Prints of the latest style at N. & J. D. Lee's.

For good cheese go to M. Brown's Crider's corner.

One thousand sacks of wheat were shipped from Eola last Saturday.

Mr. Bolter has been to Portland to replenish his stock of merchandise, during the week.

The Portland *Evening Bulletin*, of Feb. 14th, made its appearance in our office last Monday. Rather tardy.

Hall's Vegetable Sicilian Hair Renewer cleans the scalp of dandruff, and allays all unpleasant irritations.

The school at Buena Vista, under the control of Prof. A. A. Bonney, is said to be progressing finely.

The report given by several of our State papers that the Salt Creek, (Polk Co.,) Post Office has suspended, is incorrect.

"Oregon and Her Resources," by Hugh Small, Esq., a pamphlet of 130 pages, replete with valuable information concerning Oregon has just been received. Everybody should read it.

Fashionable. It is becoming quite a prevalent custom for our citizens to subscribe for the REPUBLICAN to be sent to absent friends. You might as well be out of the world as out of the fashion.

Tribune Almanac. This valuable publication makes its annual visit, and is heartily welcome. A fund of information is compiled in it for all who choose to spend 20 cents for its purchase, and take the time to read it.

☞ If you desire rosy cheeks and a complexion fair and free from Pimples and Blotches, purify your blood by using Dr. Pierce's Golden Medical discovery. It has no equal for this purpose.

"National Republican." This is a sterling Republican paper published in Winston, North Carolina. It comes to us asking an "x" We cheerfully comply. Alive to the principles it advocates, we wish it all kinds of good luck.

"Our Fireside Friend." This new, and already popular publication, issued by W. E. Gump, Dayton, Ohio, comes to us laden with gems of romance, literature, science and general information. This excellent paper must meet with a hearty welcome and liberal support. Terms $3 00.

Accident. Mrs. F. McCann, while walking with some friends attempted to step over a ditch, but missed her footing, and in her endeavors to regain herself dislocated her ankle. After arriving home, the bone was replaced to its proper position, and although painful yet no lasting injury was sustained.

School Report. The following statement of the County Schools has been furnished us by L. Vineyard, Esq., School Superintendent, Number of scholars over 4 and under 20 years, 2, 234; amount of funds to be distributed, coin $3,628 03, 6 10; currency, $110. amount to each scholar, $1 62 4-10, coin; currency. 4 cents 6 mills.

Monmouth College. One of the three brick buildings designed for the use of this Institute is fast nearing completion, and in all probability the commencement exercises of the present year will be held therein. This College ranks as one of the best in the State, and it is meeting with a liberal patronage from all parts of the country.

Bones of Contention. Portland has her "corpse that Mitchell bought," for a sensation, and Polk now has on hand that ox which the County Court bought. It will be remembered that the bridge across the Rickreal fell, a short time since, with a team belonging to E. J. Halleck. Mr. H. was damaged to the amount of $150. He presented his claim to the County Court, when they allowed him $50 with the understanding that the crippled ox was to belong to them. Of course they could not appropriate public property to private use, and the question is, what will they do with it? The matter has been under advisement, and the probabilities are now that the ox will be turned into the Court-House yard and fattened for the next Democratic Barbacue. As this ox belongs to the county, it is of course certain that the Republicans, as well as the Democrats, will have a bone to pick."

Ill. Prof. Oglesby has been very ill the past week.

Yesterday the Democratic precinct meetings took place, and to-day their County Convention comes off.

Drouth. The sun, which has been so long "under a cloud," has showed himself at last, and now for the usual predictions which always follow such an occurrence in Webfoot. A certain drouth will be the next thing on the tapis' and we will hear of certain wiseacres shaking their heads pretentiously and predicting such dreadful things as will almost make one shudder to contemplate.

Captured. The town of Buena Vista has surrendered. Last week Mrs. Duniway, the "Committee of One at Large," made a raid on this unsuspecting burgh and took it by storm. It is said that Woman's Rights is ahead, and such foolishness as our national politics, and controversies regarding "The Silent Man of Destiny," is not mentioned, the chief topic of conversation being about "The Coming Woman." Alas! and has it come to this?

The State Board of School Commissioners have sent to L. Vineyard, County School Superintendent, the sum of $1,022, coin, and $347 currency. This, we are informed, put with the fund already on hand, will enable this county to indulge in about six months free school. It is a good thing. A free educational system, once established throughout Oregon, will do more toward encouraging immigration than any other mode of procedure.

Not at Independence. A short time since, we stated that several young men were on trial in this place for taking bridles, etc., at a party in Independence. We were not at the trial, but received our information from what we considered a reliable source. We have since been informed that the affair did not happen at the latter place, but at a dance in the Luckiamute country. The dance at Independence was a perfect success and passed off to the general satisfaction of all concerned.

"It Helps to Fill Up." Some persons seem to think that the editor of a country paper is often "cramped for something to fill up with," as they are pleased to term it, and consequently should put in any and everything hinted at by them. We wish it distinctly understood, however, that we are never at a loss for matter to put into our paper, and do not propose to ride the hobbies nor gratify the personal *pique* of any one. Items of general interest are always acceptable and willingly published for the information of the public, but business, or other notices, like the merchant's eatco or the grocer's sugar, is worth its price.

Those acquainted will be glad to know, and those unacquainted would do well to note, that A. Greenman, of the firm of Murphy & Greenman, clothiers, of Salem, will soon return from San Francisco with a new and full supply of everything in the line of clothing and gent's furnishing goods. This popular house has gained an enviable reputation among of the best houses in Salem, at which to buy such articles of the best quality, at the lowest figure. Their stock is large and their facilities are unexcelled by any other house in the State. Remember the place—Bank building, Salem.

Weddings. Several families in town have been "surprised" during the past week.—Mrs. Judge Whitson left for her home in Idaho, yesterday.—Crandall takes charge of the *Statesman* shortly.—Grass has commenced growing.—We have added eleven new names to our subscription list this week. Come ahead, gentlemen, that's what we are here for.—It is said that the Hon. Ben Hayden spoke to his friends at Lewisville, last Saturday.—A Democratic speaking was held at Independence last Saturday.—Wm Chase, formerly a saloon keeper, died in Independence last, week.—For good black smithing go to Kennedy & Co.'s, Independence.—Owing to the absence of the editor, our columns are necessarily short of original matter.—Mr. Jackson, the Insurance Agent, called this week.—The band is still open for engagements.—Services at the M. E. Church to-morrow, morning and evening.—Miss Amelia Scriber left for Salem, on Saturday.

Big Luckiamute Bridge. From a person who has examined this bridge we learn that it is in a horrible condition. The first bent is standing at an angle of forty-five degrees, the fourth one is entirely gone, while the fifth, or main bent, rests on a bed of quicksand, and is gradually settling. The main stringers are those used in the old bridge, and it may not be such a wild idea to suppose that they rotted somewhat during the sixteen years they served in the old bridge. We learn that this bridge has been condemned and notices to that effect have been posted at each end, but the rains have caused them to become indistinct and not one person out of ten will be able to decipher their meaning. Probably citizens hereabout are acquainted with the condition of this bridge, but as it is a thoroughfare which cattle-drovers from all parts of the country are constantly using, unless there is formidable obstructions placed thereon, there is danger of an accident, for before the driver could read the notices, his cattle would be going down stream. We are confident the authorities will take steps to prevent any accidents to travelers, and cause the bridge to be closed at each end, in lieu of the notices already posted.

OUR FIRESIDE FRIEND.—This is the name of a new eight-page original and illustrated story and family weekly, published by Messrs. Waters, Eberts & Co., Chicago. The paper presents a neat and pleasing apearance, and exhibits much taste in its make-up. Its contents are varied, and rich in interest and full of instruction. It contains well written continued stories, sketches, poems, etc., with departments especially devoted to the Farmer, the Housewife and Children. One of the principle features of this number is Will. M. Carleton's great Poem, "The Burning of Chicago," which the Publishers have beautifully illustrated Our Fireside Friend will find a welcome in every family circle. The Publisher will send a specimen copy free to any address.

Telegraphic Summary.

New York, March 17.—It is stated that fully twelve millions of Erie stock is now under the control of J. Gould, half of it is his private property. It is rumored that he has retired from the Board merely to be enabled to renew the fight.

The Deleware, Sackanaw and Western and New Jersey Central Railroads have made a consolidation of interests under which the usual dividends will be paid on the stock of both companies. The ordinary business will be as heretofore, subject to the control of a Joint Committee.

Cleveland, March 17.—The powder mills of the Austin Powder Company, situated about five miles south of here, blew up yesterday afternoon with a series of heavy explosions. Three hundred kegs, or about four tons of powder being fired. Two men named Leonard and Sherman, at work in one of the mills was blown in pieces, fragments of their bodies being thrown hundreds of feet away. Three other men at work in the vicinity were more or less injured. The mills were blown to atoms, and the ground for acres around were strewn with fragments. Nearly every building in the city was shaken by the concussion, and quite a commotion was caused among the inhabitants. The loss to the powder company is about $15,000.

Washington, March 17.—No official information has yet been communicated as to the spirit with which the letter of Secretary Fish to the Earl of Granville has been received. Gentlemen in high official position, however, think that conflicting views of the Governments have been reconciled.

Philadelphia, March 17.—The election of State Senator in the 5th District, on the 15th, to fill the vacancy caused by the death of Stevens, resulted in the return of Waddell, Republican, by 500 majority.

London, March 18.—In the House of Commons to-night, Mr. Gladstone, answering Mr. Disraeli's inquiries, stated that the reply of the American Government to Lord Granville's note, concerning the Alabama claims, was received by her Majesty's Government on the 14th instant. He was gratified to be able to say that it was couched in courteous and friendly terms. [Cheers.] In the opinion of the Government an answer is required which the Government of the United States appears to invite. This answer will be delivered to the American Minister in London before Thursday of the present week. It would be inconsistent with public business to lay the correspondence before Parliament at present, particularly as the Congress of the United States have declined to act of the President. The tenor of our communication, while it shows that we are anxious to carry the treaty into execution, I trust, will not misconstrue the feeling of statesmanship which the nature of the case, and which the honor of this country demand. The statement of the Premier was received with loud cheers.

Cincinnati, March 18.—A terrible boiler explosion occurred this afternoon in the soap and candle factory of Woods & Graham. Two large boilers exploded with great violence. Of eight employees in the building, two—Barney Asshoffer, engineer, and James Uncirch—were instantly killed, and George Herringer and Lizzie Hoffman injured slightly. The most terrible result of the explosion was one of the most singular in the records of casualties. On Baymiller street, over half a mile distant by map measurement, in a bee line, three little girls in a front yard were jumping a rope. A section of the boiler was hurled all that distance over the tops of houses and fell upon their heads. Two of them were killed instantly and the third mortally wounded. This piece of boiler is a perfect cylinder, sixteen feet four inches long, twenty four inches in diameter, and weighs a ton. The persons who saw it say it looked like a stove-pipe sailing in the air. The roofs of buildings were considerably damaged. The cause of the explosion is not known.

Granville, in the House of Lords, made a reply, in substance the same, to the inquiry of Earl Malmesbury, relative to the correspondence, adding that the papers would be produced as soon as possible. He assured his Lordship that he was aware of the public anxiety on the subject, and the grave responsibility attaching to the Government in dealing with it.

New Haven, March 18.—Senator Wilson delivered the opening speech of the campaign here to night, to an immense and enthusiastic audience.

San Francisco, March 19.—Three thousand ladies and gentlemen assembled at the Academy of Music, Philadelphia, yesterday, sent a dispatch to Mayor Alvord, with expressions of friendship and goodwill for the residents of the "Golden City" and Pacific coast, desiring that we should be fully represented at the Centennial celebration at Philadelphia in 1876. Mayor Alvord replied in a suitable manner, promising as full a representation as becomes California's love of country and reverence for our national institutions.

March 19th was the windiest day of the season, in San Francisco the wind blew a steady gale all day.

For the very best photographs go to Bradley &. Ruloffson's Gallery without STAIRS,—☞ASCEND IN THE ELEVATOR, 429 Montgomery, street, San Francisco.

SPECIAL NOTICES.

WILLIAM DAVIDSON,
REAL ESTATE DEALER,

AGENTS of this OFFICE, in all the CITIES and TOWNS in the STATE, will receive descriptions of FARM PROPERTY and forward the same to the above address.

CHOLERA.

HOW TO CURE IT.

At the commencement of the Diarrhœa, which always precedes an attack of the Cholera, take a teaspoonful of Pain Killer in sugar and water, (hot if convenient,) and then bathe freely the stomach and bowels with the Pain Killer clear. Should the diarrhœa or excessive costiveness repeat the dose every ten or fifteen minutes until the patient is relieved. In extreme cases, two or more teaspoonfuls may be given at a dose.

The Pain Killer, as a remedy, has no equal, in cases of Cholera, Summer Complaints, Dysentery, Diarrhœa, Asthma it cures in one night by taking it internally, and bathing with it freely. Its action is like magic, when external ly applied to Old Sores, Burns, Scalds, and Sprains. For Sick Headache and Toothache don't fail to try it. In short, it is a PAIN KILLER.

Directions accompany each bottle.

The Pain Killer is sold by all dealers in Medicines.

Price, 25 cents, 50 cents and $1 per bottle

What Dyspepsia may end In.

Indigestion is not dangerous, say the faculty. Perhaps not in itself, unless it remains more in digestion; but look at the consequences to which it may lead, and often does, as when it becomes a chronic disease. A spark of fire is a small thing. A pressure of the foot will put it out: a breath will extinguish it. Yet it may fire a powder mill, or kindle a flame that will consume a city. In like manner indigestion may produce gastritis; cancer of the stomach, congestion of the bowels, apoplexy, liver disease and many other dangerous maladies. Is it not wise, then to check it in the germ? Nothing is more clearly and indisputably established than that Hostetter's Stomach Bitters will eradicate dyspepsia in all its stages. The true policy, however, is to extinguish it in the first stages with this wholesome, powerful, and infallible tonic and alterative. It is easier to quench a spark than a flame, and it is easier to cure dyspepsia when it is first developed, than when it has made headway by neglect, and become complicated with other ailments. There is not the shadow of a doubt that the bitters are as directly antagonistic to dyspepsia as water is to fire. There are thousands of cases on record proving this fact. The remedy is safe and agreeable. All the liquors of commerce prescribed as stimulants leave a sting behind. But the sting is taken out of the spirituous basis of this great remedy by vegetable medication, and, moreover, the stimulant thus medicated is of exceptional purity. Of all tonics, taken as safeguards or remedies for fever and ten billious remittents, and other epidemics, take the only one that can uniformly be depended on.

L. VINEYARD,
3-2 School Supt. for Polk county.

NEW ADVERTISEMENTS.

NATIONAL
BUSINESS COLLEGE,
PORTLAND, OREGON.

A MODEL COMMERCIAL COLLEGE!!

THE EDUCATION FOR THE TIMES.

The Importance of a Practical Education Was never more Apparent than Now!

IT IS UNIVERSALLY ACKNOWLEDGED that as we grow in prosperity we grow more practical, and that it is required of men that they educate themselves practically—educate themselves in the best manner possible—to meet the demands of the times.

When Agesilaus, King of Sparta, was asked what things he thought most proper for boys to learn, he replied: "Those things which they should *practice* when they become men."

"Deliver all things in number and weight, and put all in writing that thou givest out or receivest in," is a precept of universal application; and there is a special necessity for its strict observance in all business transactions. Young men, the future welfare of this Coast look to YOU! Are YOU prepared to meet its demands?

A COURSE OF INSTRUCTION
to meet the
DEMANDS of THE AGE!

The most thorough, and comprehensive
COURSE OF BUSINESS TRAINING
ever introduced by any

COMMERCIAL

OR

BUSINESS COLLEGE,

combining

THEORY AND PRACTICE,

by means of

BANKS AND BUSINESS OFFICES.

The Course is so arranged and Taught as to enable the Students to master it in the Shortest Time possible

Each Student after passing through the
THEORY COURSE,
becomes an actual
BOOK KEEPER AND MERCHANT
where in the space of a few WEEKS, he obtains the experience of an ORDINARY LIFE TIME.

The TELEGRAPH DEPARTMENT is now fitted up with the best of instruments, and is in complete running order.

For FULL INFORMATION, send for COLLEGE PAPER. Address:
DeFRANCE & JAMES,
52-1 Portland, Oregon.

NEW ADVERTISEMENTS.

HALL'S VEGETABLE SICILIAN HAIR RENEWER

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY OR FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

Sold by all Druggists, and Dealers in Medicines.
Price One Dollar.

Buckingham's Dye
FOR THE WHISKERS.

As our Renewer in many cases requires too long a time, and too much care, to restore gray or faded Whiskers, we have prepared this dye, in *one preparation*; which will quickly and effectually accomplish this result. It is easily applied, and produces a color which will neither rub nor wash off. Sold by all Druggists. Price Fifty Cents.

Manufactured by R. P. HALL & CO.,
NASHUA, N.H.

Ayer's Sarsaparilla,
FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Tilts, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

PREPARED BY
