GOLDENDALE IN ASHES.

Loss Two Hundred Thousand—Every Store, the Courthouse, Two Churches and Two Newspaper Offices Burned—Insurance Light—Many Families Homeless.

Last Sunday afternoon, about 2 o'clock, fire broke out in Wm. Dixon's livery stable, on Main street, in Goldendale, W. T. It spread to buildings east and west, crossed the street, and destroyed every building in a district two and a half blocks wide and three and one-half blocks long. All the buildings were frame. The telegraph office was destroyed and the first news of the disaster reached Portland through Mr. Sig Sichel, the leading merchant of Goldendale, and the heaviest loser by the fire. He arrived in Portland Monday morning, and reported the following particulars to the Oregonian:

While standing in front of his store at the time mentioned, he discovered flames issuing from the roof of Dixon's stable opposite, and sounded an alarm. He and a few others run out the hook and ladder truck. It happened that nearly all the young men in town had gone to a basket meeting and baptismal service at Golden's mill, eight miles distant, and there were not to exceed fifty men, young and old, left to fight the flames when they broke out. All hands laid hose and manned the two force pumps, which, unfortunately were so close to the stable that the heat was unbearable and the work had to be abandoned. An attempt was then made to tear the stable down, but the flames drove the willing volunteers away.

A light breeze was blowing when the fire broke out, but as the flames gained headway the wind naturally increased and in less than an hour there seemed to be a gale blowing from every point of the compass. The flames spread first to the A. P. Hotaling company's building, and then swept up and down the north side of Main street. It then crossed to the south side of Main street, attacking Sichel's and Cummings & Cram stores and Hess's dwelling back of the stores, and swept up and down the south side, crossing to the court house and the Presbyterian church.

The fire lasted four hours. When it was apparent that the flames could not be stopped until their food was exhausted, there was a scramble to save effects. A large open space in the west part of town offered a safe place to deposit rescued personal property. Furniture in the lower stories of many dwellings was saved. Farmers in the neighborhood seeing the flames, hurried to render assistance, and did good service with their teams. Several men and women fainted from overwork, exhaustion and excitement, and there was some physical suffering. The physicians could do little good, as all the drug stores with their contents were destroyed. A can of whisky was found and this was an excellent substitute, and under the circumstances was almost a godsend.

It is not known whether the county records are damaged or not. There were three safes in the court house; one in the auditor's, one in the treasurer's and one in the probate judge's office, also a vault in the auditor's office. The probabilities are that the records are not destroyed or damaged beyond restoration. The treasurer had a quantity of gold and greenbacks in his safe—what amount he could not state.

INSURANCE.

Mr. Sichel could give only a few figures on insurance. He carried policies to the amount of $15,000; Cummings & Cram, $17,000; J. W. Hess & Co., $1000. The total insurance will probably not exceed $50,000.

The Lusk Failure.

SAN FRANCISCO, May 13.—The J. Lusk Canning company, which assigned last night owing to the failure of Wm. T. Coleman & Co., is the largest institution of its kind in the world. Its affairs are so entangled by contracts that it is impossible to distinguish between the liabilities and assets. The company has large contracts to furnish canned goods during the present season to firms in the East and in Europe. On the other hand, they have contracts with farmers all over the state to buy the crop this year. Some of these contracts are of five years' standing. Nearly the whole California apricot crop of this year has been contracted for. It is estimated that this crop alone is worth from $40,000 to $50,000 net profit to the company. The peach crop has also been almost exclusively purchased.

HOW DO WE DIG OUR GRAVES?

We must eat or we cannot live. This we all know. But do we all know that we die by eating? It is said we dig our graves with our teeth. How foolish this sounds. Yet it is fearfully true. We are terrified at the approach of the cholera and yellow fever, yet there is a disease constantly at our doors and in our houses far more dangerous and destructive. Most people have in their own stomachs a poison, more slow, but quite as fatal as the germs of those maladies which sweep men into eternity by thousands without warning in the times of great epidemics. But it is a mercy that, if we are watchful, we can tell when we are threatened. The following are among the symptoms, yet they do not always necessarily appear in the same order, nor are they always the same in different cases. There is a dull and sleepy feeling; a bad taste in the mouth, especially in the morning; the appetite is changeable, sometimes poor and again it seems as though the patient could not eat enough, and occasionally no appetite at all; dullness and sluggishness of the mind; no ambition to study or work; more or less headache and heaviness in the head; dizziness on rising to the feet or moving suddenly; furred and coated tongue; a sense of a load on the stomach that nothing removes; hot and dry skin at times; yellow tinge in the eyes; scanty and high-colored urine; sour taste in the mouth, frequently attended by palpitation of the heart; impaired vision, with spots that seem to be swimming in the air before the eyes; a cough, with a greenish-colored expectoration; poor nights' rest; a sticky slime about the teeth and gums; hands and feet cold and clammy; irritable temper and bowels bound up and costive. This disease has puzzled the physicians and still puzzles them. It is the commonest of ailments and yet the most complicated and mysterious. Sometimes it is treated as consumption, sometimes as liver complaint, and then again as malaria and even heart disease. But its real nature is that of constipation and dyspepsia. It arises in the digestive organs and soon affects all the others through the corrupted and poisoned blood. Often the whole body—including the nervous system—is *literally starved*, even when there is no emaciation to tell the sad story.

Experience has shown that there is put one remedy that can certainly cure this disease in all its stages, namely, Shaker Extract of Roots or Mother Seigel's Curative Syrup. It never fails but, nevertheless, no time should be lost in trying other so-called remedies for they will do no good. Get this great vegetable preparation, discovered by a venerable nurse whose name is a household word in the country and be sure to get the genuine article.

GIVEN UP BY SEVEN DOCTORS.

Shaker Extract or Roots or Seigel's Syrup has raised me to good health after seven doctors had given me up to die with consumption. So writes R. F. Grace, Burkmanville, Todd Co., Ky.

BE BOARD OF IT JUST IN TIME.

"I had been about given up to die with dyspepsia when I first saw the advertisement of Shaker Extract of Roots or Seigel's Syrup. After using four bottles I was able to attend to my business as well as ever. I know of several cases of chills and fever that have been cured by it." So writes Mr. Thos. Pullum, of Taylor, Geneva Co., Ala.

WORTH TEN DOLLARS A BOTTLE.

Mr. Thomas P. Evans, of the firm of Evans & Bro., Merchants, Heintown, Accomack Co., Va., writes that he had been sick with digestive disorders for many years and had tried many physicians and medicines without benefit. He began to use Shaker Extract of Roots or Seigel's Syrup about the 1st of Jan. 1887, and was so much better in three weeks that he considered himself practically a well man. He adds: "I have at this time one bottle on hand, and if I could not get any more, *I would not take a ten dollar bill for it.*"

GENERAL NEWS.

The supreme court has rendered a decision in the suit of Philip Gundlach against the city of East St. Louis. The case has been in court ten years. It was mandamus proceedings to compel the levy and collection of a tax to pay a judgment on bonds issued by the city of East St. Louis. The indebtedness with costs and interest, amounts to nearly one million dollars, and the property holders there are panic stricken at the decision, as the city is said to be bankrupt.

Roseburg is to have a woolen mill. The citizens of the place have subscribed $5000 towards repairing and improving the dam across the South Umpqua river just south of the town, and the mill will be built by a company from Scotland.

Australian sheep growers are still buying many American Merinos from American breeders. The last shipment numbered 300, all of which were purchased in Vermont.

From a little strip of water in front of the city, Astorians lift every year without any preparatory sowing or cultivation, between $2,000,000 and $3,000,000 worth of a product that is sought and finds a ready market the world over, and which bears the same relation to other fish that royal gold does to baser metals.—Astorian.

Lumber sells at $40 and $60 a thousand feet at Pasadena, California, and the Star has been publishing figures to show that it can be sold at a good profit at $20 and $30 less, wherefore the heavy lumber companies are boycotting the Star.

A special Berlin cable to the Mail and Express has the following: An incident connected with the lying in state of the body of emperor William, which has hitherto been kept secret, has now become a common topic of conversation in society. The story goes that somebody stole the ivory crucifix which the dead kaiser held in his hand and which was placed there by his daughter, the grand duchess of Baden. After this outrage had been committed a vigorous search was made, but no result was forthcoming, and the crucifix has never been found.

Henry Peterson, of San Francisco, and Wm. Hagner, of Victoria, have signed articles for a rowing race on June 23d, over the Victoria course, three miles and turn, for $2000.

WHAT AILS YOU?

Do you feel dull, languid, low-spirited, lifeless, and indescribably miserable, both physically and mentally; experience a sense of fullness or bloating after eating, or of "goneness," or emptiness of stomach in the morning, tongue coated, bitter or bad taste in mouth, irregular appetite, dizziness, frequent headaches, blurred eyesight, "floating specks" before the eyes, nervous prostration or exhaustion, irritability of temper, hot flushes, alternating with chilly sensations, shortness of breath, smothering sensations, sharp, biting, transient pains here and there, cold feet, drowsiness after meals, wakefulness, or disturbed and unrefreshing sleep, constant, indescribable feeling of dread, or of impending calamity?

If you have all, or any considerable number of these symptoms, you are suffering from that most common of American maladies—Bilious Dyspepsia, or Torpid Liver, associated with Dyspepsia, or Indigestion. The more complicated your disease has become, the greater the number and diversity of symptoms. No matter what stage it has reached, **Dr. Pierce's Golden Medical Discovery** will subdue it, if taken according to directions for a reasonable length of time. If not cured, complications multiply and Consumption of the Lungs, Skin Diseases, Heart Disease, Rheumatism, Kidney Disease, or other grave maladies are liable to set in and, sooner or later, induce a fatal termination.

Dr. Pierce's Golden Medical Discovery acts powerfully upon the Liver, and through that great blood-purifying organ, cleanses the system of all blood-taints and impurities, from whatever cause arising. It is equally efficacious in acting upon the Kidneys, and other excretory organs, cleansing, strengthening, and healing their diseases. As an appetizing, restorative tonic, it promotes digestion and nutrition, thereby building up both flesh and strength. In malarial districts, this wonderful medicine has gained great celebrity in curing Fever and Ague, Chills and Fever, Dumb Ague, and kindred diseases.

Dr. Pierce's Golden Medical Discovery

CURES ALL HUMORS,

from a common Blotch, or Eruption, to the worst Scrofula. Salt-rheum, "Fever-sores," Scaly or Rough Skin, in short, all diseases caused by bad blood are conquered by this powerful, purifying, and invigorating medicine. Great Eating Ulcers rapidly heal under its benign influence. Especially has it manifested its potency in curing Tetter, Eczema, Erysipelas, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings, Hip-Joint Disease, "White Swellings," Goitre, or Thick Neck, and Enlarged Glands. Send ten cents in stamps for a large Treatise, with colored plates, on Skin Diseases, or the same amount for a Treatise on Scrofulous Affections.

"FOR THE BLOOD IS THE LIFE."

Thoroughly cleanse it by using **Dr. Pierce's Golden Medical Discovery**, and good digestion, a fair skin, buoyant spirits, vital strength and bodily health will be established.

CONSUMPTION,

which is Scrofula of the Lungs, is arrested and cured by this remedy, if taken in the earlier stages of the disease. From its marvelous power over this terribly fatal disease, when first offering this now world-famed remedy to the public, Dr. Pierce thought seriously of calling it his "CONSUMPTION CURE," but abandoned that name as too restrictive for a medicine which, from its wonderful combination of tonic, or strengthening, alterative, or blood-cleansing, anti-bilious, pectoral, and nutritive properties, is unequaled, not only as a remedy for Consumption, but for all Chronic Diseases of the

Liver, Blood, and Lungs.

For Weak Lungs, Spitting of Blood, Shortness of Breath, Chronic Nasal Catarrh, Bronchitis, Asthma, Severe Coughs, and kindred affections, it is an efficient remedy.

Sold by Druggists, at $1.00, or Six Bottles for $5.00.

Fred Hambleton, Planter, Van Tromp and Glen Dudley

Will Stand for service the Season of 1888 at the Fair Grounds, Hillsboro, Washington County, Oregon.

FRED HAMBLETON 6463.

5-year-old record, 2:26.

Sire of Fritz Hambleton, winner of the 2-year-old stakes at Salem and Spokane Falls of 1887.

He is a chestnut horse, 7 years old.

Sire HAMBLETONIAN MAMBRINO, sire of Jane L.—2:19¼.

1 dam Springfield Maid (dam of Van Tromp, 3-year-old stallion record 2:40¼), by Lakeland Abdallah, full brother to Harold, sire of Maud S. (2:08¾). 2 dam Saluda by Alexander's Abdallah, sire of Goldsmith Maid (2:14). 3 dam Friday (sire of dam of Geo. Cooley, 2:27), by imp. Trustee. 4 dam by imp. Bellfounder, sire of the dam of Rysdyk's Hambletonian.

Fred Hambleton has substance, endurance and speed. His record of 2:26 was made as a 5-year old after a season in the stud, and is not the measure of his speed. He has shown a 2:14 gait and in a brief racing career has distanced Kitty Lynch, Jane L. (to wagon), Altamont, Lady Maud, Oleander, Melrose and others. Last year severe sickness in August rendered him unfit for racing. Fritz Hambleton, his only colt ever trained from a mare without standard blood, won at Salem with ease over a large field of standard-bred colts. In three years of stud service but one mare bred to him has failed to produce a living colt.

Limited to 20 mares.

PLANTER 2518.

Is 6 years old, a rich bay over average size; bred by J. C. McFerran, Louisville, Kentucky.

Sired by PANCOAST (2:21¾), sire of Patron (5-year-old stallion record 2:14¾), and of Dod Peet (3-year-old record 2:22¾), and Aquarius (3-year-old record 2:29¼), etc.

1 dam Lucia, dam of Day Dream (4-year-old record 2:21¾), by Rysdyk's Hambletonian. 2 dam Trusty, dam of Deucalion (2:22), Scotland Maid (2:28¾), and John Love (2:29¾), by Marlborough, son of imp. Trustee. 3 dam by Henry Duroc, son of Henry, rival of American Eclipse.

PLANTER is the immediate descendant of animals, *on both sides*, that inherit speed, possess speed themselves, and transmit it to their descendants. His breeding needs no comment. Planter has never been trained, but during the stud season of last year, in which he covered 48 mares, he trotted miles in 2:51. His colts, though not old enough to be trained, are large, well formed, and show excellent gait.

VAN TROMP.

3-year-old record 2:40¼.

And winner of the 3-year-old races at Salem and The Dalles in 1887; is a bay horse, without white, and one of the handsomest and gamest trotters in the state.

Sired by BADGER BOY, son of Hambletonian Mambrino (sire of Jane L., 2:19¼.

1 dam Springfield Maid, dam of Fred Hambleton, 2:26. [See pedigree of Fred Hambleton.]

Van Tromp will be limited to 10 mares, to permit training.

The Thoroughbred Stallion,

GLEN DUDLEY.

Full brother to Judith, winner of 8 races in 1880.

Sire of Dudley Howard, Laura D., Minnie D., Fiavello, etc.

GLEN DUDLEY is a handsome bay, 16 hands high, and weighs 1150 pounds.

Sired by imp. GLENELG.

1 dam Madam Dudley, winner of the Champagne Stakes at Jerome Park in 1870, by Lexington. 2 dam imp. Britannia 4th, (dam of Brigand, winner of the Jersey Derby in 1874), by Flying Dutchman, winner of the Derby and St. Ledger. [See Bruce's American Stud Book].

Imp. Glenelg, a magnificent race horse himself, is in rank the first sire of Thoroughbreds in America. He has been four times at the head of winning sires—1879, 1884, 1886 and 1887, and has sired more winners than any stallion in America.

GLEN DUDLEY, after receiving severe injuries at 2 years old, was still an excellent race horse. As a 3-year-old he started seven times, won three races, was second in one and third in two. At Washington, D. C., November 26, 1877, in a 1¼-mile dash, he beat, among others, Lady Saylers, the dam of St. Paul, winning easily by half a dozen lengths. Glen Dudley's colts have size, style, speed and an excellent disposition. None of them have had thorough training for races.
