The leading question.—Have you been vaccinated?

The dilapidated bridge referred to last week was the one crossing the Luckiamute at Hel-mich's.

Anything in the gent's furnishing line, from the finest to a serviceable business suit, at Butler & Wortley's.

Mr. J. D. Lee has been absent during the week, for the purpose of purchasing a full supply of spring goods.

Rev. J. James will preach at the M. E. Church, to-morrow morning, in the interest of the Missionary cause.

Mr. Bolter having just returned from Portland, is now prepared to furnish all kinds of goods at the lowest possible cash rates.

Himes & Bachelder, Book and Job Printers, Portland, Oregon, are prepared to do all kinds of work in the finest style at the lowest rates.

"Annual Report of the Trade and Commerce of Chicago for 1871," has been handed to us by the courtesy of Mr. Wm. Howe. It contains many valuable statistics of the "lost city," which we shall refer to at length hereafter.

Horace Greeley says, "The man who pays more for shop rent than for advertising don't understand his business." Messrs. Bolter & Wortley have evidenced that they understand theirs, by their liberal advertising and consequent success.

"The Traveler's Guide." A prospectus of this work has been forwarded to us by the publisher, L. Samuel, Portland, Oregon. It is to be published monthly, and distributed gratuitously. As an advertising medium this promises to be one of the best on the coast.

Prof. Ruten commences another term of singing school at the M. E. Church, next Tuesday evening. He has two classes; the primary meets on Tuesday evening, and the advanced on Wednesday evening. Those wishing to take lessons in instrumental music can also be accommodated by calling on him.

Removal. Mr. W. H. Catterlin, who has been following the photographic business in different parts of the State, until he has his reputation thoroughly established as an artist, has been stationed during the past winter at Bethel. He informs us that he proposes soon to remove from there to Anity, where he expects to remain a short time.

How Instructive. At the Democratic Convention last Saturday, on motion to instruct the delegates to the State Convention to vote for Hon. Ben Hayden for Congress, the vote stood ayes, 5; noes, 4; number not voting, 56. Laid down with these instructions to the delegates to the State Convention, and Mr. Hayden to Congress? Don't it?

We were favored on Thursday with a call by Mr. Thomas Morris, of Bellevue, Yamhill Co. He has been for years a business man at the above place, and has acquired a fortune as well as a good business reputation. He reports everything in Yamhill in a flourishing condition. Farmers are sowing more than the usual amount of grain, and business generally good.

At the Democratic County Convention, last Saturday, the following ticket was nominated: For Senator, R. J. Grant; Representatives, I. Levens, James White and R. Clow; Sheriff, S. T. Burch; Clerk, D. J. Holmes; Treasurer, R. M. May; Commissioners, John Vernon and J. Tatem; Assessor, H. M. Lines; School Superintendent, L. Vineyard; Surveyor, T. L. Butler; Coroner, Dr. J. R. Sites. Messrs. J. W. Nesmith, H. V. Holmes, Dr. Jeffries, B. F. Burch, E. McDaniels, J. B. Butler and T. J. Richmond, were chosen delegates to the State Convention.

Bethel Items. Three Democrats met under a fir tree near town, and declared themselves delegates to the late County Convention.—The farmers are very busy putting in their spring crops.—Mr. Charles Graves is quite ill.—J. H. Robbins has returned from the East, where he has been during the winter to oversee the building of his combined reaper and thrasher. Mr. B. has rented his place, and will soon remove to Salem.—Dr. Warren has removed from Monmouth to his farm near this place.—Mr. Ernest, while returning from Salem last Thursday with some grave stones in his back, was caught out after dark, and in driving over a bad place in the road, tipped his vehicle over. One of the stones fell upon his leg, badly crushing the bone between the ankle and the knee.

The trial of one bottle of Hall's Vegetable Sicilian Hair Renewer will show the most beneficial effect upon the hair and scalp.

M. D. Lewis has at his stable a couple of fine horses, one a trotter, and the other an excellent roadster. Those interested will do well to call and see him.

Failed to Meet It. It was announced that at the Democratic Convention Ben Hayden would reply to the remarks made by Judge Boise at the Republican County Convention. The Convention however has met, Ben Hayden has come and gone, but we have not as yet heard of the annihilation of Judge Boise which was predicted by the "unfettered." Ben accepts the situation, and his friends will have to do likewise. There was too much truth in the Judge's remarks to admit of refutation.

Whittlings. Weather delightful.—County Court meets next week.—A new wagon shop has been opened on Main street, by S. J. Garrison.—Mrs. Hobart has been quite ill for a few days past.—Several of our citizens are out on a hunting expedition.—Remember the public examination, for teachers to-day.—Several changes have been made in business circles during the week.—Several wool buyers have been around engaging all that could be obtained; 45 cts is the highest we have heard of being offered.—Dr. Rubell, is making an addition to his office, for the purpose of using a water wheel in doing his work.

Netarts. We had the pleasure, last Monday, of meeting Mr. T. J. Frier, a former resident of Bethel, but who has been for nearly a year living on Netarts Bay. From him we learn that considerable rain has fallen there during the winter. Stock of all kinds has wintered finely and are in splendid condition. Many emigrants are going into that section and the country is being settled up rapidly. About twenty five men are engaged in the oyster business, and it is said that Netarts produces the best oysters on the coast. Two new saw mills are being built, will soon be making lumber in large quantities for shipment. The trail was blackened for a considerable distance with a landslide, but that will soon be opened for travel. Two schooners are running between there and Portland, which gives them good means of transportation. Mr. F. and his brother have a fine dairy ranch, which they offer for sale on reasonable terms, as they wish to engage in something else. Any one wishing a situation of that kind would do well to consult him, or any information may be obtained by giving us a call.

DIED.

At his residence near Lewisville, Polk Co., March 25th, 1872, Mr. James Smith, Sen., in the 70th year of his age.
(Mr. Smith was born in Washington county, Virginia, Oct. 18th, 1802; came to Oregon in 1846, and has been a resident of the Willamette Valley ever since. He joined the M. E. Church in 1833, lived and died true to the faith; he was well known and respected, and will be mourned by a large circle of friends.)
Oregon papers please copy.

Poisoned to Death.

A healthy liver secretes each day about two and a half pounds of bile, which contains a great amount of waste material taken from the blood. When the liver becomes torpid or congested, it fails to eliminate this vast amount of noxious substance, which, therefore, remains to poison the blood and be conveyed to every part of the system. What must be the condition of the blood when it is receiving and retaining each day two and a half pounds of poison? Nature tries to work off this poison through other channels and organs—the kidneys, lungs, skin, etc., but these organs become overtaxed in performing their labor, in addition to their natural functions, and cannot long withstand the pressure, but become variously diseased.
The brain, which is the great electrical centre of all vitality, is unduly stimulated by the unhealthy blood which passes to it from the heart, and it fails to perform its office healthfully. Hence the symptoms of bile poisoning, which are dizziness, headache, incapacity to keep the mind on any subject, impairment of memory, drowsy, sleepy, or nervous feelings, gummy forebodings and irritability of temper. The blood itself being diseased as it forms the sweat upon the surface of the skin, it is so irritating and poisonous that it produces discolored brown spots and pimples, hives and other eruptions, sores, boils, carbuncles and scrofulous tumors. The stomach, bowels and other organs spoken of, cannot escape becoming affected sooner or later, and constiveness, piles, dropsy, dyspepsia, diarrhoea, female weakness and many other forms of chronic disease, are among the necessary results. As a remedy for all these various manifestations of disease, Dr. Pierce's Golden Medical Discovery is positively unequalled. By it the liver and stomach are changed to an active, healthy state, the appetite regulated and restored, the blood thoroughly purified and enriched, and the whole system renovated and built up anew. Sold by all first class druggists.

CORRESPONDENCE.

SIGNS OF THE TIMES.

The black Democrats adopted the 14th and 15th amendments to the Constitution of the United States as a cloak to cover their principle. The black Democrats ask soft Republicans to support their Democratic candidates into office. Black Democrats seek the Sons of Temperance and Good Templars to support them; but Black Democrats heart's desires are in the same direction as in the times of Breckenridge, A. Johnson, or the New York Tammany Ring, for fat jobs. Honest Democrats, honest Sons of Temperance, honest Republicans, vote for honest Republicans, and you will support yourselves. Vote for Democrats and you will vote your surplus money and, perhaps, real estate to the Ring.
ADAM BROWN.

Important information may be obtained by calling at Bolter & Wortley's.

Maurice Graves has been sent to the Penitentiary for two years from Lane county for forgery.

Telegraphic Summary.

Washington, March 24.—The House Committee on Expenditures of the War Department have nearly concluded the examination of the sales of arms.

There is but little interest now expressed among public men relative to the Alabama claims, and some of those who were the strongest friends to the Treaty now say they are indifferent as to whether or not its provisions are carried into effect. There seems to be no disposition in any quarter to yield to the British view of the question.

Vice President Colfax made a temperance speech at Lincoln Hall to-night to a large audience.

St. Louis, March 24.—Trains on the Belleville and Southern Railroad have been stoned lately and the lives of passengers endangered by a gang of scoundrels near Pickneyville.

Louisville, (Ky) March 24.—Slough, the wife murderer, committed suicide in jail at Richmond, Kentucky, last Monday by hanging himself to the top bar of the door of his cell with a rope made of a towel and two pocket handkerchiefs.

San Jose, March 26.—Twenty minutes past 2 A. M. had a sharp shock of earthquake, which aroused every one.

Martinez, March 26.—A slight shock of earthquake was felt here about 2:20 A. M. No damage done.

Antioch, March 26.—A slight shock of earthquake was felt here about 2:20 A. M. Clocks were stopped, but no damage done.

Shasta, March 26.—J. H. Grant, one of the gang implicated in the stage robbery on the 20th of September last, was tried yesterday and found guilty.

New York, March 24.—Comptroller Strahan testified yesterday before the Judiciary Committee that after the papers were drawn up in the celebrated injunction suit against his Tammany associates, he decided that if any man had the boldness to set judicially in the matter, it was Bernard. Judge Bernard, on being applied to, accordingly granted an injunction, causing the present Judge, Barrett, to remark that it was something he would not have done if he were Judge. This injunction entirely stopped the city government and broke up the Ring. No modification was made of this injunction except upon recommendation of Comptroller Green. Judge Bernard gave valuable aid to the committee, and made the injunction still stronger.

Jay Gould testified that he never paid any money to Judge Bernard.

J. P. B. Smith, of the Union Pacific Railroad, testified that the late Colonel Fish told him that he never received the amount of \$50,000 paid by the Union Pacific Railroad Company to ex-Judge Fullerton. It will be remembered that Fullerton testified the other day that he paid the money to Fish. The committee is now anxious to know where the money went to.

No testimony of interest was adduced before the committee regarding the County Clerk's office. Some lawyers said they had no knowledge of any abuse. The County Clerk in his testimony stated that he had not more than \$25,000.

A protectorate for Mexico meets with favor from President Grant.

Washington, March 25.—In the Senate a number of bills from the Committee on Commerce were considered and passed, including the following: A bill to extend the Custom and navigation Laws over Alaska and adjacent islands acquired by the United States. A bill to amend an act to regulate the Consular and Diplomatic system of the United States. A bill to increase the salaries of various Consulates, including London, Paris and Havana. A bill to amend an act protecting American citizens who can discover deposits of guano. A bill authorizing a mail steamship service between New Orleans and certain Mexican ports.

In the House, on motion of Hawley, the rules were suspended, and the Senate bill to enable honorably discharged soldiers, their widows and minor children to secure homesteads on public lands, was brought up and passed.

A resolution was adopted providing for a colossal statue of admiral Farragut, to be erected in Farragut Square Washington City, to cost not exceeding \$20,000.

Washington, March 26.—After considerable filibustering, Mercer presented the conference report of the bill for the removal of causes to the United States Courts, which was agreed to.

In the Senate a bill was passed granting right of way to the Mobile Grand Trunk Railway.

New York, March 25.—The Administration advances no theory as to the result of negotiations. The impression is that Granville and Fish look upon time as the great pacificator.

The State Department sent to American consulates, a day or two ago, a list of private claims against England on account of rebel privateers. Claims for direct and actual losses amounting to about \$10,000,000. About \$6,000,000 more are charged for detention of vessels, loss of prospective freights and mercantile profits, with other consequent losses.

Produce Market.

Portland Mar. 29. Flour—The local demand is light and prices unchanged. Wheat—Dealers are offering \$1.65 @ 1.80 per cental.

CHOLERA.

HOW TO CURE IT.

At the commencement of the Diarrhoe, which always precedes an attack of the Cholera, take a teaspoonful of Pain Killer in sugar and water, (not if convenient,) and then bathe freely the stomach and bowels with the Pain Killer clear. Should the diarrhea or cramps continue repeat the dose every ten or fifteen minutes until the patient is relieved. In extreme cases, two or more teaspoonfuls may be given at a dose.

The Pain Killer, as a remedy, has no equal. In cases of Cholera, Summer Complaints, Dyspepsia, Diarrhoea, Asthma it cures in one night by taking it internally, and bathing with it freely. Its action is like magic, when externally applied to Aches, Burns, Scalds, and Sprains. For Stomach Aches and Headaches don't fail to try it. In short, it is a PAIN KILLER.

Directions accompany each bottle. The Pain Killer is sold by all dealers in Medicines.

Prices, 25 cents, 50 cents and \$1 per bottle.

What Dyspepsia may end to. Indigestion is not dangerous, say the "Academy." Perhaps not in itself, while it remains mere indigestion; but look at the consequences to which it may lead, and often does lead when it becomes a chronic disease. A spark of fire is a small thing. A pressure of the foot will put it out; a breath will extinguish it. Yet it may fire a powder mill, or kindle a flame that will consume a city. In like manner indigestion may produce gastritis; cancer of the stomach, congestion of the bowels, apoplexy, liver disease and many other dangerous maladies. Is it not wise, then to check it in the germ? Nothing is more clearly and indisputably established than that Hostet-ter's Stomach Bitters will eradicate dyspepsia in all its stages. The true policy, however, is to ex-tinguish it in the first stages with this whole-some, powerful, and infallible tonic and altera-tive. It is easier to quench a spark than a flame and it is easier to cure dyspepsia when it is first developed, than when it has made headway by neglect, and become complicated with other ailments. There is not the shadow of a doubt that the bitters are as directly antagonistic to dys-pepsia as water is to fire. There are thousands of cases on record proving this fact. The remedy is safe and agreeable. All the liquors of commerce prescribed as stimulants leave a sting behind. But the sting is taken out of the spi-rituous basis of this great remedy by vegetable medication, and, moreover, the stimulant thus mediated is of exceptional purity. Of all tonics, taken as safeguards or remedies for fever and taken bilious remittents, and other epidemics, it is the only one that can uniformly be de-pended on.

NATIONAL BUSINESS COLLEGE,
PORTLAND, OREGON.

A MODEL COMMERCIAL COLLEGE!!

THE EDUCATION FOR THE TIMES.

The Importance of a Practical Education Was never more Apparent than Now!

IT IS UNIVERSALLY ACKNOWLEDGED that as we grow in prosperity we grow more practical, and that it is required of men that they educate themselves practically—adequate themselves in the best manner possible—to meet the demands of the times.
When Agesilaus, King of Sparta, was asked what things he thought most proper for boys to learn, he replied: "Those things which they should practice when they become men."
"Deliver all things in number and weight, and put all in writing that thou givest out or receivest in," is a precept of universal application; and there is a special necessity for its strict observance in all business transactions. Young men, the future welfare of this Coast look to YOU! Are YOU prepared to meet its demands?

A COURSE OF INSTRUCTION to meet the DEMANDS OF THE AGE!

The most thorough, and comprehensive COURSE OF BUSINESS TRAINING ever introduced by any

COMMERCIAL

OR **BUSINESS COLLEGE,**

combining

THEORY AND PRACTICE,

by means of

BANKS AND BUSINESS OFFICES.

The Course is so arranged and Taught as to enable the Student to master it in the Shortest Time possible

Each Student, after passing through the

THEORY COURSE,

Becomes an actual

BOOK KEEPER AND MERCHANT

where, in the space of a few WEEKS, he ac-quires the experience of an ORDINARY LIFE TIME.

THE TELEGRAPH DEPARTMENT is new and up with the best of instruments, and is a complete miniature office.

L. VINEYARD, School Supt. for Polk county.

NEW ADVERTISEMENTS.

Ayer's

Hair Vigor,

For restoring Gray Hair to

its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color with the gloss and freshness of youth. Thin hair is thick-ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sedi-ment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable.

Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.

Prepared by Dr. J. C. Ayer & Co.,

PRACTICAL AND ANALYTICAL CHEMISTS,

LOWELL, MASS.

PRICE \$1.00.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs,

such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has any thing so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effective remedy that can be given for incipient consumption, and the dan-gerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them.
