All the loud talk about the best place to trade

For Ribbons For Men's Furnishings Might be very confusing and misleading if the people did not have a good test to apply—and that is to judge a merchant, not by what he says in his advertisement, but by what he does in value giving. That's just the basis upon which we ask people to judge this store. We like to have our advertisements read because they are our store news, but we don't ask people to take them as proof that we give best values that proof awaits the customers at the store. Low Prices Make Easy Selling When they represent the right kind of merchandise. That's the reason this store continues to show such a surprising growth. We distribute more dry goods than many of the leading merchants in towns twice the size of Corvallis. This shows that we not only supply the dry goods needs of the majority of our townspeople, but draw trade from a large territory roundabout. These are the goods and prices that attract trade: Dress Goods and Silks Black Crepon Fancy mixed suitings Black & colored camel hair Black & colored cashmere Black and Colored all wool serge Black and Colored all wool henriettes (s f) Our black and colored silks department is complete in every detail. Every new and desirable color can be found on our counters.
