Dances. There has been several social
dances this week

Mr. R. Wells, of Buena Vista, informs us
that business is quite lively in his town.

Mr. Henshaw is rapidly recovering from the
effects of his trip to the mountains.

Called, Hon. Geo. H. Williams, J. F. Caples
and N. B. Humphry, called during the week.

On last Saturday the Corralis and Albany
Base Ball clubs had a contest which resulted
in the defeat of the latter

The Monmouth College is rapidly approach-
ing completion, when finished it will be among
the first buildings in the State.

Picnic. The picnic on Saturday last was a
decided success. Everything passed off to the
satisfaction of all concerned.

Challenged. The Monmouth Base Ball Club
have challenged the Salem "boys" to a game
Their trial will take place to-day

Our best physicians sanction and recommend
the use of Hall's Vegetable Sulfur Hair Re-
newer Let all who are gray apply it!

Base Ball To-day the young men will meet
to form a Base Ball Club Every lover of this
amusement is requested to be on hand

The business of Bolter & Wortley has increased
so rapidly that they have been compelled to
enlarge their store to make room for stock.

Wells Drugg, foreman of the Messenger office
paid us a flying visit on Saturday. Mr. L. G.
Jackson, from the same office was in town on
Monday.

E. Clark, of Dixie will have a fine assortment
of goods at the Annual Meeting of the Chris-
tian Church Which will take place at Dixie
in a few weeks Give him a call

J. D. Lee has, we are informed, purchased
the property of W. C. Wells, Joe has recently
caught a bird that accounts for his pur-
chasing a nest—This well

If you know what the public don't know and
you know they ought to know, and you know
to your satisfaction that we don't know, you know
it to be your duty to let us know, so that we may
let those know who don't know.

Colburn. Mr. Wells, who lives near Buena
Vista has a very fine, entire horse of the Colburn
stock, which for style and carriage has few equals
in the State. Horse fanciers should see this
animal and judge for themselves.

Tom Richmond is having his hack repaired
and newly painted, so that parties desiring to
go to Camp Meeting and other places, can have
a comfortable vehicle to go in. Tom is alive
to the comforts of his patrons, and always gives
entire satisfaction

Fish. Fresh salmon and flounder made their
appearance in market this week. Mr. Morris
knows how to serve the public in the fish line,
and always obtains them fresh. He had a fine
lot of fresh oysters, which didn't wait long for a
purchaser.

Remember that on next Monday that every
man will be called upon to use his influence for
or against the interests of Polk County Let
the result be an overwhelming majority in favor
of those interests. The way this can be best ac-
complished is to vote the Republican ticket

Camp-Meeting.—There will be a meeting
held on the Ellendale Camp Ground, commencing
Friday, June 28th, at 11 A. M. under the au-
spices of the Dallas Circuit M. E. Church. M.
M. Dodson and John Waymire, Committee.

J. JAMES, Pastor.

Dr. J. Lindsey Hill, of Buena Vista has
made a host of friends during the short time
he has been there. The reason of this, is, he
always attends strictly to business, and can be
found when wanted. Parties needing the ser-
vices of a physician in that part of the county,
should give him a call.

Mrs. Kincaid while working in the Picture
Gallery last Saturday, noticed that her dress had
taken fire from the lamp she was using. The fire
gained great headway and had it not been for
the prompt exertions of Mr. Kincaid she would
have been badly burned, as it was no damage
was done save frightening her somewhat.

Check. A man might be forgiven for ex-
hibiting a little "cheek" on certain occasions;
but there is no forgiveness for using a whole
face. About the most brazen display of that
article we have seen for some time, was exhib-
ited by one M. Burnett, on Monday last, dur-
ing the speech of Hon. Geo. H. Williams. He
waited until the speaking had commenced and
then rushed in and tacked up posters to the ef-
fect that Sullivan would reply to the speaker
at night. That young man will never lose any
thing on account of bashfulness.

Much may be obtained for \$2 00—Wor't a
delinquent subscriber loan it to us?

Yesterday, a fine deer was scared up at the
creek and ran through town causing consid-
erable excitement

Died. D G Pumpelly, of Eola, died at that
place on Wednesday, after an illness of 18
months. He was affected with paralysis, and
suffered untold torture during his illness.

Accident. As Frank McCann and R. Fraker
were returning from Salem the other day, and
when near the residence of William Moore the
fore-wheel of the wagon fell to pieces, and the
sudden falling of one side of the wagon threw
McCann upon the ground with such force as to
enable him to see stars for a few moments. No
serious damage sustained, however, and he is
about town as usual.

Arm Hurt. J. E. Smith while shoeing a
mule the other evening, received a sprain of the
wrist that has totally incapacitated him from
doing any more shoeing for some time. The
mule becoming fractious, attempted to have
his own way, and Mr. Smith attempted to hit
the animal, when by some means it turned just
enough to catch his wrist, and wrench it,
causing it to become inflamed, and very pain-
ful.

Enterprising. G B Stiles will be on hand with
an eating house, on the Ground at the Annual
Meeting to be held on the Rioral near Dixie
commencing the thirteenth of this month. His
building will be large and commodious; utmost
endeavors will be used to accommodate all who
may call on him. The best of stables, cooks
and waiters have been procured for the occasion
Ice water tree—Spirituos liquors will not be
sold or allowed in the house.

Grand Round.—Mr. Simont, agent at the
Grand Round Reservation called on us last Sat-
urday. From him we learn that a larger num-
ber of acres of grain have been sown on the Res-
ervation than ever before. Three bushels of
wheat and three of oats half been dealt out to
such of the Indians as wished it for seed. He
is having the fences remodeled a new school
house built and other needed improvements
made. He was on his way to Salem to meet
his family who are going to the Agency to re-
side.

The Three who was arrested for robbing
Parson's store in this town, was found to have
a quantity of Ayer's Hair Vigor in his posses-
sion. When asked why he wished to steal that
article, he answered that he "wanted to restore
his hair, for it was nearly bald and thin and
had to." If that invention of the great chem-
ist could restore a faded character as effec-
tually as it does their natural beauty to bald
and grey heads, it would surely be, as they say it
now is, truly invaluable.—Lawton (Mo.)
Journal.

A Good Time. At the late session of the
County Lodge, I O G T, arrangements were
made to celebrate the Fourth of July. The
Lodges at Dallas, Monmouth and Eola have
joined forces, and it is expected that the rest
of the Lodges in the county will unite in the cele-
bration. This is a grand move and no doubt
will prove advantageous to that Order. A
basket picnic has been agreed upon, and every
one can take whatever they think best in the
entire line. The celebration will take place
at the Dixie Camp Ground. Let our citizens
turn out and have a good time.

Albany. On Saturday last we made a flying
visit to Albany, and found everything in a
fourishing condition. We learn that the pros-
pects so crops in Linn never were better, and
farmers are jubilant over the fact that by fall
\$1 40 will be paid them for every bushel of
wheat sold. We found "Van," of the Register
very busy, having all he could attend to. He
informs us that he is doing very well, and is
evident that Albany will soon rank among
the first cities of the State. Calling into the
Deerwater office we found "Mart," who, although
somewhat weak from recent illness, was as
jovial as ever, and in high spirits concerning
the political affairs of his county. It is said,
however, that the Republicans are going to
poll a stronger vote in Linn this year than any
previous election since 1866, so it may be that
"Mart," will have to secure a ticket for Salt
River, with the rest of them "Chaps" from
other counties, and—well, then we'll feel as
sorry for you as you felt for us some years ago.
Jack Alphin is doing a thriving business in the
"Chop" house line, and the St. Charles and
Railroad Hotels, are constantly full. Mr.
Murray, proprietor of the Railroad Hotel, in-
forms us that many visitors are constantly com-
ing and going, and that many new comers have
settled in and around Albany during the past
year. Mr. M. is a tip top caterer to the public
wants, and one may rest assured that he always
does the right thing when called upon to
feed a weary stranger. Mr. J. G. Kenyon per-
formed to a large and appreciative audience in
Parish's Hall on Saturday night. He is a very
clever magician, and in the line of ventriloquism
cannot be beat. Many of his tricks are new
and his old ones just as "amusing as ever."
An invitation was given us to take a look at
the "Engine," which we did, and after a close
inspection were compelled to pronounce it "A.
No. 1." From the engine room we ascended to
the Hall and found one of the coziest places
imaginable, everything being in apple-pie
order. The citizens of Albany con temple giv-
ing a grand affair at the Fair Grounds on the
Fourth of July, admission to be free and on
the 5th and 6th the races are to take
place at the same spot. A purse of \$500 will
be given to the winners. Mr. Redfield and Mr.
Hiltibidel were to leave Albany this week to
go east of the mountains. Montch's mills
were in operation as also were Messrs Foster's.
Albany has improved very considerably during
the last four years, and is still improving, and
the chances are, unless more interest is manifes-
ted by the property holders of Salem it will not
be many years ere Albany will outrank it as a
city.

News Summary.

New York, May 27.—Six lives were
lost by the explosion of the tug Lion—
the captain, engineer, two firemen and two
deck hands. The pilot had both
legs fractured. John Bishop, mate of
the ship Seminole, had his arm fractur-
ed, and four others were injured.
The boat was blown into splinters above
the water line and the hull sunk.

A reporter has visited the school
ship Moyer, lately returned from a
cruise in the south Atlantic, and says
the officers report two boys missing, but
some of the crew says that eight were
lost. Two or three boys jumped over-
board off the coast of Brazil.

Washington, May 27.—In the Senate,
the House bill for the appointment of
Commissioners to the Vienna Interna-
tional Exposition was reported without
amendment.

At expiration of the morning hour
the Tariff bill came up and an unsuc-
cessful attempt was made to lay it
aside.

An evening was assigned for the con-
sideration of bills from the Committee
on Claims.

The Conference report on the Post
Office bill, recommending a recession
from the Brazilian subsidy, was pre-
sented and agreed to.

A recess was held till half-past
seven.

At the evening session a number of
private bills were passed.

Consideration of the Tariff bill was
continued in the House to-night.

After a long debate the increased
Brazilian steamship subsidy was again
rejected—yeas, 79; nays, 112. The
bill was recommitted to the same Com-
mittee. Concurrent resolutions extend-
ing the Committee until Monday, July
3d, were adopted.

On motion of Mr. Dawes the bill re-
vising mint and coinage law passed.

Conference reported on Post Office
Appropriation bill, presented again and
agreed to, the Senate agreeing from its
Brazilian steamship amendments.

Bill refunding duties on tea and cof-
fee remaining in bonded warehouses
July 1st, passed.

Conference report on shipping Com-
missioners bill presented, agreed to, and
House adjourned.

Committee appointed by citizens of
San Francisco to visit Washington on
the subject of Goat Island, ascertained
that owing to the pressure of business
the bill would not be taken up by the
Senate during the present session. The
Committee had an interview with the
President which they say was satisfac-
tory.

The Sioux Indian delegation, headed
by Red Cloud, had an interview with
Secretary Delano to-day. The usual
talks ensued with the Indians. They
wanted guns, ammunition, horses and
other facilities for receiving supplies.
Delano promised some horses and more
ammunition if the agents so advised,
and some gifts for the chief.

The Departments will be closed on
the 30th instant, Decoration Day.

The Senate was in session until 11
o'clock to-night on the tariff bill, and
a great of the evening was spent in
discussing the item, books, etc., the
point being upon fixing the duty per
pound or ad valorem.

The World publishes a statement
that members of Liberal Republican
Committee, says if Greeley is endorsed
by the Baltimore Convention he will,
if elected, make Horatio Seymour
Secretary of State.

morning elected Rev. Dr. R. S. Rust,
Secretary of the Freedmen's Aid Soci-

CHOLERA.

HOW TO CURE IT.

At the commencement of the Diarrhoea, which
always precedes an attack of the Cholera, take
a teaspoonful of Pain Killer in sugar and wa-
ter, (not if convenient,) and then bathe freely
the stomach and bowels with the Pain Killer
clear. Should the diarrhea or cramps continue
repeat the dose every ten or fifteen minutes until
the patient is relieved. In extreme cases,
two or more teaspoonfuls may be given at a
dose.

The Pain Killer, as a remedy, has no equal.
It cures Cholera, Summer Complaints, Dyspep-
sia, Indigestion, Acidity, it cures, in one night,
by taking it internally, and bathing with it
freely. Its action is like magic, when externally
applied to Old Sores, Burns, Scalds, and
Sprains. For Sick Headache and Toothache
don't fail to try it. In short, it is a PAIX
KILLER.

Directions accompany each bottle.
The Pain Killer is sold by all dealers in Medi-
cines.

A Pitiful Condition.

It is a sad thing to pass through life only half
alive. Yet there are thousands whose habitual
condition is one of languor and debility. They
complain of no specific disease; they suffer no
positive pain; but they have no relish for any-
thing which affords mental or sensual pleasure.
In nine cases out of ten this state of lassitude
and torpor arises from a morbid stomach. In-
digestion destroys the energy of both mind and
body. When the waste of nature is not supplied
by a due and regular assimilation of the food,
every organ is starved, and every function is in-
terrupted.

Now, what does common sense suggest under
these circumstances of depression? The system
needs rousing and strengthening; not merely
for an hour or two, to sink afterward into a more
pitiable condition than ever (as it assuredly
would do if an ordinary alcoholic stimulant
were resorted to), but radically and permanent-
ly.

How is this desirable object to be accomplish-
ed? The answer to this question, founded on
the unvarying experience of a quarter of a cen-
tury, is easily given. Infuse new vigor into the
digestive organs by a course of Hostetter's Stom-
ach Bitters. Do not waste time by administer-
ing temporary remedies, but take the system
up by reconstituting the fountain-head of phys-
ical strength and energy, the great organ upon
which all the other organs depend for their nur-
ture and support.

By the time that a dozen doses of the great
vegetable tonic and invigorant have been taken,
the feeble frame of the dyspeptic will begin to
feel its benign influence. Appetite will be created
and with appetite the capacity to digest what
it craves. Persevere until the cure is complete—
until healthful blood, fit to be the material of
flesh and muscle, bone and nerve and
brain, flows through the channels of circulation
instead of the watery palubum with which
they have heretofore been imperfectly nourished.

should practice when they become men."

"Deliver all things in number and weight,
and put all in writing that thou givest out or re-

Ayer's
Hair Vigor,

For restoring Gray Hair to
its natural Vitality and Color.

A dressing which
is at once agreeable,
healthy, and effectual
for preserving the
hair. Faded or gray
hair is soon restored
to its original color
with the gloss and
freshness of youth.

This hair is thick-
ened, falling hair checked, and bald-
ness often, though not always, cured
by its use. Nothing can restore the
hair where the follicles are destroyed,
or the glands atrophied and decayed.
But such as remain can be saved for
usefulness by this application. Instead
of fouling the hair with a pasty sedi-
ment, it will keep it clean and vigorous.
Its occasional use will prevent the hair
from turning gray or falling off, and
consequently prevent baldness. Free
from those deleterious substances which
make some preparations dangerous and
injurious to the hair, the Vigor can
only benefit but not harm it. If wanted
merely for a

HAIR DRESSING,

nothing else can be found so desirable.
Containing neither oil nor dye, it does
not soil white cambric, and yet lasts
long on the hair, giving it a rich glossy
lustre and a grateful perfume.
