PORTLAND, Or., Feb. 21, 1884

DEMOCRATIC STATE CONVENTION.

The State Democratic Convention is hereby called to meet at Dalles City, on Thursday the 11th of April next, at 10 o'clock A. M., for the purpose of nominating candidates for the following offices: Judge of the Supreme Court, three Presidential Electors, Representative in the Lower house of Congress and District Officers for the several judicial districts and to select six delegates to the National Democratic State Convention, and generally to do such other business as may of right come before such Convention. The Convention will be composed of the following delegates:

Baker	4	Lake and Kalmath	3
Benton	6	Lane	7
Clackamas	6	Linn	9
Clatsop	4	Marion	8
Columbia	2	Multnomah	13
Coos	4	Polk	5
Crook	1	Tillamook	2
Curry	2	Umatilla	9
Douglas	7	Union	6
Grant	3	Wasco and Crook	7
Jackson	6	Washington	4
Josephine	3	Yamhill	6
Kalmath	1		

The same being one for each 200 votes and fraction over 100 cast for Hon. J. S. Smith at the last general election, and one delegate at large from each county. We also recommend that the new counties of Crook and Kalmath send one delegate at large each to represent them in the Convention, and that the number of delegates allotted to the counties of Wasco and Lake, from which these counties were formed, be apportioned between the old counties and the new.

The Committee recommend that the primaries be held on April 5, and the County Convention on April 11; subject however, to the approval of the various County Committees.

The committee deem it fitting to present to the Democratic voters of the State the following considerations:

We see approaching an election of most vital import to our commonwealth in all its interests, both public and private.

Deeming honesty the best policy, and in striking contrast with the course of the opposing party, we have named an early day for the assembling of the State Convention. Our principles as a party will then be enunciated and our candidates placed in the field subject to the approval or condemnation of the body politic.

The variance in the vote of this State during the past few years, and especially the very close contest in the Presidential election of 1880, gives us much hope that, notwithstanding our present minority, with harmony in our ranks, and a well directed exertion of our strength, we shall carry off the palm of victory. But to assur this end it is imperative that all Democrats should contribute their undivided support and hearty co-operation, not only in the actual canvas, but from its very initiation—the county primaries. We do not presume to trespass upon the province of our popular Convention, but do earnestly invoke all members of our party to put aside past differences and personal antagonisms, to unite in harmonious action in the various primaries, and to send full delegations of representative men to attend the State Convention. We have deemed it fitting to reduce the number of delegates in the hope of securing the personal attendance of those to be chosen. We especially recommend the formation of local clubs, where practicable, throughout the State.

Believing that the success of the Democracy is the welfare of the people, we cordially invite all persons, regardless of past political affiliations, who favor simplicity, economy and frugality in the administration of public affairs, to unite with us.

P. H. D'ARCY, Secretary. AL. ZIEBER, Ch. D. S. C. C.

FIRE-PROOF DWELLINGS.

Practical Tests of Dolman's Fire Damper and Fire Proofing.

A crowd of over a thousand people was assembled yesterday afternoon at the corner of Adams and Franklin streets to witness a test of Mr. W. P. Dolman's "Fire Damper and Fire Proofing." The following is the request received by Mr. Dolman for an exhibit of his appliances:

"CHICAGO, March 7, 1884.—W. H. DOLMAN, Esq., P. O. Box 559, Chicago —*Dear Sir:* We, the executive committee of the Western Mutual Underwriters' association, would be pleased to have you make a test of your fire dampers and fire shutters on the afternoon of Wednesday, March 19, at Chicago, at some convenient place near the Grand Pacific hotel, as a meeting of the Western Mutual Underwriters' association is to be held at said hotel on the date named.

Yours truly,
"P. A. MONTGOMERY,
"W. E. SMITH,
"GEORGE S. ROPER,
"Executive Committee."

The invention consists of a sheet-iron ceiling and a deafening of ashes about two inches in thickness between the two floors. The test yesterday proved that these two simple substances thoroughly confined the fire to the place where it originated. The amount of fire in the building gave positive proof of the efficacy of the invention. Among the architects present was Mr. Walter Pashley, Mr. Marshall Field's architect, and the board of underwriters, that met at the Grand Pacific hotel yesterday afternoon. These gentlemen all gave their unqualified approval of the result obtained. To-day another fire test will be made at 3 P. M. on the sheet-iron ceiling. A continuous fire will be kept up to ascertain how long the ceiling will actually stand the action of the heat. Mr. Dolman's is undoubtedly the cheapest of all known methods of fire-proofing.

The Second Test.

Mr. Dolman had announced his second and crucial test in yesterday's *Times*. The test yesterday consisted of keeping up a constant fire inside the building designed for this purpose, to demonstrate how long the iron ceiling would actually stand the action of the flames. The fire was started at 3:30 P. M., and was kept up for an hour and fifty minutes before the sheet-iron showed any signs of giving way. It must not be forgotten that the ceiling had been subjected to a forty-five minutes' fire on Wednesday, which was fully reported in *The Times* yesterday. The iron used by Mr. Dolman is that known as twenty-seven gauge, weighing from ten to twelve ounces to the square foot. It was particularly remarkable that when the iron did eventually succumb to the heat it in no way "curled" or "buckled," which terms are quite understood amongst practical builders. This second test has gone far to prove what Mr. Dolman claims, and which has now been satisfactorially demonstrated, and with his method the fire can be confined to the part of the building where it originated, and by so doing prevent the destruction of the entire building. The only thing that actually suffers is the interior of the room which catches on fire.—*The Times.*

Is it not just possible that England's noise and her victories are somewhat out of proportion? Fighting infants does not require a great deal of ammunition, neither does a strong government require much strength to fight half-savage nations, but England makes as much fuss over her unequal victories as if she were really fighting somebody—she takes special care not to tackle anything of her size.—*The American Sentry.*

The following is a tribute to the memory of the father of one of our well-known and popular citizens, G. W. Harris. It is copied from a New York paper.

Stephen Harris who was stricken with paralysis on the 2d day of July and who died on the 8th was born in the town of Fitzwilliam, Cheshire Co., New Hampshire, on the 21st day of January 1810 and was consequently in the 73 year of his age at the time of his death. When about two years of age his parents removed to this State settling at Saratoga. While making the journey which was made with teams across the country his mother died. In 1826 when about 16 years old he came to Oswego county where he spent the remainder of his life. Mr. Harris was a man who never made any great noise in the world but whose influence for good was steady and unvarying He was an exemplary member of the M. E. Church for more than 40 years holding official relations with the church 35 years of this time. He was an honest man, a kind and accommodating neighbor, a good citizen, faithful and true in all things and at all times and an affectionate husband and father. He was twice married, first in 1829 and again in 1839. His last wife survives him. He leaves three children, George W. Harris now in California, Mary E. Brown, of Palermo, Rev. C. H. Harris, a member of the Northern New York M. E. Conference and now stationed at Parish. He was faithful to the things delivered to him, true to himself and to all mankind and to the right. He has gone to receive his reward.

The new time schedule over the Northern Pacific railroad will go into effect on the 6th. The time will be reduced to four days. The Atlantic express will leave (Ash street dock at 7:30 A. M.) Albina at 8:30 A. M.

When the new time schedule goes into effect over the Northen Pacific railroad next month, a change will be made in the running to Puget Sound via Kalama, leaving Portland for the North at 5 P. M., and arriving at 7:30 A. M., making close connections at Albina.

The Czar of Russia has become so impressed with the importance of railways in developing the country, that he is favorable to a project to construct a railroad to run through his empire to the Pacific ocean. The road will be 11,700 miles long, independent of feeders. The project has assumed such proportions as to make the undertaking a certainty.

The tide of immigration, long prophesied has at last set in. One night last week there arrived at Wallula junction sixteen immigrant cars containing 528 men, women and children, who expect to make their homes in the northwest. Three cars containing 180 persons switched off at the junction next day, and the following morning there arrived 200 more. These immigrants are composed chiefly of German and Swede farmers from Minnesota, Iowa, Missouri, Indiana and Illinois. They appear to be thrifty people, and have brought with them sufficient of this world's goods to enable them to make a good start.—*Commercial Herald.*

Sunday night Mrs. H. M. Riggs drove to the Mariners' Home to attend praise service of the Women's Christian Temperance Union, and left her horse and buggy hitched to a post in front of the Home. When she came out, the rig was missing, and she reported the loss to the police authorities. A few minutes later, William Owens was seen to drive by police headquarters with the equipage, and was arrested at the corner of Second and Oak by Policeman Collins. Mrs. Riggs drove home much relieved in mind, and Owens spent the night ruminating over the chances of going to the penitentiary.—*Oregonian.*

Delegate Brents of Washington Territory has appeared before both the senate and house committees on territories in advocacy of the admission of Washington Territory into the union of states on and after March 4, 1885. This, he says, will leave the electoral college undisturbed, and allow the people during the interim to form and adopt their state constitution and choose their state officers.—*Dover Enquirer.*

The Tacoma *News* is of the opinion that the re-appearance of Mr. Wright in the directory of the Northern Pacific railroad bears this interpretation: the completion of the great thoroughfare, and the practical building up of the Puget Sound region as an independent commercial community, with Tacoma as its principal seaport and center.

School directors who wish to secure thoroughly qualified and carefully trained teachers for their schools, write to President D. T. Stanley at the State Normal School, Monmouth. If they describe their school and tell the kind of teacher wanted and the wages paid, they will be referred to them at once.
