

BROTHERS OUGHT NOT QUARREL

The leading Grant organs at Portland are still keeping up a cross fire which is undoubtedly very satisfactory to themselves...

Portland's Post Master.

Some of our old Republican friends have constantly contended, that the Holladay Mitchell ring did not run the Republican party in Oregon...

Chronicle.

Many of our Oregon papers are pitching into the San Francisco Chronicle for its very plain talk concerning the Peace High Joint Commission.

MURDER.—The National Tribune Russeville, Arkansas, gives the murder of Sheriff Dodson and Herriott of that county...

As We Expected.

General Grant sympathises with Colfax, the Smiler, and thinks him innocent of the Credit Mobilier frauds, charged so plainly upon him...

Farmers.

The farmers in Oregon have started in the right path to ensure success, if they falter not by the way. They should now determine either to charter the warehouses already erected on the river...

Legal Decision.

Judge Deady has rendered a decision in the case of Mianer vs Vaughn and others, in which he decides that a settler under the fourth section of the donation law takes a conditional fee which terminates absolutely at his death...

MUST BE HUNG.—The San Diego Union says, that the Supreme Court has affirmed the judgment in the Wilson murder case, and Fenwick must be executed in accordance with the sentence.

The George S. Wright.

It is now certain that this steamer is lost with all her passengers, we take the following from the Oregonian showing the locality of the wreck:

The Telfair reports that there is little doubt that the Wright was wrecked upon a sea otter group, which consists of low sunken rocks, about six miles out side of Queen Charlotte Sound.

A German woman named, Wilhelmina Woltman, young, beautiful and intelligent, was recently publicly beheaded at the city of Stade, in the presence of 20,000 spectators.

The new steamer Governor Grover is a complete success.

Four black-tailed Oregon fawns have been introduced in Woodard's Gardens, San Francisco.

Four hundred and fifty head of cattle arrived in the city last evening from up the Willamette valley, and will be forwarded by the Cascade boat this morning toward destination east of the mountains.

STATE NEWS.

A school house three miles below the Dalles, was burned on Wednesday of last week. Loss, \$400.

One Frank brown convicted of burglary at Salem, has been sent to the penitentiary for two years.

The Benton Democrat says: Most of the grain along the river having been brought down, the steamer Shoo Fly went to Oregon City last Sunday.

A little girl, says a local paper, was burned to death at Phoenix this week. It seems the mother had left her alone in the room, in which there was a fire-place, while she went to the well for bucket of water, during which time the child fell into the fire and was burned to death.

The Jacksonville Times learns that Bogart, the San Francisco Chronicle correspondent, was drummed out of headquarters and made to decamp. The scene would have been more impressive had the rascal been ornamented with a coat of tar and feathers and escorted out of the camp on a rail.

From the Jacksonville Times: "Horace L. Ish, so seriously wounded in the affray on the 7th instant, is reported doing well, with a fair chance of recovery. The bullet, however, has as yet not been found. Wu K. Ish was last Thursday bound over in the sum of \$500 by Justice Wade, to appear at the next term of the Circuit Court and answer the charge of an assault with a deadly weapon on Senator Fay."

Heinrich Leuer of Minnesota is out in Douglas county looking for homes for himself and some friends who are coming to Oregon. The Roseburg Hoardealer says: "We learn that the farmers in the Southern part of this precinct have formed a club and have taken steps to build a warehouse at the Railroad depot at this place for the purpose of storing grain. They intend hereafter to do their own warehousing and forwarding."

It speaks well of Marion county that during the term of court just closed, only two indictments were found by the grand jury. One of these parties was convicted—Frank Brown, who was found in a student's house near the University, trying on a coat. The other was Thomas Henry, the man found in a saloon one night. The evidence showed that he was in such a state as to be nearly or quite unconscious of what he was about, or where he was.

The following items we clip from the Jacksonville Sentinel:

Steele, the Modoc attorney, says if it had not been for stories told them by parties who were interested in having the Modocs remain on their old camping ground, that the Modocs would have made peace. As Elijah Steele, their paid attorney, is the only one who would suffer by the removal of the Modocs, it is supposed that he must be one of the "interested parties" referred to.

The Modocs appear to be very playful little kittens. They found a wounded soldier in the lava bed the morning after the fight, and exhibited their gentle and playful nature by pointing the poor fellow to death with rocks. We plead with the Secretary of the Interior to send a female Peace Commission to these innocent kittens, with a bucket of milk of human kindness and a few yards of calico, in recognition of their kindly services.

The Farmers of Springfield precinct met at Springfield March 8th and organized a Farmers' Club by electing officers and adopting rules for the government of the Society. G. H. Armitage, J. E. P. Withers, M. H. Harlow, B. F. Powers, John Kelly and Philander Gilbert, were chosen to represent the farmers of Springfield precinct in the County Convention to be held at Eugene City March 28th.

PACIFIC IRON COMPANY.—Articles were filed in the County Clerk's office yesterday incorporating the Pacific Iron Company, under the laws of the State of Oregon, for the very important work of manufacturing railroad and merchantable iron. The incorporators are J. H. Hallet, Jas. Rogers, H. Theilson and A. G. Cunningham, all thorough and efficient men of business. The articles state that the name by which the incorporation shall be designated shall be "the Pacific Iron Company," and the objects and business of the incorporation is to engage in the manufacture from ore of pig and bar iron; the establishing and maintenance of smelting works and furnaces; the purchase and erection of works suitable for the manufacture of railroad and merchantable iron; the purchase and sale of real estate and personal property of every name and nature that may be deemed necessary to the interests of said incorporation.

The principal office of the incorporation shall be in the city of Portland and the amount of the capital \$100,000, in shares of \$100 each. The incorporation shall be perpetual.

We stop the press to announce that Gen. Canby has appointed the Fourth of July to meet Captain Jack and have a talk. Capt. Jack replies through Modoc Sallie that he is very busy investigating the credit Mobilier stock if they are any fatter than Fairchild's. Jack says he will meet the General at the Centennial Exhibition, if he don't change his mind, and in the meantime wants Secretary Delano to come and see him, without any arms, and promises that he will leave the Modoc Surgical institute minus legs also.

From a working man residing about five miles from Portland, on what is known as the old Taylor-ferry road, we get that a man, for whose arrest a warrant has been issued, attempted to outrage the person of a child five years of age. No particulars given.

TELEGRAPHIC.

Boston, March 17.—The propeller Grace Irving, which left here Sunday for New Bedford, was seen to founder off Duxbury about three o'clock yesterday afternoon. She sunk so quickly that none on board had time to save themselves. They were from New Bedford. Of the owners, Hon. James Ritchie, of this city, is said to have been aboard.

Syracuse, N. Y., March 17.—This afternoon a man named Keller, aged 21, murdered his cousin, Ida Spencer, aged 14. Keller went into the kitchen where Ida was at work, and taking a short iron bar struck her on the head. She fell to the floor, when he repeatedly struck her, beating her brains out. Keller then ran down toward the Central Railroad depot. A freight train had just started east and he attempted to jump on the caboose, for the purpose of escaping, when, missing his hold, he fell, the back of his head hitting a rail, killing him instantly. The motive for the crime is not known. The parties moved in good society.

Washington, March 17.—Among the nominations to-day were Jno. H. Stevens for Register of Land office at La Grande Oregon; D. Chaplin for Receiver of Public Money at the same place; S. D. Smith, for Postmaster at Walla Walla; C. A. Clark, Postmaster at San Jose, California; and Wm. D. Hare, Collector of Customs of the District of Oregon. The President has nominated John Gafforth, Assistant Attorney General of the United States; J. G. Patton, Chief Justice of the Supreme Court of New Mexico; Colonel P. B. Ashford, Secretary for Arizona; Frank Hall, Secretary for Colorado; and William Ritchie, Secretary for New Mexico. The Senate has confirmed the following: Jno. W. Foster, of Indiana, nominated for Minister to Mexico; C. A. Logan, of Kansas, Minister to Chili; G. A. Lammont, Marshal for Nevada; Edward P. Smith, of New York, Commissioner of Indian Affairs; E. W. Barber, of Michigan, Third Assistant Postmaster General; Postmaster Thos. L. Jones for New York, vice Patrick H. Jones resigned. The President has nominated J. S. Boreman as Associate Justice for Utah and A. P. K. Safford Governor of Arizona.

Chicago, March 17.—Associated Press dispatches say the recall of Minister DeLong is insisted upon, because he is said to have involved himself in difficulties existing between Japan and another nation, contrary to diplomatic law and usages, and because his relations with the State Department are not entirely satisfactory.

Evansville, March 17.—In a difficulty between the Independent and Union Iron Moulders to-day Louis Bagman was killed.

Halifax, March 17.—The steamship Petersburg, from Amoy via the Suez Canal, bound for New York, put into St. Georges, Bermuda, on the 5th inst., short of coal. She had burned her spare spars, bulkheads, boats and 100 chests of tea. She took in coal at St. Georges and sailed again, but grounded outside the harbor and became a total wreck. She was a splendid ship, and the largest merchant vessel that ever visited Bermuda. She had on board, besides other cargo, 42,000 chests of tea, worth over £500,000 sterling, half of which was landed by great exertion of the crew.

Port-au-prince, March 13.—Quiet prevails throughout Hayti. It is reported that General Luberon is on the frontier preparing an expedition against Baez.

The Pope has decorated Baez with a grand cross of the Order of St. Gregory.

London, March 17.—Gladstone will probably resume the Premiership in the House of Commons this afternoon. He stated last evening that he had received a communication from the Queen to the effect that there was no prospect of the Opposition forming a new Government. He replied placing his services at Her Majesty's disposal, stating he had undertaken to consult his colleagues and they were now engaged in considering what steps should be taken—and he proposed, meanwhile, for the House to adjourn until Thursday.
