Can't Be Did. An editor might as well at-
tempt to hold himself out at arms length and
turn a double somersault over a meeting-house,
as to attempt to publish a paper which will
please everybody.

Mr David Guthrie informs us that he has 11
head of fine imported Cotswold, and Leicester-
shire sheep. He also has some pure blooded
Chester White pigs. Mr G, in common with
many others of our leading farmers, is taking
great pains to improve stock of all kinds

EVERYBODY GOES — The world-renowned
Taylor family will give one of their serio-comic,
unique, instructive and interesting entertain-
ments, at the Court House, Monday night.
Fifty cents admits one, or one hundred goes in
for four bits—apiece—You pay your money
and you get your fill.

Subscribers. Those who have not the money
at hand to pay on subscription and wish to
take our paper, might try what virtue there is
in Eggs, Potatoes or, in fact, anything in the
stable line. While the paper runs, eating has
to go on, and these things, you know, all help
to fill up.

A Little Fuddled. A young gentleman, a few
days since, while riding out with a young lady,
in a buggy, was politely informed that he was
on the left-side instead of the right. The intel-
ligent youth immediately turned the buggy
completely round and went the other way to
correct his mistake—Fact!

Annual Meeting Store. Clark of Dixie, tells
us that in addition to a full stock of fancy
goods, and eatables, he will keep out at very
low rates. In fact everything found in a first
class country store will be there in profession-
Niece hams, a speciality; also nids of all de-
scriptions, and tin ware. Ice water at the
counter free.

Mr. C. H. Walker, of Dayton the oldest man
now living, born in Oregon, lectured at the M
E Church, on Temperance, on Tuesday evening
He is an earnest worker, and logical reasoner,
and we speak for him a cordial reception wher-
ever he goes. He is canvassing the State in the
interest of the Temperance Cause.

Mr. J. W. Meldrum, the leader of the Sur-
veying Party now on the Grand Round Indian
Agency, favored us with a call last Monday
From him we learn that the line run from the
Agency due west to the coast reaches the
ocean about two and a half miles North of the
mouth of Salmon river. The work of sub-
dividing the Reservation is to be pushed forward
to completion.

West-Side Stage Line—This line now runs
daily coaches—North, starting from Dallas in
the morning, running through Amity, Mc Min-
ville, Lafayette and Forest Grove to Corne-
lius where they connect with the Railroad for
Portland the same day—South, leaving Dallas
at noon, running through Monmouth, Indepen-
dence and Buena Vista to Corvallis. This gives
the traveler an opportunity to see some of the
finest country in Oregon.

Major Magone passed through town last
Saturday with twenty-eight head of blooded
cows and calves, mostly Durham, the property
of B G Reed, and destined for his farm in
Yamhill county. They were purchased in
King's valley, and are said to be the best that
could be found in the State. Mr Reed is tak-
ing great pains to improve stock of all kinds
and deserves credit for the efforts he is making
in that direction.

CONTRACT LET—After considerable competi-
tion, the contract for building an addition to
the Dallas Tannery was let to L Loughery

The proprietor of the tannery can rest assured
that under the superintendence of Mr L the
work will be well and quickly done

Machinery. A person may glean some idea of
the work done in our town by taking a round
with us and visit the different manufactories of
which we feel justly proud. Commencing in
the upper part of town we will step into the
Horse Collar Manufactory of Messrs. Hobart.
Here we find a machine which is a novelty in
its way, stuffing collars by water power. Not
being well versed in the technical terms used
in describing such machines, we will not attempt
a minute description, but simply say that it
turns out several dozen of the best of collars
every day.

From this we will call next door, to the tan-
nery of Charles McDonald, where we find men
busy in the different branches of tanning and
curing. The leather turned out by this tan-
nery is unsurpassed by any in the State, and
the business is increasing so rapidly that a
new addition is being built for the increase.

Just below this and supplied by the same
power, is the establishment of W H Teal & Co.,
where they cut out their wood work and do the
turning for their wagon and carriage factory on
Main Street. From here to the Furniture Fac-
tory of W C Willis is quite a walk, though we
opine the visitor will not weary, particularly if
he be, as we suppose him, interested in such
matters. Here we find Mr W with his assist-
ants, busy as bees, planing, turning, mortising
and joining together articles useful to us in
our parlors, kitchens and other departments of
the household. This establishment is rapidly
gaining popularity by the excellent quality of
work which it puts into the markets.

As we pass up Main Street we will call into
the Sash and Door Factory of Campbell & Rip-
ley, where the unceasing rattle of hammer and
saws attracts our attention as we pass. This
firm is meeting with well merited success in
their line, as they take great pains to use only
the best of lumber and put their work together
in the most substantial manner.

We pass out and the next thing that attracts
our attention is a water wheel beside the office
of Dr. Rubell. This wheel, like the wheel of
time, never stops. We will step inside and find
out what its object is. The Dr. informs us that
pressed by the rush of business he could not
perform all the work brought to him, so he was
compelled to secure the assistance of water
power—not for the purpose of extracting teeth,
but to drill and grind and fix up artificial teeth.

From here we will give scope to our curiosity
by giving Mr Sperrit a visit and see him operate
with his knitting machine. His shop is also
on M. in street, and the buzz of his machine as
it is kept constantly running, shows that al-
though he may have "lost his knitting" in
some places, yet he has enough left to keep him
busy.

We have not yet made our rounds, but have
gone as far as our space will permit this week.
Call at the Republican office next week, and
we will assist you on your journey.

The Invalid—A Pen Picture.

See her pallid countenance, but a short time
ago the picture of ruddy health, the envy of the
school and the pride of the household. She
was always welcomed by her schoolmates, for
her lithe form and pleasing disposition carried
cheerfulness into their ranks. Diligent, punct-
ual and exemplary, obedient and graceful at
home, she won the hearts of all. But alas, we
are sorrowful. Those rough checks and ruddy
lips are blanched by Consumption. The voice
once so enchanting in laugh and song is feeble,
husky and supplanted by a hollow cough. Let
us approach her couch gently and take her hand.
Do not shudder because of the feeble and pas-
sionless grasp. The hand once so hearty and
plump is emaciated, and shows bony outlines,
while the chords and tortuous veins are plainly
mapped upon the surface. The pulse that bound-
ed with repletion, carrying vigor to the whole
system and imparting life, beauty, vivacity,
health and strength, is delicate to the touch.
The feeble heart cannot propel the thin, scanty
blood with force. Must we lose her while yet
in her teens? Companions and friends gather
around with words of cheer and consolation, and
depart with moistened eyes and silent steps.
Must we lose her? No! There is a relief! We
can stay this destroyer of our happiness, and
not suffer the loss of so bright a gem. Some-
thing more is required, for nature calls for aid,
and she shall have it. Take this pleasant medi-
cine. It is invigorating. How it allays the
irritable cough, improves the appetite and diges-
tion, and sends a healthy tingle through the
frame. The blood is enriched, nervous force in-
creased, and the heart bounds with a new impulse.
See her face brighten by degrees; the color is
returning, her voice is getting clearer, and
pleasant words are spoken. The strength fol-
lows yet, but is gaining. Let us take her out
in the warm sunshine. In a short time she will
be able to go without our aid, a cheerful girl.
This delightful medicine must be God-blessed.
It is restoring health to our loved one. She
is emerging from her sickness stronger nobler
than before, and Dr. Pierce's Golden Medical
Discovery must have the credit. It has raised
her. Sold by all first-class druggists every-
where.

London, May 12.—The Observer says
communications have been passing be-
tween the Cabinets of Washington and
London all the past week. The Govern-
ment of the United States has assumed
no definite position of a favorable
character. There is ground for hope,
however, that President Grant may
recommmend, and the Senate approve,
a modification of the Treaty of Wash-

PECULIARITIES

OF
The Human Race,

DIFFERENCES OF OPINION, ETC.,
etc., will be commenced in a week or two
in this paper, showing how infamy can be
elaborately represented, how childhood hours
can be made happy, courtship made easy, man-
hood years made profitable, and old age com-
fortable, how to live and be healthy, how to
supply your table with the least cost, how to
dispose of the things you don't want at the
best price, making your own industry the most
profitable. This story is written by a first-

CHOLERA.

HOW TO CURE IT.

At the commencement of the Diarrhoe, which
always precedes an attack of the Cholera, take
a teaspoonful of Pain Killer in sugar and wa-
ter, (hot if convenient), and then bathe freely
the stomach and bowels with the Pain Killer
clear. Should the diarrhoea or cramps continue
repeat the dose every ten or fifteen minutes un-
til the patient is relieved. In extreme cases,
two or more teaspoonfuls may be given at a
dose.

The Pain Killer, as a remedy, has no equal.
In cases of Cholera, Summer Complaints, Dys-
pepsia, Indigestion, Asthma it cures in one night
by taking it internally, and bathing with it
freely. Its action is like magic, when exten-
sively applied to Old Sores, Burns, Scalds, and
Sprains. For Sick Headache and Toothache
don't fail to try it. In short, it is a PAIN KIL-
LER.

Directions accompany each bottle.

The Pain Killer is sold by all dealers in Medi-
cines.

Prices, 25 cents, 50 cent and \$1 per bottle

How We Used to be Physicked.

Who does not remember the time when spring
purgations was considered indispensable to sum-
mer health? No matter for why, the inevi-
table salts and senna, rhubarb, or calomel and
jalap, must be administered. These "spring
medicines," the youngsters were told, were to
keep them hale and hearty during the summer.
We all know now that this was a fallacy; that
new vigor, not depletion, is what is required at
the commencement of the summer solstice. As
a preparation for the enervating effects of oppres-
sive summer weather, a course of Hostetter's
Stomach Bitters is highly expedient. This fa-
mous vegetable preparation has three prominent
properties: It renovates, purifies, and regulates
all the functions of the body. It is composed
exclusively of pure vegetable productions; viz:
the essential principle of Monogabala Rye
and the most efficacious tonic and alterative
agents, herbs and gums known to medical botan-
ists. Hence, it is an absolutely safe medicine,
and no tincture of the Pharmacopoeia can com-
pare with it either in purity, or in the variety
of its objects; and its comprehensive results.
Necessary for mankind, the theory that it was
happily to prostrate a patient in order to cure
him, is forever exploded, and the true philoso-
phical doctrine, that vigor is one great antagonist
of disease, has taken its place. Hostetter's Bit-
ters is an invigorant, and hence it is the proper
medicine for the feeble at this most trying
season of the year.

Be sure that you obtain the genuine article,
as there are honorable vile imitations in the
market. Look to the ornamental stamp, the
engraved label, and the name blown into the
glass. Hostetter's Stomach Bitters is sold in
bottles only.

Hair Vigor,

For restoring Gray Hair to
its natural Vitality and Color.

A dressing which
is at once agreeable,
healthy, and effectual
for preserving the
hair. Faded or gray
hair is soon restored
to its original color
with the gloss and
freshness of youth.

Thin hair it thick-
ened, falling hair checked, and bald-
ness often, though not always, cured
by its use. Nothing can restore the
hair where the follicles are destroyed,
or the glands atrophied and decayed.
But such as remain can be saved for
usefulness by this application. Instead
of fouling the hair with a pasty sedi-
ment, it will keep it clean and vigorous.
Its occasional use will prevent the hair
from turning gray or falling off, and
consequently prevent baldness. Free
from those deleterious substances which
make some preparations dangerous and
injurious to the hair, the Vigor can
only benefit but not harm it. If wanted
