VOX POPULI.

The petition of 7,000,000 citizens has been heeded by the house of representatives and the Taylor resolution for the appointment of a special committee to investigate the charges against Brigham H. Roberts, the Mormon representative from Utah, was adopted Tuesday by a vote of 302 to 30.

Of the 30 who voted against the Taylor resolution, all were democats except two-Loud, a California republican, and Newlands, a silverite from Nevada.

By the terms of the resolution Roberts is not only excluded from all participation in the proceedings of the house until the committee reports and the house passes upon his case, but he is denied a seat in the hall. Whether this will be interpreted to deny him admission within the chamber pending the disposition of his case is yet to be decided.

Polygamous cohabitation, the crime of which Roberts stands accused, and which he does not deny is the most miserable on the crimitreated so temperately his impudent port price, as they must have wheat brazenness is a tribute to its forbearance, and shows in no wise a disposition to be lenieut. There is no doubt that the investigating committee will recommend to exclude him. They will have these tities of wheat which are held over men. Pay him a visit. charges to consider: First, that he in the hope of securing better prices was indicted in February, 1887, is a problem. for unlawful cohabitation under the April 29, 1889, and was incarcerated on that account in the penitentiary for four months; second, that he has persistently from that time forward, down to a recent date, been forward, down to a recent date, down to a recent date, dow forward, down to a recent date, been guilty of the offense of unlawful cohabitation, and also he has continued from the date of his conviction and is now a polygamist.

The president's message has been spoken to the public ear, and it is unanimously endorsed as a most able and admirable state paper. It covers the field of national questions completely and clearly and forcibly considers the several policies outlined. His request for gold standard legislation rings true and clear and is heartily endorsed by republicans; his treatment of the Philippine revolt is sound and convincing, and every phase of the question of trusts is wisely and carefully considered. The delicate nature of the negotiations pending with Canada, regarding the Alaskan boundary, has been skillfully and diplomatically handled, and in little rills for constipation and all liver all matters the reasoning is sound ailments. The wheat market throughout the state is going through a period of inactivity which closely resembles stagnation.
