

Ancient and Modern Times. In ancient ages, man was wholly man, And woman was only woman; The former was a God, a god almost, The latter only human.

Our Young Men.

The following from the Florida Express, will apply to many other places as well as Pensacola, and we commend it to the consideration of the class for whom it is specially intended:

In conversation with a gentleman of cultivation and large experience, as well as a life resident of Pensacola, in our exactum the other day, of the future prospects of the city and her citizens, he used an expression in regard to the young of the city, that was of such a character, having so much truth in it that we do not hesitate to repeat it for the benefit of those interested.

He said: "How can you expect our city to improve with so many drones in the hive?" No city in the country has so many young men in it, who can, if they have the enterprise and industry, contribute to the wealth of the country in which they live.

To be sure this requires labor, time, care and patience; but who is not willing to labor for the benefits derived from it in the future. Nearly every employment in the city is overstocked with labor, and here is a field of industry that is open to any one who will work intelligently and with a will, a sure investment; all that it requires is labor perseverance to bring forth its reward, and perhaps there is no country in the world where so many inducements are offered for the soil, where the returns are so liberal, and where it is treated with so little consideration as around Pensacola.

It has become a common thing among our people and those visiting us, to speak of our "poor pine lands," when, in fact, these lands are valuable for cultivation, and can, with proper handling, be made to yield more in actual valuable than the rich lands of Alabama.

This statement of ours will seem to some of our people absurd and visionary; but we hope to be able, in a few days, to furnish facts and figures that will convince the most skeptical of the truth of the statement.

CASUALTY.—George Bidwell, a student in Christian College, while cutting wood for the fire, last Saturday evening, made a frightful gash in his foot, severing the bones of two of his toes, the blade passing up into the foot. Dr. Thomas W. Shelton was very fortunately, in the village, and promptly replaced the toes and dressed the wound, so that the toes will probably be saved.

Miscellaneous.

Marriage—Imprisonment for life. The men of the day most popular with women—Hymen.

"I come to steal!" as the rat said the trap, "And I spring to embrace," as the trap replied to the rat.

A man who cannot mind his own business, is not fit to be trusted with another's.

Never despise the value of small things. Think of yourself when only an eightpounder!

A witty lady being asked her opinion of moustaches, replied, "I always set my face against them."

A writer of a love tale in describing his heroine, says: "Innocence dwells in the rich curls of her dark hair."

In Columbus City, Iowa, there is a young lady who boasts that her lover's collar almost goes round her waist.

A secret society of young women exists in Memphis. Each member is bound not to marry a man who cannot give her a diamond ring.

"Does your knitting machine make a seam?" asked an old lady of the proprietress of a knitting machine. "It seems not," was the reply.

Don't judge of moral character by the face. The frog is more innocent than many an animal that has a much handsomer physiognomy.

A one-legged young woman in Chicago advertises for a husband similarly situated, in order to utilize the odd shoes of the pairs she buys.

A pious young girl of Keokuk, Iowa, has broken off her engagement because her lover insisted upon devoting Sunday evening to courting exercises.

The Prussian raids into the country Southwest of Paris are terribly destructive. Even Solomon in all his glory was not a raid like one of these.

A Davenport lady had her petition for divorce granted after she had sold her property and turned over one third (\$2,000) to her husband for maintenance.

In Lawton, Mich. a man choked his wife just because she knocked him down with a stick of stove-wood and threw a bucketful of scalding water on him. The brute was fined \$15.

An infatuated N. Y. girl who fell in love with a stranger at a fair, and engaged herself to him, would not credit the stories about him till she was introduced to his wife and two children. The deceiver fled.

A young lady, at an examination in grammar, was asked why the noun "bachelor" was singular. She replied immediately, with much naivete, "because it is very singular they don't get married."

A blushing Cincinnati damsel, recently applied to the Judge of Probate for a marriage certificate. Excusing herself by stating that as her affianced ran on the river he had no time to attend to the business himself.

"Hallo!" ejaculated an anxious guardian of his lovely niece, as he entered the parlor, and saw her in the arms of a swain who had just popped the question and sealed it with a smack, "what's the time of day now?" "I should think it was about half past twelve," was the cool reply; "you see that we are almost one."

A gentleman was one day composing the music of a roudon for a lady to whom he paid his addresses. "Pray, Miss D.," said he, "what time do you prefer?" "O!" she replied carelessly, "any time will do, but the quicker the better." The company smiled at the rejoinder, and the gentlemen took her at her word.

Two or three dears and two or three sweets; Two or three lads and two or three treats; Two or three serenades given as lure; Two or three oaths how much they endure; Two or three messages sent in one day; Two or three soft speeches made by the way; Two or three tickets for two or three times; Two or three love letters written in rhyme; Two or three months keeping up to these rules; Can never fail in making a couple of fools.

A Railroad Man Ahead of Railroads.

It is generally understood throughout Polk County that I am selling goods from 25 to 50 per cent cheaper than any other Store this side of Portland. Now I do not offer this as an advertisement, but simply as an explanation.

When we have a Railroad from Portland South on the West Side of the River, it will open up a new era for the citizens of the counties through which it will pass.

Every man can take his wife, leave the children with their uncle, go to Portland and gather up a full list of supplies, at a very trifling expense, and at a figure far below country prices, providing there were not merchants through the country up with the times.

But there will be plenty of live men in the area. All the old fogies will have to give way, buy themselves a little farm, and retire to quiet life. This is not sarcastic, but downright truth, as history of the past proves.

And I expect those that are now little children will relate to their children in time hereafter how that, in the olden time, over there, on the hill just across Salt Creek, at Ed. Cluff's old Store House, M. M. Ellis inaugurated the new practice of selling goods at Portland prices, and paid the freight himself. Come and see me. You shall be entertained in a first class manner, with first class goods.

FRENCH MEDICAL OFFICE. Dr. Julien Perrault, Dr. of Medicine of the Faculty of Paris, Graduate of the University of Queen's College, and Physician of the St. John Baptists Society of San Francisco.

PERRAULT HAS THE PLEAS- DR. ure to inform patients and others seeking confidential medical advice that he can be consulted daily at his office, Army Hall Building, North East corner of Montgomery and Sacramento streets, San Francisco, Rooms Nos. 9, 10, 11, first floor, upstairs, entrance on either Montgomery or Sacramento streets. Dr. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the result of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists, involving the happiness of a life and that of others, reason and morality dictate the necessity of its removal, for it is a fact that a premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruits tasted long afterward; patients, laboring under this complaint, will complain of one or more of the following symptoms: Nocturnal Emissions, Faintness in the Back and Head, Weakness of Memory and Sight, Discharge from the Urethra on going to stool or make water, Intellectual Faculties are weakened, Loss of Memory ensues, Ideas are clouded, and there is a disinclination to attend to business, or even to reading, writing or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are weakened, and sleep disturbed by dreams; melancholy, sighing, palpitation, fainting, coughs and slow fevers; while some have external rheumatic pain, and numbness of the body. Some of the most common symptoms are pimples in the face, and itching in different parts of the body. Patients suffering from this disease should apply immediately to Dr. PERRAULT, either in person or by letter, as he will guarantee a cure of Seminal Emissions and Impotence in six or eight weeks.

Patients suffering from venereal diseases in any stage, Gonorrhoea, Gleet, Stricture, Bubo, Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.
