—Two women, one the wife of a prominent butcher, and the other of a barber in the Occidental hotel at Seattle, were arrested one day this week for shoplifting, and fined \$150 each. An attempt was made to use cash money.
—The stockholders of the Portland Cable Railway company held a meeting last Monday. The company is now so firm a footing that the completion of the work is assured.

Business is almost entirely suspended on the line through portions of Illinois, Pennsylvania, Iowa and Nebraska. The strike was inaugurated by the Brotherhood of Engineers, and was joined by the locomotive firemen on the line. Two hundred and sixty engineers stepped off their engines. The Knights of Labor, owing to bad feeling toward the Brotherhood of Engineers, is supplying men from its ranks to fill the places of strikers.

HILLSBORO CREAMERY.

The following is the product turned out by the Hillsboro creamery for the first month ending February 1st, 1888, and the amount of cash received at Hillsboro, net, above freights and commissions:
August—1008 lbs butter, sold for \$284 41
Sept. 962 " " " " 314 98
Oct. 1071 " " " " 350 45
Nov. 1074 " " " " 345 84
Dec. 1198 " " " " 444 75
Jan. 1198 " " " " 465 25
Total—6544 " " " " \$2306 79

It is seen by the above that the product of butter has increased during the winter months, when cows decline in milk. In this case the decline has been more than compensated by the increase of persons sending milk. This industry, quickly organized and carried on, is distributing considerable money among our farmers, where none, or but little, was realized before. From present indications, the creamery will be well patronized during the coming summer. We are informed that the most productive and best paying cows are the Ayshire of Thos. H. Tongue. This has been true more particularly during the winter months.

While the present depressed price of grain continues, it would be well if our farmers and stock men would examine carefully the working of the creamery, and the costs and profits of butter making. Several of these patrons, in this country, declare their intention of increasing the number of their cows, and of giving them increased attention.
—Miss Philena Graham, formerly of this county, and at one time a student in Pacific University, died at Monmouth February 23d. We have been requested to publish an obituary, which will appear in next issue.

—Geo. P. Clapp, of San Diego, is negotiating for the building of a mill at this point. This enterprise alone would be worth more than the interest on a free bridge would cost the county.—Oregon City Enterprise.

—Mr. N. T. Okerman, of Reedville, was made the happy father of twin daughters one day this week. All parties concerned doing well.
—D. B. Emrick lost a fine White Plymouth Rock cock between Greenfield and Hillsboro yesterday. He will pay a liberal reward for its capture.
—Miss Carman, of this county, now a student in the Monmouth normal school, is in Hillsboro this week, attending the teachers' examinations for certificates.

—Almost miraculous are some of the cures accomplished by the use of Ayer's Sarsaparilla. In the case of R. L. King, Richmond, Va., who suffered for 47 years with an aggravated form of scrofula, Ayer's Sarsaparilla effected astonishing results.
—The Oregon Alpine Club are taking the preliminary steps in the matter of applying to congress to have seven townships of land surrounding and including Mount Hood, set apart as a national park.

—The strike on the Chicago, Burlington & Quincy railroad still continues. It has but slight effect upon the freight and passenger traffic between this coast and the east. Business is almost entirely suspended on the line through portions of Illinois, Pennsylvania, Iowa and Nebraska. The strike was inaugurated by the Brotherhood of Engineers, and was joined by the locomotive firemen on the line. Two hundred and sixty engineers stepped off their engines. The Knights of Labor, owing to bad feeling toward the Brotherhood of Engineers, is supplying men from its ranks to fill the places of strikers.

—An explosion of the boiler on a ferry boat at Vallejo this week, resulted in the death of twenty-five persons. There were sixty-three persons on board, none of whom escaped uninjured. Total loss of property, including wharf, sheds, ticket office and several cars, is estimated at \$250,000.
—Laura Webster, of San Francisco, who has been lying in a death-like cataleptic trance for three months and a half, has so far recovered as to be able to speak at intervals, and has walked across the floor with support. She has not yet opened her eyes.
—Joseph Downs' new building, on Second street, is receiving the finishing touches on the inside, under the paint and paste brushes of J. A. Campbell and J. H. Patterson. W. A. —Patents granted to citizens of the Pacific states during the past week, and reported expressly for this paper by C. A. Snow & Co., patent lawyers, opposite U. S. patent office, Washington, D. C.: M. Haas, San Francisco, street sweeper; N. S. Johnson, Portland, Oregon, washing machine; W. Johnson, Portland, Oregon, amalgamator; R. B. Lyon, Sonoma, California, gate; J. St. Mary, San Francisco, California, damper regulator.

POPULAR YARDS: J. M. Garrison, of Forest Grove, reports an immense trade in fancy fowls and eggs. Mr. G. is determined to keep the very best regardless of cost. His fowls are as fine as can be found in any breeder's yards, East or West. Now is the time to order eggs.

GALES CREEK NOTES.

FEBRUARY 27.—The people of this vicinity are jubilant over the prospect of an early spring. Quite a number have commenced to plow.
There has been more improvements made during the past winter in slashing, grubbing and fencing than before for many years.

Mr. N. C. Lilly, our country merchant, has been doing a lively business during the season of bad roads. He is wide-awake, and always lays in a good supply of merchandise in the fall.
Mr. Dan Willrout has just returned from Kansas. He brought some fine Shorthorn cattle with him, which are a valuable addition in the way of stock.

Mr. Little, living about three miles above here, is quite ill. His tongue is paralyzed so he cannot speak.
Elder Campbell, of Hillsboro, and Elder Black, of Carlton, Yamhill county, preached here Saturday night and Sunday. They are both interesting gentlemen to listen to. Mr. Black is a young man, just starting out. We wish him success. As to Mr. Campbell, he is one of the most successful preachers in Oregon.

The young people of this place collected at Mr. O. M. Godfrey's yesterday afternoon to practice singing; we presume they enjoyed themselves very well.
Mr. Mark Cox had the misfortune to cut his foot very severely one day last week, but is doing as well as could be expected.
Our roads are in bad condition at present, but Mr. Heister, our efficient road supervisor, is preparing to go to work as soon as the mud will permit.

Mr. J. T. Fletcher has been quite busy of late surveying and locating homesteads. We would say to the immigrants: Come along we have room for several more.
We see from last week's INDEPENDENT that there are a number of office-seekers in Forest Grove. I don't know of any candidates here; but the people of this vicinity would like to see Mr. Wm. Pointer, formerly of this place but now a resident of Hillsboro, have the assessors office. He is a man well worthy of the people's patronage and would command a large vote.
—S. K. VA.

Mr. P. M. Edwards is on the sick list this week.
Wm. McQuillan, our horse tamer, is breaking two more colts this week.
Mr. Calvin Jack, our genial Sabbath school superintendent, is running our Sabbath school with good success.
We would advise the young men when they go to see their best girl to put their horses in the barn and the old men as well.

The farmers in the vicinity of Scholls Ferry are talking of putting in the deep can setting plant at their dairies and hauling the cream to our creamery to be manufactured into butter.
The farmers in this locality have commenced plowing, and this fine weather makes us smile and say, "Welcome, Spring!"

The roads are drying fast and we will say good by mud, soon, if this weather continues.
The free coach got in early last Saturday with two passengers, and the driver was unusually happy.
We have not decided fully about building a new church in this place. Some talk of holding meetings upstairs in the creamery.
—S. K. VA.

A Complaining Hooster.
EDITOR INDEPENDENT:—In your last issue, your correspondent from Forest Grove threw out the insinuation that others who took chickens to the poultry show at Portland and received a majority of the premiums, did not raise the chickens they exhibited. Now allowing that some one who exhibited chickens at the show did not raise them, and yet received the credit for it, this seems to me a very small matter to complain of and it matters not who raised the chickens so long as they were put on exhibition and entitled to the premiums received. The show was gotten up for the purpose of bringing out the best poultry exhibit possible in the state, and if the owners saw fit to send their chickens to the show by an agent, they were at liberty to do so, and it seems entirely out of place for any to feel sore because they did not get more prizes. And in the future, if any one wishes to win a larger number of premiums they should take a finer lot of chickens.
—ROOSTER.

William B. Daly Convicted.
The jury in the case of William B. Daly, indicted for felonious assault on the person of Ada Drogot, rendered a verdict of guilty as charged in the indictment, the obsolete jurymen, S. A. Walter, having at last yielded. In the event a new trial is denied, counsel for defense will appeal the case to the supreme court.
Don't.
Let that cold of yours run on. You think it is a light thing. But it may run into catarrh. Or into pneumonia. Or consumption.
Cauterizing discharging. Pneumonia is dangerous. Consumption is death itself. The breathing apparatus must be kept healthy and clear of all obstructions and offensive matter. Otherwise there is trouble ahead.
All the diseases of these parts, head, nose, throat, bronchial tubes and lungs, and be thoroughly and entirely cured by the use of Boschee's German Syrup. If you don't know this already, thousands and thousands of people can tell you. They have been cured by it, and "know how it is themselves." Bottle only 75 cents. Ask any druggist.

Change in Voting Precincts.
In West Butte precinct, by order of the county board, the place of voting has been changed from John Landers' to the residence of John Algebeiser.

FOREST GROVE NOTES.

(From our Regular Correspondent)
The annual school meeting will be held at the public schoolhouse next Monday at one o'clock.
In accordance with an amendment lately added to the Gamma Sigma constitution, this evening will be a kind of a "field day" in the society, and a number of questions will be discussed. The society will hold their public debate next Friday night.

The funeral of Miss Edna Reynolds, of Portland, occurred in the Grove last Saturday. The services were held in the Congregational church.
The managers of the Forest Grove base ball club have decided to give their entertainment on Friday evening, March 16th. Twenty-five cents admission will be charged, and there will be no reserved seats.
Dr. Cooper, dentist, has permanently located in the Grove. He can be found in Dr. Large's office.

The many friends of Miss Lou Knight, in this place, will be saddened to learn of her death, which occurred on last Monday morning, at her home in Salem.
David Keene had the misfortune to cut his foot quite severely last Monday, while chopping. The wound will probably lay him up for some time.
Henry Hamilton has sold out his interest in the livery business here to John Johnson, who will hereafter conduct it with his brother, Hute Johnson.
Mrs. Dr. Hunt will lecture in Vert's hall on Sunday, March 11th, afternoon and evening. Admission, free.

Why cannot the principal streets of the Grove be graveled? The expense would not be very great, as gravel can be secured without having to be hauled very far. Even if the first expense were considerable, the outlay would be more than repaid in the improved condition of our streets. The street running in front of Dr. Ward's residence is graveled and is highly appreciated by the traveling public. This item has been suggested to us by several citizens who appreciate good highways.
The McKanlass minstrel's played to a large house here on Wednesday evening of last week, and gave a good show.
A petition is being circulated for a daily mail between Forest Grove and Greenfield, to take the place of the present tri-weekly route.

AMEN CHAPEL ITEMS.
FEBRUARY 27, 1888.
EDITOR INDEPENDENT:—Please find enclosed a few items, which will probably be of interest.
Yesterday the barn of Mr. Donier, near Ames Chapel, was destroyed by fire, together with two wagons, harness and a quantity of hay and other feed. He had been raking the barn-yard, and went into the house, when one of his little sons set fire to one of the piles of rubbish, which communicated to the barn, and in ten minutes twenty or more of them were present with buckets, and prevented the spread of the flames to his dwelling and other buildings near by. The loss will aggregate \$600 or \$700; no insurance. He has the sympathy of the community.
The K. of L. public meeting at Union hall, on the 22d inst., was a success, a large crowd being present. In the forenoon, Mr. Griffiths, of Portland, gave an interesting lecture on the objects and purposes of the Knights of Labor. Also, the song-making by Misses Elizabeth and Louise Tucker; the rendition was pleasing. A most sumptuous dinner was spread by the sisters of the K. of L. and Butte Grange. After everybody had been served, Mr. Hayes, lecturer of the state Grange, gave a review of the work of the Grange, its triumphs and struggles, and gave many most convincing arguments why the farmers should be organized. Mr. Hayes is an able speaker, and understands his subject thoroughly. He aroused a deep interest in the movement.
Mrs. Kaffer and Miss Wishire won applause by their performances on the violin. The programme closed with a solo by Miss Gaston, which was received with favor.—O. M.

Scrofula
Is one of the most fatal scourges which afflict mankind. It is often inherited, but may be the result of improper vaccination, mercurial poison, uncleanliness, and various other causes. Chronic Sores, Ulcers, Abscesses, Cancerous Humors, and, in some cases, Emaciation and Consumption, result from a scrofulous condition of the blood. This disease can be cured by the use of Ayer's Sarsaparilla.
