Wool, Wool is the great cry now. Those who have a large clip, will get a "clipping" price. Fifty cents is being offered.

"That Ox" has still to be gored by the County Court, but what will they do with it? That's the question.

Wool. Those wishing to dispose of Wool to the best advantage, are requested to notice the card of A. G. Yates and give him a call.

Our hunting party spoken of last week, did not prove as successful as might have been. Twenty men and forty hounds out several days, and only captured two deer.

This is splendid weather for taking Rembrandts or photographs, and J. H. Kincaid stands ready at any moment to accommodate all, in the most artistic manner.

Many of our legal friends will be absent the coming week, attending Circuit Court in Yamhill. We understand there is a lengthy docket, containing cases of importance.

The Club dance at the Court House was well attended and gave general satisfaction. Under the leadership of Mr. McCann, these dances are becoming frequent and popular.

Lively. A lively discussion occurred at the school meeting as the vote was being taken on the question of a tax. Warm words were passed, only this, and nothing more.

We have received from Hunter & Co. a small apparatus for making button-holes. It is light and convenient, and what no lady who has work of that kind to do should be without.

County Court. This Court has been in session this week. The business of the Court was not finished in time for us to get the proceedings this week, but will place them before our readers next issue.

Prof. Pilling gave an Elocutionary exercise at the Christian Church, on Thursday evening. The audience was small, but the exercises were such as would have interested any one who appreciates such an entertainment.

While in Portland we had the pleasure of a visit to the Dry Goods establishment of C. S. Silver. He is preparing for the Spring trade in good earnest, and those visiting that city to purchase, either at wholesale or retail, will do well to give him a call.

The Prospects. From all parts of the county we hear cheering reports of the prospects of the Republican party in the coming contest. The acts of the State Convention give general satisfaction, and if we can get a good county ticket success is certain.

Independence. We learn that at this place a new saw mill and grist mill are being erected, a good hotel is running and business generally good. J. C. Bell has purchased one of the large warehouses, and is preparing to purchase a large amount of wheat the present season.

The Academy closed the winter session last Wednesday. There will be a vacation until Monday, April 15th, when the District school will commence under the management of Miss Clara Watt and Miss Amelia Scriber. Under the management of these two ladies, we predict a marked success for the school.

For sash, doors and blinds, and all kinds of carpenter and joiners' work, picture frames, etc., all of the best style of finish, call on Campbell & Ripley.

R. P. Hall & Co., 'Nashua, N. H., proprietors of Hall's Vegetable Sicilian Hair Renewer, publish a treatise on the Hair, which they will send free to any one on application. This is a valuable little book, send for it.

For Rent. A farm on upper Salt Creek. A good, responsible party, applying soon, can secure this farm on reasonable terms; There is in the barn a quantity of good hay, which can be bought at a fair price. Apply to H. Hagood, Dallas.

At the school meeting last Monday, B. F. Nichols was chosen Director, and J. A. Applegate, Clerk. A tax was voted, by a handsome majority, for the support of a free school six months. Our people take the proper view of these matters and support the free school system.

Messrs. N. & J. D. Lee are now receiving and opening a splendid assortment of Spring and Summer goods. With a well established reputation this firm is moving forward in their line keeping up with the demands of the trade, and offering inducements which need only to be seen to be realized. Give them a call at the Post-Office building.

Mr. J. Cooper, of Monmouth, lost a valuable horse on Wednesday night. He had worked the horse, as usual, all day, and had noticed nothing wrong with him, but on going to the stable Thursday morning found him dead. This is the second horse he has lost within two weeks without being able to ascertain the cause of their death.

Mr. Chas. Moore, a former townsman, but now a resident of Benton county, favored us with a call on Wednesday. He says the farmers of Benton are on the alert to get as much grain as possible sown this Spring.—The Republicans fully alive to the necessity of carrying the coming election.—Business of all kinds brisk, and everything generally lively.

Razing Corns. Mr. Woodward, agent for Dr. E. M. Kane's Rheumatism, Corn and Chubbler Remedy, has been canvassing our vicinity for a few days for this celebrated remedy. Mr. Woodward left enough in our office to demolish all our corns, and some to spare. Those wishing this valuable remedy can be accommodated by calling on—Mr. Woodward. Price, 50 cents per bottle.

Mr. Tibbets, agent for this division of the West Side mail route, informs us that measures are being taken to establish a through mail from Portland to Corvallis within twenty-four hours. This we hope will be done. Our Portland dailies are two and sometimes three days old when we get them, and it would certainly be an advantage to all business men along the route, if the mail could be carried through in one day.

As a family journal none has reached a higher grade than *For Everybody*. The March number comes to us fully up to, and perhaps exceeds, former numbers. Illustrations, a continued story, ranks among its best literary productions, while it is replete with valuable articles upon matters of general interest to every body. The illustrations are numerous, and many of them would, if nicely framed, make a fine parlor ornament. Price, \$2.00 per annum. Address H. H. Sage, 27 Allen street, Buffalo, New York.

THE WILD GESE do not regard Dr. Ayer's wisdom in migrating north—such immense numbers of them as are flying over us now while his Almanac says: "Black and blustering about this time, with heavy snow."—Cedar Rapids (Ia) Times March 3.

We were too fast last week in our item on the conflict between Dr. Ayer and the wild geese. The Doctor's science beat their instinct this time. Not for years have had such a snow-storm as that of last Sunday. The snow lies three feet on a level in Minnesota and two feet in Wisconsin, while the storm has swept from the Atlantic to the Rocky Mountains. Snow fell at various depths as far south as Denver, Fort Union and Santa Fe. Learned as we believed Dr. Ayer in the arena of nature, and wonderful as we know his medicines to be, we were not prepared for so signal an instance of his superiority, not only over the wise men, but the wisest of animals whose instinct is considered unerring. We drive up the peg, more firmly than ever, over our hearth for Ayer's American Almanac.—Cedar Rapids Times March 10.

A VALUABLE AID TO BUSINESS MEN AND TO LITERARY PEOPLE.—The publishing house of L. Prang & Co., Boston, hitherto known to the public only through their celebrated chronos, have entered an entirely new field by bringing out "Schem's Universal Statistical Table," a publication containing the most important statistical facts relating to all the countries of the world, such as the area of each country, form of government and head of the same, population, expenses, debt, paper money, amount of circulation, standing army, navy, merchant vessels, imports, exports, chief products, coins and their value in gold, weights and measures, railroads, telegraphs, capitals and principal cities, together with number of inhabitants, etc.

The amount of interesting and noteworthy facts condensed here in so small a compass is almost incredible, and their arrangement on the table, when this is mounted on two sides of a sheet of card board, as directed, is most convenient for reference and comparison. Every man of intelligence will welcome this new practical aid to our knowledge of the world's doings, and we have no doubt, will accord it a prominent place near his writing desk. A similar German publication, edited by Dr. Otto Hubner, in Frankfurt, and upon which this is based, has run already through twenty yearly editions—proof evident of its already great practical value. The name of Prof. Schem, the American editor, is a sufficient guarantee that the work has been done most thoroughly and conscientiously. The price of the table is merely nominal—25cts. All news and book-dealers keep it for sale.

Suicide Committed.
As the result of an inactive state of liver and stomach, producing headache, obtuse intellect, dullness, despondency, dementia, and finally insanity, is no uncommon occurrence. All these disagreeable symptoms and bad feelings are most certainly dispelled by the use of Dr. Pierce's Golden Medical Discovery. It revitalizes and builds up the whole system. A little book on Chronic Diseases sent free. Address R. V. Pierce, M. D., Buffalo, N.Y. Golden Medical Discovery sold by all druggists.

Telegraphic Summary.

Rome, March 31.—A special Convention was concluded on the 26th inst. between Russia and Italy.

Negotiations with the Peninsula and oriental Steamship Company for the establishment of a line of steamers between Italy and Asia are progressing to a satisfactory conclusion.

Berlin, March 21.—Prince Frederick William leaves Berlin to-night for Baden, to visit Queen Victoria.

New Orleans, March 31.—Metamoras news from Comago to the 29th reports Gen. Trevino at that place preparing in conjunction with General Garza, to move to Metamoras with 2,000 men and six batteries of artillery. Gen. Cortinas, after his defeat at Barqueria, being unable to reach Keyrosa, attempted to join the Government troops in the interior, but with what success is unknown. The rumored capture of General Rocha by Revolutionists near Zazatecas, is still without confirmation.

Havana, March 31.—The Spanish steamer Fernando arrived to-day from Aspinwall and reports all quiet there. Pizarro was watching the blockade runner Virginus. The rumors of the expected fight proved unwarranted. The Virginus was anxious to escape.

Keywest, March 31.—News has been received here that the steamer Virginus succeeded in escaping from the harbor of Aspinwall and is on her way here.

Washington, March 31.—The President will to-morrow send to the House of Representatives a reply to resolution calling for information relative to the trial, conviction and sentence of Dr. Howard by the Spanish authorities at Cuba. The documents are voluminous, beginning in December, 1870, they show much interest on the part of our Government in the matter, and that not a little difficulty existed, to determine whether the Doctor was really a citizen of the United States or not, and that our Government has asked for, but not yet received, a copy of the proceedings of the Court-martial before which Dr. Howard was tried. The Spanish Minister here says that no information from Cuba has been received. Howard did not enter himself there as a foreigner as required by the law of 1870. There are, however, other papers tending to show his American citizenship, but it is evident that the Secretary of State is not entirely clear on that point. He instructed our Charge d'Affair at Madrid to bring this case to the attention of the Spanish Government and point out the fact that Howard is a native of the United States, and to remonstrate against the proceedings of the Spanish authorities in Cuba in his case as a violation of the treaty of 1795 between the United States and Spain, and to ask for an immediate release.

It is rumored among politicians here that Judge Davis will not decline to run as the Presidential candidate if he is not endorsed by the Cincinnati Convention.

The Secretary of the Treasury has authorized the Assistant Treasurer at New York to purchase \$1,000,000 of bonds on each Wednesday and to sell \$1,000,000 in gold on each Thursday during the month of April.

It is stated in official circles that when General Siles' present leave of absence shall expire he will return to Madrid.

General Emery sent to the War Department a letter from Lieutenant and Aid de-Camp King, dated New Orleans, March 5th, saying that great lawlessness exists throughout the entire State of Mississippi. It cannot all be ascribed to Ku-Klux organizations. The trial of several prominent members of a gang and the arrest of several persons near Corinth and their confinement in the post guard house at Holly Springs, has done much toward their general disbandment. Nevertheless, there is a bitter, resentful spirit in every portion of the State against the Federal Government. There can be no doubt of the fact that even when well supported by regular troops the authorities are defied and their lives threatened by desperadoes whom they are called upon constantly to arrest. Messrs. Perio and Shawagans, United States Marshals for the Northern and Southern District of Mississippi respectively, and Wiley Wells, District Attorney, are given as authority for statements. General Emery asks for another company of cavalry to be placed on duty in Mississippi.

The Supreme Court will to-morrow render a decision in a case coming un-

der the Civil Rights law. The decision in the Utah case, involving the legality of Judge McKean's action in the drawing of jurors, will not be rendered until to-morrow week.

New York, April 2.—Professor Morse died this evening at seven o'clock and thirty minutes.

Hartford, April 2.—the revised table of the *Courant* office with returns from every town, give Jewell, 46,386; Hubbard; 44,446, Gillette, 1,562; Harris, 384. Jewell's plurality, 1,940 majority over all, 300. The Senate stands 15 Republican and 6 Democrats. The House stands 131 Republicans and 110 Democrats. Republican majority on joint ballot, 30. Last year it was 24.

In the course of his address yesterday, before a Committee of the Assembly, Thiers defined the position of France toward the Spanish Crown. He declared that it was the intent of France to keep Amadeus on the throne, because his overthrow would lead to a revival of the candidatures of Montpezier or the Hohenzollern. The time is near when the inhabitants of Mulhouse and Alsace must choose a French or German nationality. It is said that nearly all are determined to adhere to the French nationality.

For the very best photographs go to Bradley & Robinson's Gallery, over the *STAIRS*, ascending in the elevator, 429 Montgomery street, San Francisco.

CHOLERA.

HOW TO CURE IT.
At the commencement of the Diarrhea, which always precedes an attack of the Cholera, take a teaspoonful of Pain Killer in sugar and water, (not if convenient,) and then bathe freely the stomach and bowels with the Pain Killer clear. Should the diarrhea or cramps continue, repeat the dose every ten or fifteen minutes until the patient is relieved. In extreme cases, two or more teaspoonfuls may be given at a dose.

The Pain Killer, as a remedy, has no equal. Increases of Cholera, Summer Complaints, Dyspepsia, Dysentery, Asthma it cures in one night by taking it internally, and bathing with it freely. Its action is like magic, when externally applied to Old Sores, Burns, Scalds, and Sprains. For Sick Headache and Toothache don't fail to try it. In short, it is a PAIN KILLER.

Directions accompany each bottle. The Pain Killer is sold by all dealers in Medicines.

Prices, 25 cents, 50 cents and \$1 per bottle.

The True Grounds of Confidence.

Whence comes that firm reliance, that absolute, undoubting faith in the efficacy of Hostetter's Stomach Bitters as a remedy for indigestion, bilious disorders, intermittent and remittent fevers, which notoriously prevail in all parts of the United States? This confidence has been growing for twenty years, and it is still extending. It is not the result of credulity; it has not been engendered by any human device, but is the spontaneous and natural consequence of experience. What people see daily going on under their own eyes they cannot question. When families in unhealthy districts that resort to this wholesome vegetable tonic, as a preventive, escape periodical fevers, and their immediate neighbors, who neglect this precaution, are prostrated by the disease, how is it possible that the phenomenon should be without its lesson? In like manner when it is seen that obstinate cases of dyspepsia, of liver complaint, of constipation, of nervous weakness, and of general debility, yield to the operation of the famous remedy, how can even incredulity itself withhold its endorsement? Evidences of the salutary effects of the Bitters are to be found in every civilized settlement on this continent. The thousands upon thousands who owe their restoration to health and strength, or their preservation from sickness, to its extraordinary medicinal properties, are enthusiastic in its praise. The multitudes who recommend it in a neighborly way to their friends and acquaintances, as well as those who make public their estimate of its virtues, are always ready to state their reasons for the faith that is in them. They have all either felt or witnessed its beneficial operations.

THE EDUCATION FOR THE TIMES.

The Importance of a Practical Education Was never more Apparent than Now!

IT IS UNIVERSALLY ACKNOWLEDGED that as we grow in prosperity we grow more practical, and that it is required of men that they educate themselves practically—educate themselves in the best manner possible—to meet the demands of the times.

When Agesilaus, King of Sparta, was asked what things he thought most proper for boys to learn, he replied: "Those things which they should practice when they become men."
"Deliver all things in number and weight, and put all in writing that thou givest out or receivest in," is a precept of universal application; and there is a special necessity for its strict observance in all business transactions. Young men, the future welfare of this Coast look to YOU! Are YOU prepared to meet its demands?

HALES

VEGETABLE SICILIAN

HAIR

RENEWER

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY or FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

Sold by all Druggists, and Dealers in Medicines.

Price One Dollar.

Ayer's Cathartic Pills,

For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted. No one, in every country, among all classes, as this mild but efficient purgative pill. The obvious reason, that it is more reliable and far more effectual remedy than any other, those who have tried it, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all
