartered for 21 shillings per ton, the lowest rate ever paid for an iron ship going to England. Ship owners ask 28 to 30 shillings per ton for vessels to come here from England, and 21 and 22 shillings from Australia."

Owing to the inclemency of the weather, the Columbia Poultry association has decided to postpone their exhibition until February 7th, 1888.

Some months ago a prominent physician of Aurora, Nebraska, finding his health failing from overwork and other causes, left his practice and moved to Chicago. Arriving there he devoted himself to the practice of a specialty and advertised his business in the papers. For this the state board of health revoked his certificate, which delarred him from the practice of his profession either in a general or a special line. The physician brought action in the circuit court against the state board of health, and Judge Waterman of that court a few days ago rendered a decision in which the ruling of the state board was declared to be unconstitutional. This decision, in effect, is that a physician has the same right to advertise his business as has a grocer or dry goods dealer or real estate operator, and that restrictions upon that right are unconstitutional. The doctor is to be congratulated upon being instrumental in having this decision awarded. The practice may be slightly unprofessional, according to the strict ideas of the "regulars," but this has nothing to do with the right of the individual to advertise himself as a physician or to call public attention to the fact that he is devoting his energies to the practice of a special branch of medicine.

The small child that was born recently in La Grande, died Wednesday morning. It was nine days old and weighed only one pound and a half.—Gazette.

Mr. George Morgan, of Los Angeles, California, is visiting friends and relatives in Hillsboro, after an absence of several months.

Prof. Von Hippel has shown to the Ophthalmological Society of Heidelberg his second success in grafting the rabbit's cornea into the human eye. The patient's visual power with the new eye is about one-tenth of the normal, and course print may be read.

Mr. and Mrs. C. W. Meek will give a ball at their residence, three miles north of Hillsboro, on St. Valentine's eve. Every one is invited. Good supper and first-class music will be a feature of the ball. This will be the event of the season. Tickets, \$1.50.

Rev. G. E. Gerowe, who came from the east to accept a position as teacher in the United States Indian training school at Chemawa, under the charge of Superintendent Lee, resigned his position on Monday. Mr. Gerowe went to Portland yesterday, and will return to his home in the east, immediately. Mr. Gerowe is a highly educated man and a thorough gentleman. He was most efficient and painstaking in his position.

pre-eminently the right man in the right place, and his treatment should have been such as to warrant him in remaining at the school. His place will be hard to fill. The school, under its present management, is nothing more nor less than a festering place of jealousy and discontent, and it takes a man with the patience of Job and the meekness of Moses to remain there and retain his self-respect for any length of time. It is a public nuisance and a disgrace to the interior department. It needs a new superintendent worse than any institution within the range of the writer's knowledge.—Salem Statesman, 18.

Mrs. Van Belt-George has been acquitted at Salem, Oregon, of the murder of her infant child, at the age of four days. She was discharged yesterday.

Grand Medal awarded to "Davies the Photographer," for the best display of photographs, Mechanics Fair, 1887. Gallery, Cor. First and Taylor Sts., Portland, Ogn. 10-1f

The ensuing dispatch from Stockton, California, to the associated press, taken from the San Francisco Post of January 12th, will prove of interest to some Oregon people: "Mrs. McGee, a pretty brunette, alleged to be 16 years old, last night caused the arrest of a young man named Cason, accusing him of forcing her into a house of prostitution by threats of killing her and her husband. George's maiden name was Barnell, and she was ruined by Cason in Salem, Oregon, two years ago. Cason claims to be her husband. She has lived in Oakland a year, and is a member of the Salvation army there, and spent ninety days in jail for vagrancy. Her present husband, McGee, arrived here this morning. After the investigation it was concluded to hold Cason until the arrival of an Oakland officer."

Oregon has been visited by unusually cold weather during the past week. At Hillsboro the thermometer registered as low as from two to nine degrees below zero, the latter being disputed from four to six degrees. Dr. Bailey's thermometer registered nine below, and Ledford's about the same; the indicators at the Tualatin hotel, E. D. Thorn's and a few other points about town, from two to six degrees below. But regardless of the thermometers, it was cold. At the hour of going to press the thermometer has "gone up" to about 60, the snow lies six inches deep, on the ground and indications are favorable for weather.

The Washington territory legislature has appropriated five dollars' worth of postage stamps to each of its members. This is in aid of neglected correspondence. A leopards trick on the women of the territory, who now have power to enact matrimonial compulsory laws in the territory.

TUALATIN ITEMS.

JANUARY 16.—Rev. Bork failed to fill his appointment at the schoolhouse last Sunday. It was too cold to be out much. The thermometer marked 4 degrees above zero last Friday.

Fruit and potatoes are frozen in many houses.

Joe Day had the misfortune to lose one of his horses last week, and Mr. Sager lost both of his. Many other horses around here are sick.

Mr. John Barngrove's house caught fire last week, but the fire was soon under control and much damage was done. The fire started in the sill under the fire place.

The entertainment given in Cummins' hall last Wednesday evening by "The Owls," was a rare treat to those who attended.

Miss Longworth, who has been staying with her sister, (Mrs. Tilton) since last September went home last Friday. She lives in Jefferson, Marion county. Ben Cummins has employed a Chinaman doctor, and is improving very fast in health. He says he feels better than he has before for years.

Mr. W. F. Young is teaching school at "Yale college" now near Middleton. School will close in district No. 26 next Friday. W. R. Wrummer is teaching there.

A Good Man Gone.

(Cheney Sentinel.)

Uncle Philip Harris is dead! He passed away peacefully and calmly on the 19th at 11 o'clock p. m. of pneumonia. His two sons, Lufe and Steven, were with him during his short illness. Mr. Harris was born in Deerfield township, Cumberland county, New Jersey, on the 21st day of January, 1808, and was married to the wife who survives him, at the age of nineteen and she was seventeen. He left New Jersey and settled in Ohio, and came to Oregon in 1845, when the whole party came near starving to death on the route. The pioneer party who came to Oregon in those days has an interesting history which can not be written in this obituary. Uncle Philip lived in Washington county, Oregon, until about twelve years ago, when he crossed the mountains for Eastern Washington and has since resided on the margin of Granite lake, four miles north of Cheney. This remarkable man has an exception to the general mass of mankind; he was a philosopher and communed with nature, preferring beauties of the clear lake, the green sward, the towering mountains, or the glided contours of life to the gilded, chary, or spire, the cushioned pew or fashionable society. He loved God and eschewed evil. No man here with the afflictions of manning with more calmness or charity than did the subject of this sketch. Nothing ruffled his temper or aroused his anger, always kind, persuasive and lovable in his disposition, always ready with a big heart and open hands to aid a struggling fellow man and encourage the young to good works. He was strictly a pioneer and spent all the days of his manhood on the frontier. If he had an enemy on earth when he left it, he was not aware of it. He was a consistent member of the Baptist church, and done good all the days of his life. Truly a remarkable man has gone, full of years and good works. If the following was adopted as an amendment to section 1, article V, of the constitution: "That it shall be the additional duty of the president to appoint two members of the society to introduce exercises either by appointment or extempore, as the president may direct. The second to come under 'good of the order,' and to be a miscellaneous selection to be named by the president. Appointees, except for extempore speeches, must have two weeks' notice and no exercise to exceed ten minutes. Extempore speeches must exceed three minutes."

Teachers institute.

What will the Great Fore-Grove politicians do for gossip, now that Lamar has been confirmed? Perhaps they will discuss the pros and cons of the woman's suffrage bill just passed by the Washington territory legislature.

Our citizens experienced a genuine Chinook wind last Tuesday, which reduced the snow from a dry to a packed shape and converted the small boy from a state of innocuous desuetude to an active participant in the snow ball act.

Little Lulu Hiatt, aged ten years, died last Tuesday after a lingering illness of several weeks. The funeral occurred at 2:30 o'clock on Wednesday.

J. C. Clark and Miss Mary Chandler were married last Wednesday at the residence of the bride's mother, in this place. The ceremony was performed by Rev. Russ, of McMinnville, assisted by President J. F. Ellis, of Pacific University. About thirty invited guests were present. Mr. Clark is a graduate of Pacific University, class of 1886, and is a steady, straightforward and conscientious young man; Miss Chandler has resided in the Grove for a number of years and is universally respected. The nuptial couple left on the evening train for their future home in La Grande. They have a large circle of friends in this place who unite in wishing them a long, prosperous and happy life.

Public rehearsals this afternoon, beginning at 1:30 o'clock.

Quite a number of the boys have let contracts for sleighs, within the last day or two.

Clyde Cook is arranging an entertainment, which will be given sometime next month.

Don't trifle with any Throat or Lung Disease. If you have a Cough or Cold, or the children are threatened with Croup or Whooping Cough, use Ayer's English Remedy and prevent further trouble. It is a positive cure, and we guarantee it. Price 10c and 50c.

Our reliable Medicines are the best to depend upon. Ayer's Blood Purifier has been prescribed for years for all impurities of the Blood. In every form of Scrofula, Syphilis or Mercurial disease, it is invaluable. For Rheumatism, has no equal.

William Christian, a brakeman on the narrow gauge railroad, was run over and killed by the cars at Brownsville, Oregon, last Thursday.

FOREST GROVE NOTES.

(From our Regular Correspondent.)

On last Friday evening Charley Vaughn, a young man in the employ of H. D. Bryant, who lives near Gaston, was attacked by a Jersey bull owned by Mr. Bryant, and narrowly escaped with his life. Mr. Vaughn was doing the chores when he was attacked by the animal, which soon had him down and laid for the timely assistance of Mr. Bryant would doubtless never have escaped alive. As it was, he was gored in a frightful manner. This animal, which practically runs at large, is the terror of the community, having chased several parties heretofore. Such a brute should be kept securely tied, and not allowed to run where public travelers are liable to be attacked by it. A "word to the wise" would be sufficient.

Aaron Wells and wife, of Lafayette, have been visiting with their parents in this place for some time past.

A slight disagreement occurred at the Gales Creek schoolhouse last Saturday evening, where some exercises were being held. Frank Sellman, a Christian brother, who also proved to be a "bad man with a knife," made some remarks, derogatory to the character of dancing and those who attended dances, which were resented by William Lee, who proceeded to annihilate the man with the knife, but soon retired second best, with the honors of war.

A. S. Venn has a nice assortment of American Waltham, Elgin and Rockford watches on hand, which he is selling at "hard times" prices, also a few Boss gold cases. The public should remember that he makes a specialty of coarse hand and fine haired work in the repairing line.

Miss Emma Cox, a former student in T. A., died at her home on Gales Creek last Monday. Her funeral occurred on Wednesday.

The thermometer used in the laboratory of Pacific University, which is probably the most reliable one in town, marked 214 degrees Centigrade, which is equivalent to 7 degrees below zero Fahr., on last Monday morning at 6 o'clock.

Yesterday (Thursday) afternoon the Philanthropic society discussed the relative merits of the cat and dog as a household necessity. The decision, we understand, was unanimous in favor of the latter, and an immediate and relentless war of extermination is to be waged upon the luckless disturber of our slumbers, by the young ladies of this society.

H. McDonald, our architect, has opened an office, upstairs over Chandler and Roberts' furniture shop. Mr. McDonald is a fine workman and has drawn up some of the most elegant building designs in Oregon and California.

James Catching, who lives near the Grove, had the misfortune to dislocate his jaw last Monday night, while in an epileptic fit. The injured member was set by Dr. Large and he is doing very nicely.

This evening the Gamma will discuss the question, "Resolved that the civilization of America is superior to that of Europe." Affirmative, Taylor; College, Lyons; negative, Wilkes; College Snyder. On last Friday night the following was adopted as an amendment to section 1, article V, of the constitution: "That it shall be the additional duty of the president to appoint two members of the society to introduce exercises either by appointment or extempore, as the president may direct. The first to take place immediately after 'appointment of critic,' and to be a speech either prepared or extempore, as the president may direct. The second to come under 'good of the order,' and to be a miscellaneous selection to be named by the president. Appointees, except for extempore speeches, must have two weeks' notice and no exercise to exceed ten minutes. Extempore speeches must exceed three minutes."

Teachers institute.

William Christian, a brakeman on the narrow gauge railroad, was run over and killed by the cars at Brownsville, Oregon, last Thursday.

UPPER PATTON VALLEY.

JANUARY 16.—Thinking a few items from this part might be interesting, the following is submitted.

John Lee and the weather clerk both skipped out sometime ago, and the latter has left his business without even a widow to look after his affairs, and we have been having quite a medley in the weather line, judging from the way timber, ink bottles and other crockery too full of moisture are cracking and popping. It would be better not to say anything about this tropical climate at present.

Mrs. Fred McLeod returned home some time ago, and we are glad to say her health has been greatly improved during her stay at Amity.

The oyster supper on New Year's eve, at Robert Patton's, was a decided success. The culinary department reflects great credit upon the ladies who had charge of it.

Fred McLeod lost a valuable horse from blind staggers.

Johnny McBurney and Mr. Nevels, of this valley, are repairing the old Bates sawmill, and expect to cut considerable lumber next summer.

Johnny has taken up 120 acres U. S. land, built a house and we should judge from appearances that he is looking for another partner in the sawmill business—and otherwise.

Solomon, of Gaston, has probably been appointed Santa Claus pro-tem.

Bad colds have become almost an epidemic in this part of the county.

A little boy of Frank Warner, of Scoggin Valley, died a few days ago of croup.

Last Saturday night, as Mr. Scott was about to retire, he heard the hens squalling, and with gun and lantern, hastily proceeded to the hen roost and found his dogs laying at the foot of a tree near by. The glare of the light soon revealed a large pair of sliding orbs, and it was not the work of a moment to give him a charge. Down came the puffer, which proved to be a large catamount. Any one that is bothered with any kind of varmints would do well to call on H. W. Scott, of Gaston, as he has the best trained varmint dogs in Oregon.

Mr. Deney has been down for a few days but is around again. A Hava.

What Not to Say.

"Stopping" for staying. As, "He is stopping with us," for "He is staying with us."

"Right away" for immediately. "Come right away" should be "come at once," or "immediately."

"Some," for about or probably. "It is five miles to town," should be, "It is about five miles," etc.

"Storms," for rains or snows. Storm is an atmospheric disturbance and has reference to air and wind.

"Nice," for pretty, good. "That is nice, he is a nice boy, isn't she nice?" etc. Something nice is delicate, exact, as a nice point in a discussion.

"Try and come, do write," etc., for "Try to come, do so, to write etc." "I shall try and come to see you soon," should be "I shall try to come," etc.

"Pasted," for informed. "As he is not posted on that matter; post him on the subject." Post means to put up a sign or to drop a letter in the post-office.

"Guess," for suppose or think. "I guess that is right," should be "I think," etc. "Guess means to hit at random," as "I can't guess how many cents you have."

"Party," for person. Party is a gathering of people, not an individual. "Who is that party?" when one is meant, should be, "Who is that person or individual?"

"Funny," for odd, strange. As, "it seems very funny to me that he does not come," should be "it seems very strange," etc. Funny is something amusing, full of fun.—N. Y. Mail and Express.

A committee appointed by the Oregon Fruit Growers' association is collecting a quantity of fruits to make a display at the meeting of the American Horticultural society, to be held at San Jose, California, in a few days. The committee has decided to take about 100 pounds each of six varieties of choice prunes; to get all sorts of dried fruits, especially Bartlett pears; to secure lots of late apples and pears of winter varieties; to have a large assortment of small fruits dried and canned, and as full a variety as possible of canned fruits.

We should not complain of the late cold weather. In Dakota, Minnesota, Montana and other states and territories, the wind had a fierce velocity, at one point attaining a velocity of fifty miles an hour, with the thermometer forty-nine degrees below zero.

ROYAL BAKING POWDER Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the adulterated of low test, short weight alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO. N. Y.

Small Profits & Quick Sales We also deal in all kinds of AGRICULTURAL IMPLEMENTS, at LOWEST PRICES. Our Patent Gears are made entirely of Steel and Iron, which make them more lasting than any other buggy made for all climates, and will NOT COST TO KEEP THEM IN REPAIR ORALLY WEAR. BY ORDER, MAKE DOWN WHERE WOOD AND IRON ARE COMBINED. We furnish Gears for Thirty Dollars, less 10 per cent. for Cash, shipped on Cars at Beaverton. Address all orders to EDWARD SQUIRES, BEAVERTON, OREGON, January 17, 1887.

LOCAL TEACHERS' INSTITUTE.

At Forest Grove, January 21, 1888.

EDITOR INDEPENDENT.—Believing that a greater number of teachers and interested persons can be reached through the medium of your paper than in any other way in the county, we would call the attention of teachers to the programme of the third local teachers' institute, which will be held in the schoolhouse at Forest Grove on the 21st inst. The exercises will begin at 9:30 A. M.

The patrons and school officers of all districts within a reasonable distance of the Grove, are cordially invited to be present.

Teachers will please note the time and place of meeting, and make the necessary preparation for discussing any or all questions that may come before the institute. We hope no teacher will stay away from this institute that can possibly be present. These meetings will prove profitable to every one who will attend, and as we desire a force of teachers in our county who are wide-awake in their work—thoroughly qualified for all the duties that may devolve upon them while in charge of their schools—and workmen who need not be ashamed of the results of their labor, which can be attained by taking an active part in all meetings and associations for the benefit of teachers, combined with a thorough course of reading and continued, steady, persevering study.

PROGRAMME.

- 1. Organization. 2. Methods of Recitation. 3. Past and Present Methods of teaching and school government. 4. Practical Measurements. 5. Music in Schools. 6. Mental Arithmetic. 7. How can Tardiness be prevented? 8. An Ideal School. 9. Which method is preferable in teaching a beginner to read—the A, B, C—the phonetic or the word method and what are the relative merits of each? 10. How can the effects of Alcohol, Beverages and Narcotics be best taught in our schools and how much time each day should teachers be required to devote to the subject. The above exercises will be interspersed with good music, recitations, etc.

T. T. VINCENT, County Superintendent. Middleton, O., January 5, 1888.

Mrs. Baldwin, a San Francisco lady, has brought suit against the Mexican government for \$100,000 for the murder of her husband in Durango. The matter will be speedily acted upon by the department at Washington. Baldwin was a superintendent of mines owned at Vautaus, Durango. These mines were owned by Americans, and the hatred of Mexicans led them to murder the Americans employed in and about the mines.

And Carbuncles result from a debilitated, impoverished, or impure condition of the blood. Ayer's Sarsaparilla prevents and cures these eruptions and painful tumors, by removing their cause; the only effectual way of treating them.

Ayer's Sarsaparilla has prevented the usual course of Boils, which have pained and distressed me every season for several years.—G. Scobie, Plainville, Mich.

I was badly troubled with Pimples on the face; also with a disoloration of the skin, which shaged itself in ugly dark patches. No external treatment did more than temporary good. Ayer's Sarsaparilla effected a permanent cure.

A Perfect Cure, and I have not been troubled since.—T. W. Boddy, River at, Lowell, Mass.

I was troubled with Boils, and my health was much impaired. I began using Ayer's Sarsaparilla, and in due time, the eruptions all disappeared, and my health was completely restored.—John H. Atkins, Editor Stanley Observer, Albemarle, N. C.

I was troubled, for a long time, with a humor which appeared on my face in ugly Pimples and Blisters. Ayer's Sarsaparilla cured me. I consider it the best blood purifier in the world.—Charles H. Smith, North Craftsbury, Vt.

Ayer's Sarsaparilla is sold by all druggists. Ask for Ayer's Sarsaparilla, and do not be persuaded to take any other.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Price \$1; six bottles, \$5.

Something New Introduction of SQUIRES' PATENT CARRIAGES!

I AM NOW MAKING THEM IN Three Styles: Side Springs, End Springs and Three Springs. I keep on hand and make to order at Lowest Prices, my PATENT CARRIAGES!

They have been in use for about three years and are giving good satisfaction. Please call and see my Sixty-five Dollar Buggies, and my Hacks with Two Seats and Fole, all trimmed in good style, for One Hundred and Twenty Dollars, and Carts for Thirty-five Dollars to Fifty, with my Patent Improvements on them. All work warranted. Our Motto is

Small Profits & Quick Sales

We also deal in all kinds of AGRICULTURAL IMPLEMENTS, at LOWEST PRICES. Our Patent Gears are made entirely of Steel and Iron, which make them more lasting than any other buggy made for all climates, and will NOT COST TO KEEP THEM IN REPAIR ORALLY WEAR. BY ORDER, MAKE DOWN WHERE WOOD AND IRON ARE COMBINED. We furnish Gears for Thirty Dollars, less 10 per cent. for Cash, shipped on Cars at Beaverton. Address all orders to EDWARD SQUIRES, BEAVERTON, OREGON, January 17, 1887.

Patent Buggies, HACKS AND CARRIAGES!

Greatest variety ever opened in the county.

GROCERIES and CANNED GOODS!

At prices that utterly defy competition.

We believe in "quick turns" on small profits. Come and see how a "nimble" squire can beat a slow shilling.

Produce taken in Exchange For goods at highest market rates.

Special inducements offered to those purchasing their Winter Supplies of us.

BAILEY, TONGUE & SCHULMERICK, BEAVERTON, OREGON, January 17, 1887.
