New goods just received at Lee's, corner of
Main and Mill Streets.

Thanks. We are under obligations to Hons.
H. W. Corbett, J. H. Slater, and James K.
Kelly for valuable Congressional Documents.

The ladies say those shawls at the Brick
Store are splendid. Call and get one before
they are all gone.

"Jars" in the family are not always pleasant,
yet we opine that G. B. Stiles has some that no
housewife in the land would object to.

Mr. Alex. Campbell comes out with a card in
this issue, and says he is prepared to give men
"perfect fits" in the clothing line. See advertisement, and give him a call.

Frost. A heavy frost occurred here on
Thursday night. Friday morning the ground
was as white as if a light snow had fallen, and
considerable damage was done to the fruit
and gardens.

Mr. T. L. Nicklin announces that he will be
in Dallas Monday, May 22d, and remain one
week. Those having defective teeth which
they wish attended to will do well to give him
a call. Mr. N. is a skillful workman, and can
take care of the teeth, and let folks "save their
jaw."

The Mercury man warns Mr. T. G. Rich-
mond of the danger of making banners, and
hints that there are bounds in Salem that can
beat his. We know the "Count" to whom the
Mercury refers is "rather fast," but Tom says
he is not afraid to meet him, or any other man,
in such a contest. He does not propose to go
back on what he has said, so toot your horn
and bring out your dogs, and we shall see who
bears the palm.

Crops on the Reservation. We are credibly
informed that there is about 700 acres of grain
sown on the Grand Round Reservation, 120
acres on the Government farm, and the remain-
der sown in patches by the Indians. This,
added to the large amount of ground they have
in garden, will give them a much larger sup-
ply of provender this year than usual. They
have on hand from last year's crop quite a
surplus of wheat, oats and hay.

We are pleased to see so much interest man-
ifested by our citizens in the formation of a
Silver Band in Dallas. A meeting will be
held at the Court House next Thursday evening
to take initiatory steps for organization, and
for determining the proper plan for operations.
This will give all an opportunity of showing
what they can and will do in the premises; and
bring matters into a business shape. A good
band here would enliven the town, add to its
interest, and eventually enhance our material
prosperity.

Musical visit. Last Saturday, during the ex-
ercises were over at the Pic Nic at Dixie, the
Monmouth Band paid Dallas a visit, and as
they passed through our streets, discoursed
some of their best music. The people of Dallas
return thanks for the compliment, and request
them, whenever circumstances are favorable, to
give another call. We trust we will soon be
able to reciprocate favors. The question has
been agitated of forming a Band here, and
preliminary steps have already been taken for
the accomplishment of that object.

The person who would steal wood from a
poor widow woman, ought to be compelled to
live where the mercury was forty degrees below
zero, and no wood within stealing distance. We
understand that parties have been helping
themselves to wood from Mrs. Ellsberry's
woodpile, and would suggest the propriety of
their stopping the nefarious business before
they bring themselves into note, and find them-
selves before a bar of justice. Mrs. E. depends
upon her own labor, and the assistance of
citizens here for support, and anyone thieving
from such an one should be branded with
ignominy.

County Lodge. Notwithstanding the inclem-
ent weather of Wednesday, there was a large
attendance at the County Lodge of Good Tem-
plars in Bethel. Delegates were present from
most of the Lodges of the County. A splendid
dinner was prepared by the people of the town,
able speakers were there to edify and instruct,
and all went merry as a wedding bell. The
next meeting is to take place at Val Fontis, on
the 4th of July. The calculation is to have a
celebration at that time and place. An invita-
tion is extended to Marion, Yamhill, and other
Counties to send delegates to the Lodge Ses-
sion, and to everybody to come to the celebra-
tion, or send somebody.

Telegraphic Summary.

VERSAILLES, May 8.—A new battery
at Montretoul opened a moderate fire on
Paris to-day. The bombardment will
be renewed with greater energy to-mor-
row.

The fire from Issy to Vanvres to-day
was very weak. Other Federal bat-
teries kept up a vigorous cannonade.

In the Assembly to-day, Picard stig-
matized the projected Congress at Bor-
deaux as criminal, and announced that
steps have been taken by the Govern-
ment to prevent its assemblage.

Paris, May 8.—All goes well.
Paris, May 8.—Evening.—Dumont
is appointed commander of Fort Issy.

Lacela will probably command on
the right bank of the Seine.

All the journals of Paris, even the
most conservative, condemn the action
of the Versailles government in pro-
hibiting the assembling of the projected
Congress.

Moulin, Sagnt and Bruyeres have
received reinforcements.

London, May 8.—A rumor comes
from Brussels that a formal treaty of peace
has been signed at Frankfurt.

Bismarck has not yet returned to
Berlin, but is expected to-morrow.

In the House of Lords this evening,
the University test bill was sustained
by five majority.

In the House of Commons, the dis-
cussion upon the new army regulations
bill was resumed. After a prolonged
debate, the House divided with a major-
ity of 63 against the purchase commis-
sions.

There was rioting to-day at Oldham,
a great manufacturing town near Man-
chester, originating in a lock out. It
is not known that any lives were lost.

A Times special says the Federalists
retook the barricade of Rue Peyroul.
The commander of the Nationals has
been shot by a cure.

The Versailles continue to ap-
proach Boule de Boulogne.

A Daily News special says there is
considerable concentration of troops at
Neuilly. An attack is anticipated.

A circular by Picard orders a watch
kept on the movements of the Bonapart-
ist Prince.

A dispatch to the Telegraph says it
is officially reported that Bismarck had
an interview with Thiers at Compigne.

Berlin, May 9.—The Reichs ag
is debating the bill for the incorporation
of Alsace and Lorraine. It has passed
an article granting immediate German
citizenship to Alsatians and Lorrainers.

Versailles, May 9.—Fort Issy has
been captured by the Versailles.

The insurrection at Algeria is mak-
ing some progress.

New York, May 9.—A dispatch dated
Versailles, yesterday afternoon, says:
To-morrow operations on a large scale
are expected. To-day commanders of
divisions came to Versailles to get orders
McMahon with 80 big guns is to op-
erate at a certain point at 4 o'clock to-
morrow.

A special dispatch from Paris Mon-
day night, says the Central Committee
of the Woman's Union demand war
at once.

The Sisters of the Convent of St.
Sulpice have been arrested.

The Prussian patrols are very vig-
ilant on neutral grounds. One hundred
and eight Nationals were arrested by
them yesterday.

A powder magazine at Porte Maillot
was exploded by shells this morning.
Several were killed and great destruction
ensued.

The officers commanding Issy declar-
ed it necessary to surrender the fort.
Russel ordered them to hold out and
they replied that they would rather re-
sign. Russel had them and two others
arrested. The General has great de-
termination, and is virtually military
dictator.

The dispute between the Central
Committee and Commune is healed.
The Commune has seized the telegraph
lines on the northern railway.

The German General Von Der Tann
demands the complete evacuation of
Brenas.

At a meeting of the Commune yester-
day it was demanded that deputies from
Paris to the Versailles Assembly should
resign immediately upon pain of out-
lawry or death.

Berlin, May 8.—It is officially re-
ported that Bismarck is going to Com-
pigne, the headquarters of the Prince
of Saxony, to confer with Thiers.

San Francisco, May 9.—Weather
cloudy with wind from the north-west.
The mayor, under orders from the
Board of Supervisors, will proceed im-
mediately to enjoin the sale of Yerba
Buena Place. Sale advertised by the
City Hall Commissioners.

Carson, May 9.—The residence of
Messrs. Mara & Magee was almost en-
tirely destroyed by fire this afternoon.
Cause of the fire, supposed to be a defec-
tive flue; loss, \$1,500, no insurance.

The Supreme Court has denied a
rehearing in the Rhodes' bondsman
case, and it now goes back to the court
below for a new trial.

Deposits of gold and silver bullion at
the branch mint for the past six days
amount to \$143,223 92.

St. Johns, May 9.—The fishing
provisions of the treaty at Washington
are strongly condemned here. Hopes
are entertained that they will not be rat-
ified by the Canadian Parliament.

How to See Down a Well.

It is not generally known how easy
a matter it is to explore the bottom of
a well, cistern, or pond of water, by the
use of a common mirror. When the
sun is shining brightly, hold a mirror
so that the reflected rays of light will
fall into the water. A bright spot will
be seen at the bottom, so light as to
show the smallest object plainly. By
this means we have examined the bot-
toms of wells fifty feet deep, when half
full or more of water. The smallest
straw or other small objects can be per-
fectly seen from the surface. In the
same way one can examine the bot-
toms of ponds and rivers, if the waters
be somewhat clear, and not agitated by
winds or rapid motion. If a well or
cistern be under cover, or shaded by a
building, so that the sunlight will not
fall near the opening, it is only neces-
sary to employ two mirrors, using one
to reflect the light to the opening, and
another to reflect it down into the water.
Light may be thrown fifty or a hundred
yards to the precise spot desirable, and
then downward. We have used the
mirror with success to reflect light
around the house to a shaded well, and
also to carry it from a south window
through two rooms, and then into a
cistern under the north side of the
house. Half a dozen reflections of light
may be made, though each mirror di-
minishes the brilliancy of the light. Let
any one not familiar with the method
try it, and he will not only find it use-
ful, but a pleasant experiment. It will,
perhaps, reveal a mass of sediment at
the bottom of the well that has been
little thought of, but which may have
been a frightful source of disease by its
decay in the water.—Exchange.

The Democratic Era, published by
Hicks & Co., East Portland, is just
received. It presents a fine typographi-
cal appearance; and while we cannot
enlist under the political banner which
it hoists, yet we otherwise heartily wish
it success.

Wood's Household Magazine for
Jan. Feb. and March is just received.
It is a valuable journal for the house,
as it gives information for all mem-
bers of the family. One dollar sent to
S. S. Wood, Newbury, New York,
will secure it for one year.

The Industrial Bulletin, Johnstown,
Penn., and the Industrial Reformer,
of San Francisco, Cal., are, as their
names indicate, published in the inter-
ests of the industrial classes.

To TAKE GREASE OUT OF SILK.—
Take a lump of magnesia, rub it wet on
the spot. Let it dry; then brush it off
and the spot will disappear.

REFRESHING FRAGRANCE!
The fragrance of fresh flowers is agreeable
and pleasant to even the most fastidious; and in the
gentle MARY & LAMAR'S Florida Water
we have this floral fragrance in all its refresh-
ing purity and strength. Delicate persons and
invalids are greatly soothed and benefited by
its use.

As there are worthless counterfeits,
buyers should always ask for the Florida Water
prepared by Lamman & Kemp, New York.

Flatulency, Sour Stomach, Heartburn
are the warnings given by nature of approach-
ing dyspepsia and liver complaint. Avert the
danger by using Bristol's Sugar-coated Pills.
They invigorate the liver, tone and strengthen
the stomach, and enable the bowels to perform
their functions with ease and regularity. Occa-
sional doses of Bristol's Sarsaparilla will
greatly hasten a cure.

Impaired vitality. When you feel as if
the vital powers were giving way, strength gone,
spirit depressed, memory failing, appetite lost,
exhaustion stealing over every sense and paralyz-
ing every energy; then is the time to resort
to that powerful ally of nature Dr. WALKER'S
Vegetable VINEGAR BITTERS. The properties
they embody soon work a glorious renovation
in the debilitated system and the clouded mind.

For coughs, Bronchitis and Consumption
in its early stages, nothing equals Dr. Pierce's
All-Ex or Golden Medical Discovery. It is
also a blood purifier and strength restorer or
tonic, and for "Liver Complaint" and "Consti-
pation of the Bowels" it has no equal. All
Scrophulous and skin diseases as Pimples,
Blethches, Salt Rheum, Erysipelas, and Eruptions;
yield to its wonderful properties. Sold by
druggists.

CHOLERA.
HOW TO CURE IT.

At the commencement of the Diarrhoe, which
always precedes an attack of the Cholera, take
a teaspoonful of Pain Killer in sugar and wa-
ter, (not if convenient), and then bathe freely
the stomach and bowels with the Pain Killer.

Should the diarrhoea or cramps continue
repeat the dose every ten or fifteen minutes un-
til the patient is relieved. In extreme cases,
two or more teaspoonfuls may be given at a
dose.

The Pain Killer, as a remedy, has no equal.
In cases of Cholera, Summer Complaints, Dys-
pepsia, Dysentery, Asthma it cures in one night
by taking it internally, and bathing with it
freely. Its action is like magic, when external-
ly applied to Old Sores, Burns, Scalds, and
Sprains. For Sick Headache and Toothache
don't fail to try it. In short, it is a PAIN KIL-
LER.

Directions accompany each bottle.
The Pain Killer is sold by all dealers in Medi-
cines.

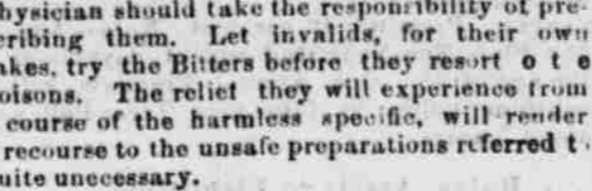

Prices, 25 cents, 50 cents and \$2 per bottle.

Poisonous Medicines.
The theory that the virus of diseases can be
safely counteracted by doses of poison, is false
and dangerous. Within the last 25 years, not
added to the prosperity of the medical profes-
sion. They are given in small doses; therefore
they would destroy life immediately; but in
minute quantities, they produce, ultimately
very disastrous effects. It is unwise and un-
philosophical to employ, as remedies, powerful
and insidious drugs, which, in subjugating one
disease, sow the seeds of another still more un-
manageable. None of these terrible medica-
tions operates with as much directness and
certainly upon the causes of diseases as Hos-
tetter's Stomach Bitters, a tonic and corrective
without a single deleterious ingredient in its com-
position. Arsenic and quinine are given for
intermittents; bromide of potassium for nervous
disorders; strychnine and prussic acid for gen-
eral debility; mercury, in various forms, for
liver complaint; preparations of calomel, opium
and other narcotics, for dyspepsia; and yet these
drugs do not compare, as specifics for the dis-
eases above enumerated, with that wholesome
vegetable invigorant and alterative, while they
are all so pernicious that it is astonishing any
physician should take the responsibility of pre-
scribing them. Let invalids, for their own
sakes, try the Bitters before they resort to a
poison. The relief they will experience from
a course of the harmless specifics, will render
a recourse to the unsafe preparations referred to
quite unnecessary.

THE GREAT MEDICAL DISCOVERY!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS.

Hundreds of Thousands
Bear testimony to their wonder-
ful Curative Efficacy.

WHAT ARE THEY?

THEY ARE NOT A VILE
FANCY DRINK.

Made of Pure Rum, Walkley, Proof
Spirits and Refuse Liquors, distilled, aged
and sweetened to please the taste, called "Ton-
ic," "Appetizer," "Reviver," "Acid," that lead
the tongue to a rancidness and ruin, but are
a true Medicine, made from the Native Roots and
Herbs of California, free from all Alcoholic
Stimulants. They are the GREAT BLOOD
PURIFIER and LIFE GIVING PRIN-
CIPLE, a perfect renovator and invigorator of
the system, carrying off all poisonous matter and
restoring the blood to a healthy condition. No
person can take these Bitters according to direc-
tion and remain long unwell.

For inflammatory and Chronic Rheu-
matism and Gout, Dyspepsia or Indiges-
tion, Bilious, Remittent and Inter-
mittent Fevers, Diseases of the Blood,
Liver, Kidneys, and Bladder, these Bitters
have been most successful. Such Dis-
eases are caused by Vitiated Blood, which
is generally produced by derangement of the
Digestive Organs.

DYSPEPSIA OR INDIGESTION.
Headache, Pain in the Shoulders, Coughs, Tight-
ness of the Chest, Dizziness, Sour Eructations of
the Stomach, Bad Taste in the Mouth, Bilious At-
tacks, Palpitation of the Heart, Inflammation of
the Lungs, Pain in the regions of the Kidneys, and
a hundred other painful symptoms, are the off-
springs of Dyspepsia.

They invigorate the Stomach and stimulate the
torpid liver and bowels, which render them of un-
equalled efficacy in cleansing the blood of all
impurities, and imparting new life and vigor to
the whole system.

FOR SKIN DISEASES, Eruptions, Tetter,
Salt Rheum, Blotches, Spots, Pimples, Pus-
tules, Boils, Carbuncles, Ring Worms, Scald-Head, Sore
Eyes, Erysipelas, Itch, Scabies, Discolorations of
the Skin, Humors and Diseases of the Skin, of
whatever name or nature, are literally dug up
and carried out of the system in a short time by
the use of these Bitters. One bottle in such
cases will convince the most incredulous of their
curative effects.

Cleanse the Vitiated Blood whenever you find
its impurities bursting through the skin in Pimp-
ples, Eruptions or sores; cleanse it when you
find it obstructed and sluggish in the veins;
cleanse it when it is foul, and your feelings will
tell you when. Keep the blood pure and the
health of the system will follow. It is the most
valuable and safe of all purifiers, acting in the
system of so many thousands, are effectually
destroyed and removed. For full directions, read
carefully the circular around each bottle.

A Glorious Change!!
THE GREAT WORLD'S TONIC.

Plantation Bitters.

This wonderful vegetable
restorative is the sheet-an-
chor of the feeble and debili-
tated. As a tonic and cordial
for the aged and invalid, it
has no equal among stom-
achics. As a remedy for the
nervous weakness to which
women are especially sub-
ject, it is superseding every
other stimulant. In all dis-
tempers, tropical, temperate,
or frigid, it acts as a specific
in every species of disorder
which undermines the bodily
strength and breaks down the
animal spirits. For sale by
all Druggists.
