Mr. P. C. Sullivan is in town, and will
remain a few days.

H. P. Shriver is doing some excellent painting
in his shop, over Hobart & Co.'s harness
shop.

Mr. W. Woods, one door North of the Hotel,
has a fine assortment of pictures and picture-
frames.

S. B. Morse, Agent of the Union Mutual
Life Insurance Company, was in town Wed-
nesday night.

Some communications have been sent in this
week which we had not time to insert. They
will appear in our next.

Is our town going to the owls and bats? Two
or three screech owls have been caught in
town during the past week.

Taxes. Our good-natured Sheriff says he
shall not put any one to trouble at present for
taxes, yet all understand that they are now due.

We are informed that the bridge across the
Luckiamute, at Helmecks, south of Monmouth,
was so damaged by the late high water as to be
impassable.

Mrs. Carrie F. Young is still lecturing in
different parts of our county. We understand
that she is calling together a good audience
wherever she goes.

Rumor says that Sol Woods, who went from
here, last summer, east of the mountains
with a band of cattle, has lost all of them during
the late severe storm.

Prof. Ratan came down from Corvallis Tues-
day. He reports the roads in a terrible condi-
tion—small bridges washed away, and many
large ones dangerous crossing.

Mrs. Sullivan has the thanks of all hands in
the REPUBLICAN office for a feast of mince-pie.
If there is anything we do like it is mince-pies,
and we appreciate the favor.

The West-Side mail has been able to reach
McMinville from this way, but two or three
times during the last three weeks, owing to the
high water in the Yamhill river.

Vick's Floral Guide presents many new at-
tractions the present year. Those wishing the
book can get it by sending ten cents to the
proprietor, James Vick, Rochester, N. Y.

Mr. Waymire lost a valuable horse on Sun-
day last. Rev. J. James had ridden the ani-
mal to the Concord school house, and had
been back but a short time, when the horse
died.

A dancing-club was formed at the Court
House, at Monday night. We understand
that it is to be strictly private, admittance
granted only to the members and such friends
as may be invited by them.

The creek here was at the highest stage
which it has reached this season, on Friday
night last. On Saturday, in the road below
Col. NeSmith's, the water was so deep as to be
almost impassable.

We saw our young friend, Scott Riggs, of
Salt Creek, in town on Tuesday, the first time
since his marriage. His honors seem to set
easy upon him, and, judging from indications,
we would think everything with him was lovely.

We had a call on Tuesday from our young
friend, M. M. Ellis, of La Clede. He reports
business "splendid." Judging from appear-
ance, we should say that the world wagged
well with him, and that his life had been cast
in sunny places.

W. H. Teal & Co., have on hand and are
constantly manufacturing wagons, carriages
and buggies. They are also agents for Wait's
Patent Portable Hay Press. This press is said
to be one of the best made, is simple and cheap.

Frank Simpson, the Alsea-mail-carrier re-
ports that on his trip last week, he found the
bridges on the route nearly all washed away,
or so badly damaged as to be almost impassible.
The bridge across Mary's river was entirely
gone, which compelled him to go about seven
miles out of his way in order to get along at
all.

We understand the question of bringing the
water-power of the Ellendale Mill Co. to town,
is again being agitated. Knowing the advan-
tage of the manufacturing interests in building
up a town permanently, we feel doubly anxious
to have this matter pushed forward.

The friends of Rev. J. James and his worthy
family paid them a friendly visit on Monday
evening, and presented their compliments in
the shape of small change, eatables and num-
erous other acceptable articles. A good time
was the result. The family was taken entirely
by surprise, but this only lent a zest to the oc-
casion. All seemed to enjoy themselves, and
none more than the host and hostess. After
enjoying themselves to their hearts' content the
company separated with many good wishes for
the welfare of the good Pastor and his family.

Whittlings.—The roads are reported in
wretched condition.—We have had several fine
days during the week.—The Portland mail
now comes by way of Salem.—Singing school,
dancing school, sociables, literary entertain-
ments, and other amusements have been the
order of the week.—Those of our merchants
who advertise, report business good. Those
who don't advertise, of course don't—report.—
Dr. Rubell, our enterprising Dentist, is kept
busy, and is doing work to the satisfaction of
all his patrons.—Is "Satan in Society?" We
should judge so, as our d—l has been mingling
pretty freely in that element during the week.
We opine, however, that he is not seeking
"whom he may devour," but to whom, of the
fair sex, he can pay his devoirs.—Read the
compliments of Rev. J. James and lady to the
public in another column.—The property for-
merly owned by A. N. Cochran, in this place,
was sold last Saturday for taxes.

Phuck Personified. An old gentleman came
into town on Thursday in a way that attracted
the attention of everybody who chanced to be
on the street. His turnout consisted of a box
nailed to a round stick, upon either end of
which was a wheel about three feet in diameter,
made of inch plank. To the round stick, which
answered the purpose of an axle, was fastened
two sticks, extending forward, to answer the
purpose of shafts. Across the front end of
these shafts was a bar used to put the breast
against to propel the machine. Within this ve-
hicle was a knitting machine, as well as the
baggage of the traveler. He proved to be an
itinerant manufacturer traveling over the coun-
try picking up jobs of knitting wherever he
could find them. He came from the East to
California, and last September he came to Am-
ity, Yamhill county, having become disgusted
with the hot, dry weather of California. He has
worked in and around Amity until he concluded
to come to Dallas. Through the mud, over the
steep hills, and across the waters which have
been so high as to stop the mails, came this in-
vincible veteran, and here he is ready for the
patronage of the public. Surely, some of the
hardy spirit of our forefathers still remains, and
although many would jeer at the folly of this
old gentleman in traveling through the mud of
Oregon engaged in such business, yet all must
admit that the pluck and energy exhibited by
him, is in striking contrast to the "lean"
style of many who would call him a fool and
laugh at his folly. He will remain here a time,
and we hope our citizens will give credit to
whom credit is due, and give him a fair share
of public patronage.

DIED.

At the residence of E. Y. Hilleck, near Dallas
January 17, 1872, Emma C., daughter of Seth
and P. J. Burson, aged 1 year, 9 months and 16
days.

At the residence of Wm. Brown, near Dallas,
Friday morning, January 12th, 1872, of Lung
Disease, Mr. Charles McCracken, aged about
twenty-six years.

A Beautiful Woman.—The perceptive
faculty of women is usually keener than the
same phrenological organ in men. Women
knows that beauty rather than genius is worship-
ped by the sterner sex. A man may talk with
his lips of the latter to his lady-love, but the
keenness of the woman knows that he is think-
ing of the former in his heart. All women have
an innate desire to please their beaux. They
are fond of admiration; hence one of their long-
ings is to be beautiful. The grand secret of fe-
male beauty is health—the secret of health is
the power to eat, digest and assimilate a proper
quantity of wholesome food. TAKE VINEGAR
BITTERS. It will cleanse the stomach, tone the
vital organs, give a perfect digestion, purify
the blood, clear up the complexion and pro-
duce a state of mental and physical electricity,
which gives symmetry of form, bright eyes,
white skin, glossy hair and a genuine type of
femal loveliness, which no cosmetic can com-
pare with.

Forty Years' Experience have tested
the virtues of Dr. Wistar's Balsam of Wild
Cherry, and the result is that it is the best rem-
edy extant for pulmonary and lung diseases,
embracing a whole range from a slight cold to a
settled consumption. Were it not for its
merits, it would long since have "died, and
made no sign." 213-w.

The Trans-Continental Railroad has opened
up, and the influx of immigration is developing
the resources of the Pacific coast. The O. &
C. Road is doing the same thing for Oregon.
The Arts and Sciences are being developed
here as elsewhere. Photography has been im-
proved, until the pictures of persons are so life-
like as to astonish even the best informed. J.
H. Kincaid, at his gallery, is now prepared to
take advantage of all improvements, and draw
pictures of all sizes and styles, in such a man-
ner as to please the eye and suit the taste of the
most fastidious. Dark weather makes no dif-
ference with grown persons.

The City Boot Store has long been Head-
quarters for the State of Tinned and
BRATED BOOTS, of which I have Exclusive
Sale. Parties are cautioned to examine and
find my name on them, as the country is
flooded with a Rotten Boot, in imitation of the
genuine article. Every pair of Tirrel's Boots
sold at my establishment is guaranteed to give
perfect satisfaction.

REMEMBER that the above house sells no
buff or spit goods. No shoddy palmed off
upon his customers for a superior article of
French Calf. All rips, returned in a reason-
able time, repaired free of charge.

A Card.
DALLAS, OREGON, Jan. 16, 1872.
EDITOR REPUBLICAN.

Dear Sir:—Permit us to make your excellent
paper the medium through which to express
our thanks for the many tokens of kind re-
gards, manifested by the many friends in the
visit paid us on last Monday evening. We feel
our own unworthiness of such remembrances;
yet are they the green places in life's history in
which memory delights to linger in after years.
Hence, to all we say, from our hearts, we
thank you for the friendly call, and invite the
company of as many as can make it convenient
to call on us at any future time, and believe us
your humble servants in the Gospel of Peace,
whose prayers that the social ties which bind
us together here, may only be severed in death;
to be renewed in the regions beyond, with the
pure and good, forever with God.
Yours truly,
J. JAMES,
M. J. JAMES.

Dr. SAGE'S CATARRH REMEDY is no Patent
Medicine having gotten up to dupe the ignorant
and credulous, nor is it represented as being
"composed of rare and precious substances,
brought from the four corners of the earth, car-
ried seven times across the Great Desert of Sa-
harah, on the backs of fourteen camels, and
brought across the Atlantic Ocean on two ships."
It is a mild soothing, pleasant Remedy, a per-
fect Specific for Chronic Nasal Catarrh, "Cold
in the Head," and kindred diseases. The
proprietor, R. V. Pierce, M. D., of Buffalo, N. Y.,
(whose private Government stamp is on every
package of the Genuine,) offers a reward of \$500
for a case of Catarrh he cannot cure. For
sale by druggists. Sent by mail, postpaid, for
sixty cents. Address the proprietor, as above.

OREGON STATE TEMPERANCE
CONVENTION.

Our last State Temperance Convention
adjourned to meet in SALEM FEB-
RUARY 22D, 1872, TEN O'CLOCK, A. M.
The undersigned were appointed a com-
mittee to make full arrangements for
the meeting. They recommend that
all Temperance and Literary societies,
all Churches and Schools, elect at least
one delegate for every twenty members;
that communities hold mass meetings
and elect representatives. These should
be men and women of sound judgment
and of known temperance habits and
principles. All authenticated friends
of the Temperance cause are invited to
seats in the Convention. They are also
asked to send in themes for discussion
and suggestions about the programme;
as it is considered by all best to have an
outline of business, and persons appointed
to lead the discussions. Those feeling
a deep interest in any Temperance
topic should, without fear of being con-
sidered egotistic, inform the Committee
of their desire to present the matter to
the Convention.

We would also be greatly obliged for
the names of capable speakers and es-
sayists. Those acquainted with such
should forward their names and the
themes they can most profitably present.

Friends of the good, the holy cause
of Temperance, do all in your power to
make the coming Convention a telling
one; large, intelligent, enthusiastic and
efficient.

Papers prepared to be presented to
the Convention should be short, not occu-
pying more than twenty minutes in
reading,—comprehensive, and pregnant
with facts and arguments.

Delegates should come in time for
the morning session and intending to
remain over the following day, if the
complete success of the Convention
should demand it. A very interesting
programme is being prepared for a two
days' session.

Names of delegates should be forward-
ed to J. M. Garrison, Salem, Chairman
of Committee on Credentials.

LOWELL L. ROGERS,
L. J. POWELL,
J. B. McCLANE,
Committee.

LEGAL-TENDER DECISION.—A Wash-
ington correspondent, Dec. 29th, states
this: The full opinion of the United
States Supreme Court in the legal-ten-
der cases will be delivered on the 15th
of January. Those who will unite in
the majority are Justices Davis, Strong,
Miller, Swayne and Bradley, and those
of the minority are Chief Justice Chase,
and Associate Justices Clifford, Field,
and Nelson. In addition to the major-
ity and minority reports proper, it is ex-
pected that several of the Judges will
express their opinions on different bran-
ches of the question.

Professor Thomson now shows to the
British Association that no thickness
less than 2,000 or 2,500 miles would
enable the crust of the earth to resist
the tide generating force of sun and
moon. A thinner crust, he says, would
be bulged up by a tide within the molten
mass, like the tide of the ocean

Letters from Camp Date Creek, Ari-
zona, says that the Government ware-
houses at that place, with contents, were
destroyed by fire on Wednesday, the
19th ult. The loss is not stated, but is
considerable.

J. H. Hunter, expressman, made a
trip last week to Idaho City from Loon
Creek, on snow-shoes, in sixteen days.
The Loon Creek people had no news
from the outside world since last Octo-
ber.

One never loses by doing a good
turn.

CHOLERA.
HOW TO CURE IT.

At the commencement of the Diarrhoea, which
always precedes an attack of the Cholera, take
a teaspoonful of Pain Killer in sugar and
water, (hot if convenient), and then bathe freely
the stomach and bowels with the Pain Killer
clear. Should the diarrhoea or cramps continue
repeat the dose every ten or fifteen minutes un-
til the patient is relieved. In extreme cases,
two or more teaspoonfuls may be given at a
dose.

The Pain Killer, as a remedy, has no equal.
In cases of Cholera, Summer Complaints, Dys-
pepsia, Dysentery, Asthma, it cures in one night
by taking it internally, and bathing with it
freely. Its action is like magic, when external-
ly applied to Old Sores, Burns, Scalds, and
Sprains. For Sick Headache and Toothache
don't fail to try it. In short, it is a PAIN KIL-
LER.

Directions accompany each bottle.
The Pain Killer is sold by all Dealers in Medi-
cines.

Price, 25 cents, 50 cents and \$1 per bottle.

SPREAD THE TRUTH.

Some medical men insist it is undignified to
advertise a remedy, however valuable it may be.
Quaker reasoning this. It is like saying that an
article which the world needs should be hid in a
corner—that benefits and blessings may be too
widely diffused—that the means of protecting
and restoring health should be a close monopoly,
and not accessible to all. The argument is bald;
it is worse than that; it is insidious. Suppose
Hostetter's Stomach Bitters—an absolute speci-
fic to dyspepsia, biliousness and nervous debility—
had never been known beyond the reper-
toire of the family, what would have been the
consequence? Instead of curing and invigora-
ting millions, the good effects of the prepara-
tion would have been confined to a comparative
few. There is the highest authority for saying
that light should not be hid under a bushel
but that whatever is excellent should be placed as
a city on a hill, where all men can take cogni-
zance of it. It is upon this principle that the
Bitters have been advertised and continue to be
advertised in every newspaper of any prominence
in the western hemisphere, and that the spon-
taneous testimonials in its favor have been trans-
lated into all written languages. Thousands
enjoy perfect health to-day who would be lan-
guishing on beds of sickness if the newspapers
had not spread the truth with regard to this
unequalled invigorant and corrective far and wide.
Suppose profit has been reaped from this pub-
licity: Is that any argument against it? If
the public health has been protected; if lives
have been saved; if the feeble have been
strengthened and the sick restored, great good
has been accomplished; and who so mean as to
grudge to exertions thus directed their fair re-
ward?

BURNED OUT!
AND IT ALL CAME ABOUT IN THIS
WISE:

YOU SEE THAT IT WAS FOUND OUT
by the good people of this county generally
that the DIXIE STORE was selling at the
following starting rates:
Coffee 43 lbs for.....\$ 1 00
Liverpool Salt per cwt..... 2 20
Calico per yard..... 10
Best California Boots (heavy)..... 5 50
Gent's Fine Shirts each..... 1 25
Tigers..... 50
Boys' Hats..... 25
Best Sheeting per yard..... 11
Ladies' Fine Calf Shoes per pair..... 2 50
Ladies' Hose..... 40
Ames' Spades..... 1 37
Long Handled do..... 1 25
Chopping Axes (handed)..... 1 87
Coil Oil per gallon..... 70
Candles per box, \$3 75 to..... 4 50
Extra Heavy Golden Syrup per keg..... 5 50
Sugar per pound 8c to..... 15

Come on with your cash or produce, as
these are strictly cash prices. Highest cash
price paid for any article that the people have
to sell that will sell again.
N. B.—Sixty-three cents paid for home-made
socks, per pair. 45-1m

THE BADGE RULE.

THE ENFORCEMENT OF THIS UNPOP-
ular rule at the late Agricultural Fair,
although a source of great annoyance to vis-
itors and of vexation to Marshals, was not
entirely barren of good results, especially to
the people of this vicinity who are sagacious
enough to profit by the facts developed. It
seems that in ejecting parties violating the
rule, the Marshals found great difficulty in
some cases by reason of the clothing of the
offenders giving way, while others more roughly
handled were removed from the ground with-
out the least injury to their clothing. This
mystery was solved by the Marshals when
they found on investigation, that the clothing
which stood firm under the sturdy grip of the
officers was purchased (with the exception of
one velvet suit) at the store of Murphy & Cross-
man, in the bank building, corner of State and
Commercial st., Salem, where a good supply
of the same kind of clothing is always on hand,
together with a full assortment of fashionable
hats and gents' furnishing goods. 33-1f

Perhaps those that have experience can tell,
and perhaps it would be to your interest to ask
someone that knows where the Rich and Rare
Dress Goods, those Ladies' Hats that are the
fashion—direct from Mrs. C. Levy's—those
Elegant Sets of Ladies' Furs, and those New
Style Skirts that appeared to such advantage
over those High Laced Ladies' Boots, man-
ufactured at Protzman, Donovan & Gillahan's,
Portland, Oregon, of all of which you had such
a lavish display by the Polk County Ladies, at
the Oregon State Fair. Or perhaps, gentlemen,
you would like to call and examine for your-
selves those Elegant Fitting Suits of Gents'

Ayer's
Hair Vigor,

For restoring Gray Hair to
its natural Vitality and Color.

A dressing which
is at once agreeable,
healthy, and effectual
for preserving the
hair. Faded or gray
hair is soon restored
to its original color
with the gloss and
freshness of youth.
Thin hair is thick-
ened, falling hair checked, and bald-
ness often, though not always, cured
by its use. Nothing can restore the
hair where the follicles are destroyed,
or the glands atrophied and decayed.
But such as remain can be saved for
usefulness by this application. Instead
of fouling the hair with a pasty sedi-
ment, it will keep it clean and vigorous.
Its occasional use will prevent the hair
from turning gray or falling off, and
consequently prevent baldness. Free
from those deleterious substances which
make some preparations dangerous and
injurious to the hair, the Vigor can
only benefit but not harm it. If wanted
merely for a

HAIR DRESSING,

nothing else can be found so desirable.
Containing neither oil nor dye, it does
not soil white cambric, and yet lasts
long on the hair, giving it a rich glossy
lustre and a grateful perfume.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this ex-
cellent medicine enjoys,
is derived from its cures,
made in all the most
marvellous. Inverete
cases of Scrofulous dis-
eases, where the system
is so much saturated by
corruption, have been
purified and cured by it.
Scrofulous affections and
all the various diseases
gravated by the scroful-
ous contamination until
they were painfully afflicting, have been radically
cured in such great numbers in almost every sec-
tion of the country, that the public scarcely need to
be informed of its virtues or uses.
Scrofulous poison is one of the most destructive
enemies of our race. Often, it invades and at-
tacks the organs, undermines the constitution,
and invites the attack of eczema or fatal diseases,
without exciting a suspicion of its presence. Again,
it seems to breed infection in the lungs, and
then, on some favorable occasion, rapidly develop
into one or other of its hideous forms, either on the
surface or among the vitals. In the latter, tuber-
cles may be suddenly deposited in the lungs or
heart, or tumors formed in the liver, or it shows
its presence by eruptions on the skin, or foul necro-
sities on some part of the body. Hence the occa-
sional use of a bottle of this Sarsaparilla is ad-
visable, even when no active symptoms of disease
appear. Persons afflicted with the following com-
plaints generally find immediate relief, and, in
visible forms of Scrofulous disease. Also in the
more concealed forms, as Dyspepsia, Dropsy,
Heart Disease, Fits, Epilepsy, Neuralgia,
and the various Hereditary Affections of the muscular
and nervous systems.

Supplies of Venereal and Mercurial Diseases
are cured by it, though a long time is required for
restoring these to their natural state. But long-continued
use of this medicine will cure the complaint. Leucorrhoea or Whites, Uterine
Disorders, and Female Diseases, are com-
monly soon relieved and ultimately cured by its
purifying and invigorating effect. Minute Direc-
tions for each case are found in our Almanac, sup-
plied gratis. Rheumatism and Gout, when
caused by accumulations of extraneous matter
in the blood, yield quickly to it, as also Liver
Complaints, Torpidity, Constipation or Inflam-
mation of the Liver, and Jaundice, when arising,
as they often do, from the impurities of the
blood. This SARSAPARILLA is a great re-
storative for the strength and vigor of the system.
Those who are Languid and Listless, Depressed,
Sleepless, and troubled with Nervous Ap-
prehensions or Fears, or any of the affections
symptomatic of Weakness, will find immediate
relief and convincing evidence of its restorative
power upon trial.
