DRIED PLUMS 16⅔ ℔ lb.
WOOL—33⅓c. ℔ lb
DRIED PLUMS—16⅔ ℔ pound.

☞ Please notice this. Those in arrears, either for subscription or advertising, will confer a favor by calling and settling. It is a small amount to each, but in the aggregate amounts to a handsome sum to us, and will enable us to make certain improvements contemplated.

No Portland Mail. From some cause, not explained, no Portland mail reached here today.

There will be preaching at the M. E. Church on Sumday morning next at 11 o'clock, and in the evening at 7 o'clock by Rev. J. James.

The exercises of the Literary Society are very amusing as well as instructive. The attendance Thursday night was good, and all passed off lovely.

The farmers are very busy ploughing and sowing. The late rains have put the ground in such a condition that wheat can be sown to a good advantage.

There is in store at Independence about 90,000 bushels of wheat; at Buena Vista about 40,000 bushels. Considerable quantities of wheat yet remain in the hands of the farmers, although the great bulk has been delivered.

A Little Boy's notion of Kissing. A little four-year-old Dallasite, on being asked by a lady residing here to give her a kiss, replied, "No, indeed; I kissed so many ladies at the Fair that it gave me a bad cold, and I won't kiss any more." How's that for the rising?

Mr. T. L. Nicklin, partner of Doctor Chance, dentist, from Salem, who has practised so successfully on former occasions in and around Dallas will be here on Wednesday next, November the 1st. He purposes remaining here one week. His office is at the Hotel, where he will be ready to attend to all those requiring his assistance.

Whittlings.—Our merchants have been very busy this week getting their goods up from below. Messrs. Bolter, Wortley & Co. have a full line of assorted goods which will be opened for the public inspection early next week. They will offer some great bargains.—Messrs. Nichols & Coad are laying in a very large stock of the finest drugs to be had in the market. After the teamster had unloaded the goods from his wagon—a bumper that fairly made it groan, he was heard to say "that there was thirty hundred weight still left at the depot to be hauled over." From our experience of the business capacity of this firm, we have no doubt in saying that the drugs are all well selected, so that they are not likely to prove a "drug" in the market. Those who want fresh goods call and see them.—We saw at G. B. Stiles' Headquarters several boxes of soaps from the Salem Chemical Soap Factory. It is a first-rate article, and can be sold cheap. This is no "soft soap," but is a real genuine article, as all will say when they see it.—Messrs. N. & J. D. Lee have just received a large stock of Mens' and Boys' Boots and shoes from the East. All those who wish to thoroughly protect their feet from winter rains and snows had better call and get a pair.—The daily mail from Salem here is adding greatly to the comfort and convenience of the residents of this place and its surrounding neighborhood.

ABRAHAM A PLANET.

And now comes Prof. Chaney and proclaims to all "Webfoot" and the people thereof, that he has the documents wherewith to prove that Abraham, the old patriarch, Sarah's lord and Hagar's husband, *ad interim*, the paternal ancestor of Isaac, the founder of a great nation, in whose capacious bosom the weary hope to find rest, was after all nothing but a planet, and that Sarah, the mother of Isaac, was but a twinkling star. What cherished tradition will be attacked next? What fact will remain unquestioned by these restless spirits? In view of this uncertainty, it is some relief to gentlemen desiring to be fashionably dressed, to know it to be a fact, *no longer in dispute*, that the finest dress suits, the most stylish hats and caps and the latest novelties in furnishing goods are to be found at Murphy & Crossman's at the Bank Building, corner of State and Commercial streets, Salem.

Forty Years' Experience have tested the virtues of *Dr. Wistar's Balsam of Wild Cherry*, and the result is that it is the best remedy extant for pulmonary and lung diseases, embracing a whole range from a slight cold to a settled consumption. Were it not for its merits, it would long since have "died, and made no sign." 213-w.

Telegraphic Summary.

London, October 23. — Liverpool subscribed £16,000 to the Chicago relief Fund, and Nottingham £1,000.

The steamer Russia took a large consignment of clothing and supplies for the sufferers by the Western fires.

The National Choral Society, numbering one hundred members, will perform the Oratorio of "Messia" at Hyde Park for the Relief Fund.

The *Times* states that Napoleon de'c'ared the reports of Bonapartist conspiracies on the coast of France groundless. The Emperor claims to be the legitimate Sovereign, and advocates no violent measures. He believes his partisans should urge taking the will of the French people upon the settlement of the Government by a plebicitum.

Marseilles, October 23.—At the municipal election yesterday the ultra Catholics were successful.

London, October 24.—For the Chicago Relief Fund Nottingham gives £2,000, Kedderminster £500, Edinburg £1,340, Perth £120 and Dumfer £150.

The *Times* suggests the appointment of an impartial Commissioner to settle any international difficulty which may grow out of cases like the Horton. It believes that any complications could be compromised promptly.

Detroit, Michigan, October 23.—A high wind rekindled the fires in the woods on the military reservation at Port Huron, and much anxiety is felt for the safety of the town.

Springfield, Massachusetts, October 23.—The Mahonic Bank of Great Barington was robbed of $18 000, on Saturday night, by W. Spinnerhohn, who escaped.

Washington, D. C., October 24.—Subscriptions for Chicago amount to $160,000. Twenty five thousand dollars of this sum will be appropriated to the sufferers in Michigan and Wisconsin.

Salt Lake, October 24.—In Hawkins' case the defendant asked to be released by reason of the verdict not being in accordance with the statute, and failing to specify the nature and extent of the punishment. Overruled, and the sentence deferred until Saturday next.

The Mormons talked peace provided Brigham is not imprisoned. Brigham will submit, bnt they will never allow it.

Chicago, October 23.—The *Times* this morning publishes a highly sensational account of the origin of the great fire, and what purports to be a confession of a member of the Society of Internationals, who alleges that it was their work to first set fire on DeHaven street. About a dozen confederates assisted him in spreading it. He states that it was the third attempt, the first being on the 30th of September, when the Burlington warehouse burned; the second, on Saturday night preceeding the great fire of Sunday, an account of which he gives in detail to the writer. He further says George Francis Train is a member of the society, and in a lecture in Farwell Hall the very night of the disaster, came near betraying them in using the following language: "This is the last public address that will be delivered within these walls. A terrible calamity is impending over Chicago—more I cannot, more I dare not utter." The *Times* says that Train made use of the words can be abundantly proven, but decline to offer an opinion as to the authenticity of the story. It will not be believed unless by the most credulous persons. Certain to all was the fact that the perfect hurricane of wind which accompanied the fire was sufficient to account for its terribly rapid spread.

Rochester, N. Y. October 23.—Extensive fires are prevailing in Monroe Genesee, Wayne and Seneca counties. The wind is blowing a perfect gale. Much anxiety is felt throughout the burning district. The smoke has obscured the sun to such an extent that lights have been raised in the city. Reports are constanly coming of fires in all directions.

Los Angeles, October 24.—Officer Belderain attempted to arrest a Chinaman for shooting another last night and was resisted. The officer called Robert Thompson to assist him when the Chinese commenced firing from both sides of the streets. Thompson was shot through the breast. Bilderain was shot through the shoulder and jumped on a horse and escaped. A Spanish boy was shot through the leg. Thompson is dead. He was a quiet inoffensive citizen. The excitement is intense and the citizens are arming. The Chinese quarters are in a state of siege, and already hundreds of men are armed with Henry rifles and shot guns. One Chinaman has just been captured and hung by the citizens. Firing at intervals and in regular volleys are heard in China houses at random, and from house to house. Two Chinamen were killed. The Sheriff and the civil authorities have given up trying to restrain the mob. The Chinese are well armed, and more blood will probably flow.

Latest.—Fifteen Chinamen have been hung. The authorities have succeeded in preventing further violence. Another Chinaman has been captured and put in jail. The crowd is dispersing.

Some Hints on Pruning Trees.

A great deal has been said in the papers about the best time for pruning trees, and we are prepared to concede that the summer months are the best, that the wounds will then heal over the quickest, and that the least injury is then done to the tree. If the tree raiser will make experiment, as all ought to do, he will find in which months wounds are healed over quickest. There is a great deal of truth in the rule, however, to prune in winter for wood growth, and in summer for fruit; but the wounds in winter do not heal over so quickly, and water shoots are very apt to be thrown out when amputation has taken place. The true theory of all pruning, however, is to so guide the growth of limbs as to have no severe pruning at any time. Start the head of the tree right, in its infancy, and if any branches are going astray cut them off with your pocket knife at any time. No larger pruning instrument should go into an orchard at any time than a pruning knife, and no larger one is needed, if used at the proper time. The effect of pruning is to regulate the growth of the tree, and throw the sap into the proper channels, to form a well-balanced head with all parts open to the sun, so that the fruit may have size and color. Many go into their orchards and saw off large limbs, cutting off more brush than they leave on the tree, mangling and butchering it horridly. There are laws for preventing cruelty to animals, and there should alss be the same for preventing cruelty to trees. The laws of vegetable physiology should be as well understood by him who endeavors to regulate and promote the growth and fruitfulness of trees, as the laws of animal physiology should be understood by him whose profession it is to regulate and bring to a normal condition the animal system when out of order. Orchards should be visited often at this season of the year, with pruning-knife in hand, and kind attention given to every tree. Trees should be considered adopted children, and their every want attended to. They should have a good, rich scil, which should be well worked, that a thrifty growth may be made.—*Phrenological Journal.*

An Involuntary and Perilous Ride.

A locomotive, running as an extra on the Hudson River Railroad, arrived at New Hamburg from Poughkeepsie on Saturday, being stopped there by a telegram from that city in consequence of a singular, and what might have been a tragic incident. Before the locomotive left Poughkeepsie, four little boys who were playing about the depot, supposing it was a switch engine, and only going a little way down the track, climbed stealthily upon the wooden guard just above the bumper on the rear of the tender. The guard is only six inches wide. Three of the boys sat down upon the guard, with their legs hanging over, and the fourth got astride of the iron link which protrudes from the bumper. They could not be seen by the men upon the engine, which moved off, and continued increasing its speed, until it was going at the rate of forty miles an hour, as was ordered. The boys were in a terrible situation. They dared not climb to the top of the tender for fear of losing their balance, and their cries were drowned by the noise of the engine. Over bridges and along the edge of precipices they were whirled, the tender surging to and fro, the dust filling their eyes and noses, and almost choking them to death, and entirely obscuring them from the view of the flagmen and trackmen who were passed. The locomotive was signaled at New Hamburg, Mr. James Signor having seen the boys on the rear of the locomotive when it left Poughkeepsie. The poor little fellows presented a sorry sight, as they were covered with dust from head to foot. The boy who was astride of the link was unable to walk when taken off, his legs being awfully chafed by the motion of the engine. The hands of the other boys were blistered terribly, and the blood oozed out from under their finger nails, so tightly had they grasped the woodwork of the tender. They were nearly exhausted, and could have maintained their position but little longer, when they would have probably been instantly killed by the fall. They were taken back to Poughkeepsie, where the incident had become noised about, and a large crowd of people was in waiting at the depot to see them when the train they were on arrived.—*Netional Car Builder.*

The number of species of animals kown to be now living is thus given by Brentham; The number of mammalia is estimated at between 2,000 and 3,000 species; birds at about 10,000; reptiles and amphibians under 2,000; fishes at about 10,000; insects at above 160,000; crustacea and arachnida rather above 10,000; mollusca about 20,000; worms, radiates, sponges and infusoria under 6,000; while there are about 100,000 plants. He thinks a "Genera Plantorum" is still in the capabilities of a single botanist, while such a work on animals would have to be accomplished by division of labor among zoologists.

Earl Russell is writing "The Foreign Policy of England from 1570 to 1870."

A man who was once traveling through the State of Illinois, coming to a ferry and being out of money, the following colloquy took place between him and the Ferryman: Ferryman—I say, mister, have you got any money? Traveler—No, sir. Ferryman—Can you borrow any? Traveler—No, sir. Ferryman—Do you expect to get any on the other side? Traveler—No, sir. Ferryman—Well, then, you had better stay where you are, for it makes d—d little difference which side you are on.

Dr Johnson once silenced a notorious female backbiter who was condemning some of her friends for painting their cheeks, by the remark that "It is a far less harmless thing for a lady to redden her own cheeks than to blacken her neighbor's character."

Philadelphia has 763 lawyers, 1,037 physicians, and 21,535 domestic servants.

SPECIAL NOTICES.

AGENTS of this OFFICE, in all the CITIES and TOWNS in the STATE, will receive descriptions of FARM PROPERTY and forward the some to the above address.

PAIN KILLER
PROP.
PERRY DAVIS & SON PROVIDENCE R.I.
1840 1870

CHOLERA.

HOW TO CURE IT.

At the commencement of the Diarihœ, which always precedes an attack of the Cholera, take a teaspoonful of Pain Killer in sugar and water, (hot if convenient,) and then bathe freely the stomach and bowels with the Pain Killer clear. Should the diarrhœ or cramps continue repeat the dose every ten or fifteen minutes until the patient is relieved. In extreme cases, two or more teaspoonfuls may be given at a dose.

The Pain Killer, as a remedy, has no equal. Incases of Cholera, Summer Complaints, Dyspepsia, Dysentery, Asthma it cures in one night by taking it internally, and bathing with it freely. Its action is like magic, when externally applied to Old Sores, Burns, Scalds, and Sprains. For Sick Headache and Toothache don't fail to try it. In short, it is a PAIN KILLER.

Directions accompany each bottle,

The Pain Killer is sold by all dealers in Medicines.

Prices, 25 cents, 50 centsand $1 per bottle

Trust what Time has Sanctioned,

The maxim that the voice of the people is the voice of the divinity, may in some cases be open to doubt, but the testimony of honest and enlightened witnesses extending through a series of years, and all to the same purport is worthy of credence, admits of no question. Upon such testimony the reputation of Hostetter's Stomach Bitters as an antidote and cure for many ailments is based. During the 20 years that it has been before the world, innumerable preparations intended to compete with it, have gone up like rockets, come down the extinguished sticks. Meanwhile the progress of that incomparable tonic has been swift and steady—always upward and onward like the eagle's flight. Its introduction produced a revolution in theraputics, and it proved to be one of those salutary revolutions that can not go backwards. To-day Hostetter's Bitters is one the most popular remedies in christendom, and commands a larger sale than any other medical preparation, domestic or imported, on this side of the Atlantic. As a cure for dyspepsia, bilious disorders, nervous affections, general debility, and as a preventive of epidemic fevers, it takes precedence of every other remedy. This fact should teach the ambitious country dealers who endeavor to foist their local abortions on the public in its stead, how futile their small attempts to cajole the community must necessarily be. When the game fish have failed there is no chance for the suckers.

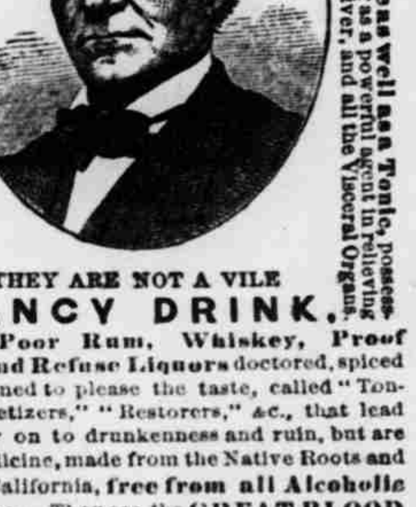
The Great Medical Discovery!
Dr. WALKER'S CALIFORNIA
VINEGAR BITTERS,
Hundreds of Thousands
Bear testimony to their Wonderful Curative Effects.
WHAT ARE THEY?

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.



They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

THEY ARE NOT A VILE
FANCY DRINK,

Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER and LIFE GIVING PRINCIPLE** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. **Such Diseases** are caused by **Vitiated Blood**, which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION. Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE and other **WORMS**, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle.

J. WALKER, Proprietor, R. H. McDONALD & CO., Druggists and Gen. Agents, San Francisco, Cal., and 32 and 34 Commerce Street, New York.

SOLD BY ALL DRUGGISTS AND DEALERS.

LA CREOLE ACADEMY,
DALLAS, POLK COUNTY, OREGON.
FACULTY.

M. M. OGLESBY, Principal, and Teacher of Mathematical and Natural Sciences.
MISS E. A. WITTEN, Teacher of Music and French.
MISS A. E. SCRIBER, Teacher of the Primary Department

The First Term of 1871-2 was commenced on the second Monday (11th day) of Sept., 1871.

The Public School will be taught during the present Term, in connection with the Academy. All those who did not belong to the Dallas District in April 1871, when the Public Tax was voted, will be charged the regular Academical Tuition.

TUITION:

Primary Branches, per Term.............$4 00
Intermediate " " 6 00
Highest " " 8 00
Latin and French each $2 extra.
Music, $12 per Term.

Charges will be made from the time of entering to the close of each term, or half term, as the case may be. No deductions will be made except in cases of protracted sickness.

By order of the Board of Trustees. 30-tf

The great rivers of America are wonderful, but they cause billious, intermittent and remittent fevers, to which people who live near the Mississippi, Missouri, Arkansas, Red, Ohio, James, Tennesse, Roanoke, Mobile, Alabama, Savannah, Cumberbland, and many others, during the warm seasons, are particularly subject. Such disorders are largely caused by a torpor of the digestive organs and a clogging up of the liver. To correct those vital organs, restore energy, and prevent those diseases use Dr. Walker's California Vinegar Bitters, which long trial has shown, are a certain remedy in all cases.

NEW ADVERTISEMENTS.
