Our Chief has been calling on some of the absent minded during the past week. He will call on some more next week. To the absent minded who have not been called upon, we will say: If you call and settle at the office, it will save him the trouble of calling on you.

Mr. E. D. Lashmutt, popularly known as "Uncle Ed," is lying very ill at his residence on Salt Creek. We are really sorry to hear that he is troubled with plethoric again, for he has already suffered a deal of pain from this complaint. At last accounts he was a little better.

David Guthrie injured himself severely last Saturday by kneeling down on a board in which was a sharp nail. The nail penetrated his leg just below his knee, to a considerable depth, causing a very painful wound, and for a time it was feared lockjaw would ensue. At last accounts, Mr. G. was recovering.

While in Salem, a short time since, business took us to the office of our old friend, Hon. J. Quinn Thornton. We found him busily engaged operating a very singular looking apparatus. Closer inspection revealed to our astonished gaze, that the honorable gentleman was engaged in writing letters by machinery. The instrument is of singular contrivance, but so well adapted it is for the purpose for which it is intended, that a child, after a few hours' instruction, can operate it very readily. Mr. T. informed us that it was the only machine of the kind west of the Rocky Mountains.

May Day. Arrangements are being perfected for a grand ball to take place at the Court House, Wednesday evening, May first. This promises to be one of the finest parties given to the citizens of Dallas this season. The supper will be furnished at the hotel, and all can rest assured that no pains will be spared to make it one which will tempt the taste and satisfy the appetite. This will give all who wish to improve it an opportunity to commence the "merry month of May" in fantastic style.

Accident. On Wednesday evening Mrs. Chas. Ham lit a kerosene lamp and set it upon a table and left the room. She had barely passed over before the lamp exploded, blowing fragments across the room, and spreading the oil over table and floor. Mrs. Ham, hearing the noise went back, and seeing the state of affairs endeavored to get the table with its burning contents outside. In doing so some of the fluid communicated with her hand, burning her severely. The wound will prevent her using her hand for some time, but it is a blessing that nothing more serious attended the explosion.

During the early part of the week a rumor was afloat to the effect that a man had been accidentally poisoned. It was said he had been troubled with toothache and had obtained a drug for the purpose of obtaining relief. In applying it to the aching member, he allowed a drop to get upon his tongue, from the effects of which he immediately expired. We began to make inquiries, but finding nothing definite we concluded to inquire of our town druggist if any person had the day previous obtained a drug for the purpose of curing the toothache. Two persons had done so, he said, and after learning the name of one, and getting the description of the other, we renewed our search. At midnight on Tuesday we found the man with the name, but he wasn't a "poisoned corpse," so we were compelled to look further. As we go to press, we learn the other fellow didn't poison either, and that's the reason we lost a chance to record the fact.

"G. M. D."
Don't stand aghast with awe and fear, eyes wide open, hair on end, and fingers tightly clinched with the idea that those mysterious symbols are cabalistic signs, and represent some secret organization of masked demons, who carry terror and dismay with their midnight proceedings and dispense on the dawn of morning. No! They are only the initials of Dr. Pierce's Golden Medical Discovery, the pleasant medicine which has acquired a national reputation and proven so efficacious in Coughs, Colds, Bronchitis, Consumption and kindred diseases. For this complaint it has no equal. Sold by all Druggists.

GENERAL GRANT.—Here is the basis of the New York Herald's support of General Grant for the Presidency again:
"We support Grant for these reasons: He has kept the peace; he has given protection to men of all colors in the south; he has solved the painful and shameful Indian question; he has given us an economical administration, and has been impeachable with respect to office; he has made a treaty with England and means to hold England to it. He has strengthened the national credit and has contributed in every way to the prosperity of the country. He has borne himself with simplicity, dignity and honor in his station—a quiet, unpretending gentleman, as every President should be. Behind this he has made a name in our history second only to Washington as a soldier—a name known to all the world. We say so the coalition: What better can you give us? Have you a name? Is there another living name more illustrious than that of Grant? What are your principles? You cannot give us free trade, for Greeley will be secured; nor protection, or you will offend Trumbull. What can you give us as a platform?"

CORRESPONDENCE.
SALT CREEK, April 15, 1872.
ED. REPUBLICAN:
In your paper of week before last you made mention of a party of hunters numbering twenty, having the assistance of forty dogs, being out a week, and killing only two deer. I have been bed-fast ever since the hunt or I should have corrected your statement before. It was not an old-fashioned hunt, but an amateur hunt. Instead of twenty men, five was the number, and instead of forty dogs, eight was the number. Well, we did kill two deer, besides a—good many that we didn't kill. We got all we wanted, and I will say that we have the dogs that can kill or catch as many deer as any other dogs in the State and as far man material, the best in the world and plenty of it. As soon as I get well and Tom gets somebody nominated, we will try it again. Ed.

Among the ladies who graduated at the New York Medical College for Women, March 29th, in New York City, was Mary P. Sawtelle, of Salem, Oregon. She is now M. D.

News Summary.
New York, April 11.—Henry Meigs, has sent from Lima to person here \$6,021, to pay certain outlawed notes of his in full, with costs and interest.

London, April 11.—The Jury in the case of O'Connor, who attempted to assassinate the Queen, returned a verdict of "Guilty," and the prisoner was sentenced to twelve months' hard labor and twenty lashes.

John Bright resumed his seat, after a protracted illness.

Washington, April 15.—The Goat Island struggle is expected to be renewed to-morrow. The managers after consultation with the California members have consented to further modifications—prohibiting warehouse charges, subjecting property to local taxation, requiring bridges to be built according to plans of engineers with long spans. These provisions and the requirement of a Government rental it is claimed will obviate all objections.

In the Senate, Trumbull presented a memorial protesting against exactions on freight and travel of the Railroad Bridge Co., at Omaha.

Stewart called up the bill for the sale of Government coal lands, which was discussed, and at the expiration of the morning hour went over.

The Supreme Court rendered a unanimous decision today in the Mormon case of Clinton vs. Elzebrecht, reversing the judgment of the Supreme Court of Utah on the ground that the jury which tried the case was not selected in conformity with law, and that the indictments against Mormons for lead and blasphemous exhortation are illegal and all proceedings against them will fall on that ground. The decision sustains the position taken by District Attorney Bates of Utah.

Geneva, April 15.—Evening.—The sitting of the tribunal for the settlement of the Alabama claims opened at 9:30 this morning and terminated at noon. None of the five arbitrators were present. Great Britain and the United States were only represented—the former by Lord Tenterton, Taylor and Bernard, and the latter by Bancroft Davis, Cushing and Barnes. Official proceedings were confined to the delivery of documents to the Secretary of the tribunal, who will transmit them to the arbitrators.

A World special from London says the note accompanying the English replication, which was submitted at Geneva today, explicitly declares that England will not consent to have the indirect claims arbitrated. Cushing says the note is worthless and that the arbitration must proceed.

London, April 15.—In the House of Commons to-night, Gladstone, in reply to the inquiries of Beaman and others, again assured the members of the fact that the note accompanying the British counter case, protested against the jurisdiction of the arbitrators of Geneva over the claims for indirect damages, and promised to lay the documents before the House to-morrow.

The French squadron is preparing to bombard Tamarit, on the east coast of Madagascar, on account of ill treatment of French residents by the natives.

New York, April 16.—A London special says the British counter case was delivered to the Geneva tribunal under protest.

Washington, April 16.—Dispatches say that the reply to Earl Granville's second note is ready to go out by Wednesday's steamer. It would not be made public, the Secretary deeming it inexpedient to do so. It is conceded that one side or the other must recede within the next two months; and Reverdy Johnson is given as authority for the statement that the President regrets the claim for consequential damages was put in our case. As to giving publicity to the matter in its present aspect it is stated that the Department will not commit itself further than to declare that the Secretary is satisfied with the position in which the present dispatch leaves our side of the question.

New Orleans, April 16.—The National Colored Men's Convention yesterday adopted a long series of resolutions avowing fidelity to the Republican party, endorsing President Grant and Charles Sumner, thanking both of them for their efforts in behalf of the colored race, especially commending the appointment of colored men to Federal offices by the President, and asking him to make more of the same kind, and appealing to the American people for a full measure of justice as embodied in Sumner's Supplementary Civil Rights' Bill.

Tallahassee, (Fla.) April 16.—A proclamation reciting the facts of Reed's impeachment, and warning all people to pay no attention to Reed's proclamation. It is rumored here that Reed and Gilvra have been arrested at Jacksonville, by the Federal authorities.

Chicago, April 16.—The storm yesterday continued all day and was very severe, the entire length of Lake Michigan, throughout this State and Wisconsin, blowing down telegraph poles, trees, etc., doing great damage.

Gov. Palmer has written a letter to Senator Trumbull avowing his intention to support the Cincinnati movement.

New York, April 17.—An immense meeting to indorse the administration of General Grant and advocate his re-nomination was held to-night at Cooper Institute. The demonstration, in point of numbers and enthusiasm, in social and an representative character, has rarely been equaled in New York. Every seat was filled, and a force of police was present to prevent filling up the aisle. Many thousands were compelled to remain outside.

The platform is thronged with prominent citizens, among them Thurlow Weed, Peter Cooper, A. T. Stewart, Wm. Gorton, H. B. Claflin, C. Vanderbilt and E. D. Morgan. Letters were received from Senator Conkling, Gov. Curtis, Gerritt Smith, Gov. Hawley and others.

W. Gibbins, President of the Workmen's Central Union, writes: "You can state that the Workingmen's Central Union of the State of New York, numbering 20,000 members, will vote and work for the reelection of Gen. Grant and Scales."

Fred Douglass telegraphs from New Orleans to the Committee of Arrangements of the Grant meeting to-night: "Impossible to be with you. Colored men are one and indivisible for the Republican party and its nominees."

Col. Frederick Hecker, a prominent German and Republican, of St. Clair, Illinois, addressed a large number of Germans here last night in support of the Liberal Republican movement.

The True Grounds of Confidence.
Where comes that firm reliance, that abounding faith in the efficacy of Hostetter's Stomach Bitters as a remedy for indigestion, bilious disorders, intermittent and remittent fevers, which notoriously prevail in all parts of the United States? This confidence has been growing for twenty years, and it is still extending. It is not the result of credulity; it has not been engendered by any human device, but is the spontaneous and natural consequence of experience.

When families in unhealthy districts that resort to this wholesome vegetable tonic, as a preventive, escape periodical fevers, and their immediate neighbors, who neglect this precaution, are prostrated by the disease, how is it possible that the phenomenon should be without its lesson? In like manner when it is seen that obstinate cases of dyspepsia, of liver complaint, of constipation, of nervous weakness, and of general debility, yield to the operation of the famous remedy, how can even incredulity itself withhold its endorsement? Evidences of the salutary effects of the Bitters are to be found in every civilized settlement on this continent.

The thousands upon thousands who owe their restoration to health and strength, or their preservation from sickness, to its extraordinary medicinal properties, are enthusiastic in its praise. The multitudes who recommend it in a neighborhood way to their friends and acquaintances, as well as those who make public their estimate of its virtues, are always ready to state their reasons for the faith that is in them. They have all either felt or witnessed its beneficial operations.

HALES VEGETABLE SICILIAN HAIR RENEWER.

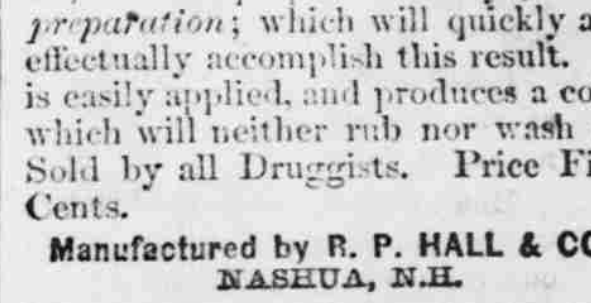

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. The scaly, by its use, becomes white and clean. It removes all eruptions and dandruff, and by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among every class of people. It is mild but efficient purgative.

The obvious reason is that it is more reliable and far more effectual remedy than any other. Those who have tried it, know that it cures those who have not, and that it cures their neighbors and friends, and all who know what it does, are always ready to give it a trial.
