POISON IN THE ASHES

What the Mt. Lebanon Shaker Found-Incident in the History of a Quiet Community.

The Mount Lebanon (New York) Shakers are a quiet community, secluded from the fret and worry of the outside world. They are widely known, however, for their strict honor and probity in business.

. The Shakers believe that nature has a remedy for every disease. A few have been foundthe rest are as yet unknown. Many were discovered by accident. Others came to light as the result of patient experiment and research.

Nervous Dyspepsia is a comparatively new disease, growing out of the conditions of modern life. It is a joint affection of the digestive organs and of the nervous system. These two were formerly treated as separate ailments, and it was left for the clear-sighted Shakers to prove that the basis of this terrible and often fatal complication lies chiefly in the disordered and depraved functions of digestion and nutrition. They reasoned thus :- "If we can induce the stomach to do its work, and stimulate the excretive organs to drive out of the body the poisonous waste matters which remain after the lifegiving elements of the food have been absorbed, we shall have conquered Nervous Dvspepsia and Nervous Exhaustion. And they were right. Knowing the infallible power of Shaker Extract (Seigel's Syrup) in less complicated though similar diseases, they resolved to test it fully in this. To leave no ground for doubt they prescribed the remedy in hundreds of cases which had been pronounced incurable—with perfect success in every instance where their directions as to living and dist were scrupulously followed. less extent half the people of this country suffer from itboth sexes and all ages. The treatment of many thousands of cases of those chronic weaknesses and distressing adments peculiar to females, at the Invalids Hotel and Surgical Institute, Buffalo, N. Y., has afforded a vast experience in nicely adapting and thoroughly testing remedies for the cure of woman's peculiar inaladies.

Dr. Pierce's Favorite Frescription is the outgrowth, or result, of this great and valuable experience. Thousands of testimonials, received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women. It is not recommended as a "cure-all," but as a most perfect Specific for woman's peculiar allments.

"cure-all," but as a most perfect Specific for woman's peculiar allments.

As a powerful, invigorating tonic, it imparts strength to the whole system, and to the womb and its appendages in particular. For overworked, "worn-out," run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feethle women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordan and restorative tonic.

As a soothling and strengthening nervine, "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, exhaustion, prostration, bysteria, spasms and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the womb. It induces refreshing sleep and relieves mental anxiety and despondency.

The writer holds a pencil connected with the poles of an ordinary telegraph battery and the common telegraphic line. At the other end of the line a pencil is similarly adjusted; the two operate synchronously. The claim is that the writing or drawing can be reproduced in the simile at the other end of the line, the length of the circuit depending only upon battery capacity as related to the wires used.
