TURKEYS—75 @ \$1 each.

Town quiet.

Blackberries are ripening.
Read platform on first page.
Everybody wishing for rain.
Hobart has a new "ad," read it.
Weather warm and locals scarce.
Camp-meeting at Dixie still going on.
Interesting exercises at the school-house Friday, 14th inst.
Messrs Scott, Walling, and others started for the coast this week.
The Oregon City communication came too late for publication this week.
Six accessions to the church are reported at Camp-meeting up to Thursday.
Small-pox has left Polk county. Both cases reported last week have recovered.
The only place to get cheap clothing of extra quality is at Murphy & Crossman's Salem Oregon.
Buy Hall's Vegetable Sicilian Hair Renewer.
Use Hall's Vegetable Sicilian Hair Renewer.
Adopt Hall's Vegetable Sicilian Hair Renewer.
Next Thursday the Camp-meeting of the M E Church will commence. It will be held at the Ellendale Camp-ground, about two miles west of this place.
Mr Henshaw the man who tried to "freeze out," is reported in a precarious condition. The hot weather it not favorable to the feverish condition of his feet.
Change. Rev. T. F. Campbell has resigned the position as publisher of the Messenger, and Wells Drury has taken his place. Mr Campbell still retains his position as editor. Success to the new arrangement.

Called. Col. Joe Meek paid us a visit on Thursday.

He is canvassing for the "River of the West," by Mrs. F. F. Victor, and "All Over Oregon and Washington," by the same author. Both books are very interesting, and should be in every library.

One day this week, a team belonging to Mr. J. Gilliam started from the mill and made a desperate effort to run away.

By some mismanagement on the part of some persons near at hand, they were driven into a fence and stopped before any damage was done. Moral—Always let a team run, so that the "local" can get an item.

T. G. Richmond and John L. Shelton, went out fishing and hunting this week.

They caught about four dozen fine trout, and killed a very large deer. The gentlemen will accept our thanks for some choice bits of venison. If there is any one thing we do wish it is venison, but 'tis useless to say more, as they know it is themselves.

Annual Meeting. The attendance at the Reunion of the Christian Brotherhood, at their grounds just below town, is not so largely attended as common, owing to the proximity of small pox and consequent fears of its spread.

This, however is dying out, and yesterday witnessed a decided increase in number, and it is expected that to-morrow the attendance will be large.

We have received a copy of the "Premium List" offered by the Oregon Agricultural Society for 1872.

The Society offers splendid inducements for competitors. This year a larger attendance is expected than that of last year. The Committee will spare no pains to make every one comfortable, and a good time may be expected. The Fair will commence on Monday Sept. 30 1872, and will continue six days.

If the farmers or merchants in this county have anything they desire sold, they cannot do better than put such articles into the hands of Mr Geo R Swain.

Parties having anything to dispose of at auction will find him ever ready to attend to business. Consignments solicited. Terms liberal. Having perfected arrangements, he will have a public sale every Saturday in the town of Dallas whenever goods are put in his hands for disposal.

Serious. About a year ago Miss Emma Har- ris, who lives near Oak Grove, in this county, accidentally ran a piece of a needle into her leg near her knee.

It has been bothering her occasionally since, and at times would be so painful as to keep her confined. Various efforts have been made to extract it, but of no avail. Last week we were told the pain was so great it was feared amputation would have to be resorted to. This week we understand the pain is not so great. The needle in working its way through the limb is supposed to have come in contact with some of the nerves which causes the intense pain. What the final result will be time only can develop.

Amusement, wonder and surprise, will be depicted on the countenances of everybody who goes to see Marillo's exhibition of Fine Arts consisting of Statuary, life size; Scenes in Europe fire at sea; and scenes in the late rebellion. Will show at the Court House next Thursday night. Admission fifty cents, children half price.

Crops. The crop prospects are not so flattering as in some years. Owing to a scarcity of late rains, late sown grain will be very short. Early sown grain and grasses are not nearly so thrifty as common, although in some portions of our county both the latter will be up to the average. More than usual area has been sown this season, but from present indications the amount for shipment will not, perhaps, exceed that of last year.

Small Pox. Various extravagant rumors, have been set afloat concerning this malady in this county. There is hardly a place in the county but is charged with being infected. We stated last week, on what we considered good authority, that there were two cases in the county, one in Eola and one in Lincoln. We have learned since that the case at Lincoln has entirely recovered and that from the first every precaution was taken to prevent any one from taking it. The case at Eola has, according to Dame Rumor, turned out to be something other than the small pox. We only give this as a rumor, however, and would not touch for its accuracy.

Mrs. F. F. Victor in her book entitled "All Over Oregon and Washington" says of Polk county. "Polk county has everything to make it rich and prosperous. All of its prairie and level land and much of its upland produces a large crop of wheat, barley and oats. Perhaps four fifths of the whole county might be turned to grain raising. It is an excellent fruit growing region, producing apples, pears, plums, cherries, quinces and other small fruit in perfection. Every garden vegetable produced on this soil is excellent.

The grain that does not do well as a crop is Indian corn: the fruits that will not thrive as a crop is peaches, grapes, apricots and the like tender varieties. These may be raised in certain localities, but are not sure every year like the first mentioned kind."

Beaten. On last Saturday afternoon the Sheriff of this county was badly beaten. It appears that a party of gentlemen were returning from the Luckiamute, when they overtook the Sheriff, who was riding his "fery, untamed steed," Snowball. The buggy party passed him. The road was exceedingly dusty, and the Sheriff not liking the idea of staying behind, concluded to keep ahead by riding fast. After going a short distance, he informed the occupants of the vehicle that he was going to take "a cut off," and keep ahead until he reached Dallas. The driver of the buggy, a young man of mischievous proclivities, concluded that he would keep ahead, and drive accordingly. After riding about two miles the gentlemen espied the Sheriff about half a mile in the rear. On his arrival in town he acknowledged him to be beaten, and since then has been heard to remark that "cut offs don't amount to much."

The Swiss Constitution.

On Sunday the Swiss vote on their new Constitution, which is submitted as a substitute for that of 1848. The present Constitution provides that on a petition of 50,000 Swiss citizens a change in the Constitution can be made and must be submitted to the vote of the people. If such a provision existed here 750,000 names would be required. A new Constitution must have an absolute majority of the popular vote and also of the cantons. Among the changes to be passed upon are the following: Any Swiss may have a vote in another canton after a residence of three months. Obstacles to the freedom of marriage are also removed. Bills for larger expenditures than 1,000,000 fr. and upward, are to be submitted to the people. If 50,000 citizens demand the abolition of a law, the question is to go to voters and the cantons, and a majority of both will repeal the law. Absolute freedom in religious faith is to be introduced, and no one can be taxed to support a State or Cantonal Church. The Federal Government is to take charge of the Schools. Henceforth the Central Government is to assume the entire control of the military affairs and to have charge of the revenues and expenses necessary. The State is to control the railways. A unification of the legal codes of the cantons is proposed. Capital punishment and imprisonment for debt is to be abolished and gaming houses licensed by the State are to be closed within a period of five years. On the whole, the changes are popular, liberal, and progressive. They have been the work of centuries, in which time Switzerland has grown from the narrow limits of absolutism to the broader equality of a Democracy.

Our Government has made some arrangements with the Governor of Tutuila, one of the Navigator group of Islands, for one of their ports for a naval station and depot. This Island is on the direct route to Australia, in latitude 14 deg. south. This will be quite convenient for our commerce, and as the native population of this and others of the South Pacific Islands, is fast disappearing; it may at no distant day be a point of considerable importance to us.

News Summary.

New York, June 14.—It is reported that the grand jury has indicted one of the prominent leaders of the eight-hour strike.

Six strikers were arrested to-day for threatening working men who refused to join them.

Seven-eighths of Steinway's workmen have resumed work. The striking piano men, backed by other strikes, have arranged to assemble at Steinway's factory early to-morrow morning, to prevent workmen from entering. The police will be on hand in force.

Five thousand machinists, iron molders and boiler makers, of Brooklyn are among the strikers for eight hours of labor or ten hours pay, and employers refuse to accede to their demands. In several instances the strikers visited the establishments and forced the men to strike.

New York, June 15.—This morning a large number of strikers made a threatening demonstration in the vicinity of Steinway and other large piano manufacturing, but the police force charged the strikers and dispersed them before an outbreak occurred. The strikers took possession of a piano factory on forty-second street, this morning, and had to be driven off by the police, who used their clubs freely.

Yreka, June 15.—Last Wednesday an old man named Leopold Baboseyosky, a native of Poland, was found dead in his cabin on Cottonwood creek. The Coroner's jury found that he came to his death by poison, but whether administered by himself or others was to the jury unknown.

San Jose, June 15.—Joe Bersmerer, driver of an express wagon, was instantly killed last night by being thrown from a horse he was riding.

Two Spaniards, wearing black masks, broke into the house of Jose Pareses, while the latter was away and assaulted his young wife who fled, leaving a young child in a hammock. The ruffians then set fire to the house. The mother, alarmed for the safety of her child returned, when she was brutally outraged by the fiends. The child was so badly burned that no hopes of its recovery are entertained. The police are after the fiends, whose names are known, and it is believed they will be brought to punishment.

Truckee, June 15.—This evening Barney Miner, telegraph operator, 18 years of age, committed suicide by shooting himself through the head with a revolver. He has a mother in Sacramento.

St Louis, June 17.—Miss reports from over 100 points in Missouri, Illinois, Kansas and Nebraska, say the winter wheat is very poor.

Chicago, June 17.—A construction train on the new railroad building through Ford City, Illinois, ran off the track this morning. Seven men were killed and many others injured.

New York, June 17.—Stokes' trial is postponed until Wednesday morning.

The employees of the sugar refinery refused to strike this morning. Four hundred strikers gathered around the theater. The police dispersed them after a vigorous clubbing. All coachmen, five thousand in number, have returned to work this morning on the 8 hour system.

Jersey City June 17.—This morning strikers began to gather in the vicinity of Mathison & Winters' refinery, but were dispersed by the police.

Boston, June 17.—The first day of the International Peace Jubilee opened with delightful weather.

Boston, June 17.—A British bark arrived this morning about sunrise.

Cannon are pealing and bells ringing in celebrating the battle of Bunker Hill. A reception procession for visiting bands formed at 8 A. M. The streets are thronged and spectators and people are pouring in from all quarters. Nearly all business is suspended. In the morning the Grand Chorus assembled in the lyceum and rehearsed the evening's programme.

San Francisco, June 17.—Midnight—the line is down east of Corinne in consequence of a heavy wind storm in that section.

San Francisco, June 18.—The steamer Montana is coming in, she is three days overdue.

Socks are at a stand still. Transactions are not numerous.

Senator Silver Mining Company filed certificate of increase of stock from \$600,000 to \$2,400,000 to-day.

Mrs McKerow, a widow with a grown up daughter, was arrested to-day as the steamer was leaving for Panama, and committed to the insane asylum. She eluded the vigilance of the family and made arrangements to embark for her old home in Ireland, impelled by an irresistible impulse to re-visit the home of her youth.

Los Angeles, June 18.—The Telegraph Stage Company connect with the railroad near Visalia and follow the old stage road, via Tejon and Bakersfield, to Los Angeles, and will commence running about July 10th. Time from Los Angeles to San Francisco 48 hours.

Victoria, June 18th.—The little girl Quickly is very low. Much alarm is

felt at the presence of the small-pox here, and a dispute has arisen as to whether the city, the Provincial or the Dominion government must foot the quarantine bill.

Victoria, June 18.—The steamer Prince Alfred is now discharging freight into lighters. Merchants refuse to pay hire of \$1 per ton.

Victoria, June 19.—The Idaho, from Portland, left Esquimalt at 10 P. M. last evening for Nanaimo, for coal, and ran on the chain of rocks between DisCOVERY and TRIAL ISLANDS. The Prince Alfred has gone to her assistance. It is feared she will break her back at low water as she will be high and dry.

The steamer California, from San Francisco and Portlnd, bound for Sitka with passengers and troops, after coaling at Nanaimo, ran on a rock 28 miles above that port and is a total wreck. Pursur Goodhue arrived in town by a canoe to charter a steamer to bring in passengers. Probably the Douglas and Maude will go to her assistance from Nanaimo.

The New York Nation, which has been long suffering from a sour stomach and looked to the Dolly Varden Convention for relief, says, tearfully, that all those who called the Cincinnati Convention "acknowledged privately that it was a failure; some of them admit it openly. Those of them who are supporting Mr. Greeley's nomination are doing so simply by way of making the best of a bad job. Not one of them considers him a desirable candidate, or looks forward to his election without grave apprehensions."

If you desire rosy cheeks and a complexion fair and free from Pimples, Blotches and Eruptions, purify your blood by taking Dr. Pierce's Golden Medical Discovery. It has no equal for this purpose.

For the very best photographs go to Bradley & Rulofson's gallery without STAIRS.—257 ASCEND IN THE ELEVATOR, 429 Montgomery street, San Francisco.

WADE, BROWN & Co., Salem, June 1, 1871. 14-3f

1840 1870 CHOLERA. HOW TO CURE IT.

At the commencement of the Cholera, which always precedes an attack of the Cholera, take a teaspoonful of Pain Killer in sugar and water, (hot if convenient), and then bathe freely the stomach and bowels with the Pain Killer clear. Should the diarrhea or cramps continue repeat the dose every ten or fifteen minutes until the patient is relieved. In extreme cases, two or more teaspoonfuls may be given at a dose.

The Pain Killer, as a remedy, has no equal. Increases of Cholera, Summer Complaints, Dysentery, Diarrhea, it cures in one night by taking it internally, and bathing with it freely. Its action is like magic, when externally applied to Old Sores, Burns, Scalds, and Sprains, Eye Sickness, Headache and Toothache don't fail to try it. In short, it is a PAIN KILLER and a SURE CURE.

Directions accompany each bottle. The Pain Killer is sold by all dealers in Medicines. Prices, 25 cents, 50 cents and \$1 per bottle.

A PAINFUL Condition. It is a sad thing to pass through life only half alive. Yet there are thousands whose habitus condition is one of languor and debility. They complain of no specific disease; they suffer no positive pain; but they have no relish for anything which affords mental or sensual pleasure. In nine cases out of ten this state of lassitude and torpor arises from a morbid stomach. Indigestion destroys the energy of both mind and body. When the waste of nature is not supplied by a due and regular assimilation of the food every organ is starved, and every function is interrupted.

Now, what does common sense suggest under these circumstances of depression? The system needs rousing and strengthening; not merely for an hour or two, to sink afterward into a more pitiable condition than ever (as it assuredly would do if an ordinary alcoholic stimulant were resorted to,) but radically and permanently.

How is this desirable object to be accomplished? The answer to this question, founded on the unvarying experience of a quarter of a century, is easily given. Infuse new vigor into the digestive organs by a course of Hostetter's Stomach Bitters. Do not waste time by administering temporary remedies, but make the system up by reorganizing the fountain-head of physical strength and energy, the great organ upon which all the other organs depend for their nurture and support.

By the time that a dozen doses of the great vegetable tonic and invigorant have been taken the feeble frame of the dyspeptic will begin to feel its regained influence. Appetite will be created and with appetite the capacity to digest what it craves. Preserve until the cure is complete—until healthful blood, fit to be the material of flesh and muscle, bone and nerve and brain, flows through the channels of circulation instead of the watery palpus with which they have heretofore been imperfectly nourished.

IT DOES MORE WORK, MORE KINDS OF WORK, AND BETTER WORK, THAN ANY OTHER MACHINE.

If there is a Florence Sewing Machine within one thousand miles of San Francisco not working well and giving entire satisfaction, if I am informed of it, it will be attended to without expense of any kind to the owner.

SAMUEL HILL, Agent, 19 New Montgomery Street, Grand Hotel Building, San Francisco.

Send for Circulars and samples of the work. Active Agents wanted in every place.

NEW ADVERTISEMENTS.

HALL'S VEGETABLE SICILIAN HAIR RENEWER

Every year increases the popularity of this valuable Hair Preparation; which is due to merit alone. We can assure our old patrons that it is kept fully up to its high standard; and it is the only reliable and perfected preparation for restoring GRAY or FADED HAIR to its youthful color, making it soft, lustrous, and silken. The scalp, by its use, becomes white and clean. It removes all eruptions and dandruff, and, by its tonic properties, prevents the hair from falling out, as it stimulates and nourishes the hair-glands. By its use, the hair grows thicker and stronger. In baldness, it restores the capillary glands to their normal vigor, and will create a new growth, except in extreme old age. It is the most economical HAIR DRESSING ever used, as it requires fewer applications, and gives the hair a splendid, glossy appearance. A. A. Hayes, M.D., State Assayer of Massachusetts, says, "The constituents are pure, and carefully selected for excellent quality; and I consider it the BEST PREPARATION for its intended purposes."

Sold by all Druggists, and Dealers in Medicines. Price One Dollar.

Buckingham's Dye FOR THE WHISKERS. As our Renewer in many cases requires too long a time, and too much care, to restore gray or faded Whiskers, we have prepared this dye, in one preparation; which will quickly and effectually accomplish this result. It is easily applied, and produces a color which will neither rub nor wash off. Sold by all Druggists. Price Fifty Cents.

Manufactured by R. P. HALL & CO., WARREN, N.H.

Ayer's Cathartic Pills. For all the purposes of a Laxative Medicine.

Perhaps no one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every neighborhood, and among all classes, as this mild but efficient purgative.

The object of these pills, is to clear the system, and to restore the natural action of the bowels, and to remove the morbid matter which accumulates in the system, and to give the system a new and healthy action.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills readily cure: For Dyspepsia or Indigestion, Loss of Appetite, Headache, Nausea, and Loss of Sleep, they should be taken moderately to stimulate the stomach, and restore its healthy tone and action.

For Liver Complaints and its various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Stomach, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For Dropsy and Dropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purgative.

For Suppression a large dose should be taken, as it produces the desired effect by sympathy.

As a Diarrhoeic Pills, take one or two Pills to regulate digestion and restore the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, and finds that a dose of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

DR. J. C. AYER & CO., Practical Chemists, LOWELL, MASS., U. S. A.

THE FLORENCE

Will sew everything needed in a family, from the heaviest to the lightest fabric.

IT DOES MORE WORK, MORE KINDS OF WORK, AND BETTER WORK, THAN ANY OTHER MACHINE.
