The Senatorial Question

MR. EDITOR. In my tormer communication, I made the broad assertion that if J. H. Mi cheli was elected United States Senator! by the incoming Legislature he would be the last Republican Senator from Oregon. This assertion, although a bod one, is a most safe one and although the fact asserted pertains to the future. yet it is as in hispatiable as that effect porch of a capitalist and will thereby ernor. will follow cause. Pechaps the reasons for such assertion r quire more cab oration than I gave them in my former communication and here I w refer to them again. It is a not orious fact that Mr. Mitchell is the Biss Tweed of a clique in the Republican party in Ocegon which has for the list four years in this State set up its arbitary will as the lex suprema of the party. This elique, unlike other chares we have had in Ozegon has not d minated by virtue of its talent, ability and political strategy, but solely by the victue of the hard did are of a large casitalist hid behind the screen and who manipulated Mitchell and other members of the ring as the chiap showarm maniplates his puppers who leav, takt and jump just as it pleases the show man, to the great ed fication of the boys who have paid their quirter to see the show. The old Satem elique, which dollar. We intend to make our paper a red- most of our politicia's remember, was hot readable sheet and worthy of public suppor a clique that in tintained its sway chief-Let the triends of free government everywhere | Iv by the talent and industry of its menbers, yet it rode the Democratic party of this State to discord and defeat It then a caba: of ta ent and political May, 1854, having gone there for that shrewdness is so total to a party, how much more will a cabal be apt to be so that his acquired and maintained its supremacy, not by any remarkable digree of talent (for Mitchell and his compeers | and the first paper in Maine to espouse Remember the funeral sermonof the late W. are all of them quite ordinary men) nor by any degree of shrew tness and apt management of men and combinations? While Democrats might deplore the existence of the old Salem clique in its time, they could nevertheless not fail in having some degree of respect for the ability it manifested in its shrewd management. But what Re publican can have any respect for the Mitchell chane that has gained its sway and hopes to retain it only by the use of money, the most debising of ail influences that ever entered the political arena. Let the Republican members of the Legislature look to Multnomak county particularly as to the fate that awaits the party in this State in case they slip the noose of the clique halter over their neck and obey its arbitrary mandates, by going through the farce of a cineus already set up and thereby easting their votes against the best in terest of the party for its emdidate and the candidate of a catitalist for the United State S mate. Let them remem per, what is a stubborn fact, that up Mulmon h county nearly all the lead ing men of the R public in party, near y all the Republican members of the bor, nearly all the old original members of the party and nearly all the rank and file are in open and bitter hestalit, to the Matchell engire. Let them to member that at the first primaries of the party held last saring to enet del egates to the State Convent of a which as Mr Dimitell (firm of Daniell and time there were a few party ex acest me that electives how it its ut or mouth concy and pow ressness And let them remember (to the evilsion; show relief cay of the eight) that at the subsequent prinaries with the county | Nothing Head Quartets', which no perticket and the mambers of the begishe ture were to be nominated, the Matche chique alone obtained dominancy then by the free use of money and by the im portation of vivers on the radical of who was at that time the Free Soil causthe capitalist who manipulates Mitchell, from the counties of Washington. Yambril, Chekama, Union, Linn and Line who swarmed around the poils as thick as here in E-ypt and voted as per orders from their employers. For such acts as these so resugnant to honest Republicans, and so well calculated to disintegrate the party if per sited in a d unheld, as yet the Mitchell clique and its master are a one respon--ible. But in case the Republican members of the Legislature should elevate this man to the position of Sanator, will they not thereby be liable to be had been accomplished. Hink further justly held as particeps crimines in the infamous transaction? Can they afford to become such? Can they not see that this county has within the last few years killed by so doing the deep scated dis in sion which now exists in the party Nothing candidate for governor, for in Mulmomah county would be as wide spread and universal as the whole State : They may perhaps hesitate about incurring the comity of the clique capitalist by refusing to obey his Nothings were successful in the elecbeliest, but is it not much better to incur his emnity than the emnity of the rank and file of the party throughout the State? He has excreised through the base use of money, some tion; I remember that the Know political influence in the State, but that Nothings swept Massachusetts like Buideport, met pith a severe accident last The Republicans of Oregon will brook no master. They might be pleased with gan one of the barrels went off shartering his the Clique Capitalist as an ally, right hand in a fearful manner. Dr. Grubbs but they will rebel against him as a master. The Republican members of the Legislature have, therefore, an important duty to the party to perform by their choice of the next United States Senator. If they allow the that I could could sustain them by

a party no long r controlled by the free votes of its members, but controlled by the erbstrary will of one min. Buc if as free men, they refuse to go into a slavish and already pur-up caucus, but proceed untrimelled to vote for Senator. they will seence the election of some good Republican outside of the miserable e ique chat congregates on the backpreserve the Republican party from the stigment reing the serfs of one man. and o retain in its rinks the men of i flance and ability who have hereto fore been its go at strength far beyond the use of the party wealth of any out tidist. Let the Republican members of the Legislature remember that the only safe course for them to pursue as Representatives of a great party is to dietate to individuals and not be dietate I by them

WAS HENRY WILSON A KNOW NOTHING DALLAS SEP 3, 2872.

EDITOR REPUBLICAN: -Yes, in full fellowship, as I eknow of my ow i knowledge, for, having censed for many years to take any part in pol ities, I can afford to confess that I was not only a member of the "dark lantern frateroity", but took an active, if not leading part during those dark scenes

I was initiated in Boston, Mass., 1 purpose from Ellsworth, Me., being at the time chie' editor of the Ellsworth Herald, published by Elijah Couillard. the K N cause. I was afterwards sent as a delegate to Portland to assist in organizing the State Council; was elected an officer thereof; and finally sent as a State Delegate to the National Council which met in Cincinnati, in Nov. 1854. On my way I stopt several days in Boston and made the acquaint ance of many of the prominent members of the order. I will mention some of their names, now living, confident that they dare not deny the statements

which I am about to make. Jonathan Pierce, Pres. of the State Council of Mass.; Ed. W. Hinks, ed.s. tor and proprietor of the Besten Kange Nothing, afterwards a member of the Legislature, also a General in the North time publishing a Know Nothing paper, but now carrying on a large job prints ing office in Boston; Joe Hiss, elected to the Legislature and appointed on the Sand ing Committee" to inspect the convents of Miss.; Geo. W Warren, (a descendant of the hero of Bunker Add.) also elected to the Legislatureethips Stat. Senate-together with many other notables of the order, such

On my expressing surprise at seeing Wilson there, Hinks explained that "the whole thing had been ent and dried long before ; that Wilson joined the order sone months previous with the under standing that it should be kept secret; that he should continue to operate outside as a free soiler, and aided by for Greeley, and as, Banks says, by the Know Nothings secure the nomination time he goes over Massichuselss on the of candidate for Governor, and this stated that right on the eve of the election Wilson was to with lraw in favor of Henry J. I was in Providence, Rhode Island when Wilson published his with drawal, only a few days before the elechurri cane, and it is a matter of history that the Legislature, which elected Henry Wilson to the U S Senate, was overwhelmingly Know Nothing!

The foregoing are the facts in the case, as I remember them very distinctly, and were I in Boston I am confident scores of affidavits. Hence I have been much amu-ed at the erroncous statements which have been made on both

Republicans who labor for principle resented as saying that Marshal P. will not debase themselves to vote with | Wilder was the candidate in 1851, whereas my readlection is that Wilder was not nominated till 183), running on the "Kangaron Ticket," as the Bell and Everett ticket was called, because strongest on its hind legs, and this was badly defeated by the " Rail Splitters." John A. Andrews being elected Gov.

> My only motive for making these statements is to set forth the facts is I temember them, for I do not care enough about politics to vote. I have hitherto remained silent because I prefered to keep clear of the abuse which is so readily heaped upon all who venture to express an opinion injurious to party policy. Instead of meeting the charge in a rational manner, and trying to disprove it, the 'Oregon style" is to pile personal abuse upon the author as though proving him to be an impistor, count rigitor or horse thief was a sufficient answer to his statement, I confess that this consideration has kent me silent until 1 began to despite myself as a coward which second consideration has impelled me to take up my jen. If the friends of Mr. Wilson were wise, instead of denying the truth of history, they would "confess and ovoid," showing that he might have temporarily joined the Know Nothing organization, but soon became disgusted with its proseriptive policy and for more than fifteen years has had no sympathy with it But I suppose they will prefer villify. ing the author of this reminiscence, and so I will subscribe myself,

ED. REPUBLICAN: The old saying that the most inveter ate hars sometimes tell the truth by mistake has been verified by the statement of the purchaseable Crandall as contained in the issue of the Statesman of about ten days ago. On that occasion he had a preity honest calculation as to the chances of Greelev being elected President, as far as he went, ont, when he raised color as far as one hundred and sixty-five electoral votes ern Army; James E Farwell, at that he came to a halt wi hout placing in the Laboral Republican pyramid either North Caro in or California, both of which will certainly east their votes for freeley Deleware a so, he fails to give to Greeley, although she has ever seen faithful to the cause of return. Add these to the 165 votes stated above and we have 181 votes, which is more than a mejority of the electoral college. or in addition to these we have more than an equal chance in Pennsylvania. Illinois, and Maine. I see the Radicals are getting budly frightened and are ediang loudly for Blucher (Chas. Mart) e ceted to Congress, out since O Conor,)to e me and help them, but it it is too late; the battle will be over and While in Biston, when on my way contest decided before their Blue er comes in. Here in Oregon, the Reablicans are very singuise; they expect Ben Holladay to cary it as he did son could visit unless a member of the in June last. Hol'aday is a pretty shrewd men, but all great men make mistakes. He thought when he elected Joe Wison to Congress that that body would be Republican, but when the Fall elections are over and he finds that body Liberal he will see that his perthe immaculate J seph, must work in a hopeless minority. Mr. Helladay is too smart a man to make enother blander. He sees the hand writing on the wall and he will not now place imself in a position that will hart his prospects for the luture. Ayer's Cathartic Pills, the purposes of a Laxstive

Perhaps no one medi-Perhaps ne one medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any

tual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always and all know that what it does once it does always
—that it never fails through any fault or neglectof
its composition. We have thousands upon thousands of certificates of their remarkable cures of the
following complaints, but such cures are known is
every neighborhood, and we need not sublish them.
Adapted to all ages and conditions in all climates; containing neither culo nel or any deletarious drug they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes the a pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.
