Chres months..... FAYABLE IN ADVANCE.

FOR THE SENATE.

Upon the next legislature of our state will devolve the duty of electing our United States Senator. For many reasons this will be for Oregon, one of its most important public events. The questions that will come before the next few sessions of congress will equal in weight and magnitude anything that has come before that body since the days of the early '60s. The election at which members of our state legislature will be chosen occurs next June and it is none too early to discuss possible and eligible candidates for national senator.

Oregon is proverbially slow to take advantage of changed condition but the recent and radical changes that have come upon us with the advent of our national development in the Pacific ocean demand that Oregon shall take a prominent stand upon the various questions that will arise in the nation's councils. Oregon must be in the front rank of Pacific coast states in all that pertains to the development of Pacific and transpacific civilization and commerce. The first and most important step looking to this end is the election of an able, vigorous man to the senate. If Oregon is to take and keep the place she is entitled to hold in the councils of the nation, and especial ly in so far as they relate to to Pacific coast matters, then she must send a strong man to the nation's council chamber. Among those who have been mentioned as possible candidates is Mr. H. W.
