A TIMELY BOOK.

Lives of Blaine and Logan.

Announcement is made of the rapid completion of a Pictorial work comprising the lives of the Presidential Candidates on the Republican ticket, written by the veteran author, Mr. J. W. Buel, and published by N. D. Thompson & Co. St. Louis, Mo., and New York. This work is sold through agents exclusively. It is designed, not only to serve the popular taste and want in giving, exhaustively, the facts in the boyhood and manhood of the Candidates-their pri vate Lives and Public Services-but to have a more enduring interest than the ordinary Campaign book. To this end the publishers have engaged on the work a corps of skilled designers and engravers to elegantly and profusely illustrate the scenes and incidents in the lives of these eminent men, now so prominently before the people. Personal anecdotes and reminiscences will constitute a leading and certainly a most entertaining and instructive feature of this fine work

Mr. Buel has marked ability, and enjoys especial distinction as a Biographi cal writer. While exhaustive in recital of facts, his powers of analysis, and his keen insight in'o the philosophy of events and measures, give him special prominence among American writers of personal history. It is not too much to ay that he is better prepared for the work in hand than any other American author. Accredited by our government in his tour and residence in Russia and Siberia, his great work on Nihilism and Exile Life in Siberia gave him a standing in the highest literary and official circles in this country as a writer at at once conscientious, forcible and pie turesque. This has given him unsurpassed facilities for procuring all th material for the work now in hand. As a book of facinasing interest, beauty and profuseness of illustration, and of comprehensiveness of fact, it will commend itself to every voter.

To the book agent this rare combina tion of authentic history, pictorial illus tration and brilliant authorship, will at once suggest the universal demand it will create, and also the advantages in interest it has over the ordinary Campaign book, and the grand opportunity it offers for profitable agency. We advertise it in another column.

Balsam fir is scattered over the hil's and far back we have some white pine. The mineral resources are inexhaustible. Gold has been taken from some of the prominent streams; copper abounds. LOCAL NEWS

Mr. S. A. Miles gave a dinner to Mr W. B Dillard on Sunday. Mr. Dillard was to depart on Monday over the N. F R. R. te visit his old home at Scottsville, Albemarle County, Virginia. The chickens were all cooked just to a dot, and everything prepared by Mrs. Miles and her daughters, was just as good as good could be, and reminded us of oldstyle Virginia cooking. No wonder for Mrs. Miles' father is a Virginian. Our self and family were invited guests, and at no place does hospitality appear more genuine than at S. A. Miles'. A bountiful repast made still more agreeable by pleasant conversation gives wings to time. Besides these is music to increase the enjoyment, for the Miles family all have a musical talent, and S. A. Miles can play on an ordinary leaf better than any boy or man can play on a jewsharp. Just before we left for home we took the young ladies of the family with our self and daughter out for a ride to J. I. Benham's, whose grounds and premises were glowing with all the abundant prospect of a bountiful fruitage. We dare say Mr. Dillard, as well as ourselves, will long remember this farewell banquet as one of the most pleasant events of his life Mr. Dillard will be absent for month or two. He has made many warm friends during his residence here, and established a successful practice, and is noted for his courtesy and good humor. He is the possessor of a what we would call genial stoicista which makes him a universal favorite.

THE WORLD OF AGRICULTURE

The AGRICULTURAL WORLD, one of the best, if not the best, farm papers of its class, is making a great success of the Last Sunday Mr. Joseph Copeland plan inaugurated by its editor a few years ago. This plan is nothing less than the giving of exhaustive articles by the best writers on agriculture in all the countries of the world. The articles from the different States and Territories of our own country are particularly entertaining and instructive. Judge Parrish's articles on "The Fermer's relation to Law" are alone worth the price of the paper. Judge Parrish, who is one of the ablest Judges and lecturers in the West, will soon leave for the South, with the view of supplying the paper with a series of articles on the agricultural features of that section. This jourual also has a fine household department which makes it particularly attractive to lady readers.
