Smart. During the recent wool excitement, a man bought a large quantity of wool, at 45 cents and upward for an eastern firm, as was supposed. Just before the fall in prices, he met an Oregon wool buyer, and they struck a bargain at 55. It is stated that the speculator realized not less than \$3,000 by the operation.

A short time since a man living down the river got into some trouble concerning a 'chop' mill, and one night silently made his way to the place where the mill was situated, and carried off the burrs, (two in number.) He is not expected back to carry off the mill, so there need be no anxiety felt in that vicinity of farther deprivations.

Mr. Stanot is duly installed agent at the Grand Round Reservation, J. D. Folger clerk. Mr. Eaton remains for a short time when he will give place for some one else. They are making considerable improvements there, by the way of remodeling fences, removing old buildings, and putting up new ones.

Our start in Yamhill. We started in with a span of good horses and a buggy, and came out as well as we went in, with the exception of getting one foot wet. Last week while out on business, we had occasion to cross the Yamhill river near Dougherty's mill.

Washington, April 23.—At the celebration of St. George's Society last evening, Sir Edward Thornton responded to a toast, and alluded to the Alabama claims as follows: "I was much gratified at having the honor of being one of the signers of the Treaty of Washington. I had great faith in the principle involved in arbitration; I have it still. No one I believe, supposes that the British Commons had any idea—the slightest idea—that indirect damages were included in that treaty. A subsequent examination of the Treaty and its working has not persuaded them to the contrary, but has confirmed them in their original and publicly proclaimed belief. The Government of the United States thinks otherwise, and has so declared. They have an undoubted right to their own opinion. I cannot, however, but hope the present attempt to apply the great principle of arbitration may not fall on account of misunderstanding, and that a solution seems possible between the two great nations, with equal powers. If it is easy, dignified and generous to waive claims for payment, which one of them thinks herself entitled to, it is impossible for the other to be bound by a decision which renders her a debtor for a claim which she does not admit she agreed to submit to arbitration. I can see such solution, and am confident that such a solution would be applied by all the world, and it would do honor to the great Republic of even the United States."

New York, April 23.—Latest mail advices from Europe treat largely upon threatening relations between Germany and France. From London financial circles comes the report that Russia is at the back of France and making preparations for an extensive war against Germany on a gigantic scale.

The Bank of England is using its best efforts to encourage speculation and strengthen its own condition.

France still owes Germany six hundred million dollars, and Germany still holds as surety six eastern Departments of France, with about 50,000 men. If Thiers should make up his mind that the time has arrived, it is in his power to throw against this force with suddenness 450,000 men.

Reports received in Berlin from Germans in France assert that Thiers has 425,000 men and arms ready to move. They are excellently drilled, and toughened by life in huts and fields. There is said to be in fact, about double the effective forces with which Napoleon began the last war. As to the alliance with Russia, Thiers in his adjournment speech, claimed France had allies, but had no intention to make war. He was interrupted by a member, who asked who the allies were.

Washington, April, 24.—House.—The Goat Island bill was taken up. A motion to lay it on the table was negatived by a vote of 79 to 96. Holman's first amendment, requiring a minimum annual rent of \$50,000, was rejected—yeas, 86; nays, 94. A second amendment, requiring the Company to refund the interest paid on its bonds, was also rejected—yeas, 79; nays, 82. The substitute was agreed to without division. The bill, as thus amended, passed yeas, 101; nays, 85.

It is understood that the Democratic National Convention will be held at St. Louis on the fourth of July, although neither the time nor place are formally fixed.

NEW ADVERTISEMENTS. Ayer's Hair Vigor, For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Tanned or gray hair is soon restored to its original color with the gloss and freshness of youth.

ened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.
