LE GRANDE, OREGON,

August 16th, 1872. M. M. POMEROY: Sir-My attention has just been called for the fact that in your paper of the duty of the government in its August Sd, my name is given smon: others as one to whom "communications" may be addressed in the inter est of the proposed Louisville Convention. This, of course, implies that I am favorable to that movement and willing to work to make it a success. which I beg leave to inform you is algethera mistake. The publication of my name in the connection referred to places me in a false position at home and abroad, to correct which is the object of this letter. While a cundidate from our own ranks would have been very much more acceptable to me than Mr. Greeley, I am not, however, inelined to make, or assist in making. factious opposition to the fairly express ed choice of the convention of our party of all citizens more securely than moy it braces and reinforces them. If the mind. at Baltimore, which expression undoubtly reflects the will and wishes of a vast majority of the Democracy of the Upion. I shall support the ticket as presented at Bultimore and Cincinnati. not because it, or the platform, is all that I could wish, but for the reason that Greeley, the Republican, will, in ernment, and for the nation, a return my judgment, make a better President than Grant, the corruptionist, nepotist stitutional limitation of power. and gift taker, and for the further reason that in the present condition of parties every road which leads from partisan tyranny, and personal ambi-Greeley and Brown leads to Grant Even silence at the polls on the part of is a scandal and a reproach upon free Their name is legion, and the public has no commission from which twice that amount can Democrats will be direct aid to Grant institutions, and breathes a demonalization guarentee that they are not possessus. At | be made. For circulars and terms, apply to or inasmuch as such withholding of the ballot by Democrats will by every bal lot so withheld, increase the chances of fore regard a thorough reform of the Grant's success. The proposed Lonisville Convention, if it means anything, and is to have any influence whatever in the November election. means the election of Grant. It can have no other purpose, and unless it shall have influence to produce just that result, it must of necess ty prove to be a most miserable failure This movemen' may be glossed over as a patriotic effort to "reorganize the Demecracy." but all the glossing that can be bestowed upon it will be insufficent to conceal the fact that it is, in spirit, purpose and intent a movement d rectly in people, and which shall provide the F. willings are more disgusting than thin, friethe interest of Grant. It is urged that as between two Republicans, Democrats can have no choice. This is an ingenious play upon words, but it is is no sense a frank or honest statement of the case. Mr. Greeley and Grant are both Republicans in name, but here the parallel ceases. One, for more than three years of his admini tration as chief executive has, by all the vast powers of his exalted station, sought to Districts and to the decision of Conmake the military sucerior to the civil power of the Republic. He has asked for, and a servile and truculent Congress has granted him, extraordinary powers, cangerous to the libercies of the people, and of doubtful constitutional propriety, all of which powers he has exercised for the purpose of personal and party aggrand zement. And not content with the limitations of the original act as to time, he has sought by further legislation, to retain these extraordinary towers until after the November election for no other approved purpose than to possess the power to silence the voice of opposition in the prison cell and re-elect himself to the Presidency by the power of the bayonet. Under his administration the right of local self-government has been denied, in many of the late insurrectionary States, and the voice of their people through the ballotbox, has been silenced, and their elections have been turned into a farce Corruption in office has increased to an alarming extent. Nepotism has been practiced to the disgrace of the nation. and interference in the local concerns of the States has become chronic with the administration at Washington All these evils are antagonized by Mr. Greeley, and the issues presented are: The supremacy of the civil over the military power of the government; the right of local self-government by the people; free elections, without the interference of Federal authority or Fed-PARMENTER & BABeral dictation, or administrative manipulation; honest men in office, and an honest and faithful discharge of

Is it possible that Democrats have no choice in these issues? True they are tendered in the person of a Republican; but can Democrats refuse their support to Mr. Greeley and his side of these issues, and not fail to perform the duty which belongs to the honest citizen and voter? It appears to me that the practical lesson taught by experience is, that if we would engraft Democratic measures and theories upon the administration of governmental affairs, we must at all times be ready and willing to do what may be dore to that end, and not refuse to do what can be done because more can not le accomplished. We can secure much in the election of Mr Greeley, we ought
