DALLASCHURCH DIRECTORY.

M. E. CHURCH.—Services on the 4th Sabbath in each month at 11 A. M. and 7 P. M. Sabbath school very Sunday at 9 A. M. Prayer meeting every Thursday evening. Rev. J. James, Pastor.

M. E. CHURCH SOUTH.—Services on the 1st Sabbath of each month at 11 A. M. Rev. J. M. Lovell, Pastor.

BAPTIST CHURCH.—Services on the 3d Sabbath of each month at 11 A. M. Rev. P. Holman, Pastor.

Demorest Monthly. — The April number of this popular periodicnl comes to us fresh as a Spring daisy. It is very much enlarged, and every way improved, and we guess the ladies are right when they say it contains as much genuine information as all the other Fashion Magozines put together.

SURPRISE.—On last Thursday the printers of the REPUBLICAN office were surprised by a gentle rap at the door. Upon the door being opened by our young foreman, it was discovered that two young ladies of town had thus ventured to disturd the peace and repose of our office they were politely invited to walk in, but no sooner were their voices heard in room, than there was great confusion among the printers, the little devil jumped into the paper box, while the balance curling themselves up on their stools, looked as though they had been sent for, *"but couldn't you."* The fair visitors before leaving promised to call again, which promise we hope they may make good at their earliest convenience.

FREE SCHOOL.—The voters of this school district will meet at the academy building on next Monday for the purpose of determining whether or not we are to have a free school in this district, as was the case last year. As there are several very influential men in the district that are opposd to having a free school, it is thought by some of its earnest advocates to be very doubtful as to whether the proposition will carry. It would be well for all those who have a desire to have a free school to turn out. Let there be a full attendance so that there may be a fair expression of the will of the people of the district in the regard to the matter.

CLOSED.—The third term of the Lacreole Academy closed on Monday. For the past nine months the Academy has been under the guidance of Prof. Grubbs who, with the aid of good assistants, has conducted the school to the entire satisfaction of both scholars and patrons.and we think that we are justified in asserting that Dallas has not had a more orderly and better conducted school kept for many years past, than that which has just closed under Prof. Grubbs. The people of Dallas and vicinity may well congratulate themselves, that the directors of this disrict have secured the services of the Prof. for the summer school the first term of which begins on next Moday.

During the Month of Mar 1873 there were 8 rainy days, with 3.87 inches water, clear days 9 and cloudy days 7.

Mean temperature for month 47°
Highest 54°, on the 3d Lowest 41° on the 5th.

The Right of the State to Maintain Public Schools.

A very strong article on this subject appears in the March number of the *American Journal of Education* and in the present phase of the discussion on "Compulsory" and other methods Education, will, undoubtedly, attract popular attention. The *Journal* which this month comes to us with a handsome new heading, has already taken a high rank on our list of exchanges, and with such artiales as we observe, on "The Proper Building and Equipment of School-Houses," "The System of Count Superintendency," and wither others evidently calculated to help teachers in their work, and to bring the people to a better understanding of it, is making for itself a really national character.

We see that liberal premiums are offered for clubs. A. H. Andrew & Co., Chicago, are the publishers.

The *Pthrenological Journal* for April, take it all in all, is one of the best numbers yet published of a magazine that is justly distinguished for usefulness. The table of Contents is of a character to attract all classes of readers, although "sensationalism" seems to claim no place therein. The following subjects seem to us of more special interest: Charles P. Kimball, the well known carriage-maker of Maine; Inborn strength, an Ossay on the elements of human advancement: Educaling the Lexes Together; The Foremost Problem: From whence to No whither, or the Future Consideeed; Origin of "April Fool" The Cheesful Face; A Dream Not All a Dream: The Maple Tree: also a long list of publicatons. Terms $3 per year. Single numbers 30 cents. S. R. Wells, N. Y.

The *Aldine* for April will be received with enthusiasm and delight by every person of taste who has a grain of appreciation for the beautiful or a spark of pride in the progress of American Art. Being the latest it is, of course, the finest of all the fine issues of this wonderful press, and in this constant improvement may be noted the secret of the great success which this American Art Journal has achieved, where, hitherto, so many beginings have invariably counted just so many failures. The publishers demonstrate, not only the amplest resources, but a determination to use these rescoures to the utmost, and this enlightened liberality in their business can have only the one result a hold upon the popular faith that will be to them a tower of strength for all time to come. Subscription price $5.00 including Chromos "Village Belle" and "Crossing The Moore." Sames Sutton and Co., Publishers 58 Maiden Lane, N. Y.

Young America for April fulfills the promise of its past. It is an excellent Juvenile Magazine, bright, live and instructive, as well as entertaining; full of amusement for the little folks,

SHEEP FOR SALE,

I have about three hundred and fifty head of good stock sheep for sale. Enquire of the undersigned being one quarter of a mile North of Monmouth.

Monmouth, March 29, 1873,

A 6 tf S. W. Smith.

STATE NEWS.

The Jacksonville *Times* says: "From Gen. Elisha L. Applegate, who passed through this place on Tuesday last, we learn that Long Jim, one of the Indians indicted by the Grand Jury of Jackson county, for the murder of settlers on Lost river, was recently captured at Yainax by Capt. O. C. Applegate, who immediately turned him over to Gen. Gillem, U. S. A. at Van Bremer's, in California. It appears that Jim had been severely wounded in the arm at the battle of the Lava Bed, and had stealthily made his way to Yainax, hoping to be able to remain there undisturbed until he got entirely well. A friendly Indian however, "blowed" on him; he was arrested, put in irons, taken south of the Oregon line, and placed in charge of the military. We think he should have been turned over to the civil authorities of Jackson county, to be dealt with according to law.

From the *Statesman*: A man by the name of C. Marsher was arrested Gervais, a few days since on a charge of incendiarism. He was held to appear at the next term of Court, under $500 bonds, and failing to get the required signatures was committed to jail. He yesterday found a bondsman and was set at liberty.

The *Sentinel* says: "Captain Jack is expecting reinforcements from the Klamaths, and that it is his intention to leave the lava beds and commence raiding as soon as the grass is good. Meanwhile the powers that be are trying for peace when there can be no peace. How long must these things be? How much longer will our Government humiliate itself in the vain endeavor to patch up an ignominions peace with a few murdering, theiving Indians?" We give it up.

The La Grande *Sentinel* has an extended account of some mining operations carried on at the head of Grand Ronde River, about fifty miles from La Grande. The mines were known to be rich, but have been worked with indifferent success for several years, the the greatest drawback being a want of capital to develop them. Last Fall the the ground fell into the hands of Messrs. Cranson and & Crane, who have spent some $60,000 in work, saw mill, flums, etc. The ground upon which the work has been done is a bank of gravel one half a mile in width and about a mile in length, averaging 90 feet in depth. The workmen have drifted into this bank 80 feet, with side drifts at right angles for blasting purposes The ground is to be blasted, and hydraulics will be used in removing the dirt. The first piping was to be done on April 1st, and a "clean up" made after a thirty days' run, when big things are expected.

Our Baker city correspondent, under the date of the 26th of March, says: "Last week we had several warm, pleasent days, which caused rapid melting of the snows in the foothills, and quite a freshet in Powder river was the consequence. The Bridge on lower main Powder, known as the Pritchard Bridge was carried away, and our bridge near town came very near going off on Sunday last, but fortunately the weather changed and has been cool, cloudy and windy since, and the waters went down. Our roads are drying up very fast. Quite a number of strangers in town, new buildings going up and things doing well, but money is scarce. Several drunks and almost a deadly fight to report within past few days. The stages connect with Boise City only tri weekly, now—"to much sick horse."—*Oregonian.*

The following Jackson county mining items are from the *Times*: Capt. M. F. Alcorn has opened a ledge of gold bearing quartz on Bush creek, that prospects for free gold. A company is organizing to develop and work it this summer. The Hamilton diggings, on Applegate, are being vigorously worked this season by S. R. Hamilton, with pipe and hose, and give prospects of a good yield. The Steamboat diggings afford ground enough for quite a number of miners this season. Several Americans and quite a number of Chinamen are busily engaged in ground sluicing, with hopes of good success.

A Mr. Kincaid, a young man, the son of W. P. Kincaid of Rogue River Valley, had his right arm badly cut on Thursday, the 20th ult. While he was in the act of passing a man scoring timber he stumbled and fell under the ax of his companion as its was coming coming down, the ax passing through the elbow joint and nearly severing the arm, but fortunately missing the main artery.

A correspondent from Canyonville, says crops are looking fine in that part of the country, and that a greater acregae than usual has been sown. Stock have passed through the winter in good condition, This is especially true of sheep. The wool clip of this year will exceed that of last year in quantity, and be superior in quality. This results from the flocks being in better order and free from scab.

It is expected that the North Western Stage Company will change their line by the first of July, so as to run from Pendleton via Pilot Rock and Willow creek to the Dalles daily, with a branch to Umatilla twice a week; the Walla Walla line to connect at Pendleton. This will make Pendleton a central point.

FOR RELIABLE FIRE INSURANCE.

APPLY TO THE OLD

PHŒNIX OF HARTFORD

because

First. It has complied fully with the Oregon State Law.

Second. Its contracts in Oregon are backed, under a re-insurance contract, by its own and the united assets of the Home Ins. Co. of New York and the North British and Mercantile Ins. Company of London, aggregating $22,564,087 97 offering the best security of any Fire Insurance Company or Association in the world.

Third, It can carry large risks, as its policies are re-insured by the above mentioned Companies, so that the PHŒNIX alone can carry the same line that all three companies would take seperately.

Fourth, It requires but one set of proofs in case of loss; thus giving the security of three Companies without the trouble of dealing with seperate Corporations.

On these solid merits, viz;

Capacity to carry the largest risks,
The amplest possible security,
The simplest adjustment in case of loss, and
The prompt and equitable payment of all just claims,

The Phœnix Insurance Company solicits your patronage.
