At the meeting last Saturday the people
decided to levy a tax, and have a free school
during the summer.

Messrs. Richardson & Co. give us their card,
which will be found in another column. It
speaks well, and we are inclined to think their
work will speak still better.

Sojourners. Among the persons in town at
tending the Circuit Court we notice Messrs. C.
G. Curl, from Salem; J. C. Powell, from Al-
bany; Benj. Hayden, from Eola; J. J. Daly,
from Buena Vista, and many others.

Photographic Gallery. Mr. Kincaid comes
before the public this week, and informs all
that he is now prepared to take pictures for
old and young. He has not adopted the motto
of "Not for Joseph," but would as soon ac-
commodate him as "any other man."

A want which our sister town of Buena
Vista has long needed has at length been
filled, as will be seen by our advertising col-
umns. J. Linsey Hill, M. D., has located
there, and people requiring the services of an
experienced Doctor will no longer be com-
pelled to go from home to get one.

The Statesman says that in the case of Hart
vs. the McMinville Ditch Company, tried in
the Circuit Court in Yamhill County at its last
session, Hart recovered \$3,800. This, we are
informed by P. C. Sullivan, counsel for the
Company, is an error. Hart sued the Com-
pany for about \$7,000, and recovered judgment
for \$173 and some cents.

The store of Mr. Ray at Eola in this County,
was entered by burglars on Monday night.
They succeeded in opening the drawers, and
secured about twelve or fifteen dollars in
money, and decamped with it and a few other
articles of little value. All the stolen articles
were found under an adjacent building. The
thieves had not at last accounts been arrested.

Changes in the Mails. The time of de-
parture of the Salem Mail has been changed,
so that it leaves here Monday, Wednesday and
Friday mornings, and returns in the evening,
instead of coming in at noon as heretofore, and
back in the afternoon. On and after May 1st
the West Side mails will arrive at 4 a. m. and
9 p. m., the calculation being to run from
Portland to Corvallis without delay.

Mr. John Poly, formerly a resident of Polk
County, but now living at Atahnum, Yakima
County, Washington Territory called on us on
Monday. He reports very favorably of the
Yakima country, its climate, productions, &c.
Wheat was sown in February, and all kinds of
crops were doing well. The weather had been
very pleasant during the winter, about four
inches of snow, and the mercury at the lowest
being two degrees below zero. At Atahnum,
they have three stores, blacksmith shop, &c.
and fair prospects for a flourishing town.

Destructive Fire. The Ellendale Factory
building and dye house were totally destroyed
by fire, together with the whole of the machin-
ery, on Tuesday night. Loss about \$20,000
over the insurance. The fire is supposed to be
the work of an incendiary, as there had been
no one working in the establishment, and no
fire about it since the first of March. There
was no one in the building, nor near enough to
it to be roused by the noise of the fire, and the
destruction was unknown until early the next
morning. We understand the Company de-
signs re-building soon. It will be a great loss
to the Company at best, and we sincerely hope
our citizens will deem it to their interest to
assist in replacing the buildings, as the removal
or destruction of such an institution from the
County would be a serious drawback to our
prosperity.

REAL ESTATE SALES.—Mr. Lewis Fleischer,
State Treasurer, has recently purchased through
the office of William Davidson, 64 Front street
Portland, real estate, in the city proper, to
the amount of \$11,000. And sales have also
been effected through the same office, of lots,
half blocks and blocks, located in the Couch
Addition, amounting to thirty thousand dollars.

A LADY OF HIGH RANK.
Wife of one of the leading statesmen of En-
gland says: "I have duly received the case of
MURRAY & LANMAN'S FLORIDA WATER, which
you were kind enough to send me. I have tes-
tified more and find it the most delightful
perfume more delicate flowerlike in its aroma
than any other toilet preparation I have used
before."
Purchasers should be particular to ask
for the Florida Water prepared by Lanman &
Kemp New York. 541.

Telegraphic Summary.

LONDON, April 24.—Dispatches from
before Paris say that decisive attacks
upon Fort Issy and Vanvres have been
postponed.

A special to the News says that a
night attack made by the Communists
upon the barricades on the quay of As-
nieres, was repulsed with great slaughter.
Communists lost the greater part
of Neuilly, and are profoundly discour-
aged.

Toulouse is declared in a state of
siege.
The Commune has ordered the resto-
ration of money taken from the gas
company.

New York, April 24.—A special
from Paris last night says the armistice
enables the inhabitants of Neuilly to
leave their cellars. It lasts till 10 o'clock
Monday morning. The Nationals com-
plain that the inhabitants of Neuilly
fired on them. A barricade is begun
in Rue Royale.

A special from Versailles, Sunday
say, Dombrowski made a night attack
on a barricade at Asnieres, which was
carried; then attacked the 2d barricade
but was repulsed with great slaughter
by the heavy fire of 12-pounders and
mitrailleurs. His troops were also
driven from the 1st barricade.

A strong desire for reconciliation
prevails in Paris.
It is reported that the Versailles are
in possession of Charenton and Nogent,
and it is expected they will be in St.
Dennis to-morrow.

Paris, April 24.—Cluseret reports
the suspension of hostilities at Neuilly
at noon to day.

Affairs at Asnieres are excellent.
No great movement yet. Immense
defensive measures are prepared. Tor-
pedoes are laid at the railway station,
and batteries at Rue Castellan.

The churches of St. Roche and St.
Sulpice are reopened, and the churches
liberated.

Thiers received Masons who asked
for an armistice. He said L'Admirault
would grant a truce when necessary, but
the Commune would never be recog-
nized.

The Versailles are erecting immense
works at Chacill.

Count Moltke has given notice that
he will make a line of fortifications to
guarantee against all attacks in occu-
pied provinces of France, until the indem-
nity is fully paid, and the regular Gov-
ernment fully recognized.

Verailles, April 24.—An attack has
not commenced yet. Valerien slowly
cannons. Insurgent troops are arming.

The rumor that the Government occu-
pies Charenton is untrue.

Because of the difficulties between the
French and Communists the former
stopped supplies at St. Dennis
yesterday.

Berlin, April 24.—Parliament has
passed a loan bill.

Prince Bismarck stated in the House
to-day that although the French should
pay the first installment of the indem-
nity immediately, the forts north and
east of Paris would not be evacuated un-
till a final treaty of peace was concluded.

Negotiations at Brussels make slow
progress. The French are trying to
get better conditions, but Germany is
inflexible. The movement of the Com-
mune has entailed sacrifice on Germany
but she would not meddle with the in-
ternal affairs of France.

Hamburg, April 24.—In conse-
quence of the agreement between the
French and Germans, the transports
which were waiting here to convey the
French prisoners back to France, have
been obliged to return to Harre empty.

New York, April 25.—A dispatch
from New Orleans says the city is
filled with rumors of crevasse in the
levee and a probable inundation. A
careful inquiry reduces the number of
crevasse from which danger is antici-
pated to four—Poverty Point, Wallace's
plantation, Bonnet Carre, and Nara-
plantations. To-night three of these
are reported under control, leaving the
break at Bonnet Carre, the one to be
combated. Here the danger is great
and imminent. The waters of the Mis-
sissippi are rushing through an opening
700 feet wide with a roaring sound au-
dible for miles, flowing through a chan-
nel 50 feet deep, far into vacant lands,
and the levee is rapidly crumbling into
the boiling waters. No efforts can now
close the crevasse, and as soon as the
flood has cut its way into the lake, the
latter will overflow the whole rear por-
tion of New Orleans. The latest
news is that the Bonnet Carre crevasse
is still extending 12 miles of the
Jackson Railroad washed away. Two
other crevasse, one at Point Manion
west of Baton Rouge and one on Mc-
Donough estate below the city, are re-
ported.

The Tribune Washington special says,
the Decision of the Supreme Court in
Legal Tender cases, will be announ-
ced in open court, Monday next. Opin-
ion will not be delivered until the De-
cember meeting of courts, in order that
Judges may have time to perfect them.
It is positively asserted that the decision
will reverse the former decision by
deciding the Legal Tender act consti-
tutional, and that contracts made prior
to the war have been unfilled by payment
of greenbacks.

CORRESPONDENCE.

The following letter from a Pennsyl-
vanian to William Davidson, Esq., will
be known as a Real Estate Agent in Port-
land, shows the interest taken in Ore-
gon by the Eastern people:

EAST SPRINGFIELD, ERIE Co., Pa.,
March 31st, 1871.

WM. DAVIDSON, Esq. Dear Sir:
Your letter of January 25th and pack-
ages were received in due time, and I
have circulated them over the country,
which will have, I believe, the desired
effect. The eyes of the States are now
being turned towards the Pacific slope,
and many are looking to Oregon and
Washington Territory for a future
home, as soon as their business and
property can be got in shape; and I
think the Willamette Valley will re-
ceive a large portion. I think emigra-
tion will increase very rapidly for years
to come. I have spent, since my arrival
home, my entire time, and much money
in forwarding the interests of emigra-
tion, and have had, by letter and other-
wise, communications from hundreds of
different men who design, as soon as
practicable, to visit the Pacific, with the
intention of making a home, and many
of them will go forward this spring,
summer and coming fall.

Although I have organized a party of
what is called the Keystone Colony, we
have not made a full and complete or-
ganization. Something is lacking to
make full satisfaction. For instance,
a part would wish to pay \$5 to become
a member of the Colony and have the
benefit of reduced rates, extra baggage,
freight, etc., and purchase their own
land on their arrival. Others wish to
pay to the treasurer the fare, about
\$115, the initiation fee, \$5, and \$150
to purchase land within a large tract
where a town could be located in the
most convenient place and send forward
me to locate, build accommodations to
receive the Colony on their arrival, etc.

All the ways proposed have their ob-
jections. For instance, the treasurer
would have to be a man known from
New York to Iowa, not only as an hon-
est man, but a man responsible; and,
for the locating committee, and espe-
cially the executive committee, it is not
so easy to find good men who wish the
responsibility. With this explanation
you can see at once that if the Colony
should adopt the standard of admitting
only those who were able to advance
\$270, it would cut out a large portion
of the laboring class of young men who
have not much more means than to pay
their fare and fee, and have a little left
to start on a homestead, who are the
very bone and sinew of our country,
and who will eventually tell upon the
weal or woe of the land. And on the
other hand, if I form a Colony on the
basis of the organization above, without
a location to go to, what can a poor or
rich man do? It is like a leap in the
dark. Now let us come to the point.
Can there be a company formed in the
Willamette Valley, so that land can be
secured in a large body, with a village
laid out in its centre, and so situated
that the poor man can purchase Govern-
ment land or railroad land at a low
price; especially for those who located
first? And where we could have a
depot and post office at once? Where
the poor but honest man could get a
little time, and where the rich man
could buy a reasonable amount of land?
Where the climate is healthy and the
water good? Where all could enjoy
the equable and delicious climate of
your valley? I believe the population
of your State would rapidly increase by
emigration from this State. I would
join such a company, and perhaps bring
out say twenty-five families or their
representatives, and in the summer and
fall another small party, and by another
spring we could get them going for-
ward in earnest. Are there men or
companies in your State that would be
glad to take hold of this matter? I
have no large means, but will give a
large amount of labor for its interest.

I have several friends who propose
visiting your State this spring—some
time in May—and will give them let-
ters to you and others, and if they find
the country as has been represented to
them, they will select homes in your
highly favored land.

I am very much pleased with the
climate of Oregon, and desire a homo-
there.

Please present this matter to some
of your business men—Ben. Holladay,
the Mayor of Portland, H. Humason
and others, as it may be of much inter-
est to them.

I will communicate with you soon.
Yours truly,
WILLIAM BOND.

The Great Health Restorer!
Many thousands of sick people have been re-
stored to health by Bristol's Sarsaparilla and
Pills, and more certificates of cures and letters
of grateful thanks have been received in their
favor than were probably ever written for all
other medicines combined. Sufferer! whatever
your ailment is, give these two remedies a trial;
no matter how often you may have been dis-
appointed, they will benefit, and most likely
cure you. 566.

If you desire rosy cheeks and a
complexion fair and free from Pimples and Blisters
purify your blood by the use of Dr. Pierce's
Alt. Ext. or Golden Medical Discovery. It has
no equal for this purpose, nor as a remedy for
severe Coughs or Bronchitis. Sold by drug-
gists. To avoid Counterfeits see that it has,
upon the outside wrapper, Dr. Pierce's private
Stamp, issued by the U. S. Government ex-
pressly for stamping medicines, and which bears
his portrait, name and address upon it.

CHOLERA.
HOW TO CURE IT.

At the commencement of the Diarrhoe, which
always precedes an attack of the Cholera, take
a teaspoonful of Pain Killer in sugar and wa-
ter, (not if convenient,) and then bathe freely
the stomach and bowels with the Pain Killer
clear. Should the diarrhoe or cramps continue
repeat the dose every ten or fifteen minutes un-
til the patient is relieved. In extreme cases,
two or more teaspoonfuls may be given at a
dose.

The Pain Killer, as a remedy, has no equal.
In cases of Cholera, Summer Complaints, Dys-
pepsia, Dysentery, Asthma it cures in one night
by taking it internally, and bathing with it
freely. Its action is like magic, when external-
ly applied to Old Sores, Burns, Scalds, and
Sprains. For Sick Headache and Toothache
don't fail to try it. In short, it is a PAIN KIL-
LER.

Directions accompany each bottle.
The Pain Killer issued by all dealers in Med-
icines.
Price, 25 cents, 50 cents and \$1 per bottle.

Bear in Mind.
When disease has undermined the health,
and the physical system has become prostrated,
a stimulant that will not only strengthen, but
remove the cause, should be immediately re-
sorted to. Mental distress is also a fruitful
source of the breaking down of the constitution
and the ravages of this enemy to health are
truly alarming. For such maladies Hostetter's
Stomach Bitters have been found unsurpassed.

By acting directly upon the digestive organs,
they remove the heavy, disagreeable feeling af-
ter eating, so often complained of by persons
of a delicate temperament. As soon as diges-
tion is restored, the patient finds his strength
increasing, and his general health improved.

Thousands of persons certify that it may be
relied on in all cases of weakness or nervous
debility attendant upon sedentary habits. The
generality of medicines are so bad to the taste
that they are objectionable to a weak stomach.
This is not the case with Hostetter's Bitters,
which will be found mild and very pleasant.

Balsamic plants, barks and roots contribute their
restorative juices to render it soothing and
strengthening. Its basis is the only pure stimu-
lant which has ever been produced, containing
no food oil, or any other deleterious element.
The most careful and skillful chemists have an-
alyzed the Bitters, and pronounce them harm-
less. This is scientific testimony; but the tes-
timony of thousands who have experienced the
preventive and curative effects of the GREAT
VEGETABLE TONIC and ALTERNATIVE of
modern times is still more conclusive. In fever
and Ague, Dyspepsia, Biliousness, Nervous
Complaints, Chronic Complaints and general
debility it is as nearly infallible as anything in
this fallible world can be.
