

Farming and Half Farming.

We have known people ambitious to make money, who would spare no labors to increase their income, and when they had secured it, would spend it to no purpose—waste it; get nothing to show for it. They were good to make money but could not keep or use it well. The only good they could get of their money, was the doubtful good of having it pass through their hands. There are many people of this stamp; they can get business and do it; can earn great wages; drive and push through any amount of toil; make long and close calculations; talk largely and well enough about business but cannot increase their own capital. Their purse will not hold money—it leaks; it seems like the fabled pit, without a bottom; or, like the miller's dam, whether it rained much or little, would hold no water; or, most likely they have no purse. Their money burns their pockets and hands; they have it spent before it is got, or plans made for its disposal.

Much like this class of people are many farmers—they can raise good crops but cannot make them pay; they neglect their fences, and the cattle break in just before harvest, or if they get a good crop they have no place to secure it; fine fields of hay and grain are gathered, but there are no barns or granaries to keep them; the fruit trees yield well, but there are no means for preserving the fruit, and it goes to waste; the root crops are good, but the frost and winter destroy them, because they cannot bear repeating the dose every ten or fifteen minutes until the patient is relieved. In extreme cases, two or more teaspoonfuls may be given at a dose.

The Pain Killer, as a remedy, has no equal. Incases of Cholera, Summer Complaints, Dyspepsia, Dysentery, Asthma it cures in one night by taking it internally, and bathing with it freely. Directions accompany each bottle. The Pain Killer is sold by all dealers in Medicines. Price, 25 cents, 50 cents and \$1 per bottle.

The Warning has been Heeded

Since the exposure of the attempts made by certain unscrupulous local dealers, palm off their coarse stringents, made from cheap and impure materials, in the place of the great national tonic, Hostetter's Stomach Bitters, public opinion has set strongly against these empirics and their preparation. Their occupation is gone, or soon will be. When the light is let into deception it soon will down Persons who trifle with their own health, by using unknown preparations, with no guarantee, when an established specific, proven by 20 years experience to be exactly what it is claimed to be within their reach, are sure to repent it.

Many have done so in this instance, but it is hoped that the truth plainly spoken has arrested the evil. In the meantime the demand for the leading protective and restorative medicine of America was never so great as it has been this season. From the Fever and Ague districts of the West, South West and South, it is literally overwhelming, and it may be said of the advice from all parts of the country of the cures it is effecting in dyspepsia, bilious complaints, chronic constipation, that "their name is legion." Everywhere the importance of "holding fast that which is good," and of avoiding what is spurious and dangerous.

The numerous "Bitters," under various names which mercenary dealers endeavor to substitute for Hostetter's Stomach Bitters, should be avoided, for their own sakes, by the sick and the public at large. Hostetter's Bitters, procurable in bottles only, and never sold in bulk.
