The Literary Society has adjourned *sine die*

A. L. Bancroft & Co., are out with another new book. See card in another column.

The Call. Notice the call for meetings of the Republican voters of the county, and be prompt in attendance.

We are told that during the recent storm the creek has raised one foot. When it raises the other we may expect it to run.

Demorest's We would say to our magazine patrons that we have not been able to get our magazines, owing, we suppose, to the delay of the mails.

The weather during the week has been stormy, with intervals of heavier storms. The weather-wise predict that if it rains till it quits we may have a wet spell.

Change in Firm. Mr. J. M. Campbell has associated with him Mr. A. S. Ripley, in the manufacture of sash, doors and blinds. They have good facilities for making these articles of first-class quality, and at reasonable rates.

Jas. Campbell came near having a "little Chicago" of his own, the other night. He placed a lighted candle near some papers, which ignited, but were extinguished before any serious damage was done.

W. H. Teal & Co., are finishing off several new hacks and wagons which they offer for sale cheap. They warrant their work to be good, and claim that none can beat them either in style of finish or price of manufacture.

Dr. Van Den Bergh, who has been for sometime practicing in Salem, and has gained a well-earned reputation for his skill in extracting troublesome worms from the human system, as well as in the treatment of other diseases, has removed to Eugene City. We congratulate the people of that section in securing his services, and recommend him to them as one who understands his business. He has treated successfully many cases in Polk county of which we are conversant, all of which bear testimony to his ability.

Another "story with a woman in it" comes to us from our neighboring town of Bethel. It seems as we learn the facts, that there resided in Bethel two rival candidates for the affections of a fair lady living in Salem. The rivals got into some trouble, when a third party interfered, taking sides with one of the parties against the other. The two together succeeded in defeating the one who was playing a lone hand. After this, the two colleagues went to Portland from whence they wrote a letter to the one left behind, applying some very severe epithets which roused his anger, but yet he said nothing until the return, a short time after of the young man who had caused the trouble After his return he entered the establishment of the aggrieved party, when the letter was produced, and he was asked concerning its authenticity. He replied that he wrote it, and reiterated the sentiments therein contained, He was then ordered to quit the premises. He went outside of the door and repeated some very insulting language, whereupon the other party went out, when a skirmish ensued, which resulted in the author of the mischief getting one finger bitten nearly off, his eyes nearly gouged from his head, and used up generally.

Wouldn't pay. These days of woman's rights call forth the ingenuity of the male population, in various ways, to test and see who are, and who are not in favor of that principle. One device, rather amusing in itself, yet very effective, has been hit upon by some of our young men about town. We noticed in the Post Office window three packages, whose delicate proportions unmistakably indicated them to be Valentines, directed to as many of our village beauties, which unfortunately did not carry the requisite "stamps" to take them through, and they were doomed to be thrust in the window and marked "held for postage." No doubt, the keen sensibilities of the Postmaster were shocked at being compelled to submit these tender epistles, freighted with sentiment, and bearing the pure outpourings of love, to the careless gaze and heartless jibes and jeers of the public, yet it is money makes the—letters go. Our Devil says he would pay the charges on them, if the fair consignees would let him read the contents, but as he is too bashful to make the "proposition," we suppose they will have to work their way.

O, Say! The very place to get your dresses according to the latest pattern, and your millinery done up in style, is at Mrs. A. M Swain's.

Dentistry. The well-known Dentist, T. L. Nicklin, announces that he will be in Dallas on the 26th inst., and remain a short time. Mr. Nicklin is too well known here to need any recommendation from us. His work heretofore speaks for itself, and all that is needed is for us to announce his coming

Several districts are yet without appointments.

Mr. George Tillottson, who has been building a saw mill and a grist mill on the Grand Round Reservation, returned yesterday. He informs us that both mills are finished in good style. The grist mill can grind about three hundred bushels of wheat a day, and the saw mill has a capacity of 7,600 feet. Last Monday the Indians held an election, chose a Sheriff, Justices of the Peace and other officers, in lieu of their Chiefs. They have adopted the marriage ceremony of the whites, and are fast yielding up their customs to those of civilization. They express regret at the removal of Meacham, as they look upon him as the true friend of the Indian.

The Academy exhibition comes off at the Court House next Wednesday evening. The Faculty have yielded to the wishes of many of the patrons of the school, and an admittance fee of 50 cents for adults, and 25 cents for children under twelve, will be required. The proceeds, after paying expenses of the exercises, go toward repairing the Academy building, sidewalks, etc. As this is a matter in which all are interested, and the exhibition will be a first-class affair, we speak for them a full attendance.

BORN.

In Dallas, February 12, 1872, to the wife Z. Wilson—a son.

MARRIED.

MURRY—BERRY.—At the residence of Mr. M. L. Robbins, in Dallas, Feb. 14th, 1872, by Rev, J. James, Mr. I. G. Murry of Pierce Co., W. T., and Mrs. H. A. Berry, of Polk Co., Oregon.

[While we again, as heretofore, protest against gentlemen from other places coming into our State to carry off our beauties, yet the "substantial compliments" accompanying the above notice, filled our mind with "golden" visions and we came near forgetting to extend congratulations. May their lamp of life burn long and bright, and their pathway be strewn with perennial joys]

It is the intrinsic merit alone, of Hall's Vegetable Sicilian Hair Renewer, that has gained for it great popularity.

"There was a frog who lived in a spring,
He caught such a cold that he could not sing."

Poor, unfortunate Batrachian! In what a sad plight he must have been. And yet his misfortune was one that often befalls singers. Many a once tuneful voice among those who belong to the "genus homo" is utterly spoiled by "cold in the head," or on the lungs, or both combined. For the above mentioned "croaker" we are not aware that any remedy was ever devised; but we rejoice to know that all human singers may keep their heads clear and their throats in tune by a timely use of Dr. Sage's Catarrh Remedy, and Dr. Pierce's Golden Medical Discovery, both of which are sold by druggists.

TO ALL WHOM IT MAY CONCERN.

DR. J. P. P. VAN DEN BERGH WOULD respectfully inform his friends and the public generally, that he has concluded to remove his office, on the 8th of February 1872, from Salem to Eugene City Oregon. Until further notice all of those wanting any further treatment can find me after said date at the above-named city. All those having claims against me will present them at once for settlement, and all those indebted to me will do me a great favor in settling their amounts forthwith. I would thank my friends and the public generally for their liberal and kind treatment I have received during my five months' practice in Salem. DR. J. P. P. VAN DEN BERGH.

THE BADGE RULE.

THE ENFORCEMENT OF THIS UNPOPular rule at the late Agricultural Fair, although a source of great annoyance to visitors and of vexation to Marshals, was not entirely barren of good results, especially to the people of this vicinity who are sagacious enough to profit by the facts developed. It seems that in ejecting parties violating the rule, the Marshals found great difficulty in some cases by reason of the clothing of the offenders giving way, while others more roughly handled were removed from the ground without the least injury to their clothing. This mystery was solved by the Marshals when they found on investigation, that the clothing which stood firm under the sturdy grip of the officers was purchased (with the exception of one velvet suit) at the store of Murphy & Croasman, in the bank building, corner of State and, Commercial st., Salem, where a good supply of the same kind of clothing is always on hand together with a full assortment of fashionable hats and gents' furnishing goods. 33tf.

The Good Templars had a "social" at their Hall on Thursday night. A good time generally, was the result.

Mr. J. W. Crawford, former Clerk at the Grand Round Agency, favored us with a visit on Wednesday. He is now living on his farm near Grand Round and judging from indications, is enjoying life muchly.

Several pieces of town property have changed hands during the week. We understand that a case is to be brought before the Courts to test the widow's "dower" in the Shelton estate, which was sold several years ago at administrators's sale.

Miss Mary A. Lee while running a sewing machine, last Wednesday, accidentally allowed the forefinger of her left hand to get under the needle. The needle pierced through the nail and did not stop until it reached the bone, which caused a painful wound.

District Attorney Bates, is in Washington asking for money to prosecute the Mormon cases, or permission to dismiss them.

Telegraphic Summary.

London, Feb. 9.—The *Times* declares that England has not revoked the Treaty of Washington. She is still ready and resolved to stand by it, but cannot and will not enter into an altercation.

Berlin, Feb. 9.—In the Diet to day, during the debate on the Executive, bill, Bismark said the Government was disposed to propitiate the Roman Catholics, but its patience was exhausted. He announced it as the policy of Prussia hereafter to Germanize the Polish schools, as France had Gallicized those of Alsace and Lorraine.

Washington, Feb. 9.—A dispatch says that Senator Edmunds asserts that he will press the resolution of inquiry into the Alabama question at an early day. He is of the opinion that the English flurry was gotten up to effect the determination of the International tribunal.

Mr. Sherman said that he regarded the Washington Treaty as a high and solemn contract between the nations, and did not believe, under all considerations, that either nation would be likely to violate it.

Mr. Edmunds said if the report of Gladstone's speech was correct and the English language meant in England what it means here, the Premier certainly did intimate that England would revoke the treaty unless the United States would consent to change or withdraw its case. He would accept the suggestion and modify the resolution, but he intended refering it to the committee.

Mr. Sherman thought this a very proper case for reference under the circumstances, and the proper course for the United States was to pursue the even tenor of our way and present our case in simple, direct and moderate terms.

After a lengthy discussion on the Amnesty bill a vote was taken and the bill was rejected by the follwing vote—two-thirds not voting in the affirmative:

Yeas—Ames, Anthony, Brownlow, Caldwell, Cameron, Clayton, Cragin, Fenton, Ferry of Michigan, Flanigan, Frelinghuysen, Gilbert, Hamilton, Harlan, Hamlin, Hicks, Kellog, Morrill of Vermont, Morton, Osburn, Patterson, Pomeroy, Poole, Ramsey, Rice, Robertson, Sawyer, Sherman, Spencer, Sumner, West, Wilson, Winton—33.

Nays—Blair, Boreman, Davis of West Virginia, Goldthwaite, Hall, Johnson, Kelly, Logan, Morrill of Maine, Norwood, Salisbury, Scott, Stevenson, Stockton, Trumbull, Vikers, Wright,—17.

Boston, Feb, 9—A special dispatch from Halifax says it is reported on trustworthy authority that a document has been signed by the Canadian Government for a separation from the British Empire.

San Francisco, Feb. 10.—The latest dispatches report the snow blocade as more complete than ever, and our merchants and business men are resorting to telegraph exclusively, in despair of mail communication.

London, Feb. 12.—In the House of Lords this evening, the Duke of Argyle announcing that the Government had recieved official information of the assassination of the Goernor General of India (Earl Mayo), and with several other Lords pronounced eulogies on the deceased.

London, Feb, 13.—A party in Parliament is preparing to move for the resignation of the present Ministry, on the ground of its blinding incapacity, and the formation of a Cabinet which the shall propose the settlement of American claims on a new basis.

Vienna, Feb. 12—The *Presse*, in an article upon the claims of America before the Board at Geneva, says that England has probably learned that the opinion of the Board will be unfavorable. The conduct of that nation during the civil war in America, in the opinion of that journal, was reprehensible, and it fears the consequences of her course.

New York, Feb. 13.—At the Susquehanna depot on Sunday last, three employes of the Erie Railway nearly burned a little negro boy to death by throwing kerosene on his legs, while he was asleep. They allowed the burning to continue until the boy's legs were roasted to the bone in several places. The fiends have not been discovered.

A London dispatch says at a meeting of the Anglo-American Association last night, to consider questions before the Geneva arbitrators for indirect damages, a resolution was adopted that it would not publicly discuss the Alabama difficulty while there was hope of its being settled in a friendly spirit.

London, Feb. 12.—Prayers were offered yesterday in all the churches at Sheffield for the prevention of war between England and the United states.

Albany, N. Y., Feb 12.—Gov. Hoffman vetoed the bill for the protection of tax payers on the ground that its provisions are disapproved by the Judges of the Court of Appeals, as they may defeat its very objects by divesting municipalities of all title to begin an action to recover their property.

CHOLERA.

HOW TO CURE IT.

At the commencement of the Diarihœ, which always precedes an attack of the Cholera, take a teaspoonful of Pain Killer in sugar and water, (hot if convenient,) and then bathe freely the stomach and bowels with the Pain Killer clear. Should the diarrhœ or cramps continue repeat the dose every ten or fifteen minutes until the patient is relieved. In extreme cases, two or more teaspoonfuls may be given at a dose.

The Pain Killer, as a remedy, has no equal. In cases of Cholera, Summer Complaints, Dyspepsia, Dysentery, Asthma it cures in one night by taking it internally, and bathing with it freely. Its action is like magic, when externally applied to Old Sores, Burns, Scalds, and Sprains. For Sick Headache and Toothache don't fail to try it. In short, it is a PAIN KILLER.

Directions accompany each bottle.

The Pain Killer is sold by all dealers in Medicines.

Prices, 25 cents, 50 cents and $1 per bottle

Sinking Slowly.

Diseases that progress rapidly to a crisis are not the only ones to be dreaded. Canker or dry rot does not blast a tree as suddenly as a stroke of lightning, but unless arrested it destroys it as certainly; and in like manner chronic debility, although it does not kill with the swiftness of yellow fever, is as sure to sap the springs of life eventually as any acute disease, if not checked by invigorating medication. There is something inexpressibly touching in the spectacle of premature decay. Languor, pallor, emaciation, depression of spirits, and a distaste for exertion, are its ordinary symptoms, and they should be promptly met by tonic treatment. The best invigorant and exhilerant that can be administered in a case of this kind is Hostetter's Stomach Bitters. The stimulating principle of the preparation rouses the dormant energies of the system, and the strengthening and regulating properties give a permanant and healthful impulse to the vital forces thus brought into play. The failing appetite is re-awakened, the process of digestion and assimilation are quickened, the quality of the blood is improved, the secretions become more natural, and every organ that contributes to the nourishment of the body undergoes salutary change. By these means the repair of the physical structure is effected and its health and vigor restored. In no class of Diseases has the beneficient operation of the Bitters been more marked and striking than in those characterized by general debility and nervous prostration. Ladies affected with these ailments find in this most wholesome of all tonics and correctives the safest and surest means of relief. It is strong to restore and powerless to injure. Such is the uniform testimony of "clouds of witnesses."

NEW ADVERTISEMENTS.

Ayer's
Hair Vigor,
For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of *Croup*, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.

Although settled *Consumption* is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the *Cherry Pectoral*. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the *Cherry Pectoral* they subside and disappear.

Singers and Public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the *Cherry Pectoral* in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure,

For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does *Cure*, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in nowise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or travelling through miasmatic localities, will be protected by taking the *AGUE CURE* daily.

For *Liver Complaints*, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.
