OUR NEW YORK LETTER.

Special Correspondence of the COLUMBIAN.

New York, August 7, 1882. THE LONG STRIKE.

Nothing new has occurred to change the aspect of affairs, in the matter pending between the railroad companies and the striking freight handlers, except that yesterday, sixty of the Italian laborers employed at the St. John's Park depot, gave up work on the ground that they were underpaid.

ANOTHER BRAVE POLICEMAN.

Policeman, Flay, whose name is in keeping with his best known characteristics, yesterday dragged his wife through the streets, and arraigned her before a police magistrate, on the charge of disorderly conduct.

THE NEW YORK POST OFFICE.

It is shown by Mr. Pierson's statistics for the last fiscal year, that the tremendous increase in the large post-office, does not necessarily call for a corresponding increase of expenses.

NIGHT DUTY ON THE BENCH.

The police justices do not like the new law which requires them to sit at night to hear cases at Police Headquarters and they are trying to shirk their duty, thus imposed upon them.

One very wise Justice says, "The law is absurd. Only cases of felony come before the magistrate at Police Headquarters, and these are the very cases in which bail is not likely to be offered."

Another Justice says that the execution of the law will be a boon to thieves and burglars.

Henry Beugh yesterday thrashed a brute of a policeman for beating a horse. If this was not cruelty to animals what is?

next morning the accused is arraigned; but as his victim does not appear, he is discharged.

The first case before a magistrate sitting at night, came up on Thursday evening. It was that of a man who wanted to hit a dog.

IN 33 YEARS.

French's Hotel, so well known to people of all parts of the United States, was closed yesterday. It was opened in 1849. For many years under Col. Richard French, it was one of the most popular taverns in the country, and was always the favorite stopping-place for a returned Californian.

TYPE WRITERS.

How many different kinds of the useful instrument, the "type writer", there may be, I know not; but that it is a useful instrument, and that it gives remunerative employment to a large number of intelligent women is a fact patent to all who have much to do with the press, the pulpit, the bench or the bar of New York.

NIBBLES.

The warden of the Tombs has warned the prisoners against communicating with the keepers in regard to employing counsel. It is a well known fact that every Tombs lawyer pays one-half his fee to the man who secures him a client.

The Sun announces that President Arthur "is to spend in the aggregate about 20 months this summer at the various resorts."

One of the Directors of the Brooklyn Bridge Co., told me yesterday that the bridge would be finished in November, but I forgot to ask him which November.

There is an institution on Broadway known as "the Academy for cutting." It is not a cutting school, nor dissecting room; but simply a learning school for tailors.

A new theatre, to be called the "Mount Morris" will be opened in a short time on Third Avenue near the Harlem Bridge. It will seat 1400 people.

The net funded debt of N. Y. City is \$97,503,000.

AN OPEN LETTER.

Some Outspoken Statements of Grete & Value from Parties of the Highest Standing.

When the people of America become so thoroughly aroused, and on a subject of such serious importance as the preservation of their lives and health, it is but natural that the ones who have been largely instrumental in the origin of this movement should speak frankly and directly to the people most interested.

Every careful observer who has sought to keep pace with the march of events has noted the alarming increase of certain peculiar physical troubles within the past few years. These troubles have come at unexpected moments and in a most treacherous way.

There is but one known remedy that has ever been able to cure serious kidney troubles or control these great organs when once deranged, and that is only Warner's Safe Kidney and Liver Cure. There are numerous nostrums on the market claiming to be just as efficient and some which even claim to be the same.

Our remedy is put up in dark amber glass bottles, with the Safe (our trademark) blown in the back. A private proprietary six cent internal revenue stamp is affixed to the neck and covers the top of the cork and is of a light brown color.

We are led to publish the foregoing in order that the public may know and realize just where we stand. We have always sought to keep our personality from obtruding upon the public, knowing full well that the value of our remedy was the essential thing, but the examples which which has been made of this medicine, and the volume of letters we are constantly receiving demand a personal statement from us.

Received a call from W. H. Currier and wife, of Roseburg. He is a railroad man, and of course is up and coming. Their child, a flex-headed boy is the hundredth great grandchild of a Mrs. Currier that lives in Newburyport, Mass.

fore in the history of the world. The wonderful sale which our remedies have attained is due wholly to the fact that they have cured the ones who have used them. The power and value of any remedy must rest on a basis of worth, and here is just where our Safe Kidney and Liver Cure has found its wonderful power and success.
