## Notice!

The Nominces of the two contending parties will discuss the political issues of the day at the following times and places; Precentets. Deuglas ..... La Creole ...... Buena Vista.....

#### State Democratic Record-How Do You Like It!

It has been guilty of favoritism in giving \$200,000 to a favorite company for building the canal and locks at Oregon City, when another company offered to do it for \$125,000.

It has favored monopolies in passing a Swamp Land Law in such a manner as to give a few land grabbers an opportunity to gobble up the entire tract.

It has passed a Litigant Law which supports Democratic newspapers in affluence, at the expense of persons who are least able to stand it, by allowing such papers to charge more than double the usual rates for such advertising.

It has spent thousands of dollars of the people's money for an Investigating Commission, to examine the records o the Republican party of the State, it order to prove the Republican party guilty of swindling the people, and upon imaginary charges had Sam May arrested and brought from Salt Lake under indictments for larceny amounting in all to over \$14,000. These indictments were all quashed by the Courts, and, instead of letting May return to his business, it put the people to still further expense by swearing out other indictments to the insignificant amount of \$830. Thus showing that they were determined to vent their spite let the consequence be what it would.

It has created new offices of State, at good salaries, simply to fill the pockets of party favorites.

It has pardoned convicts from the Penitentiary, and turned them loose among the good people of our State only because they were party pets.

It has availed itself of every opportunity to evince its utter abhorrence of justice where a Republican was pitted against a Democrat, as was evidenced in the case of Clarke vs. Watkinds.

And now it is trying to blind the eyes of the people to the enormity of its crimes, by sending its emissaries over the State to smooth over its record, to induce the honest voters of this State to perpetuate this party in power, and send Grover to the United States Sen-

WHO'LL GET THE LOAVES AND FISHES ?-- Horace Greeley is now before the country as a nominee for the Presidency. That he cannot be elected without the combined efforts of both Domocrats and so-called Liberal Republicans is evident. That the leaders of the Democracy will not support him without a guarantee that they get a good share of the appointments, is well understood. That the liberal Republicans will not rally to his standard without some such guarantee is equally evident, What is Greeley to do; promise both? This may do if he can act his part well enough before the election, to make each party believe that he is going to give them all. In case he is unable to act this role successfully his hopes are vain, or, taking an improbable supposition, suppose he elected, who'll get the loaves and fishes?

Greeley's next work will evidently be relating what he knows about "beats."

The Lock Swindle.

This little item of Democratic legislation is attracting much attention at present, and well it may. The Locks are being constructed, the canal dug, and everything seems to be moving forward like clock-work toward completion. All at once, however, it is discovered that the company is supplying large quantities of lumber, and the supposition is that it is to be used in construction of these works. When the contract was first let it was said by the Democratic press that the reason the present company got the contract, in preference to the P. T. Company, was that the latter company would only build on the east side of the river, and would use large quantities of wood in their construction. To the first, there could be no reasonable objection. It the farmer wished to take his produce and go to Portland, it would make no difference on which side of the river he went through the falls. The people wanted the navigation of the river opened and were willing to pay a reasonable price for such opening, but if the question had been put to them, we opine the answer would have been a perfect indifference as to which side of the river they passed. The other reason for letting the contract to the present company was, that they proposed to construct the works of "stone, coment and iron;" while the P. T. Company included the word "wood" in their bid. The reading of the law, as may be seen by reference to the bill which passed the Legislature, is, that the works shall be constructed chiefly of stone, cement and iron. This leaves the company at liberty to use a large amount of word in their work, and yet come within the strict confines of the law. The company knew full well the latitude allowed them by law, and now seem disposed, if we may judge by indications to take all advantage of the license. Try as they may, the Democratic press cannot make the people see it in any other light than that they have been swindled by this transaction, both as regards the works, and the price to be allowed for the passage of freight; the P. T. Company proposing to pass freight

### Fourth of July.

through for twenty cents per ton, while

the present company are allowed fifty

The Good Templars of Salem are preparing to have a mammoth celebration on the coming Fourth of July. The growing interest manifested in this cause, has induced the friends of the Order to take this step and every one is expected to do the best they can to make the occasion one long to be remembered- The Mercury, in speaking of this matter, says :

"It is expected to burn more powder, have a finer display of fire-works. bigger bon-fires, better music, gayer banners, finer speaking, taller dinners, and that it was sweetnes wasted. more interesting exercises generally, than have ever before been attempted in any town or city in the beautiful valley of the 'Williamette,"

The following Committees have been appointed, who will arrange programme etc., which will be announced in due

Committee of Arrangements-Messre. Syl. C. Simpson, Tillmon Ford and L.

Committee on Grounds .- Messrs, J. D. McCurdy, Jas Coffey and J. L.

Committee on Finance. Messrs. J. B. McClane, C. M. Miller, and C. O.

Committee on Public Exercises .-Messrs. T. H Cann, J. M. Garrison, and M. M. Miller.

Committee on Printing.—Messrs. L. L. Rogers, S. M. Cook, J. Quinn Thorn-

Committee on Music .-- Messrs. M. L. Chamberlain, L. Loughary, Misses and Angie Ford.

Mr Helm stated in his speech here, that the P. T. Company included the word "slide" in their description of the works to be built at Oregon City. The whole thing looks like a "slide." To slide it from one company into the hands of of another, which happened to be a favorite, at a cost of \$75,-000, on the work, and thirty cents extra per ton on running freight, is rather a heavy slide, we should say.

So far as known by the Navy Department, the recent rumors of a disaster having befallen Captain Hall's Arctic expedition are entirely without foundaWhy Is It!

"It is unfortunately true that since Grant has been President, this Government has become the laughing stock of civilized men."-Mercury.

If this be true, why is it that England is so seriously canvassing the propriety of paying the consequential damages presented by the American Commissioners? If our Government is such a laughing stock, why does not Great Britain refuse to pay these damages, and laugh at the United States for presenting them?

If this be true, why is it that the most influential powers of the world, powers that have always treated the United States with indifference, are now willing and anxious to form treaties conferring upon each nation the benefits of commercial intercourse?

Why was it that France withdrew her forces from Mexico at the slightest hint that our Government would not permit Mexico to be overrun, and Maximillian established upon a throne on North American soil?

Why was it that the Spanish authorities in Cuba faltered in their course, when defied by the American Consul to shoot through the American flag at

Why is it that thousands of foreign. ers are flocking to our shores monthly, to avail themselves of the advantages offered by our form of Government, as well as our soil and climate?

Why is it that Canada is so anxious to unite her destiny with that of the United States, waiting only for our na tional debt to be paid before they apply for the annexation?

Why all these favorable signs, and scores of others which might be named, if America is such a laughing stock as the Marmaduke of the Mercury would on account of her mothers health. attempt to kiddy the people into beieving?

The truth is, never since the history of the United States first commenced, has the Government stood better in the eyes of the world, and sophisms and assertions of the Democratic press connot make the people of the country see it in any other light.

SWEETNESS WASTED -The young | Monday. He cannot close one of his Lion" from the jungles of Lion gave ns a "roaring" last Monday. The crowd which turned out to hear him numbered twenty-six all told, some staunch Republicans among the number, The speaker said, "doubtless the reason no more had turned out to hear him, was, that the community had been bored with public speaking."-Speaker looked like he was too. "He didn't feel like making a speech."-We didn't wonder at it. " He would, however, talk a little while,"-which he did, and left. It was refreshing to he r him talk after being bored by such speakers as Burnett and Grover, yet his speech was so fine, and so few there to hear it

The Pittsburg Gazette says : " Mr Greeley will be known to history as the great American co operator. He cooperated with the South to dissolve the Union; with the rebels, to win Bull Run; with Lincoln, to take Richmond; with Chase, to beat Lincoln; with Jeff. Davis, to escape punishment; with Tammany, to seve Oakey Hall; with American manufacturers, to secure protection; with free-traders to ruin American manufacturers; with Trumbull, against the Republicans. He is now co operating with the Democrats to beat Grant, and by July will probably be co-operating with Grant to beat the Democrats. Great is Greetey, of the Tribune."

EVIDENCE. - Last Sunday as Mr. M D. Lewis was driving a valuable horse and sulky across a bridge near Bridgeport, in this county, the bridge broke down, hurting the driver somewhat, in-Ellen Chamberlain, Gertrude Moores, juring the horse severely, and breaking the sulky. We understand a bill is to be presented to the County. This substantiates what we said last week about our bridges not being safe. Many others will be injured and bills brought in for damages unless these matters are quickly attended to.

> FIRE IN CORVALLIS -Just as wo go to press we learn that a destructive fire occurred in Corvallis, Wednesday night, which destroyed an entire block in the business part of town. The fire is said to have originated in a beer saloon. We have not been able to learn who are losers by the casualty, nor the extent of the loss.

D. D. Garrisson writes to the Salem Farmer from Arizona as follows : " This is one of the poorest farming countries we have ever been in since I entered the United States service. There is nothing but stings of the worst class and thorns on almost every tree, and even on the grass. There is little of the Retto valley that is worth a sixpence. In Tucson the Capital of the Territory, there are not two hundred white people -only the military officers and troops. You would be surprised to see what they call a farm here. They have to irrigate all the land in this section to raise grain, and the farming is carried on by Mexi- | Chidmore, S. G., 123 1st st. Druggist & Apothe-
