

REPUBLICAN NOMINATIONS FOR 1872.

For President, U. S. GRANT. For Vice-President, SCHUYLER COLBAX. PRESIDENTIAL ELECTORS. A. B. Meacham, of Umatilla County, W. D. Hale, of Washington County, Jas. F. Gazley, of Douglas County.

Pushed for Capital.

Anyone in reading the Democratic journals of the day, can easily detect their utter want of political capital, upon which to base their claims to the suffrages of the people. From the time of their adoption of the principle of secession, their tendency has been downward and their influence on the decline.

The great cry made by our opponents against the Republicans, that they favor monopolies, and that the late State Convention was in the interest of Ben Holiday, because they favored a land grant for the construction of certain railroads in the State, is offset by another clause in the platform which restricts the sale of all granted lands, and stipulates that proceeds, only, of the sales shall pass into the hands of the companies.

ANOTHER GUN.—The news from Connecticut are certainly cheering to the Republicans. The straight Republican ticket was elected by a majority over all opponents by 300; a plurality of 1,940 for Jewell, the Republican candidate.

The latest novelty in English sporting, is a black sow, so trained that she will track game, point pheasants and partridges, and evince great delight at sight of a gun.

Monopolies.

One would almost come to the conclusion, by reading the Democratic journals of the day, that everybody, save a few Democratic editors, had lost their common sense and were, consequently, in danger of losing their entire liberty. We can hardly pick up a paper of that ilk but it prates about the danger to be feared from monopolies.

Those who live in glass houses should never throw stones, and certainly in the matter of monopolies no charge can be brought against the Republican party of Oregon which would bear the least comparison with gigantic monopolies fostered by the Democrats during the last two years.

Something in It.

We, last week, published a small notice in our local columns, designed to apply to a class of persons well understood by journalists, persons who are always desirous of getting their names in a paper without any cost to themselves, under the plea that it helps to fill up. The Herald, which, by the way, is edited by a fresh import, who unfortunately lacks both wit and wisdom, attempts in its last issue to make a point on it.

Garvey, the "plasterer" of Tammany has sued Tweed for \$20,000 for fresco work.

The Public Debt.

Hon. Henry Snapp in an able speech in the House of Representatives March 2, made the following summary of the National Debt. He says: "On the 1st day of August, 1865, the recognized indebtedness of the nation was \$2,757,000,000. In addition to this sum, State war claims were presented and paid to the amount of \$50,000,000 more. Then came tens of thousands of unsettled claims to contractors, and other expenses, the whole aggregating more than \$250,000,000 all of which last named sum has been paid, making the whole debt, as I have said, at least \$3,000,000,000.

LIBEL LAW.—The Legislature of California has a bill, which has received the signature of the Gov., and become a law, requiring plaintiffs in libel suits, to give security in the sum of \$500 for costs accruing from such suits, California need a law of this kind, as it had become too common for persons of no respectability of character to commence suit against newspapers, for merely mentioning their names in connection with some scandalous operations, and also against persons who had connected their names with matters of that nature.

ANOTHER NEW TICKET.—The N. Y. Sun like many of our Democratic contemporaries is willing to support anybody to defeat Grant. In its issue of March 9, it hoists the names of Lyman Trumbull and Horace Greeley as the most available candidates for Presidential honors. But a few weeks since, the Sun had the name of Greeley at the mast-head, but now seems to have far less regard for the "Sage of Chappaqua," and now gives him a secondary place on the ticket.

Excursion Arrangements are being projected for an excursion by railroad and steamer, either to the Cascades and Dalles or to Astoria, some time in May. Passengers are to be taken on at any station, and allowed to take the round trip at very low figures.

FAVOR A DIFFERENT POLICY.—We hope that the Democratic platform to be announced by the Convention which will be held at the Dalles on the 10th proximo, will favor a different policy in regard to the Portland and Dalles Wagon Road than is expressed by the Radical platform.—Democratic Era.

It is said that Gov. Grover, in his late speech in Salem, gave the reasons why the P. T. Co., did not get the contract for building the Canal and Locks, at Oregon City. He needn't have done it, everybody knows the why.—They were not Democratic enough.

CUBAN REVOLUTION. Late advices from Cuba indicate a more flattering prospect for the revolution. The Cubans are gaining ground and are compelling the Spaniards in many instances to either leave the Island, or join the insurgents.

Mr. Shoemaker of Pennsylvania has introduced in Congress a bill providing that regular publishers and dealers in newspapers and periodicals may receive by mail such quantities of either as they may require in bulk, whether wholly or in part printed, and pay the postage thereon as received at the same pro rata as regular subscribers to publications weighing four ounces who pay quarterly in advance.

State Items.

[Gleanings from State Exchangeer.] Wheat splendid everywhere. Baker City wants a Fire Company. Bouquets are selling in Portland at \$1 each.

A heavy paper mail came up on the Ajax. The Waldron Troupe has left Salem for Portland.

A dredger is at work on Swan Island Bar. Stitzel & Co. sold last month \$44,000 worth of real estate.

The Democracy of Linn county is reported desponding. Multnomah county reports 9,407 voters, and 3,730 pupils.

Hail fell in the northern part of this valley Monday afternoon. The Democrat reports wool 53 cents per pound in Corvallis.

The funeral of Dr. Pretzman, in Portland, was largely attended. T. B. Odeneal has taken his place as Superintendent of Indian affairs.

George Ritchie, aged ninety years, died at Monmouth, March 28th. Many Linn county farmers are raising large quantities of flax this year.

About 200 (Democratic) "imports" are at work on the canal at Oregon City. A son of W. Hall of North Yamhill was accidentally shot in the arm last Saturday.

C. A. Dolph of Portland has a bill of New Jersey colony currency as old as 1776. T. Patterson, State Printer, has gone East to dispose of Rights in Leonard's Balance Wheel.

The Statesman has information that the Chemoketa Hotel will be opened before June 1st. Mr. Easton, of Baker county, killed an eagle measuring seven and a half feet from tip to tip.

The steamship Pacific, with a cargo of freight, arrived at Portland at 12 o'clock on Monday night. The brass foundry owned by Nation & Rodgers, at Portland was burned Monday night. Loss, 1,000.

The man McCornick, who broke jail at Oregon City, a short time since, has been arrested at Seattle, W. T. The Messenger says Mr. Simmons fell from the stairway of the new College building, injuring him severely.

The Register gives an account of some young ladies who donned male attire and went fishing.—they "took," of course. An itinerant pedagogue was arrested in Douglas county, and fined \$20 for numerically beating a young lady pupil.

Mill No. 4, near Milwaukie, belonging to the O. & C. R. R. Co., is being removed to a point a little below Portland. Thirteen out of forty-nine districts in Yamhill county failed to make the necessary report, to entitle them to their school money.

Mary Weston of Portland on being charged with drunkenness and disorderly conduct, took an appeal to a higher Court.—She succeeded. The workmen on the canal at Oregon City, one day last week, found a cannon ball embedded in the solid earth, about six feet below the surface.

The State Horticultural Society will hold an adjourned meeting at Portland on Thursday next, April 4th, to make arrangements for a Fair in June. Salem has a young man 16 years of age who is agreeable at home, who was never known to pass a word with a stranger. An anomaly sure.

Cheap Shooting. S. A. Clarke got one dollar allowed by the generous (?) Circuit Court of Linn county, for the privilege of being shot at by Bill Watkins.—What justice.

Yamhill has a man who sues his Father and Mother in law for \$5,000 damages for inducing him to marry a girl whom they knew, as he alleges, was not physically sound.

Postoffices have been established at North Bend, Coos county, and Kuappa, Clatsop county. Those at Hermanville, Coos Co., and Salt Creek Polk Co., have been discontinued.

The question of a daily mail between Lafayette and Salem is being agitated. This is much needed. This mail would run through a section of country thickly populated, and which is now almost destitute of mail facilities.

The Bedrock Democrat says: Hay is \$10 per ton, delivered, in this Valley. There is a large surplus. We have not heard of a solitary horse, cow, ox or other domestic animal dying, for want of provender, in all Powder River Valley.

It is reported that when the Legislature was in session in Salem two years ago a preacher in one of the churches one Sunday took for his text the commandment, "thou shalt not steal." Several members of the Legislature who happened to be present, took it as a direct personal insult, and got up and left, severely condemning what they called "political preaching."

THE HOUSE WE LIVE IN AND THE INHABITANTS OF THE HUMAN BODY. WORMS.

The cause of a great many diseases that have been pronounced incurable by the most eminent physicians, for the very reason that they overlooked the cause, and as Dr. Van Den Bergh has made the Entozoa a life long study, he would inform the sick generally that by close observation and great experiments he has come to the conclusion that there are more acute and chronic diseases caused by Worms, Hydatids, Animalcules or other species of Entozoa. The public generally, or the profession at large, are not aware of the number of patients who are treated by eminent physicians for this, that, or such a complaint, without any relief. If the disease had been understood, a few doses of Dr. V's Sovereign Worm Remedy would have immediately cured the complaint and have saved a great many lives.

What think you, reader, of your body being a planet, inhabited by living races, as we inhabit the earth? Whatever may be your thoughts on the subject, it is even so. Your body may be but a home for parasites that crawl over the surface, burrow beneath the skin, excite the system, and propagate their kind in every corner of its frame. The following is from the San Francisco Bulletin, of January 26th, 1872—a recent date: Carl Martins recently died in Cleveland, Ohio, from eating meat affected with the Ova of Taenia Solium. At the Coroner's Inquest, on Tuesday, January 24, it was shown that three weeks before Christmas, Martins purchased a carcass of pork. Some of the meat was eaten the same day, and some was made into sausage. About ten days later some of the sausage was eaten, and in a short time the whole family were taken sick. Martins died on Sunday Dec. 31st, 1871. Mrs. Martins and her two children are now very ill, and the former is not likely to recover. The verdict was in accordance with the facts. For further particulars, see Cleveland, Ohio, papers of the above date. A Coroner's Inquest brought this fact to light.

Now I would ask how many more such deaths an inquest would bring to light? Ponder well, reader, upon this, and think of the thousands that die every year and no cause can be assigned for their death. Now the question that would naturally enter the mind of the reader is, what shall I do? The advice of the Doctor would be to go to some one that is competent of treating such complaints. And who is there more competent than the one that has made Worms a specialty.

Texas—Yesterday, Dr. Van Den Bergh exhibited to us a number of parasites which had been removed from persons afflicted. There were several different species, one of which appears to be entirely unknown to the medical profession. This new Taenia is shaped something like an orange seed, but perfectly flat, or rather like a cucumber seed, with a tail about a quarter of an inch in length. Another was a tape worm 87 feet in length, and consisted of 9,650 joints. Among medical men there exists no little difference of opinion relative to the origin of these Entozoa. One class of writers believe that these parasites, or at least many of them, originate in the endowment of animal molecules with vitality from the parent body, favored by certain states of the vital forces of that body; the states originating their organization and promoting their growth and propagation. That all descriptions of Entozoa are met with far more frequently where animal food is used in greatest abundance is an indisputable fact, especially where the food is the flesh of the "unclean beasts," which the Jews and Mohammedans are forbidden to partake of. But our intention is not to write a thesis on this subject; we only wish to chronicle the fact that Dr. J. W. Van Den Bergh has found a medicine—a simple vegetable, which grows in abundance in California, which is a dual host to all Entozoa, of whatever description, generally accomplishing its object in from an hour and a half to six hours.—Morning Call.

Had we space here, hundreds of testimonials could be produced testifying to the truth of the assertions that have been made, but it would be useless, and would occupy the reader's time.

The following are some of the diseases that Worms are often mistaken for: Dyspepsia, Chronic Affections of the Liver and Kidneys, Consumption, White Swelling, Palsy, Spasmodic Cholera, Local weakness, Nervous Debility, Epileptic Fits, Rheumatism, Neuralgia, Diarrhoea, Intonction of Urine, Gravel, Flor Albus, Diabetes, Dropsy, &c. Dr. V. would advise those ladies troubled with any Irregularities of the Uterus to try his new remedies and get cured. Dr. Van Den Bergh's Infallible Worm Syrup for children. Warranted to expel the Worms. Price \$1. Sent everywhere upon receipt of price.

By Consulting and Undergoing a SIMPLE EXAMINATION The afflicted can learn if their disease is caused by Worms or not; at all events Dr. Van Den Bergh can tell them from what disease they are suffering.

Symptoms of Worms, Alternate paleness and flushing of the countenance, dull expression of the eyes, drowsiness, itching of the nose, a swollen upper lip, tongue whitely coated and thickly speckled with red points, foetid breath, an enlarged abdomen, a partial or general swelling or puffiness of the skin, a starting in the sleep and grinding of the teeth, a sensation as if something was lodged in the throat, a gradual wasting of the flesh, sickness of the stomach, vomiting, a short and dry cough, appetite sometimes voracious, at other times feeble, bowels sometimes costive, at other times loose, great fretfulness and irritability of temper, pains in the stomach and bowels, colic, fits, convulsions and palsy.

If the Worm Syrup is not to be had in your town, send orders to the manufacturers, and it will be sent to you by express. Direct orders to Dr. J. W. Van Den Bergh, P. O. Box 172, Salem, Oregon.

Letters describing the symptoms will be promptly answered, and persons living at a distance will be saved the expense and trouble of calling upon the Doctor.

Consultations and Examinations Free of Charge. OFFICE ROOMS, 38 & 39, OVER THE POST OFFICE. Address, Dr. J. W. Van Den Bergh, P. O. BOX 172, SALEM, OREGON.
