

TOWN AND COUNTY NEWS.

CHURCH DIRECTORY

M. E. Churchmen.—Services on the 4th Sabbath in each month at 11 o'clock A. M. and 7 P. M.

M. E. Church South.—Services on the 1st Sabbath of each month at 11 A. M. Rev. J. M. Love, Pastor.

Baptist Church.—Services on the 3d Sabbath of each month at 11 A. M. Rev. P. Holman, Pastor.

Business lively.

One man fined.

One fight in town this week.

Call on Clark to buy your Groceries.

Call on Lee to buy your dry goods.

Weather for the week, windy and rainy.

County Court will convene next week.

Go to Salem to buy your drugs and medicines.

We noticed Mr. Crawford of Salem in town yesterday.

Both political parties hold their County Conventions to-day.

Mrs. Mary Lee's large stock of fashionable fall millinery attracts unusual attention.

When you go to Salem, go immediately to A. N. Gibber's Boot and Shoe store.

We learn that one of our store-keepers has been up north and taken up a claim, which he intends to stock with cattle, in the spring.

Young Ford who was sun struck, during our hot days, on the Luckiamake, is recovering, and will soon be able to work.

The Howard Brothers Show that performed here last Tuesday evening, was a grand success, and those that stayed away lost a good treat.

We hope our readers will excuse the lack of editorial this week, as the editor is very ill and entirely unable to write.

Miss Sallie Shreve, is making Dresses in the latest and best style, also cutting and fitting, and all kinds of plain sewing done with neatness and dispatch.

For the very best photographs go to Bradley & Robinson's Gallery without stairs—ASCEND IN THE ELEVATOR, 24 Montgomery street, San Francisco.

All the Chickens Butter and Eggs in the county, wanted at Clark's Post Office Store. Stone flower vases also all kinds stone ware—Clark's—nails, screws, rope, tinware, etc. etc. Lard Bacon wanted.

GRAIN.—We were informed by a gentleman who is engaged in threshing grain in the vicinity of Amity, that what was turning out from twenty-two to thirty-eight bushels per acre.

A fine one horse buggy leather top nearly new, for sale at Clark's Post Office Store in Dallas, time given if desired or what taken at market price on the River—Bacon, Eggs, lard, and chickens wanted. Call and see the buggy.

POLITICAL.—The primaries of both the old parties came off last Saturday, and as we expected, there was no one present except those who desired to be delegates, of course the thing was soon over, they met and voted for themselves, and adjourned.

BIRTH.—The loveliest and brightest son, that ever rose in the estimation of our friends and townsmen John P. Phyll, was born to Mrs. Phyll, a few mornings since, weighing full ten pounds. We congratulate you John—and may that son continue to rise until society shall be cheered by his brightness.

TEMPLE OF JUSTICE.—Our talented and enterprising young Attorney Justice of the Peace, L. Vinyard esq. having a plethoric purse determined to change his quarters from the Court house and set up a house for himself. He has purchased the dental row of Dr. Rubell and removed them to the first door west of Lee's store. Lycorgus temple is open to all.

MARRIED.—Mr. Jessie Lewis our gentlemanly stage proprietor has gone, not out of the State of Oregon, but into the state of matrimony, brought about by special contract with Miss Libbie Shaw. We hope the new state will prove to be a fortunate state, Jessie, and if that stage don't start on time we'll all be good natured about it.

Another victim, Sam Garrison has got the silken net tied around his neck. We always knew that Simion's watch would be the means of marrying him.

ON THE RAMPAKE.—The arm of the law seemed to have been miffed on last Saturday evening, in the battle of the drunken and outrageous conduct of some hoodlums. We understand they came within an ace of taking and holding the Good Templars Lodge, and made night hideous with their yells after the lodge closed. But Monday morning came and with it a day of reckoning, for one of the parties against whom unmistakable evidence appeared came before Justice Vinyard and pleaded guilty and was fined \$5. We say let the law be vindicated though the violators fall crushed under its weight. Such characters must be taught by bitter experience that there is a law in this country.

STATE FAIR.—We have received the mammoth advertisement for the next State Fair. It is a very nicely gotten up bill by E. M. Waite of Salem who deserves great credit for the interest he has so long manifested in that apartment. The bill promises an extraordinary exhibition and everybody who feels an interest in Oregon should attend. The bill is on exhibition at this office, and the fair will come off on Monday the 6th day of October.

SALT LAKE PRIMARIES.—Mr. H. N. V. Holmes, of Salt Lake precinct, met at the school house, at the hour appointed for both primaries, there being no one present to represent either party, Mr. Holmes felt it his duty to see that his precinct was not left unrepresented; he called the meeting to order, then came down from the stand and made an enthusiastic speech for both parties, then proceeded to nominate and elect delegates to attend the County Conventions of both parties; then feeling the thing had been a perfect success, shook hands with the old school house, and started home. It is due to Mr. Holmes to say: that on his home he gave certificates of election to the persons he had that day chosen on both sides, Democrats and Republicans, and at last advises they were perfectly satisfactory.

THE GOOD GLOBE IS NOT A BALL OF FIRE—HOW IT BECAME SOLIDIFIED. [Prof. Dana, in the American Journal of Philology.]

It seems now to be demonstrated by astronomical and physical arguments—arguments that are independent, it should be noted, of direct geological observation—that the interior of the globe is essentially solid.

The condition of the earth's interior here recognized is, as many readers will have observed, that suggested long ago by Prof. W. Hopkins—the author who first offered (1839) a mathematical argument in favor of the earth's either having a very thick crust or solid throughout. In a paper on "Theories of Elevation and Earthquakes," in 1847, Prof. Hopkins argues that the central mass of the earth became solid in consequence of the pressure whenever the temperature within reached a limit that permitted of it; that crusting at surface from cooling commenced afterwards; and that between the regions of interior and exterior solidification there long remained a viscous layer, which, in the progress of time, was gradually contracted by the union of the solid nucleus to the thickening shell.

The possibility of solidification at center from pressure, in the face of a temperature too high for consolidation from cooling, has not been experimentally demonstrated. Yet a number of facts favor the principle. It has been urged that since solidification of rocks is attended by contraction, that is, by increase of density, and since pressure tends to produce this greater density, therefore pressure may bring about the condition of the solid. The fact that ice, which has less density than water, changes to water under pressure, has been appealed to the support of the conclusion. The pressure to which the mate within the earth is subjected is so great that experiment can never imitate it, or directly test its effects. Beneath only one hundred and fifty miles of liquid rock, it would not be less than one million pounds to the square inch, less than this may have been sufficient to produce crystallization, and so give rigidity to the rock material, or at least so after the cooling the earth has undergone. The rigidity of slowly solidified rock is beyond that of glass or steel—or the degree which, according to Wm. Thompson, must exist in order that the earth should be completely free as it is from tidal movements in its mass.

According to the above, the solid part of the Globe consists, as regards origin, of three parts:

The central mass, consolidated by pressure; the solidification centrifugal or from the center outward.

The crust proper, consolidated by cooling; the solidification centripetal, or from the surface inward.

The outer crust, or superficial coatings—the upper crust—made chiefly by the working over elaborating of the material of the surface through external agencies, aided by the ever acting lateral force from contraction, and including all terranes from the Archæan upward.

Some of the most amusing epitaphs are in prose. This one is from a tombstone in Pennsylvania: "Battle of Shiloh, April 6, 1862."

MEDICAL.

Ayer's Cathartic Pill

For all the purposes of a Laxative Medicine. Perhaps no one medicine is so universally required by everybody as a cathartic or purgative any before so universally adopted into use, in every ordinary and all classes, as this mild but efficient purgative Pill. The obvious reasons, that it is a more reliable and far more effective remedy than any other. Those who have tried it, know that it cures them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition. We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates, containing neither calomel or any other violent drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity. They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to healthy and by correcting wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

For Dyspepsia or Indigestion, Loss of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

For Ever Complicated and various symptoms, Bilious Headache, Sick Headache, Jaundice or Green Sickness, Bilious Colic and Bilious Fever, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

For Dysentery or Diarrhoea, but one mild dose is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side, Back and Loins, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

For Dropsy and Dropsical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purgative.

For Suppression a large dose should be taken as it produces the desired effect by sympathy.

For Bilious Piles, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose invigorates the stomach and excites into healthy action, restores the appetite and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, after a course of these Pills makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

DR. J. C. AYER & CO., Practical Chemists, LOWELL, MASS., U. S. A.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine has derived from its cures, many of which are truly marvelous, has caused cases of serious disease, where the system seemed saturated with scrofulous matter, to be purified and cured by it. Scrofulous affections and their various complications are aggravated by the scrofulous contamination until they are incurable in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt agent of the organism undermines the constitution, and invites the attack of such diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, breaks out in some form or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul discharges in some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advised, even when no active symptoms of disease appear. Persons afflicted with any of the above mentioned diseases, generally find immediate relief, and, at length, cure, by the use of this Sarsaparilla. It is St. Anthony's Fire, Rose or Ringworm, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia, and the various Ulcerous affections of the musclic and nervous systems.

Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhoea or Whites, Venereal Eruptions, and Female Eruptions are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our medicine supplied gratis. Rheumatism and Gout, which are caused by accumulations of extraneous matters in the blood, yield quickly to it, as do the complaints of Torpidity, Constipation or Inflammation of the Liver, and Jaundice, when arising, as they often do, from the rankling poisons in the blood. This Sarsaparilla is a great restorer for the strength and vigor of the system. Those who are Languid and listless, Despondent, Sleepless, and troublous, by any means, apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon its use.

PREPARED BY DR. J. C. AYER & CO., Lowell, Mass., Practical and Analytical Chemists.

SOLD BY ALL DRUGGISTS EVERYWHERE.

FLORENCE

Will sew everything needed in a family, from the lightest to the lightest machine.

IT DOES MORE WORK, MORE KINDS OF WORK, AND BETTER WORK, Than any other machine.

If there is a Florence Sewing Machine within one thousand miles of San Francisco not working well at all giving entire satisfaction, if I am informed of it, it will be attended to without expense of any kind to the owner.

SAMUEL HILL, Agent, 19 New Montgomery Street
