

The Liberal Republican

DALLAS, SAT. MORNING, APRIL 6 AMERICAN IRON AND COAL.

Let us develop our iron and coal mines for in them there is real wealth—wealth far greater and more desirable than in deposits of gold and silver.

This conclusion is warranted by known and irresistible facts.

It is now known that Sweden has vast deposits of iron, but no coal. She must, therefore, export ore or import coal.

It is stated, we presume upon established data, that two fifths of the iron export of Great Britain is brought into the United States to supply the deficiency in our own production.

This deficiency should not long exist and probably it will not. A writer who has given the subject close investigation says that our facilities are now increasing so rapidly that the current twelve months may place us entirely independent of Great Britain on this score.

The statistics of the coal trade in this country indicate a most satisfactory progress in manufactures and commerce. Since 1820 the increase in the consumption has been steady and large.

Table with 2 columns: YEARS, TOTAL PRODUCTION. Rows for 1820, 1830, 1840, 1850, 1860, 1870, 1871.

The production of 1872 was larger than in any previous year. The total production for the year was 15,133,173 tons, against 10,120,784 last year.

With our exhaustless supplies of coal and iron ore, may not the United States ere long compete with Great Britain for the iron trade of the world?

The question is frequently asked, what does Great Britain do with her enormous iron product? She manufactures it into hardware, cutlery, machinery, etc.

receiving in return the raw products of those countries, which she delivers to her manufactures at first cost.

DESTINY AND CHARACTER.

There is no law in human affairs more immutable and potent than that which connects, by indissoluble bonds, destiny with character.

When Agostino, King of Sparta, was asked what things he thought most proper for boys to learn, he replied: "Those things which they should possess when they become men."

TO ARCHITECTS.

THE BOARD OF COMMISSIONERS FOR the erection of a State Capital Building for the State of Oregon, hereby give notice that they are ready for the submission of Plans and Specifications for the construction of a permanent and durable STATE HOUSE for said State; and that they hereby request Architects, who desire to submit to them such Plans and Specifications, to do so by forwarding the same to the office of said Board, at Salem, Oregon, on or before the 1st day of April, A. D. 1873.

It is intended that said Capital Building shall be economically constructed, and be of such dimensions as will be suitable for a young State like Oregon. The sum of Fifteen hundred Dollars will be allowed for such Plans and Specifications as may be accepted by the Board.
