THURSDAYJUNE 28, 1888 A Woman from Austria Near the village of Zilling-dorf, in Lower Austria, lives Maria Haas, an intelligent and industrious woman, whose story of physical suffering and final relief, as related by herself, is of interest to English women. "I was employed," she says, "in the work of a large farmhouse. Overwork brought on sick headache, followed by a deathly fainting and sickness of the stomach, until I was unable to retain either food or drink. I was compelled to take to my bed for several weeks. Getting a little better from rest and quiet, I sought to do some work, but was soon taken with a pain in my side, which in a little while seemed to spread over my whole body. and throbbed in my every limb. This was followed by a cough and shortness of breath, until finally I could not sew, and I took to my bed for the second, and, as I thought, for the last time. My friends told me that my time had nearly come, and that I could not live longer than when the trees put on their green once more. Then I happened to get one of the Seigel pamphlets. I read it, and my dear mother bought me a bottle of Seigel's Syrup, (Shaker Extract of Roots) which I took exactly according to directions, and I had not taken the whole of it before I felt a change for the better. My last illness began June 3d 1882, and continued to August 9th, when I began to take the Syrup. Very soon I could do a little light work. The cough left me, and I was no more troubled in breathing. Now I am perfectly cured; and oh,

sure to get the right kind. I ing like death, and who told them there was no help for her, that she had consulted several doctors, but none could help her. I told her of Seigel's Syrup, and wrote the name down for her that she might make no mistake. She took my advice and the Syrup, and now she is in perfect health, and the people around us are amazed. The medicine has made such progress in our neighborhood that people say they don't want the doctor any more, but they take the Syrup. Sufferers from gout who were confined to their beds and could hardly move a finger have been cured by it. There is a girl in our district, who caught a cold by going through some water, and was in bed five years with costiveness and rhoumatic pains, and had to have an attendant to watch by her. There was not a doctor in the surrounding district to whom her mother had not applied to relieve her child, but every one crossed themselves and said they could not help her. Whenever the little bell rang, which is rung in our place when anybody is dead, we thought surely it was for her; but Seigel's Syrup and Pills (Shaker Extract of Roots) saved her life, and now she is as housing as anybody, goes to church, and can work even in the

district distributed handbills

Shaker Medicines are now being sold in all pert of the world, and are working wonders, as shown in the above case. A. J. WHITE, 54 Warren St., New York.

fields. Enerybody was astonished

when they saw her out, knowing

how many years she had been in bed. To-day she adds her grati-

tude to mine for God a mercies and

Seigel's Syrup.

Leads as Photographer in the Northwest. Pictures of the most prominent men and women of Oregon and Washington may be seen at his gallery. Towne's pecialty is in his instantaneous pictures of Babies—the remarkable results obtained being the words of all who visit his Studio. In enlarging to any size, in any style, from any hind of picture, he guarantees to give a better class of work, at a lower price, than any gallery on the Pacific Coast. All wishing pictures enlarged will do well to secure estimates before ordering elsewhere. Correspondence solicited, and all orders will receive prompt attention. Studio S. W. cor. First and Morrison sts., Portland, Oregon.

Forty Thousand Hiles of Pacific Shore MYSTERIOUS FATALITIES. Line at Lowest Estimate.

San Francisco, June 23 .- In the ecent report of Prof. Davidson to Superintendent Thorn, of the United States coast and geodetic survey, upon the fisheries of Alaskan waters, he made an estimate of the ocean shore line beyond the Archipelago Alexander, for which latter he had measured the shore line in 1867. This estimate seemed so large that lest it might be doubted Prof. Davidson has recently had all the shore line platted again and partly measured. It exceeds his estimate. This last measurement was submitted to Thorn who has authorized its publication. This gives a total for Alaska of 26,364 miles, or including the coast of Oregon, California and Washington territory 30,004 miles. Prof. Davidson thinks when surveys are made, the meanderings of the shore line will increase this amount from 23 to 50 per cent. This we know from experience on the Atlantic coast where the irregularities are not nearly so great as upon our Northwest coast. Already regular surveys in the Archipelago Alexander demonstrate channels that were not known, many new harbors and an increase of shore line of over 50 per cent. At the very lowest estimate it is claimed there is certainly the Pacific belonging to the United

the direction of free trade?"

"If free trade could be adopted to-morrow there would be an instant shrinkage of values in this country. Probably the immediate loss would equal \$20,000,000,000—that is to say, one-third of the value of the country. No one can tell its extent how happy I am! I cannot All things are so interwoven that to express gratitude enough for destroy one industry cripples anoth-SEIGEL'S SYRUP (Shaker Ex. er, and the influence keeps on until tract of Roots). Now I must it touches the circumference tell you that the doctors in our human interests."

"What do you think of the political outlook?"

cautioning the people against "The people of this country have sase the molicine, telling them it a great deal of intelligence. Tariff without the use of microscopical and Orchard Price, \$400. would do no good, and many and free trade and protection and hemical tests that they have kidney were thereby influenced to dehome nanufactures and American lisease, how much more liable is the laynan to be, unknown to himself, in the eern are of death, who does not feel as well as formerly, but who does not think anythe country, and in thousands and stroy the Seigel pamphlets; but now, whenever one is to be found, it is kept like a relic. the country, and in thousands and thousands of political meetings, and when next November comes you will swisc to prevent discrete than to await The few preserved are borrowed to read, and I have lent mine for six miles around our district. People have come see the democratic party overthrown and awept out of power by a cyclone. All other questions will be lost ing that it cured me, and to be sight of. Even the prohibitionists ind experience above outlined, and would rather drink beer in a pros-he blood, tone the nerves and insure 8 know a woman who was look. perous country than burst with cold he blood, tone the nerves and insure water and hard times."

"The preservation of what we have got will be the great question. This is the richest country and the most prosperous country, and I believe that the people have sense enough to continue the policy that has given them these results. I never want to see the civilization of the old world, or rather the barbarism of the old world, gain a footing on this continent. I am an American. I believe in American ideas—that is to say, in equal rights, and in the education and civilization

the east side of San Luis valley where he had been looking after the timber depredations upon the timber on government lands. River sawmills have been operating there and he reports that after a great quantity of lumber had been taken out the mill men got into quarrels. The employes tried to burn out the timber in their respective canyons. The result was that in the prevailing dry weather and strong gales over twenty square miles of the finest pine timber in the state has been destroyed. The Marshal says that the value of the timber already destroyed is over \$200,000 and the fire is still raging.

I feet, drowsiness after meals, wakefulness, or disturbed and uncorreshing sleep, constant, fiduceribable feeting of dread, or of impending sleep, constant, fiduceribable feeting of dread, or of impending sleep, constant, fiduceribable feeting of dread, or of impending sleep, constant, fiduceribable feeting of dread, or of impending sleep, constant, fiduceribable feeting of dread, or of impending sleep, constant, fiduceribable feeting of dread, or of impending sleep, constant, fiduceribable feeting of dread, or of impending sleep, constant, fiduceribable feeting of dread, or of impending sleep, constant, fiduceribable feeting of dread, or of impending sleeping of dread, or of impending sleeping of dread, or of impending sleeping of dread, or of impending sleeping, or dread, or of manufacture, and that most complicated your disease has become, the number and diversity of symptoms, you are suffering from that most complicated your disease has become, the number and diversity of symptoms, you are suffering from that most complexed your disease has become, the number and diversity of symptoms, you are suffering from that most complexed your disease has become, the number of these symptoms, you are suffering from that most complexed your disease has become, the number and diversity of symptoms, you are suffering from that most complexed your disease has become, the number of these symptoms, you are suffering that mean the fire is still raging.

HOT DAY IN THE EAST.

Deaths From Sunstrokes in New York

New York, June 24.—To-day was the hottest June day in this city's history, there being 99 degrees rehistory, there being 99 degrees recorded in some sections. The list of fatalities from sunstroke is the largest ever recorded here in June. Four men, one woman and five CONSUMPTION.

The death of Kaiser Wilhelm, ex-Gov-Justice Waite and Genl. B. H. Brewster. names, is startling.

March and April are fatal months, not only for consumptives but also for many diseases more disguised but none the

less fatal. Gov. Hoffman had heart disease, Gov. Dorsheimer, apparently a strong, well robust man, over six feet high, sickens fate and he was apparently the personi-

fication of vigor.

Drezel, the Philadelphia banker, and Brewster, Ex-Atty, Genl., were suddenly cut off in the midst of great usefulness by Bright's disease, and Dr. Carpenter. the well-known New York physician suddenly died of kidney disease neces having suspected that he troubled therewith!

This reminds us of the case of Frank Hawthorn, of New Orleans. was lecturing before the Louisiana university on the peculiarly deceptive character of Kidney disease and the methods of microscopical and chemical tests.

After having shown specimen after specimen of diseased fluids, and made

very clear the point that kidney disease may exist without the knowledge or suspicion of the patient or practitioner, with gracious self-confidence he remarked, "Now, gentlemen, let me show you the healthy water of a strong well man."

discovery!" he gasps, "I myself have the fatal Bright's disease!" In less than a year this specialist of the commonest and most fatal of diseases 40,000 miles of ocean shore line on was dead. He was a totim of advanced

States, and this does not include the great bays opening directly on the ocean, the estuaries of great rivers, etc.

Important Questions Answered.
