

THE WALLOWA VALLEY.

This fine valley situated in Union county northeast from the Grand Round valley, has recently been by order of the powers that be consecrated to the Indians. This valley was purchased by the Government together with its adjacent territory, many years ago through Gen Palmer, who was acting as agent for the general Government for that purpose, was thrown open for settlement, and quite a number of farmers settled there in good faith several years since, and now since the days of Captain Jack's notoriety, a few sealawig Nez Perce Indians have had claim to this valley, with all its advantages to Eastern Oregon, and that claim, so blushing wrong as it is, has been listened to and granted by this administration, and party of progress.

This is the progress we are taught, by this band of unprincipled miscegenationists. The settlers are to be driven off from their well selected farms to give place to the lazy, dirty, worthless natives, whose highest ambition is to scalp the anglosaxon and retard his progress. The day is not far distant, thank heaven, when this disgraceful act now done will be undone, and the sturdy yeoman who to day is being driven from his home of comfort, shall be reinstated to his just rights and possessions, and the party and partisans who perpetrated a who aided and abetted this great wrong, shall be consigned to everlasting infamy.

NOTHING NEW.

In the Daily Evening News of June 4, the editor has a lengthy article headed "a stunning ody." The writer expresses surprise at the course pursued by the Bulletin man recently, regarding the Chinese question, and gives two extracts from the Bulletin to prove the inconsistency of its editor. We can save the editor of the News any further cause for surprise upon that subject by informing him that the contradictory and inconsistent statements of the Bulletin's editor upon the same subject "is nothing new."

Scarcely a new political proposition has arisen within the past eight year in Oregon, but that the present editor of the Bulletin has taken strong ground on both sides; and by experimental knowledge we know, that, to quote his own former arguments upon him whenever he changes base, has very much the same effect, as it does to throw hot cakes to a hungry butcher. By ordinary observation it will be seen readily, that the Bulletin man opposes everything while it is new and unpopular, but whenever, by carefully observing the weathercock, he can see the thing is bound to win, he then suddenly "flips," and with a look of complacency unknown to any other on this mundane sphere, he declares in high sounding words, that he's been chasing that striped squirrel all the time.

Observe him Mr. News, and you will not be satisfied with us, that it is no use to quote extracts from his pen, to prove him inconsistent. The safest way however, to know just how to present editor of the Bulletin stands upon a political question, is to consult Grant's Attorney General or Senator Hipple.

SENATOR POMEROY.

Ex-senator S. C. Pomeroy is mentioned in both papers after the vacated seat of Ex-Senator Caldwell. If they are overtaken in time, and there are not too many claimants, he expects to again represent bleeding Kansas on the Senate floor.

The above is from the Blar Times Nebraska. Pomeroy one of Grant's idols, and ought to remain in the Senate so long as Grant is permitted to be President. The mass of corruption that fills the seats of our national Senate chamber at the present day, stinks in the very nostrils of the inhabitant of the civilized world, and will continue to do so, until the sovereignty of this Republic shall wake up to a sense of duty, sufficient to induce them to sacrifice party name for the perpetuity of republican principles and determine and demonstrate by their votes, that hereafter none but capable, honest civilians, shall be elected to the Presidency, or any other high, civil office.

This relic of monarchy which has so strongly imbedded the mind of the American people ever since the revolution of giving up to military chieftains, the reins of civil government, is an instrument of destruction per se, that will sooner or later overthrow the best instituted republican government ever established on the face of this green earth.

RAGING.—The measles, and Epizooty is still raging.

THEATER.—The Theater of the McQuilly Troupe on last Wednesday was a success.

INSURED.—Ami Bogus who was thrown from a horse last Saturday, is slowly recovering, but is yet in a critical condition.

Our readers will please excuse us for giving them only a half sheet this week. The Foreman being sick with the measles, but we assure you it will not happen again.

Fire.—While we were walking up the street last Tuesday we were informed that Mr. Glaze's House had been set on fire by some unknown person, but luckily a person passing, seen the fire and immediately informed the family who took out some water and put it out before it did much damage.

DESOLATE.—The town on last Tuesday had the appearance of being uninhabited you could see nobody except store keepers. It is said an good authority that there was about one hundred persons went over from here, to attend the trial of A. H. Whitely.

NATIONAL BUSINESS COLLEGE

POST OFFICE BLOCK, CORNER FIRST AND ALDEN STREETS

PORTLAND, OREGON.

A MODEL COMMERCIAL COLLEGE!!

THE EDUCATION FOR THE TIMES

The Importance of a Practical Education Was never more Apparent than Now!

IT IS UNIVERSALLY ACKNOWLEDGED that as we progress in the world, we grow more practical, and that it is required of men that they educate themselves practically—educate themselves in the best manner possible—to meet the demands of the times.

When Agesilaus, King of Sparta, was asked what things he thought most proper for his subjects to be taught, he replied: "Those things which they should practice when they have no money."

"Deliver all things in number and weight, and put all in writing that thou givest out or receivest in." is a precept of universal application in all business transactions. Young men, the future welfare of the country is in your hands. Are you prepared to meet the demand?
