PERRAULT'S studies have been almost -xclusively devoted to the cure of the various forms of Nervous and Physical Debflity, the result of injurious habits acquired in youth, which usually terminate in impotence and sterility, and pern anently induce all the concomitants of old age. Where a secret infirmity exists, involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that a premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, germ of which is planted in early life, and the hitter fruits tasted long afterward ; patients, laboring under this complaint, will complain of one or more of the following symptoms: Nocturnal Emissions, Pains in the Back and Head. Weakness of Memory and Sight, Discharge from the Urethra on going to stool or make water, Intellectual faculties are Weakened. Loss of Memory epsues, Ideas are clouded, and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc. The patient will prohaably complain of Dizziness, Vertigo, and that Sight and Hearing are Weakened, and sleep disturbed by dreams; melancholy, sighing, paipitation, faintings, coughs and slow fevers : while some have external rheumatic pain, and numbuess of the body. Some of the most common symptoms are pimples in the face, and aching in different parts of the bedy. Patients suffering from this disease should ap-ply immediatly to DR. PERRAULT, either in person or by letter, as he will guarantee a cure of Seminal Emissions and Impotence in six or eight weeks,

Patients suffering from venerial disease in any stage, Gonorrhea, Gleet, Strictures, Bubo, Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial

Taints entirely removed from the system. DR. PERRAULT's diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases can call and examine for themselves.
